9 FOR THE COUNTY OF SAN BERNARDINO

10 CHINO BASIN MUNICIPAL WATER  
11 DISTRICT,

12  
13 Plaintiff,

14 v.

15 CITY OF CHINO, et al.,

16 Defendant.

**Case No. RCV RS51010**

[Assigned for All Purposes to the Honorable  
Gilbert G. Ochoa]

**DECLARATION OF BRADLEY J.  
HERREMA IN SUPPORT OF CHINO  
BASIN WATERMASTER MOTION FOR  
COURT TO RECEIVE AND FILE 47TH  
ANNUAL REPORT**

*[Filed concurrently herewith: Notice of Motion  
and Motion; [Proposed] Order]*

Date: April 4, 2025  
Time: 10:00 a.m.  
Dept.: R17

**BROWNSTEIN HYATT FARBER SCHRECK, LLP**  
1021 Anacapa Street, 2nd Floor  
Santa Barbara, CA 93101-2102

1 I, Bradley J. Herrema, declare as follows:

2 1. I am an attorney duly admitted to practice before all of the courts of this State, and  
3 am a shareholder in the law firm of Brownstein Hyatt Farber Schreck, LLP, counsel of record for  
4 Chino Basin Watermaster (“Watermaster”). I have personal knowledge of the facts stated in this  
5 declaration, except where stated on information and belief, and, if called as a witness, I could and  
6 would competently testify to them under oath. I make this declaration in support of the above-  
7 referenced request.

8 2. As legal counsel for Watermaster, I am familiar with Watermaster’s practices and  
9 procedures, as well as actions taken by the Pool Committees, Advisory Committee, and  
10 Watermaster Board.

11 3. During their respective January 9, 2025 regular meetings, the Chino Basin  
12 Watermaster Fiscal Year 2023-24 47th Annual Report ("Report") was presented to the Overlying  
13 (Non-Agricultural) Pool, the Overlying (Agricultural) Pool, and Appropriative Pool Committees  
14 for their review and advice and assistance. At its meeting, the Overlying (Agricultural) Pool  
15 Committee unanimously recommended that the Advisory Committee recommend to the  
16 Watermaster Board to adopt the Report. At its meeting, the Overlying (Non-Agricultural) Pool  
17 Committee unanimously recommended that the Advisory Committee recommend to the  
18 Watermaster Board to adopt the Report, subject to changes they deem appropriate. At its meeting,  
19 the Appropriative Pool Committee took no formal action.

20 4. At its January 16, 2025 regular meeting, the Advisory Committee unanimously  
21 recommended that the Watermaster Board adopt the Report.

22 5. At its January 23, 2025 regular meeting, the Watermaster Board adopted, by  
23 unanimous vote, the Report subject to non-substantive changes by staff, and directed its filing  
24 with this Court. Attached hereto as **Exhibit A** is a true and correct copy of the Report.

25 6. I am unaware that any party has any objection to the Court’s granting of  
26 Watermaster’s Motion or any of the requests therein.

# Exhibit A

CHINO BASIN WATERMASTER

# 47<sup>TH</sup> ANNUAL REPORT

FISCAL YEAR 2023-24

SUPPORTING MORE THAN FOUR DECADES OF  
PARTNERSHIPS AND SOLUTIONS FOR A SUSTAINABLE FUTURE

# PROACTIVE WATER MANAGEMENT IS ENSURING SUSTAINABLE WATER SUPPLIES AND QUALITY

## DESPITE THE DRIEST 20-YEAR PERIOD IN HISTORY, FOLLOWED BY TWO EXCEPTIONALLY WET YEARS, THE GROUNDWATER BASIN REMAINS BALANCED

The driest 24-year period on record since 1896 occurred between 1999 and 2022. Immediately after, in fiscal years 2023 and 2024, the Basin experienced one of the wettest two-year periods ever recorded.

**In addition to unpredictable swings in rainfall and drought, the valley is warming.** Since 1954, winter temperatures have increased by about five degrees in the region. This temperature increase is leading to reduced snowmelt from the watershed and increased evapotranspiration, resulting in lower recharge in the Basin.

Exceptional groundwater management by Watermaster and its many partners has kept water supply and demand in balance during this period of change and uncertainty, ensuring that the Basin can continue to fulfill regional quality and supply needs for people, businesses, and agriculture.

## SINCE 1978, OVER 1.1 MILLION ACRE-FEET OF IMPORTED WATER, STORMWATER, AND RECYCLED WATER HAVE BEEN RECHARGED INTO THE BASIN.

*The population nearly quadrupled from 1978 to 2024, but groundwater use decreased due to a large diversity of other water supplies in the Basin and increased water use efficiency. During those same years, Watermaster, IEUA, and partners recharged over 1 million acre-feet (AF) of imported, storm, and recycled water into the ground—equal to over seven years of groundwater use.*

Water Recharged into Basin 1978 to 2024

# A MESSAGE FROM CHINO BASIN WATERMASTER

As I write my first Annual Report introduction as the new Watermaster General Manager, I am mindful of the exceptional work accomplished by my predecessors and the Parties. 2024 was a year of transition, including the assignment of the Chino Basin Judgment to the Honorable Gilbert Ochoa. Even during a transition, collaboration is our single most important tool—the one that ties the rest together. I commit to working with all Parties in the coming years on the important challenges impacting the Chino Basin.

**We must be prepared for more rapid swings in our future.** This year, Watermaster experienced remarkable circumstances as the Basin emerged from a two-decade drought into the wettest two-year period in the region's history. As our climate changes, we can expect increasing variability and warmer temperatures. We may see more frequent and intense droughts, and more extreme events like Hurricane Hilary's remnants in August 2023, which dropped over 11 inches of rain in one day in the nearby San Bernardino Mountains.

**Watermaster's many programs are up to the challenge of sustainably managing the Basin's extraordinary conditions.** One notable accomplishment this year was certification of the Environmental Impact Report (EIR) for the 2020 update of the Optimum Basin Management Program (OBMP)—the highest-level guide to Watermaster actions. With the EIR certification in hand, we can begin a process for implementing the updated Program. We continue the Annual Data Collection and Evaluation effort, which is one of our strongest adaptive management tools. This advanced monitoring program allows us to more rapidly evaluate and respond to changing conditions that impact the water supply.

**Long-range planning and adaptive management are among our strongest tools for consistent, proactive Basin management.** But nothing in our extensive water management toolbox would work without collaboration among and support from the Parties.

**The Watermaster Board is committed to supporting a robust stakeholder process** and to ensuring clear communication to Watermaster staff to carry out the duties of administering the Chino Basin Judgment and subsequent court orders.

**Todd M. Corbin**

**General Manager, Chino Basin Watermaster**

---

***WATERMASTER, THE PARTIES, AND STAKEHOLDERS ARE COLLABORATIVELY ADDRESSING CLIMATE VARIABILITY THROUGH THE USE OF ADVANCED SCIENTIFIC TOOLS TO ENSURE BASIN SUSTAINABILITY AND EFFECTIVE JUDGMENT ADMINISTRATION.***

---

PARTNERS IN BASIN MANAGEMENT

# ADAPTIVE MANAGEMENT IN THE FACE OF CHANGING CONDITIONS

## ANNUAL DATA COLLECTION AND EVALUATION FOR ADAPTIVE, UP-TO-DATE ANALYSIS

Three years ago, Watermaster implemented a more advanced adaptive management approach to improve the timeliness of its data and analysis. In addition to periodically recalculating the Safe Yield, Watermaster now collects data annually to determine how actual data and revised projections match the data used in the most recent Safe Yield Recalculation.

### FASTER DATA-DRIVEN AND SCIENCE-BASED DECISION-MAKING IS IMPROVING WATER MANAGEMENT

Project the Safe Yield     $\implies$     Collect data to compare with the projection     $\implies$     Adapt as needed

Although Watermaster has been collecting data annually for three years, this is the first year that the data will be used to adjust the model parameters using the 2022 Safe Yield Reset methodology.

**Current data highlight the significant role of outdoor water use in groundwater recharge.** During droughts and heavy rainfall, people irrigate lawns and farms less. As a result, less irrigation water seeps into the groundwater basin, reducing recharge. The drought in 2020–2022 and the record wet year of 2023 resulted in less outdoor irrigation than anticipated, which affected recharge amounts.

**Modernized data collection supports an adaptive management approach.** More frequent data collection leads to more proactive and effective management of the groundwater basin, benefiting all stakeholders. These new techniques for data collection also made it easier and less expensive to update the process and models and implement the new 2022 Safe Yield Reset methodology as required by the 2017 Court Order.

**The third annual data evaluation report was released in June 2024.** In fiscal year 2023–24, Watermaster is completing its third Annual Data Collection and Evaluation process as required by the 2017 Court Order. Stakeholders received a draft report summarizing those data in June 2024. Watermaster will address feedback and finalize the report next year.

---

**WATERMASTER AND THE PARTIES ARE RECEIVING MORE TIMELY INFORMATION THROUGH ANNUAL DATA COLLECTION, ENSURING THAT WE ARE PROTECTING THE BASIN AND HELPING IDENTIFY STEPS TO IMPROVE THE HEALTH OF THE BASIN.**

---

## 2025 SAFE YIELD REEVALUATION IS UNDERWAY

*An accurate Safe Yield calculation is necessary for Watermaster to fulfill many of its obligations.*

### **New, more responsive recalculation process improves accounting for model and forecasting uncertainty.**

Beginning in 2000, Watermaster was required to reset the Safe Yield every 10 years, with resets completed for 2011–2020 and 2021–2030. A 2017 Court Order mandated that Watermaster reevaluate the current Safe Yield (2021–2030) in 2025. That order also allowed Watermaster to update the methodology to calculate the Safe Yield. The updated methodology, finalized in 2022, incorporates feedback from the Parties and advancements in hydrologic science and best practices. Notably, it more clearly accounts for the inherent uncertainties in Safe Yield calculations.

**The 2025 Safe Yield Reevaluation is in progress and will be completed by June 2025, in accordance with the 2017 Court Order.** The groundwater flow model was updated this year to reflect the latest hydrogeologic and monitoring information. Using these updates, the model is being recalibrated to quantify the uncertainty of future conditions, improving its reliability.

Watermaster is also working with the Parties to develop scenarios that cover the range of possible future behaviors. This will improve Watermaster’s and the Parties’ understanding of how collective behaviors such as responses to water conservation regulations shape conditions in the Chino Basin.

### **EXTENSIVE STAKEHOLDER REVIEW OF SAFE YIELD REEVALUATION**

Stakeholder input is a crucial element of all ongoing tasks that shape the reevaluation, including model calibration, workshops, and scenario development. These tasks are supported by extensive peer review and input from the stakeholders.

---

**OPERATING SAFE YIELD IS THE ANNUAL AMOUNT OF GROUNDWATER THAT CAN BE PRODUCED FROM THE CHINO BASIN BY APPROPRIATIVE POOL PARTIES FREE OF REPLENISHMENT OBLIGATIONS UNDER THE PHYSICAL SOLUTION.**

---

### **PREPARING FOR POSSIBLE CHANGES TO PEACE AGREEMENT**

The Parties to the Peace Agreement agreed to meet and confer during the 25th year of the Agreement to discuss any new or modified terms that any Party might require in order to continue the term of the Agreement. Watermaster reminded the Parties that the timeframe for these discussions is prior to December 31, 2025. The Overlying Agricultural Pool or the Appropriative Pool can unilaterally extend the Agreement for an additional 30 years under the existing conditions.

# COMPREHENSIVE MONITORING SUPPORTS BASIN MANAGEMENT

*Watermaster's extensive monitoring program is essential for managing the Basin.*

## MONITORING SUPPORTS ALL WATERMASTER PROGRAMS

### CHINO BASIN MONITORING PROGRAM SUPPORTS ADAPTIVE MANAGEMENT

Watermaster's extensive monitoring program provides crucial data for effective Basin management. It is refined over time to meet evolving needs and regulatory requirements.

**Collaboration Across Regions.** Watermaster collaborates with various state and regional agencies, using monitoring data to protect stakeholder interests and enhance watershed health.

#### 18 LOCATIONS

for Surface Water Monitoring

#### 1,200 WELLS

for Groundwater Level Monitoring

#### 180 SITES

for Ground-Level Monitoring

#### 1,000 WELLS

for Groundwater Quality Monitoring

#### 250 SAMPLES

for Groundwater Recharge Monitoring

#### 40+ YEARS

of Vegetation Monitoring Data

### CENTRALIZED DATA MANAGEMENT IMPROVES ACCESS AND ACCURACY

Monitoring is performed by Basin pumpers, Watermaster staff, and other entities. All data are checked for accuracy and uploaded into a centralized database management system called HydroDaVE that makes it accessible to any interested stakeholders.

### ACTION TO IMPROVE ACCURACY OF METER READS

**Updated meters will ensure more accurate, reliable meter reads for Agricultural Pool wells.** Watermaster has a responsibility to meter and monitor Agricultural Pool wells to help accurately assess production in the Basin. This year, Watermaster retained a contractor to recalibrate and replace meters, some of which are over 20 years old, to improve the accuracy and reliability of meter reads.

### GROUND-LEVEL MONITORING PROGRAM SHOWS IMPROVEMENT IN MITIGATING SUBSIDENCE

*Under the direction of the Ground-Level Monitoring Committee, which is open to all stakeholders, Watermaster undertook extensive ground-level monitoring activities to manage ground-level subsidence as required by the Court-ordered implementation of the MZ-1 Subsidence Management Plan.*

### KEY FINDINGS FROM THE ANNUAL REPORT OF THE GROUND-LEVEL MONITORING PROGRAM

- 1. In the MZ-1 Managed Area, hydraulic heads within the shallow and deep aquifer systems are at or near their highest measured levels.** "Hydraulic head" measures the potential energy in a body of water—essentially, how much "push" the water contains. The higher levels in MZ-1 are a result of decreased pumping, largely because localized contaminants limit potable uses of groundwater in this area.
- 2. Long-term trends in land subsidence have slowed across most of the other areas of subsidence concern.** This change is primarily due to decreased pumping and increased artificial recharge from the Dry Year Yield (DYY) program. The hydraulic heads in some of these areas may be nearing threshold levels that, if achieved and maintained, could reduce future permanent land subsidence.
- 3. InSAR satellite data has become a reliable method for monitoring vertical ground motion across the Basin.**
- 4. The Whispering Lakes Subsidence Feature aligns closely with the Whispering Lakes Golf Course,** likely due to shallow soil consolidation and not related to general groundwater levels in the region.

## SUPPORTING A HEALTHY PRADO BASIN HABITAT

### QUALITY OF THE PRADO BASIN RIPARIAN HABITAT REMAINED STABLE OR INCREASED

**Watermaster helps monitor the health of the largest riparian forest in Southern California.** The goal of the monitoring program and any mitigation measures is to ensure that implementing the Peace II Agreement does not cause adverse impacts to the forest and its habitat.

**The habitat is stable or has increased in size, and no mitigation measures are recommended this year.** The Prado Basin Habitat Sustainability Program is a joint effort of Watermaster and Inland Empire Utilities Agency (IEUA) in coordination with Orange County Water District. In addition to annual reporting, the monitoring program includes:

<b>Engagement of an Oversight Committee</b>	<b>Riparian Vegetation Monitoring</b> from satellites
<b>Climatic Data Monitoring</b> to evaluate rainfall and temperature	<b>Surface Water Monitoring</b> for quality, levels, temperature, conductivity, and more
<b>Groundwater Level Monitoring</b> at 18 wells	<b>Collection of data and information</b> on other factors that can impact habitat

# IMPROVING RECHARGE CAPACITY THROUGHOUT THE BASIN

*Watermaster is finalizing its long-term 2013 Recharge Master Plan Update (RMPU) and evaluating additional grant-funded recharge opportunities.*

## RECHARGE INVESTIGATION AND PROJECTS COMMITTEE IS ADVANCING RECHARGE PROJECTS

**The Recharge Investigation and Projects Committee met four times** this year to discuss progress on the 2013 RMPU projects and other recharge-related initiatives.

### BOARD LAYS GROUNDWORK TO SOLICIT GRANT FUNDING

Over the years, Watermaster has tabled many potential recharge projects for economic reasons. In 2022, in light of hydrology changes and new grant opportunities, the Board asked Watermaster to identify proposals worth revisiting. This year, Watermaster presented, and the Parties and Board approved, 12 projects for reanalysis and progress updates.

### BUILD OUT OF THE 2013 RMPU CONTINUES

Construction continued on the Wineville/Jurupa/RP3 and Lower Day projects this year. The Lower Day project is mostly complete, pending a checklist and final systems test.

IEUA finalized a regulatory agreement with the California Department of Fish & Wildlife concerning the Montclair Basins project. These discussions delayed bidding and construction for the Montclair Basins project. The expected completion date for the project has been pushed to fall 2024 or 2025.

### CRITICAL DILUTION REQUIREMENT PROJECTED TO BE MET THROUGH 2031

In the 2009–10 fiscal year, Watermaster and IEUA received updated permits to allow greater recharge of recycled water. IEUA reported this year that it expects to meet dilution requirements until 2032, even without imported water. As a result, Watermaster and IEUA can recharge more recycled water without needing as much imported water or stormwater for dilution.

### BALANCE OF RECHARGE AND DISCHARGE IN MZ-1

Through June 2024, approximately 156,000 acre-feet of supplemental water has been recharged to mitigate land subsidence in MZ-1—about 45,000 acre-feet more than required under the Peace II Agreement. This year, about 29,000 acre-feet of supplemental water were recharged into MZ-1.

*The State Water Project canal, a major conduit for imported water for the Basin.*

## **DRY YEAR YIELD INCREASE SUPPORTS A HEALTHIER BASIN**

The DYY program is the only Storage and Recovery Program in the Chino Basin. A collaboration between Watermaster, IEUA, Metropolitan Water District of Southern California (MWD), and Three Valleys Municipal Water District, the DYY allows MWD to store up to 100,000 acre-feet of water in the Basin. Storing imported water improves overall Basin water quality, helps address possible subsidence, and increases the overall water supply.

---

***THIS YEAR, THE 25,000 ACRE-FEET PER YEAR MAXIMUM FOR THE DYY PROGRAM WAS INCREASED TO ACCOMMODATE THE LARGE AMOUNTS OF IMPORTED WATER AVAILABLE AFTER THE RECORD WET YEAR IN 2023.***

---

## **MASTER PLAN WILL STREAMLINE STORAGE AND RECOVERY**

Recognizing the lack of comprehensive guidelines to facilitate storage and recovery programs in the Basin, the Parties to the OBMP proposed developing a Storage and Recovery Master Plan (SRMP).

**An SRMP Committee is collecting input and laying groundwork for the plan.** The recently established SRMP Committee held a kick-off meeting in November 2023 to define objectives and scope and gather stakeholder input.

Streamlined storage and recovery in the Basin will yield broad mutual benefits:

- Increase water supply reliability
- Improve water quality
- Protect or enhance Safe Yield
- Reduce stakeholder costs

The SRMP will make it easier for local or outside agencies to develop and implement storage and recovery and for Watermaster to review and approve those projects.

The completed SRMP is expected in 2025 and will integrate with ongoing planning and studies in the Chino Basin, including the 2025 Safe Yield Reevaluation.

---

***STORAGE AND RECOVERY PROGRAMS ARE FORMAL AGREEMENTS ALLOWING THE STORAGE OF SUPPLEMENTAL WATER IN THE BASIN FOR FUTURE USE, SUBJECT TO WATERMASTER'S DIRECTION AND CONTROL.***

---

# COLLABORATION FOR SUSTAINABLE AND QUALITY WATER SUPPLY

## COMMITTEE TAKES PROACTIVE STEPS ON WATER QUALITY

*Guided by the 2020 OBMP Update, Watermaster is developing and implementing a proactive groundwater quality management program that will help the Parties understand how new drinking water regulations could affect water management in Chino Basin.*

### WATER QUALITY COMMITTEE CONVENED

*The Water Quality Committee (WQC), which had been dormant since 2010, was convened this fiscal year to oversee the development of a Water Quality Monitoring Program (WQMP) and an Emerging Contaminants Monitoring Plan (ECMP).*

### COLLABORATIVE FRAMEWORK FOR ADAPTIVE QUALITY MONITORING

The committee proposed a WQMP framework, developed through a collaborative process. The framework is intended to provide a flexible approach, shaped by input from the committee, to meeting the following objectives:

- Informing stakeholders about water quality data
- Educating on future water quality regulations
- Implementing an ECMP
- Tracking grant funding and loan opportunities
- Identifying multi-agency/multi-benefit projects
- Better identifying how responses to water quality regulations could impact the Basin
- Conducting activities of interest to stakeholders
- Establishing annual work scopes and budgets

**The WQMP is designed to be adaptive**, allowing it to evolve with changing water quality issues and opportunities. Collaboration improves the chances of securing funding for investigations and treatment facility projects.

### NEW MONITORING PROGRAM SUPPORTS A PROACTIVE APPROACH TO REGULATION

This year Watermaster developed the ECMP, with advice from the WQC, to proactively monitor and assess water quality in the Basin for contaminants of emerging regulatory concern. The goal is to stay ahead of the regulatory process and support more cost-effective compliance by 1) identifying and quantifying emerging contaminants in groundwater and other water supplies, and 2) better understanding how changes in drinking water regulations could affect Basin management before such regulations are enacted. The monitoring recommended in the ECMP will be done over the next fiscal year.

## WATERMASTER MONITORS EXTENT OF PLUMES

Watermaster regularly delineates the extent of several volatile organic compound (VOC) plumes. These plumes include the South Archibald, Chino Airport, California Institution for Men, General Electric (GE) Test Cell, GE Flatiron, Milliken Landfill, and Stringfellow Plumes.

## CONTINUED IMPLEMENTATION AND REFINEMENT OF MAXIMUM BENEFIT SALT AND NUTRIENT MANAGEMENT PLAN (SNMP)

### SNMP PROVIDES EXTENSIVE BENEFITS TO THE BASIN AND STAKEHOLDERS

The Chino Basin Desalter Well Field (Desalters) maintains Hydraulic Control. Diminished agricultural pumping in the southern portion of the Basin previously allowed contaminated groundwater to flow into the Santa Ana River. The Chino Basin Desalters pump out and treat this groundwater, lowering groundwater levels in the area and stopping this outflow. This is Hydraulic Control.

### THE CHINO BASIN DESALTERS MAINTAIN HYDRAULIC CONTROL AND PROVIDE MANY BENEFITS

<b>Protecting Santa Ana River Water Quality</b>	<b>Enabling Large-Scale Reuse and Recharge of Recycled Water</b>	<b>Improving Water Quality and Enhancing Water Supplies</b>	<b>Maintaining and Enhancing Safe Yield</b>
---	--	---	---

### THIS YEAR'S HYDRAULIC CONTROL ACTIONS

Watermaster and IEUA collaborated with the Santa Ana Regional Water Quality Control Board (Santa Ana Water Board) to finalize the Updated Plan for Mitigation of Temporary Loss of Hydraulic Control in the Chino Basin. This plan demonstrated that it would take up to 12 months of no desalter pumping to begin losing Hydraulic Control, and if there were no pumping for 36 months the projected impact would be minimal. This means that Hydraulic Control is stable and there is time to act if a hypothetical emergency were to halt desalter pumping.

Additionally, Watermaster and IEUA continued to support the Santa Ana Water Board staff on the Basin Plan amendment to update the commitments and requirements for the Maximum Benefit SNMP.

# ENGAGING, ADVISING, AND SUPPORTING OUR STAKEHOLDERS

## CHINO BASIN DAY SUPPORTS COLLABORATIVE BASIN MANAGEMENT AND REGULATION

IEUA hosted “Chino Basin Day” at their headquarters this year. This annual meeting provides a venue for the Santa Ana Water Board, IEUA, the Chino Desalter Authority (CDA), and Watermaster to share information on water management and regulations in the Basin and discuss ways to collaborate effectively. Watermaster, CDA, and IEUA made presentations and led discussions on water quality projects and programs, Maximum Benefit SNMP updates, and the new Chino Creek monitoring plan. Participants also toured the IEUA water quality laboratory.

## WATERMASTER ACADEMY EMPOWERS THE PARTIES

The Chino Basin Watermaster Academy, launched in 2023, supports the Parties with informative, open-ended workshops before each monthly Board meeting. The Academy is designed to help directors and Parties better understand the issues, agreements, and solutions that inform Basin management work. The sessions are casual and cover topics ranging from the historical context of the Basin—such as the 1978 Judgment and the OBMP—to current activities, to practical tools like Robert’s Rules of Order. Feedback has been positive, with one director describing the Academy as “exceptionally valuable.... It makes me a better director.” Watermaster Academy is open to all Basin stakeholders.

## TRACING THE FLOW OF WATER THROUGH THE BASIN WITH THE BOARD AND THE JUDGE OVERSEEING THE JUDGMENT

**Judge Ochoa tours the Basin.** In June 2022, Judge Ochoa was appointed to oversee the Judgment that governs the Basin. In September 2023, Watermaster staff took the judge on a daylong tour following the flow of water from the mountains to the Prado Basin, to familiarize him with the Basin and its water facilities.

**In June 2024, the Board reprised this tour.** In 2024, interested Board members were given the opportunity to go on the same tour the judge took. Thirteen Board members and staff participated in order to better understand water management in the Basin.

BOARD TOUR - THE CHINO II DESALTER

BOARD TOUR - AGUA DE LEJOS TREATMENT PLANT

BOARD TOUR - RESERVOIR LOCATED IN THE ETIWANDA PRESERVE

## STUDY DEMONSTRATES RESPONSIBLE USE OF STAKEHOLDER FUNDING

Watermaster engages specialized engineering consultants to fulfill its commitments to the Court and regulatory bodies. To ensure responsible use of stakeholder resources, Watermaster commissioned a rate and value study from a leading business performance advisory firm. The study found that the consultants' rates are competitive and that their experience and accumulated knowledge provide close to \$4 million in value.

## WATERMASTER BOARD RECOMMENDED FOR REAPPOINTMENT

In accordance with the 1998 Court Order, the Advisory Committee is responsible for recommending the appointment and reappointment of the Watermaster Board to the Court. In November 2023, as the 2019-2024 term was nearing its end, the Advisory Committee approved a five-year reappointment for 2024-2029, which the Court approved.

## WATERMASTER PARTNERS TO COST-EFFECTIVELY PROTECT CHINO CREEK REACH 1B

**In 2023, Chino Creek Reach 1B, which receives recycled water from IEUA, was initially recommended for the State's "impaired" list** in the draft Integrated Report prepared by the State Board in collaboration with the State's Regional Boards. If enacted, this classification could have led to stricter regulations and intensive water quality improvement requirements that would impact recycled water discharge permits for IEUA and compliance for the IEUA and Watermaster's recycled water recharge program.

**IEUA and Watermaster worked with the Santa Ana Water Board to support a cost-effective approach to protect water quality in Chino Creek.** Without more data, the State could have listed Chino Creek Reach 1B as impaired and required a costly and intensive total maximum daily load (TMDL) program. To address this, the Santa Ana Water Board suggested developing a monitoring program to collect data to better understand water quality along Chino Creek, reducing the risk of a future "impaired" listing caused by limited data. The State's final Integrated Report in January 2024 recategorized Chino Creek Reach 1B as needing more data, and the limited data available indicate that the site may be impaired. IEUA and Watermaster presented a draft monitoring plan to the Santa Ana Water Board in June 2024, and monitoring will begin in the 2024-25 fiscal year.

## RESOLUTIONS FISCAL YEAR 2023-2024

Resolution	Adopted	Summary of Resolution
2024-02	March 28, 2024	<p><i>Resolution for Paying and Reporting the Value of Employer Paid Member Contribution</i></p> <ul style="list-style-type: none"> <li>• Watermaster elects to pay and report the value of Employer Paid Member Contributions (EPMC) on the following conditions:               <ul style="list-style-type: none"> <li>○ This benefit shall apply to all employees of Exempt Classic - Executive Management employees.</li> <li>○ This benefit shall consist of paying 8% of the normal contributions as EPMC, and reporting the same percent (value) of compensation earnable** (excluding Government Code Section 20636(c)(4)) as additional compensation.</li> <li>○ The effective date of this Resolution shall be April 15, 2024.</li> </ul> </li> </ul>
2024-01	January 25, 2024	<p><i>Establishing A Watermaster Investment Policy</i></p> <ul style="list-style-type: none"> <li>• The Chino Basin Watermaster 2024 Investment Policy is adopted.</li> <li>• The authority to invest and reinvest funds of Watermaster is hereby delegated to the Watermaster General Manager (and his/her designees) subject to the provisions of said Investment Policy and the ongoing review and control of Watermaster and the Watermaster Advisory Committee.</li> <li>• This resolution shall take effect from and after its date of adoption and Resolution 2023-01 is rescinded in its entirety.</li> </ul>
2023-07	November 16, 2023	<p><i>Levying Administrative, Replenishment, and Special Project Assessments for Fiscal Year 2023-2024</i></p> <ul style="list-style-type: none"> <li>• The Chino Basin Watermaster levies the respective assessments for each pool effective November 16, 2023 as shown on Exhibit "A".</li> <li>• Pursuant to the Judgment, each party has thirty (30) days from the date of invoice to remit the amount of payment for assessments due. After that date, interest will accrue on that portion which was due as provided for in Section 55 (c) of the Restated Judgment.</li> </ul>
2023-06	September 28, 2023	<p><i>Regarding The Adoption Of The 2023 Recharge Master Plan Update</i></p> <ul style="list-style-type: none"> <li>• The 2023 RMPU is based on sound technical analysis and adequately updates the 2018 RMPU in light of changed economic, legislative, and hydrologic conditions within the State of California and in satisfaction of the Peace II Agreement and the Court's Orders.</li> <li>• Based upon the 2023 RMPU, there exists sufficient recharge capacity to meet future replenishment obligations identified in the 2023 RMPU through 2045. If Basin Re-Operation were terminated prior to 2030, Watermaster would be able to increase its replenishment activity in order to maintain hydrologic balance within the Basin, in compliance with the Recharge Master Plan.</li> <li>• Watermaster adopts the 2023 RMPU as the guidance document for the further development of the recharge facilities within the Basin.</li> <li>• Pursuant to the Peace II Agreement Section 8.1, Watermaster and IEUA will update the Recharge Master Plan not less frequently than once every five years. The Plan will next be updated no later than 2028.</li> </ul>

---

2023-05

August 24, 2023

*Authorizing Investment of Monies in the Local Agency Investment Fund*

- The Board of Directors does hereby authorize the deposit and withdrawal of Chino Basin Watermaster monies in the Local Agency Investment Fund in the State Treasury in accordance with the provisions of Section 16429.1 of the Government Code for the purpose of investment as stated therein, and verification by the State Treasurer's Office of all banking information provided in that record.
  - The following Chino Basin Watermaster officers and designated employees or their successors in office/position shall be authorized to order the deposit or withdrawal of monies in the Local Agency Investment Fund.
    - James Curatalo, Board Chair
    - Jefferey Pierson, Board Vice-Chair
    - Bob Kuhn, Board Secretary/Treasurer
    - Peter Kavounas, General Manager
    - Anna Nelson, Director of Administration

<sup>1</sup> A detailed history of the transactions/assignments that led to the current allocation of Appropriative Rights under the Judgment is contained in the History of Appropriative Rights at the following link: [www.cbwm.org/docs/legaldocs/HistoryofAppropriativeRights.pdf](http://www.cbwm.org/docs/legaldocs/HistoryofAppropriativeRights.pdf)

<sup>2</sup> The joint listing of parties separated by a “/” does not indicate any joint interest in the right indicated but indicates that these parties each have succeeded to a portion of the original right decreed in the 1978 Judgment. For additional information, see the History of Appropriative Rights.

<sup>3</sup> The amounts shown in this column are reflective of the original shares in the Operating Safe Yield (OSY) that was apportioned under the 1978 Judgment and do not include the 5,000 acre-foot decrease in OSY that occurred in FY 2017-18 after the exhaustion of the 200,000 AF controlled overdraft. For information as to each Party’s current rights in OSY, see Appendix E-1 Appropriative Rights.

**NON-AGRICULTURAL RIGHTS  
(AS SHOWN ON EXHIBIT D OF JUDGMENT ENTERED JANUARY 27, 1978)**

<sup>1</sup> Source: Watermaster Annual Reports and Assessment Packages.

<sup>2</sup> Fiscal year 83-84 was the first-year that reallocation occurred under the Judgment.

<sup>3</sup> During fiscal year 87-88 the Appropriators agree to pay Ag Pool assessments and the reallocation procedure changed by agreement. Effective FY 88-89, the Ag Pool's unused water rights from the prior year are made available for reallocation to the Appropriative Pool in the following year (i.e. 82,800 AF less the total assessable production).

<sup>4</sup> During fiscal year 99-00 the Peace Agreement is signed. The Appropriators agree to pay the Ag Pool assessments for the life of the Peace Agreement and the reallocation procedure is changed by agreement. The Ag Pool's unused water rights (i.e. 82,800 AF less the total assessable production) are made available for reallocation to the Appropriative Pool in the current year.

<sup>5</sup> n/a indicates the information is not applicable for the given year.

<sup>6</sup> When land is converted from agricultural to urban uses, water rights are permanently transferred to the appropriative pool. This column represents the sum of the cumulative transfers that have resulted from land use changes over time. For example, in 85-86 land use conversions resulted in 218 acre-feet of conversions. Thus the total claims for 85-86 were 811: the sum of the conversions from prior years plus the new conversions for 85-86 (811 = 593 + 218).

<sup>7</sup> After a duplication of conversion areas was identified, Jurupa's Pre-Peace Agreement acres were adjusted to 337.6 acres and the Post-Peace Agreement acres were adjusted to 846.4 acres.

<sup>8</sup> During fiscal year 99-00 the Peace Agreement is signed and establishes that each year 32,800 acre-feet of Ag Pool rights will be pre-emptively transferred to the Appropriative Pool and the transfer will be distributed proportional to each member's share of the Operating Safe Yield.

<sup>9</sup> If the total claims to underproduced Ag Pool Safe Yield (C + D) are greater than the water rights available for reallocation (B) then the reallocation is limited to the amount of rights available. The reduction is distributed among the Parties in proportion to their share of the Operating Safe Yield.

<sup>10</sup> For production years 83-84 through 87-88, the allocation was computed in a different manner and so the generalized formula does not apply for these years.

\* Total Production adjusted from prior annual reports to include previously omitted production from wells that have become non-active over time.

<sup>1</sup> Includes 3,945 AF of mined water pumped by Edison as agent for IEUA.

<sup>2</sup> Does not include 7,674.3 AF exchanged with MWDSC.

<sup>3</sup> Does not include 6,423.6 AF exchanged with MWDSC.

<sup>4</sup> Does not include 16,377.1 AF exchanged with MWDSC.

<sup>5</sup> Does not include 14,929.1 AF exchanged with MWDSC.

<sup>6</sup> Does not include 12,202.4 AF exchanged with MWDSC.

<sup>7</sup> Does not include 13,657.3 AF exchanged with MWDSC.

<sup>8</sup> Does not include 20,194.7 AF exchanged with MWDSC.

<sup>9</sup> Does not include 4,221.9 AF exchanged with MWDSC.

<sup>10</sup> Does not include 6,167.2 AF exchanged with MWDSC.

<sup>11</sup> Does not include 4,275.4 AF exchanged with MWDSC.

<sup>12</sup> Does not include 216.5 AF exchanged with MWDSC.

<sup>13</sup> Represents total physical production by Pools, not assessed production.

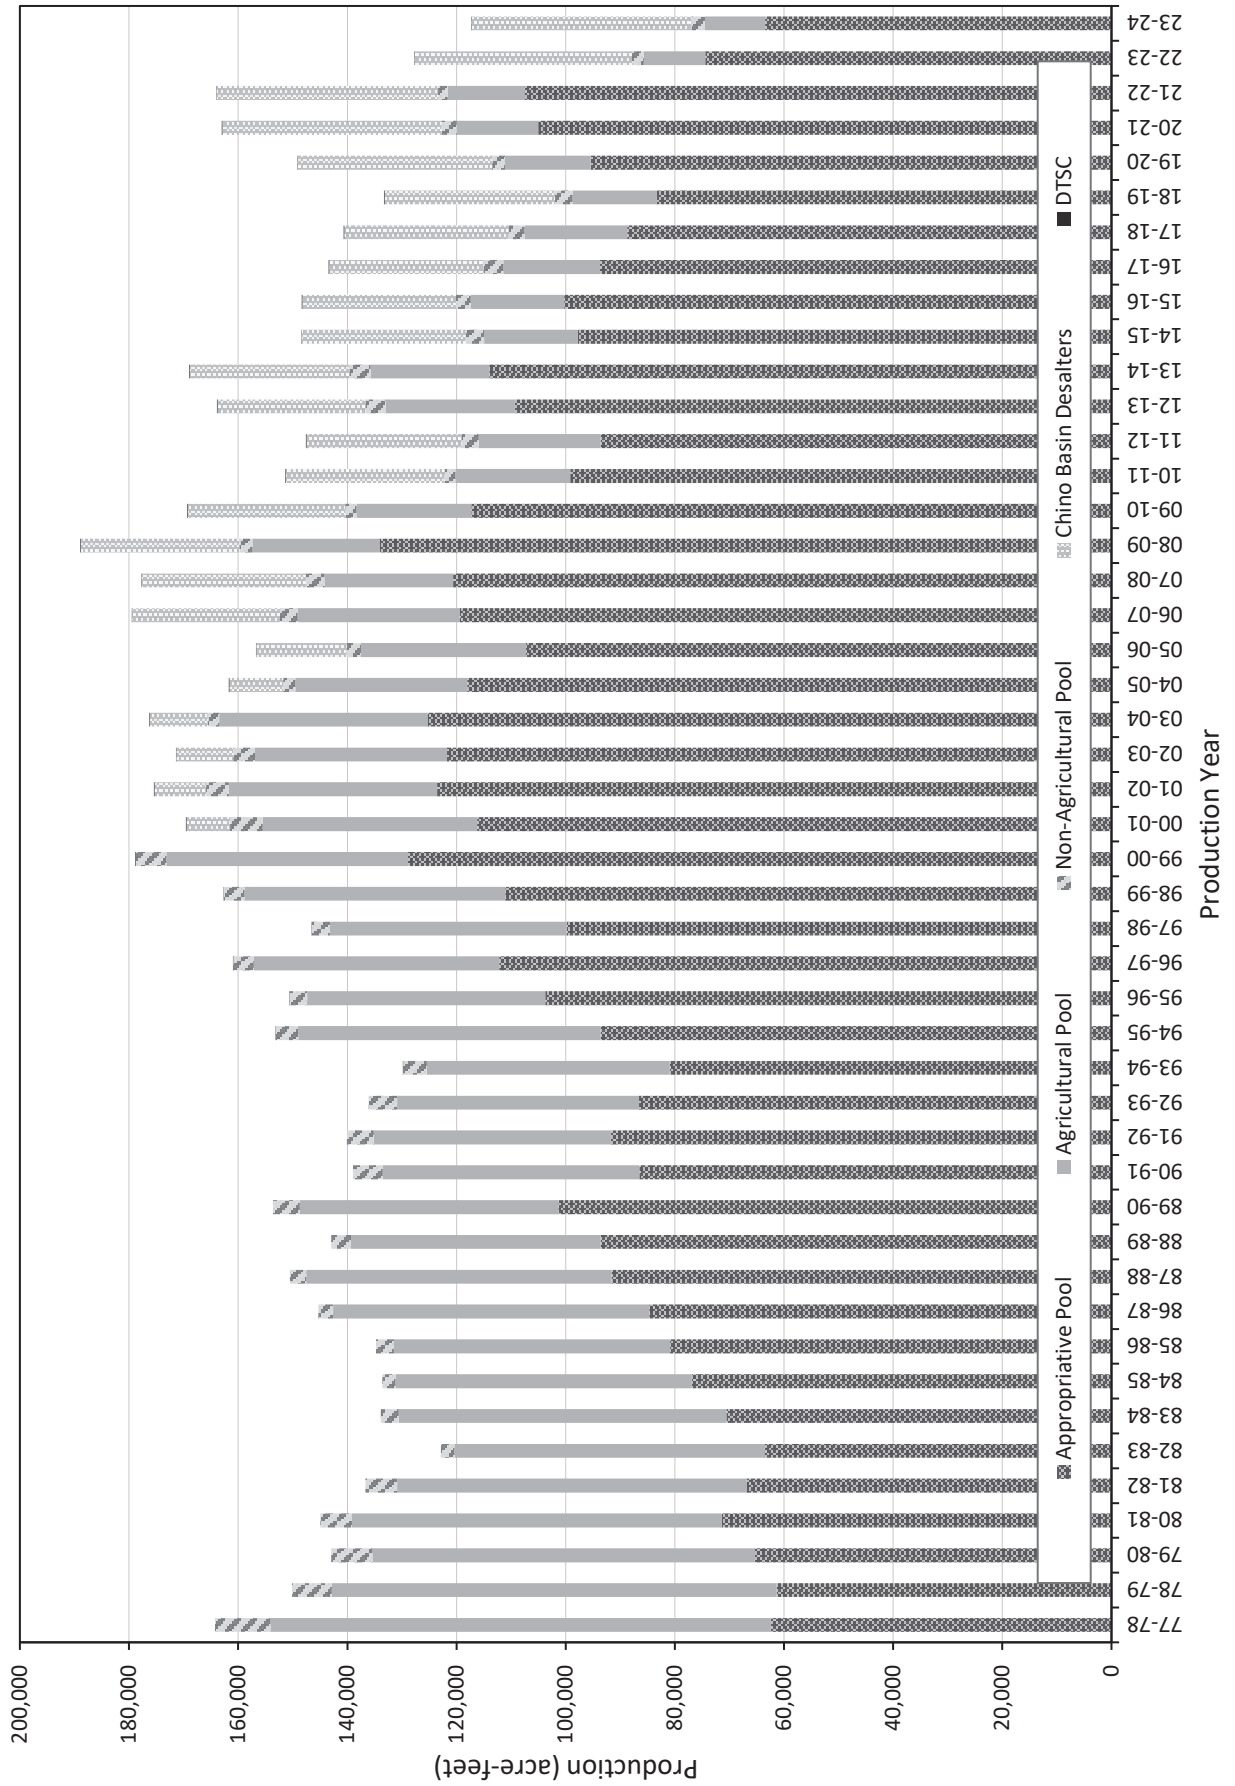

<sup>14</sup> Production by the Chino Basin Desalters is not considered assessable production; Desalter replenishment obligation accounting is shown in the Assessment Package.

<sup>15</sup> Production by DTSC is accounted separately, by agreement, such that the production is not assessed by Watermaster.

<sup>16</sup> Total reflects physical production by pumps and does not account for any adjustments or exchanges that are made in the Assessment Packages.

<sup>17</sup> Total Agricultural Pool production revised due to incorrect multiplier used on an irrigation well meter.

<sup>1</sup> The values reported herein represent the total supplemental water supply used by each Party within its entire service area. Some Parties have service area boundaries which extend outside the adjudicated Chino Basin boundary.

<sup>2</sup> Recycled water is supplied by IEUA unless stated otherwise.

<sup>3</sup> Other groundwater is produced from Cucamonga Basin. Surface water diversions are from Lloyd Michaels, Royer-Nesbit, and Arthur H. Bridge WTPs, and Deer Canyon.

<sup>4</sup> Other groundwater is produced from Colton/Rialto, Lytle, and "unnamed" Basins. Surface water diversions are from Lytle Creek.

<sup>5</sup> Other groundwater is produced from Six Basins.

<sup>6</sup> Other groundwater is produced from Riverside Basins.

<sup>7</sup> Treated water is delivered by West Valley Water District (WVWD), and represents a blend of multiple water sources available to WVWD, including imported water from SBVMWD and Lytle Creek Water.

<sup>8</sup> Other groundwater is produced from Arlington and Temescal Basins and a portion of the hydrologic Chino Basin that is outside the adjudicated boundary.

<sup>9</sup> Other groundwater is produced from Six Basins and Spadra Basin. Surface water diversions are from San Antonio Creek. Recycled water is served from the Pomona Water Reclamation Plant.

<sup>10</sup> Other groundwater is produced from Six Basins and Cucamonga Basin. Surface water diversions are from San Antonio Creek. Supplemental supplies shown herein do not include sales to the City of Upland - these supplies are shown as part of Upland's supply within this table.

<sup>11</sup> Other groundwater is produced from the portion of the hydrologic Chino Basin that is outside the adjudicated boundary.

<sup>12</sup> Recycled water includes water treated by CIM and discharged to ponds then reused on location for irrigation purposes.

<sup>13</sup> Other groundwater is produced from Six Basins and Cucamonga Basin. Supplemental supplies shown herein do not include sales to Golden State Water Company (GSWC) - these supplies are shown as part of GSWC's supply within this table.

<sup>14</sup> Other groundwater is produced from Six Basins and Cucamonga Basin.

<sup>15</sup> Other groundwater is produced from Rialto and Riverside Basins. Surface water diversions are from Lytle Creek.

<sup>1</sup> The values reported herein are intended to represent the supplemental water supply used by each Party within its entire service area. Some Parties have service area boundaries which extend outside the adjudicated Chino Basin boundary. During the preparation of the FY14/15 Annual Report, it was determined that the collection and reporting of supplemental water supplies has been inconsistent over time, such that some parties reported estimates of water used within the boundary of Chino Basin and others provided the entire service area use, and some agencies varied their reporting methods over time. In many years, the reported data also excluded some Watermaster Parties. And, in some cases, the supplemental supplies included recharge water volumes. The values reported for the noted years are representative of total water consumption by the Chino Basin parties and are not directly comparable to values reported for prior years. Watermaster staff will be working with the Parties to update the historical information for consistency in future annual reports.

<sup>2</sup> Represents the total groundwater extraction values reported in Appendix H-1.

<sup>3</sup> Total does not include cyclic deliveries, water delivered by exchange, or water from direct spreading that was used for replenishment.

Notes:

Other Adjustments:

- 1) Cucamonga Valley Water District received credit of 11.910 AF after evaporative loss due to Pump-to-Waste activities in which the water was recaptured into a recharge basin.
- 2) CDA provided 28.570 AF to JCSD for irrigation at Orchard Park.
- 3) Monte Vista Water District received a credit of 126.402 AF after evaporative loss due to Pump-to-Waste activities in which the water was recaptured into a recharge basin.
- 4) City of Upland received a credit of 402.898 AF after evaporative loss due to Pump-to-Waste activities in which the water was recaptured into a recharge basin.

Notes:  
 Section 6.2(b)(ii) of the Peace II Agreement as the amendment is shown in the March 15, 2019 Court Order states: "The members of the Appropriative Pool will contribute a total of 10,000 afy toward Desalter replenishment, allocated among the Appropriative Pool members as follows: 1) 85% of the total (8,500 afy) will be allocated according to the Operating Safe Yield percentage of each Appropriative Pool members; and 2) 15% of the total (1,500 afy) will be allocated according to each land use conversion agency's percentage of the total land use conversion claims. The formula is to be adjusted annually based on the actual land use conversion allocations of the year."

**Analysis of the 85/15 Rule Application to Water Transfers**

To	(Over)/Under Production Excluding Water Transfer(s)	From	Date of Submittal	Transfer Quantity	Is Buyer an 85/15 Party?	Is Transfer Being Placed into Annual Account?	Is Purpose of Transfer to Utilize SAWCO or West End Shares?	Amount of Transfer Eligible for 85/15 Rule
Cucamonga Valley Water District	633.4	Ontario, City Of Storage Account	10/30/2023	1,265.0	Yes	No	No	0.0
Fontana Water Company	(2,025.6)	Cucamonga Valley Water District Annual Account	5/15/2024	2,025.6	Yes	Yes	No	2,025.6
		Cucamonga Valley Water District Annual Account	5/15/2024	5,474.4	Yes	Yes	No	0.0
		Nicholson Family Trust Annual Account	5/27/2024	3.5	Yes	Yes	No	0.0
Golden State Water Company	(297.7)	Upland, City Of Annual Account	6/13/2024	270.0	Yes	Yes	No	270.0
		West End Consolidated Water Co Annual Account	6/13/2024	66.4	Yes	Yes	Yes	0.0
<i>85/15 does not apply; utilizing West End shares</i>								
Niagara Bottling, LLC	(1,254.9)	West Valley Water District Storage Account	5/6/2024	2,000.0	No	Yes	No	0.0
Upland, City Of	4,690.2	West End Consolidated Water Co Storage Account	5/29/2024	708.3	Yes	Yes	Yes	0.0
<i>85/15 Rule does not apply; utilizing West End shares</i>								

Notes:

1) The Water Transaction between Fontana Water Company and Cucamonga Valley Water District submitted on 5/15/2024 for the amount of 7,500 AF had been split because the amount purchased exceeds what is required to satisfy overproduction; the 85/15 Rule only applies to the portion that satisfies overproduction per the direction of the Appropriate Pool on November 2, 2011.

**Assessment Year 2024-2025 (Production Year 2023-2024)**

**Watermaster Replenishment Calculation**

**Cost of Replenishment Water per acre foot:**

Watermaster Replenishment Cost	\$903.00
Projected Spreading - OCWD Connection Fee	\$2.00
Projected Spreading - Delivery Surcharge	\$15.00
Pre-purchased Credit	\$0.00
<b>Total Replenishment Cost per acre foot (see footnote)</b>	<b>\$920.00</b>

ased in FY 2017/18.

Assessment Year 2024-2025 (Production Year 2023-2024)

# Assessment Package Notes

Page	Note
All (a)	A change in a Party's name will be reflected in the Assessment Package for the production year in which the name change occurred. For example, if a Party changed its name on June 30, 2024, it will be reflected in the FY 2024/2025 Assessment Package (for Production Year 2023/2024). Additionally, if a Party changed its name on July 1, 2024, it will be reflected in the FY 2025/2026 Assessment Package (for Production Year 2024/2025).
All (b)	To avoid the possibility of being mistakenly identified as one of other similarly named organizations, the Chino Basin Desalter Authority is referred to as Desalter Authority.
pg01	"Agricultural Total Pool Production" includes Voluntary Agreements between Appropriators and Agricultural Pool Parties.
pg02-07	ANG II (Multi) LLC temporarily leased their rights to 9W Halo Western OpCo L.P. (as successor to Angelica) beginning on March 2010 through January 2030.
pg04 (a)	Transfers in Column [4E] include the annual transfer of 10% of the Non-Ag Safe Yield to be utilized to offset the overall Desalter Replenishment Obligation in accordance with the Peace II Agreement Section 6.2, and also the Exhibit "G" physical solution.
pg04 (b)	Column [4H], "Actual Fiscal Year Production," includes physical production and Assignments between Appropriators and Non-Ag Pool Parties.
pg04 (c)	"Net Over Production" does not include evaporative loss. Additional water will be purchased in order to adequately cover evaporative losses. The rates are 1.5% from November through March, 4.2% from April through October.
pg05 (a)	Hydraulic Control was achieved on February 1, 2016. Pursuant to Paragraph 7.4(b) of the Peace II Agreement, Storage Loss is now calculated at 0.07%.
pg05 (b)	When applicable, Column [5C] includes the Exhibit "G" physical solution transfers to the Appropriative Pool.
pg06	Transfers in Column [6C] is the annual transfer of 10 percent of the Non-Ag Safe Yield to be utilized to offset the overall Desalter Replenishment Obligation in accordance with the Peace II Agreement Section 6.2.
pg07 (a)	The financial Outstanding Obligations are reconciled on pages 7.1 and 17.1.
pg07 (b)	Fund Balance is maintained on a spreadsheet by Watermaster.
pg07 (c)	Outstanding Obligation (\$) is calculated by multiplying Outstanding Obligation (AF) by the current rate, reduced by the Fund Balance (\$).
pg07 (d)	Fund Balance is the money collected by Watermaster, Outstanding Obligation (\$) is the money owed by the Parties or credited to the Parties.
pg08 (a)	Recharge Debt Payment expenses [8O] and Recharge Improvement Project expenses [8P] are each allocated on % OSY, based on the approved budget.
pg08 (b)	Pursuant to Paragraph 5.4(b) of the Peace Agreement, the City of Pomona shall be allowed a credit of up to \$2 million against OBMP Assessments through 2030. This equates to \$66,667 per year. TVMWD elected to discontinue payment of the "Pomona Credit," effective FY 2012/2013. It is now paid by the Appropriative Pool Parties, allocated on % OSY (Column [8N]).
pg09 (a)	Other Adjustments [9D] include water provided to another Appropriator, pump-to-waste that has been captured in a recharge basin (as verified by IEUA), and other miscellaneous recharge / injection of native water.
pg09 (b)	Evaporative Losses will be applied to recharged water from Pump-to-Waste activities beginning in October 2017. (Evaporative Loss Rates: 1.5% Nov - Mar; 4.2% Apr - Oct)
pg10 (a)	The Restated Judgment allowed an accumulated overdraft of 200,000 AF over 40 years. The total Operating Safe Yield is now 40,834 AF, allocated by percentage of Operating Safe Yield.
pg10 (b)	Column [10I], "Actual Fiscal Year Production," includes physical production, Voluntary Agreements, Assignments, and, if applicable, other adjustments. A detailed breakdown can be found on Page 9.1.

**Assessment Year 2024-2025 (Production Year 2023-2024)**

**Assessment Package Notes**

<b>Page</b>	<b>Note</b>
pg10 (c)	"Net Over Production" does not include evaporative loss. Additional water will be purchased in order to adequately cover evaporative losses. The rates are 1.5% from November through March, 4.2% from April through October.
pg11 (a)	The Assessment Package database is set up so that all water must go through the Party Annual Accounts on the way to or from ECO Storage Accounts, and through the ECO Storage Accounts on the way to or from Supplemental Storage Accounts (does not apply to water dedicated to offset the Desalter Replenishment Obligation).
pg11 (b)	Column [11C] includes transfers to the Desalter Replenishment Obligation.
pg12 (a)	The Assessment Package database is set up so that all water must go through the Party Annual Accounts on the way to or from ECO Storage Accounts, and through the ECO Storage Accounts on the way to or from Supplemental Storage Accounts (does not apply to water dedicated to offset the Desalter Replenishment Obligation).
pg12 (b)	Columns [12C], [12H], and [12M] include transfers to the Desalter Replenishment Obligation.
pg12 (c)	The first 3,000 AF of City of Fontana's recharged recycled water transfers to the City of Ontario, and all of the City of Montclair's recharged recycled water transfers to MVWD.
pg13 (a)	"Re-Operation Offset: Pre-Peace II Desalters" had an original beginning balance of 225,000.000 AF. The 29,070 AF correction required by Condition Subsequent 7 is included. (See Page 18.1)
pg13 (b)	"Re-Operation Offset: Peace II Expansion" had an original beginning balance of 175,000.000 AF. It will now be allocated to Desalter replenishment over a 17-year period, beginning in 2013/14 and ending in 2029/30, according to a schedule. (See Page 18.1)
pg13 (c)	There is no loss assessed on the native Basin water allocated to offset Desalter production as a result of Basin Reoperation as approved in the Peace II Agreement.
pg13 (d)	"Non-Ag Dedication" was used in a prior Assessment Package to indicate the Paragraph 31 Settlement Agreements Dedication.
pg13 (e)	The "Non-Ag" OBMP Special Assessment", also referred to as the "10% Haircut", will indicate the movement of water when it is being utilized to further offset the Desalter Replenishment Obligation. See [18L] on Page 18.1.
pg13 (f)	Columns [13C] and [13D] under "Dedicated Replenishment" include transfers of water from an Annual Account to DRO, including Party to Party transfers such as those executed with the Exhibit "G" Form A.
pg14	Transfers in Column [14A] include annual water transfers/leases between Appropriators and/or from Appropriators to Watermaster for replenishment purposes, and also the Exhibit "G" physical solution transfers from the Non-Ag Pool.
pg15 (a)	Most of the remaining eligible parcels for Land Use Conversion are within the Conversion Area 1 boundary.
pg15 (b)	"Unlikely to Convert Parcels" regardless of eligibility are not likely to convert due to pre-existing land use. Eligibility will be determined on a case by case basis.
pg16	Beginning with the 2015/16 Assessment Package, the Agricultural Pool Safe Yield Reallocation is now being calculated with a new formula in accordance with the March 15, 2019 Court Order.
pg17 (a)	The financial Outstanding Obligations are reconciled on pages 7.1 and 17.1.
pg17 (b)	Fund Balance is maintained on a spreadsheet by Watermaster.
pg17 (c)	Outstanding Obligation is calculated by multiplying Outstanding Obligation (AF) by the current rate, reduced by the Fund Balance.
pg17 (d)	Fund Balance is the money collected by Watermaster, Outstanding Obligation (\$) is the money owed by the Parties or credited to the Parties.
pg21 (a)	Any balance in a Dedicated Replenishment Account is utilized first to satisfy new or carried over Desalter Replenishment Obligation beginning with the fiscal year such water was made available. The balance, if any, can be found on page 13.1.

Assessment Year 2024-2025 (Production Year 2023-2024)

## Assessment Package Notes

Page	Note
pg21 (b)	Due to an agreement between CVWD and FUWC, all of FUWC's rights are automatically transferred to CVWD. A recurring transaction was created so that a portion of that water gets returned to FUWC to satisfy their share of DRO.
pg22	The table on this page is a replica of the table found in the Watermaster Budget.
pg24	The column titled "(Over)/Under Production Excluding Water Transfer(s)" excludes Exhibit "G" water sales and water transfers between Appropriators and to Watermaster (if any). ([10B] + [10C] + [10D] + [10E] + [14B] - [10K])
pg25 (a)	The "15% Water Transaction Debits" total is the "Total 15% Credits from all Transaction" from Page 23.1.
pg25 (b)	"Replenishment Obligation" does not include evaporative loss. Additional water will be purchased in order to adequately cover evaporative losses. The rates are 1.5% from November through March, 4.2% from April through October.
pg26 (a)	Beginning with fiscal year 2016/17, water purchased through the IEUA will be charged with an annual RTS fee over a ten year period commencing two years after the initial purchase. This fee will vary year to year based on a ten-year rolling average.
pg26 (b)	RTS will be allocated based on the total RTS charge for the year and not on the calculated cost per acre-foot.

Assessment Year 2024-2025 (Production Year 2023-2024)

## Assessment Package References and Definitions

Column	Title Description
2A	<b>AF Production</b> Actual fiscal year production by each Party. Copied from [4H].
2B	<b>Non-Agricultural Pool - AF/Admin</b> Production [2A] <times> per acre-foot Admin fee.
2C	<b>Non-Agricultural Pool - AF/OBMP</b> Production [2A] <times> per acre-foot OBMP fee.
2D	<b>Replenishment Assessments - AF Exceeding Annual Right</b> Over-production for each Party beyond their annual production right. Copied from [4I].
2E	<b>Replenishment Assessments - \$872 Per AF</b> Amount overproduced [2D] <times> the current replenishment rate.
2F	<b>CURO Adjustment</b> Monetary amount needed (or to be credited) for each Party's Cumulative Unmet Replenishment Obligation (CURO). Calculated on Page 7.1.
2G	<b>RTS Charges</b> Annual Readiness to Serve charges for water purchased in prior years.
2H	<b>Other Adjustments</b> Used as necessary for any other monetary adjustments needed to the Assessment Package.
2I	<b>Total Assessments Due</b> Total fees assessed based on Party production. [2B] + [2C] + [2E] + [2F] + [2G] + [2H].
3A	<b>Physical Production</b> Fiscal year physical production by each Party.
3B	<b>Assignments</b> Total of water received from an Appropriator by each Party.
3C	<b>Other Adjustments</b> Any other adjustments that result in off-set of the fiscal year's production.
3D	<b>Actual FY Production (Assmnt Pkg Column 4H)</b> Total adjusted production for the fiscal year. Also known as Assessable Production. [3A] + [3B] + [3C].
4A	<b>Percent of Safe Yield</b> The Party's yearly percentage of Safe Yield.
4B	<b>Carryover Beginning Balance</b> The beginning balance in each Annual Account. This number carries forward from the ending balance in the previous period Assessment Package.
4C	<b>Prior Year Adjustments</b> This number reflects the adjusted production rights from a previous Assessment Package, in the event that corrections are needed.
4D	<b>Assigned Share of Safe Yield (AF)</b> The Party's yearly volume of Safe Yield.
4E	<b>Water Transaction Activity</b> Total of one-time water transfers between Parties for this period, including the annual transfer of 10 percent of the Non-Ag Safe Yield to be utilized to offset the overall Desalter Replenishment Obligation, as stated in the Peace II Agreement, and Exhibit "G" physical solution transfers to the Appropriative Pool.
4F	<b>Other Adjustments</b> This number reflects adjusted production rights, in the event that corrections are needed.
4G	<b>Annual Production Right</b> Current Year Production Right. [4B] + [4C] + [4D] + [4E] + [4F].

Assessment Year 2024-2025 (Production Year 2023-2024)

# Assessment Package References and Definitions

Column	Title	Description
4H	<b>Actual Fiscal Year Production</b>	Fiscal year production, including Assignments, from CBWM's production system (as verified by each Party on their Water Activity Report). Also known as Assessable Production.
4I	<b>Net Over Production</b>	Over-production, if any, for each Party beyond their annual production right. $[4H] <minus> [4G]$ , equaling more than zero.
4J	<b>Under Production Balances - Total Under-Produced</b>	Production rights $[4G] <minus>$ production $[4H]$ , equaling more than zero.
4K	<b>Under Production Balances - Carryover: Next Year Begin Bal</b>	Either total under-produced $[4J]$ or share of Safe Yield $[4D]$ , whichever is less.
4L	<b>Under Production Balances - To Excess Carryover Account</b>	Total under-produced $[4J] <minus>$ Carryover to next year $[4K]$ , equaling more than zero.
5A	<b>Local Excess Carry Over Storage Account (ECO) - Beginning Balance</b>	The beginning balance in each ECO account. This number will carry forward from the ending balance in the previous period Assessment Package.
5B	<b>Local Excess Carry Over Storage Account (ECO) - 0.07% Storage Loss</b>	Beginning balance $[5A] <times> -0.0007$ .
5C	<b>Local Excess Carry Over Storage Account (ECO) - Transfers To / (From)</b>	Total of water transferred to and from the ECO Account.
5D	<b>Local Excess Carry Over Storage Account (ECO) - From Under-Production</b>	Total of water transferred from the Annual Account due to under production. Copied from $[4L]$ .
5E	<b>Local Excess Carry Over Storage Account (ECO) - Ending Balance</b>	The current balance in each ECO account. $[5A] + [5B] + [5C] + [5D]$ .
5F	<b>Local Supplemental Storage Account - Beginning Balance</b>	The beginning balance in each Supplemental Account. This number will carry forward from the ending balance in the previous period Assessment Package.
5G	<b>Local Supplemental Storage Account - 0.07% Storage Loss</b>	Beginning balance $[5F] <times> -0.0007$ .
5H	<b>Local Supplemental Storage Account - Transfers To / (From)</b>	Total of water transferred to and from the Annual and/or ECO Account.
5I	<b>Local Supplemental Storage Account - Ending Balance</b>	The current balance in each Supplemental Account. $[5F] + [5G] + [5H]$ .
5J	<b>Combined - Ending Balance</b>	The combined amount in all local storage accounts. $[5E] + [5I]$ .
6A	<b>Percent of Safe Yield</b>	The Party's yearly percentage of Operating Safe Yield.
6B	<b>Assigned Share of Safe Yield (AF)</b>	The Party's yearly volume of Operating Safe Yield.
6C	<b>Water Transactions - 10% of Operating Safe Yield ("Haircut")</b>	Operating Safe Yield $[6B] <times> -0.1$ .
6D	<b>Water Transactions - Transfers (To) / From ECO Account</b>	Total of water transferred between the Annual Account and ECO Account.
6E	<b>Water Transactions - General Transfers / Exhibit G Water Sales</b>	Total of water transfers between Parties for this period including Exhibit G Water Sales.
6F	<b>Water Transactions - Total Water Transactions</b>	Total water transactions. $[6C] + [6D] + [6E]$ . This column is used to populate $[4E]$ .

Assessment Year 2024-2025 (Production Year 2023-2024)

# Assessment Package References and Definitions

Column	Title	Description
7A	<b>Outstanding Obligation (AF)</b>	The amount of obligation carried over from prior Assessment Package(s) that were not met due to various reason, including but not limited to MWD not having replenishment water available to purchase.
7B	<b>Fund Balance (\$)</b>	The amount of money collected or owed for replenishment assessments from prior Assessment Package(s).
7C	<b>Outstanding Obligation (\$)</b>	The amount of money that each Party owes or is credited based on current replenishment rate. $[7A] \times [CURRENT RATE] - [7B]$ .
8A	<b>AF Production and Exchanges</b>	Total production and exchanges. Copied from [10K].
8B	<b>Appropriative Pool - AF/Admin</b>	Production and Exchanges [8A] $\times$ per acre-foot Admin fee.
8C	<b>Appropriative Pool - AF/OBMP</b>	Production and Exchanges [8A] $\times$ per acre-foot OBMP fee.
8D	<b>Ag Pool SY Reallocation - AF Total Reallocation</b>	Reallocation of Ag Pool Safe Yield. Copied from [10E] and [16E].
8E	<b>Ag Pool SY Reallocation - AF/Admin</b>	Party Ag Pool reallocation [8D] $\div$ Total Ag Pool Reallocation [8D Total] $\times$ total dollar amount needed for Ag Pool Administration.
8F	<b>Ag Pool SY Reallocation - AF/OBMP</b>	Party Ag Pool reallocation [8D] $\div$ Total Ag Pool Reallocation [8D Total] $\times$ total dollar amount needed for Ag Pool OBMP.
8G	<b>Replenishment Assessments - AF/15%</b>	For Parties participating in the 85/15 Rule: Percentage of total 85/15 participant production $\times$ required credit amount. Copied from Page 25.1.
8H	<b>Replenishment Assessments - AF/85%</b>	For parties participating in the 85/15 Rule: Total volume overproduced [10L] $\times$ 85% of the replenishment rate.
8I	<b>Replenishment Assessments - AF/100%</b>	For parties not participating in the 85/15 Rule: Total volume overproduced [10M] $\times$ 100% of the replenishment rate.
8J	<b>85/15 Water Transaction Activity - 15% Producer Credits</b>	For parties participating in the 85/15 Rule: Credit amount equals 15% of the cost of the water purchased. Total to be credited copied from Page 23.1.
8K	<b>85/15 Water Transaction Activity - 15% Pro-rated Debits</b>	For parties participating in the 85/15 Rule: Percentage of total 85/15 participant production $\times$ required credit amount. Copied from Page 25.1.
8L	<b>CURO Adjustment</b>	Monetary amount needed (or to be credited) for each Party's Cumulative Unmet Replenishment Obligation (CURO). Calculated on Page 17.1.
8M	<b>ASSESSMENTS DUE - Total Production Based</b>	Total fees assessed based on Party production. $[8B] + [8C] + [8E] + [8F] + [8G] + [8H] + [8I] + [8J] + [8K] + [8L]$ .
8N	<b>ASSESSMENTS DUE - Pomona Credit</b>	Debit amount to Pomona $\times -1 \times$ percent share of Operating Safe Yield [10A].
8O	<b>ASSESSMENTS DUE - Recharge Debt Payment</b>	Total recharge debt payment $\times$ percent share of Operating Safe Yield [10A].
8P	<b>ASSESSMENTS DUE - Recharge Improvement Project</b>	Total Recharge Improvement Project $\times$ Percent Share of Operating Safe Yield [10A].

Assessment Year 2024-2025 (Production Year 2023-2024)

Assessment Package References and Definitions

Column	Title	Description
8Q	<b>ASSESSMENTS DUE - RTS Charges</b>	Annual Readiness to Serve charges for water purchased in prior years.
8R	<b>ASSESSMENTS DUE - Other Adjustments</b>	Used as necessary for any other monetary adjustments needed to the Assessment Package.
8S	<b>ASSESSMENTS DUE - DRO</b>	Total assessments due for Desalter Replenishment. Copied from [21L].
8T	<b>ASSESSMENTS DUE - Total Due</b>	Total assessments. [8M] + [8N] + [8O] + [8P] + [8Q] + [8R] + [8S].
9A	<b>Physical Production</b>	Fiscal year physical production by each Party.
9B	<b>Voluntary Agreements (w/ Ag)</b>	Total of water provided to Agricultural Pool Parties.
9C	<b>Assignments (w / Non-Ag)</b>	Total of water provided to Non-Agricultural Pool Parties.
9D	<b>Other Adjustments</b>	Total of water received from, or provided to, another Appropriator. Also includes production off-sets.
9E	<b>Actual FY Production (Assmnt Pkg Column 10I)</b>	Total adjusted production for the fiscal year. [9A] + [9B] + [9C] + [9D].
10A	<b>Percent of Operating Safe Yield</b>	The Party's yearly percentage of Operating Safe Yield.
10B	<b>Carryover Beginning Balance</b>	The beginning balance in each Annual Account. This number carries forward from the ending balance in the previous period Assessment Package.
10C	<b>Prior Year Adjustments</b>	This number reflects the adjusted production rights from a previous Assessment Package, in the event that corrections are needed.
10D	<b>Assigned Share of Operating Safe Yield</b>	The Party's yearly volume of Operating Safe Yield.
10E	<b>Net Ag Pool Reallocation</b>	Reallocation of Ag Pool Safe Yield. Copied from [16E]. The calculations that lead to this are made on Page 16.1.
10F	<b>Water Transaction Activity</b>	Water transactions. Copied from [14E]. The calculations that lead to this are made on Page 14.1.
10G	<b>Other Adjustments</b>	This number reflects adjusted production rights, in the event that corrections are needed.
10H	<b>Annual Production Right</b>	Current Year Production Right. [10B] + [10C] + [10D] + [10E] + [10F] + [10G].
10I	<b>Actual Fiscal Year Production</b>	Fiscal year production, including Assignments and Voluntary Agreements, from CBWM's production system (as verified by each Party on their Water Activity Report). Includes a sub note subtracting Desalter production.
10J	<b>Storage and Recover Program(s)</b>	Total exchanges for the period (July 1 - June 30) including MZ1 forbearance and DYY deliveries (as reported to CBWM by IEUA and TVMWD and as verified by each Party on their Water Activity Report). A DYY in-lieu "put" is shown as a positive number and a DYY "take" is shown as a negative number.
10K	<b>Total Production and Exchanges</b>	Actual production [10I] <plus> Storage and Recovery exchanges [10J]. Includes a sub note subtracting Desalter production. Also known as Assessable Production.

<b>17E</b>	<b>85/15 Producers</b>	The total production and exchanges of 85/15 Producers only.
<b>17F</b>	<b>Percent</b>	The percentage of each 85/15 Producer's total production and exchanges [17E] divided by the sum of [17E].

Assessment Year 2024-2025 (Production Year 2023-2024)

Assessment Package References and Definitions

Column	Title	Description
17G	15%	If an 85/15 Producer, then the 85/15 Producers' total Outstanding Obligation (\$) at 15%, multiplied by their production and exchanges percentage. [17C] total of 85/15 Producers <times> 15% <times> [17F].
17H	85%	If an 85/15 Producer, then the Outstanding Obligation (\$) at 85%.
17I	100%	If not an 85/15 Producer, then the Outstanding Obligation (\$) at 100%.
17J	Total	The total CURO for the year. [17G] + [17H] + [17I].
18A	Desalter Production - Pre-Peace II Desalter Production	Production from the Pre-Peace II Desalter Wells.
18B	Desalter Production - Peace II Desalter Expansion Production	Production from the Peace II Desalter Expansion Wells.
18C	Desalter Production - Total	The combined production from all Desalter Wells. [18A] + [18B].
18D	Desalter Replenishment - Desalter (aka Kaiser) Account PIIA, 6.2 (a)(i)	Credit applied to the total Desalter Production from the Kaiser account.
18E	Desalter Replenishment - Paragraph 31 Settlement Agreements Dedication PIIA, 6.2(a)(ii)	Credit applied to the total Desalter Production from "dedication of water from the Overlying (Non-Agricultural) Pool Storage Account or from any contribution arising from an annual authorized Physical Solution Transfer in accordance with amended Exhibit G.
18F	Desalter Replenishment - "Leave Behind" Losses PIIA, 6.2(a)(iv)	Credit applied to the total Desalter Production from "any declared losses from storage in excess of actual losses enforced as a "Leave Behind".
18G	Desalter Replenishment - Safe Yield Contributed by Parties PIIA, 6.2(a)(v)	Credit applied to the total Desalter Production from "Safe Yield that may be contributed by the parties."
18H	Desalter Replenishment - Controlled Overdraft / Re-Op, PIIA, 6.2(a)(vi) - Allocation to Pre-Peace II Desalters	The 225,000 AF portion of the 400,000 AF Controlled Overdraft that was originally allocated to the Pre-Peace II Desalter production.
18I	Desalter Replenishment - Controlled Overdraft / Re-Op, PIIA, 6.2(a)(vi) - Allocation to All Desalters	The 175,000 AF portion of the 400,000 AF Controlled Overdraft that was originally allocated to the Peace II Desalter Expansion production but is now allocated to all Desalter production per set schedule.
18J	Desalter Replenishment - Controlled Overdraft / Re-Op, PIIA, 6.2(a)(vi) - Balance	The remaining balance of the 400,000 AF Controlled Overdraft.
18K	Desalter Replenishment - Appropriate Pool DRO Contribution PIIA, 6.2(b)(ii)	The 10,000 AF contribution to the Desalter Replenishment Obligation by the Appropriate Pool.
18L	Desalter Replenishment - Non-Ag OBMP Assessment (10% Haircut) PIIA, 6.2(b)(i)	The 10% of the Non-Agricultural Pool Safe Yield used to offset the total Desalter Replenishment Obligation beginning with production year 2016/2017.
18M	Remaining Desalter Replenishment Obligation PIIA, 6.2(b)(iii)	Total Desalter Production minus Desalter Replenishment. [18C] - [18D] - [18E] - [18F] - [18G] - [18H] - [18I] - [18K] - [18L].
19A	Percent of Operating Safe Yield	The Party's yearly percentage of Operating Safe Yield. Copied from [10A].
19B	Land Use Conversions	Total Land Use Conversion in acre-feet for each Party. Copied from [15G].
19C	Percent of Land Use Conversions	Each Party's pro rata share of Land Use Conversions [19B] from the total of [19B].

Assessment Year 2024-2025 (Production Year 2023-2024)

## Assessment Package References and Definitions

Column	Title	Description
19D	<b>85% DROC Based on Percent OSY</b>	Each Party's share of the 10,000 AF Desalter Replenishment Obligation based on OSY. $10,000 \times 0.85$ [19A].
19E	<b>15% DROC Based on Percent of LUC</b>	Each Party's share of the 10,000 AF Desalter Replenishment Obligation based on Percent of Land Use Conversions. $10,000 \times 0.15$ [19C].
19F	<b>Total Desalter Replenishment</b>	Each Party's share of the 10,000 AF Desalter Replenishment Obligation. [19D] + [19E].
20A	<b>Assigned Share of Operating Safe Yield</b>	The Party's yearly volume of Operating Safe Yield. Copied from [10D].
20B	<b>Physical Production Adjustment Calculation - Physical Production</b>	Fiscal year physical production by each Party. Copied from [9A].
20C	<b>Physical Production Adjustment Calculation - 50% of Voluntary Agreements with Ag</b>	Total of water provided to Agricultural Pool Parties multiplied by 50%. [9B] $\times 0.50$ .
20D	<b>Physical Production Adjustment Calculation - Assignments with Non-Ag</b>	Total of water provided to Non-Agricultural Pool Parties. Copied from [9C].
20E	<b>Physical Production Adjustment Calculation - Storage and Recovery Programs</b>	Total exchanges for the period (July 1 - June 30) including MZ1 forbearance and DYY deliveries (as reported to CBWM by IEUA and TVMWD and as verified by each Party on their Water Activity Report). Copied from [10J].
20F	<b>Physical Production Adjustment Calculation - Other Adjustments</b>	Total of water received from, or provided to, another Appropriator. Also includes production off-sets. Copied from [9D] but does not include production adjustments to prevent a negative annual production to a Party.
20G	<b>Physical Production Adjustment Calculation - Total Adjusted Production</b>	Each Party's Adjusted Physical Production. [20B] + [20C] + [20D] + [20E] + [20F].
20H	<b>RDRO Calculation - Total Production and OSY Basis</b>	The sum of each Party's Adjusted Physical Production and Assigned Share of Operating Safe Yield. [20A] + [20G].
20I	<b>RDRO Calculation - Percentage</b>	The percentage of each Party's Adjusted Physical Production and Assigned Share of Operating Safe Yield basis. [20H] divided by the sum of [20H].
20J	<b>RDRO Calculation - Individual Party RDRO</b>	Each Party's pro rata share of the Remaining Desalter Replenishment Obligation. [20I] $\times$ Total RDRO.
21A	<b>Desalter Replenishment Obligation in AF - Desalter Replenishment Obligation Contribution (DROC)</b>	Each Party's share of the 10,000 AF Desalter Replenishment Obligation Contribution. Copied from [19F].
21B	<b>Desalter Replenishment Obligation in AF - Remaining Desalter Replenishment Obligation (RDRO)</b>	Each Party's pro rata share of the Remaining Desalter Replenishment Obligation. Copied from [20J].
21C	<b>Desalter Replenishment Obligation in AF - Total Desalter Replenishment Obligation</b>	The sum of Desalter Replenishment Obligation Contribution, and Remaining Desalter Replenishment Obligation. [21A] + [21B].
21D	<b>Total DRO Fulfillment Activity - Transfer from Dedicated Replenishment Account</b>	Total of water transferred from Desalter Dedicated Replenishment Account to satisfy the desalter replenishment obligation.
21E	<b>Total DRO Fulfillment Activity - Transfer from Excess Carry Over Storage Account</b>	Total of water transferred from Excess Carry Over Storage Account to satisfy the desalter replenishment obligation.
21F	<b>Total DRO Fulfillment Activity - Transfer from Recharged Recycled Storage Account</b>	Total of water transferred from Recharged Recycle Storage Account to satisfy the desalter replenishment obligation.
21G	<b>Total DRO Fulfillment Activity - Transfer from Quantified Storage Account</b>	Total of water transferred from Quantified Storage Account to satisfy the desalter replenishment obligation.

Assessment Year 2024-2025 (Production Year 2023-2024)

Assessment Package References and Definitions

Column	Title	Description
21H	<b>Total DRO Fulfillment Activity - Transfer from Post 7/1/2000 Storage Account</b>	Total of water transferred from Post 7/1/2000 Storage Account to satisfy the desalter replenishment obligation.
21I	<b>Total DRO Fulfillment Activity - Replenishment Water Purchase</b>	Total of water purchased to satisfy the desalter replenishment obligation.
21J	<b>Total DRO Fulfillment Activity - Total Transfers and Water Purchases</b>	The sum of all transfers and purchases to satisfy the desalter replenishment obligation. [21D] + [21E] + [21F] + [21G] + [21H] + [21I].
21K	<b>Assessments - Residual DRO (AF)</b>	Total residual Desalter Replenishment Obligation after transfers and purchases. [21C] + [21J].
21L	<b>Assessments - Assessments Due On Residual DRO (\$)</b>	Total assessments due for Desalter Replenishment. [21K] <times> [Current Replenishment Rate]. This column is used to populate [8S].
26A	<b>FY 2016/2017 Water Purchases - Purchased Water in AF - 20160623 - RO</b>	The amount of water purchased to satisfy the accumulated replenishment obligation through the end of production year 2014/15. Water was delivered in October 2016.
26B	<b>FY 2016/2017 Water Purchases - Purchased Water in AF - 20160623 - DRO</b>	The amount of water purchased to be used towards the Desalter Replenishment Obligation. Water was delivered in October 2016.
26C	<b>FY 2016/2017 Water Purchases - Purchased Water in AF - 20161216 - DRO</b>	The amount of water purchased to be used towards the Desalter Replenishment Obligation. Water was delivered in December 2016.
26D	<b>FY 2016/2017 Water Purchases - Purchased Water in AF - 20170418 - RO</b>	The amount of water purchased to satisfy production year 2015/16 replenishment obligation. Water was delivered in April 2018.
26E	<b>FY 2016/2017 Water Purchases - Purchased Water in AF - 85/15 Breakdown - AF @ 100%</b>	The amount of water purchased subject to 100% RTS rate. This applies to: DRO water; RO water of non-85/15 Pool 3 producers; and RO water of Pool 2 producers. 1) Pool 3, 85/15 Ineligible: [26A] + [26B] + [26C] + [26D]. 2) Pool 3, 85/15 Eligible: [26B] + [26C]. 3) Pool 2: [26A] + [26D].
26F	<b>FY 2016/2017 Water Purchases - Purchased Water in AF - 85/15 Breakdown - AF @ 85/15</b>	The amount of water purchased subject to the 85/15 Rule. This applies to RO water of 85/15 Pool 3 producers. 1) Pool 3, 85/15 Eligible: [26A] + [26D].
26G	<b>FY 2016/2017 Water Purchases - Purchased Water in AF - 85/15 Breakdown - AF Total</b>	Total water purchased by each Appropriate Pool or Non-Agricultural Pool Party. [26E] + [26F].
26H	<b>FY 2016/2017 Water Purchases - 2015/16 Prod &amp; Exch From 85/15 Producers - Acre-Feet</b>	Total production and exchanges of 85/15 Producers from fiscal year 2015/16. This is the basis of the 85/15 Rule for water purchased in fiscal year 2016/17.
26I	<b>FY 2016/2017 Water Purchases - 2015/16 Prod &amp; Exch From 85/15 Producers - Percent</b>	The percentage of each 85/15 Producer's total production and exchanges. [26H] divided by the sum of [26H].
26J	<b>FY 2016/2017 Water Purchases - Year 7 RTS Charges - 15%</b>	If an 85/15 Producer, then each 85/15 Producer's share of the total RTS charge of 85/15 eligible water. "Total RTS Charge" <divided by> "Total Water Purchased" <times> 0.15 <times> [26F] Total <times> [26I].
26K	<b>FY 2016/2017 Water Purchases - Year 7 RTS Charges - 85%</b>	If an 85/15 Producer, then their RTS charge of 85/15 eligible water at 85%. "Total RTS Charge" <divided by> "Total Water Purchased" <times> [26F] <times> 0.85.
26L	<b>FY 2016/2017 Water Purchases - Year 7 RTS Charges - 100%</b>	RTS charge on all water not subject to the 85/15 Rule. "Total RTS Charge" <divided by> "Total Water Purchased" <times> [26E].
26M	<b>FY 2017/2018 Water Purchase - Purchased Water in AF - 20171211 - RO</b>	The amount of water purchased to satisfy replenishment obligations through the end of production year 2014/15. Water was delivered in December 2017.

Assessment Year 2024-2025 (Production Year 2023-2024)

## Assessment Package References and Definitions

Column	Title	Description
26N	<b>FY 2017/2018 Water Purchase - Purchased Water in AF - 20171211 - DRO</b>	The amount of water purchased to be used towards the Desalter Replenishment Obligation. Water was delivered in December 2017.
26O	<b>FY 2017/2018 Water Purchase - 2016/17 Prod &amp; Exch From 85/15 Producers - Acre-Feet</b>	Total production and exchanges of 85/15 Producers from fiscal year 2016/17. This is the basis of the 85/15 Rule for water purchased in fiscal year 2017/18.
26P	<b>FY 2017/2018 Water Purchase - 2016/17 Prod &amp; Exch From 85/15 Producers - Percent</b>	The percentage of each 85/15 Producer's total production and exchanges. [26O] divided by the sum of [26O].
26Q	<b>FY 2017/2018 Water Purchase - Year 6 RTS Charges - 15%</b>	If an 85/15 Producer, then each 85/15 Producer's share of the total RTS charge of 85/15 eligible water in [26M].
26R	<b>FY 2017/2018 Water Purchase - Year 6 RTS Charges - 85%</b>	If an 85/15 Producer, then their RTS charge of 85/15 eligible water in [26M] at 85%.
26S	<b>FY 2017/2018 Water Purchase - Year 6 RTS Charges - 100%</b>	RTS charge on all water in {26N} and water not subject to the 85/15 Rule in [26M].
26T	<b>TOTAL RTS CHARGES</b>	Total RTS Charge. [26J] + [26K] + [26L] + [26Q] + [26R] + [26S].

## HISTORIC ASSESSMENTS PER ACRE-FOOT OF PRODUCTION

Chino Basin Watermaster Board

## **Introduction**

It is our pleasure to submit the Annual Financial Report for the Chino Basin Watermaster (Watermaster) for the fiscal years ended June 30, 2024 and 2023, following guidelines set forth by the Governmental Accounting Standards Board. The Watermaster is ultimately responsible for both the accuracy of the data and the completeness and the fairness of presentation, including all disclosures in this financial report. We believe that the data presented is accurate in all material respects. This report is designed in a manner that we believe necessary to enhance your understanding of the Watermaster's financial position and activities.

This report is organized into four sections: (1) Introductory, (2) Financial, (3) Required Supplementary Information and (4) Supplemental. The Introductory section offers general information about the Watermaster's organization and current Watermaster activities and reports on a summary of significant financial results. The Financial section includes the Independent Auditor's Report, Management's Discussion and Analysis of the Watermaster's basic financial statements, and the Watermaster's audited basic financial statements with accompanying Notes. The Required Supplementary Information section includes the schedules of changes in Other Post Employment Benefits (OPEB) liabilities and CalPERS Pension contributions. The Supplemental section includes combining net position and revenue and expense schedules.

Generally Accepted Accounting Principles (GAAP) requires that management provide a narrative introduction, overview and analysis to accompany the financial statements in the form of the Management's Discussion and Analysis (MD&A) section. This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The Watermaster's MD&A can be found immediately after the Independent Auditor's Report.

## **Watermaster Structure and Leadership**

The Chino Basin Watermaster ("Watermaster") was established under a judgment entered in Superior Court of the State of California for the County of San Bernardino as a result of Case No. RCVRS 51010 (formerly Case No. SCV 164327) entitled "Chino Basin Municipal Water District v. City of Chino, et al.", signed by the Honorable Judge Howard B. Weiner on January 27, 1978. The effective date of this Judgment for accounting and operations was July 1, 1977. Under the Judgment, three Pool committees were formed: (1) Overlying (Agricultural) Pool which includes the State of California and all producers of water for overlying uses other than industrial or commercial purposes; (2) Overlying (Non-Agricultural) Pool which represents producers of water for overlying industrial or commercial purposes; and (3) Appropriative Pool which represents cities, special districts, other public or private entities and utilities. The three Pools act together to form the "Advisory Committee". Pursuant to the Judgment, the Chino Basin Municipal Water District (CBMWD) five-member Watermaster Board Members was initially appointed as "Watermaster". Pursuant to a recommendation of the Advisory Committee, the Honorable J. Michael Gunn appointed a nine-member board as Watermaster on February 19, 1998 thereby creating an independent Watermaster separate from the CBMWD.

### **Watermaster Structure and Leadership, continued**

The General Manager administers the day-to-day operations of the Watermaster in accordance with policies and procedures established by the Board. The Watermaster staff includes eleven regular, full-time employees. Each of the Watermaster's three Pools Committees, the Advisory Committee, and the Board meet monthly to hear various reports and offer advice, assistance, or approval, relating to the matters of the Watermaster.

### **Watermaster Mission and Services**

Chino Basin Watermaster's mission is "To manage the Chino Groundwater Basin in the most beneficial manner and to equitably administer and enforce the provisions of the Chino Basin Watermaster Judgment", Case No. RCVRS 51010 (formerly Case No. SCV 164327). The Watermaster provides the Chino Groundwater Basin service area with services which primarily include: accounting for water appropriations by acre footage of water produced and stored by agency, purchase of replenishment water, groundwater monitoring and implementation of special projects. The Watermaster is progressively and actively implementing the Basin's Optimum Basin Management Program Update (OBMPU) which includes extensive monitoring, developing additional groundwater recharge capabilities, storage and recovery programs, managing salt loads, evaluating the safe yield of the basin and to protect and enhance this significant natural resource. In 2019, Watermaster updated the OBMP which was originally adopted in 2000. The updated OBMP will provide the necessary basin management framework over the next 20 years to enhance Basin water supplies, protect and enhance water quality, and enhance Basin management overall. After an intensive stakeholder engagement process, the Watermaster Board adopted the 2020 OBMP on October 22, 2020. The Subsequent Environmental Impact Report (SEIR) needed for the OBMPU for which our basin partner, the Inland Empire Utilities Agency (IEUA), is the lead agency was completed in February of 2024.

Watermaster costs are allocated to the Pools based on various formulas using the prior year's production volume and the party's share of operating safe yield, and the percentage of water reallocated to the Appropriative Pool from the Overlying (Agricultural) Pool. Pursuant to the agreements in place and as prescribed in the Judgment, the Overlying (Agricultural) Pool does not pay assessments as those are covered by the Appropriative Pool.

### **Economic Condition and Outlook**

The Watermaster's office is located in the City of Rancho Cucamonga in San Bernardino County which has experienced tempered economic growth within the region. The economic outlook for the Southern California region is one of cautious growth.

### **Internal Control Structure**

Watermaster management is responsible for the establishment and maintenance of the internal control structure that ensures the assets of the Watermaster are protected from loss, theft or misuse. The internal control structure also ensures adequate accounting data that is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The Watermaster's internal control structure is designed to provide reasonable assurance that these objectives are met. The concept of reasonable assurance recognizes that (1) the cost of a control should not exceed the benefits likely to be derived, and (2) the valuation of costs and benefits requires estimates and judgments by management.

## **Budgetary Control**

The Advisory Committee annually approves, and the Board annually adopts an operating budget prior to the new fiscal year per the terms of the Judgment. The budget authorizes and provides the basis for reporting and controlling financial operations and accountability for the Watermaster’s enterprise operations. The budget and reporting treatment applied to the Watermaster is consistent with the accrual basis of accounting and the financial statement basis.

## **Investment Policy**

The Board has adopted an investment policy that conforms to state law, Watermaster’s ordinance and resolutions, prudent money management, and the “prudent person” standards. The objectives of the Investment Policy are safety, liquidity and yield. Watermaster funds are invested in the State Treasurer’s Local Agency Investment Fund (LAIF), with California Cooperative Liquid Assets Securities System (CLASS), and financial institutions that offer safety, daily and next-day liquidity, and optimized returns catered to California public agencies.

## **Water Rates and Watermaster Revenues**

The Judgment prescribes Watermaster’s authority and specifies classes of water production assessments to be used to fund certain activities. Those assessment categories are: Administration, Optimum Basin Management Program, Special Projects, and Replenishment. Each class of assessment has a prescribed purpose and is based on a percentage of water produced. Assessment revenue is Watermaster’s principal source of income.

## **Audit and Financial Reporting**

State Law requires the Watermaster to obtain an annual audit of its financial statements by an independent certified public accountant. The accounting firm of C.J. Brown & Company, CPAs – An Accountancy Corporation, has conducted the audit of the Watermaster’s financial statements. Their unmodified Independent Auditor’s Report appears in the Financial Section.

## **Other References**

More information is contained in the Management’s Discussion and Analysis and the Notes to the Basic Financial Statements found in the Financial Section of the report.

## **Acknowledgements**

Preparation of this report was accomplished by the combined efforts of the Watermaster staff. We appreciate the dedicated efforts of Daniela Uriarte, Senior Accountant, and staff members who contributed to the annual audit processes and to the Watermaster overall. We would also like to thank the members of the Board for their continued support in planning and implementation of the Chino Basin Watermaster’s fiscal policies.

Respectfully submitted,

---

Todd M. Corbin  
General Manager

---

Anna T. Nelson  
Director of Administration

## **Independent Auditor's Report**

Watermaster Board Members  
Chino Basin Watermaster  
Rancho Cucamonga, California

### **Report on the Financial Statements**

#### ***Opinion***

We have audited the accompanying financial statements of the Chino Basin Watermaster (Watermaster) as of and for the years ended June 30, 2024 and 2023, and the related notes to the financial statements, which collectively comprise the Watermaster's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the Watermaster, as of June 30, 2024 and 2023, and the respective changes in financial position and, where applicable, cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

#### ***Basis for Opinion***

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### ***Responsibility of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Watermaster's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

## **Independent Auditor's Report, continued**

### ***Auditor's Responsibilities for the Audits of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Watermaster's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Watermaster's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

### ***Emphasis-of-Matter***

#### ***Adjustments of Net Position***

As discussed in Note 10 to the financial statements, the Watermaster has adopted the provisions of GASB Statement No. 87 – Leases. As a result, the Watermaster has restated its net position to reflect the effects of the change in accounting policy. Our opinion is not modified with respect to this matter.

## **Independent Auditor's Report, continued**

### ***Other Matters***

#### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 8 through 12 and the required supplementary information on pages 43 through 46 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audits of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### ***Supplemental Information***

Our audits were conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Watermaster's basic financial statements. The combining schedules of net position and combining schedules of revenue, expenses, and changes in net position on pages 47 through 50, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

Such information is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audits of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining schedules of revenue, expenses, and changes in net position are fairly stated in all material respects in relation to the basic financial statements as a whole.

#### ***Other Information***

Management is responsible for the other information included in the annual report. The other information comprises the introductory section on pages 1 through 3 but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

## Independent Auditor's Report, continued

### Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 21, 2024, on our consideration of the Watermaster's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Watermaster's internal control over financial reporting and compliance. This report can be found on pages 51 and 52.

**Chino Basin Watermaster**  
*Management's Discussion and Analysis*  
**For the Fiscal Years Ended June 30, 2024 and 2023**

The following Management's Discussion and Analysis (MD&A) of activities and financial performance of the Chino Basin Watermaster (Watermaster) provides an introduction to the financial statements of the Watermaster for the fiscal years ended June 30, 2024 and 2023. We encourage readers to consider the information presented here with additional information that we have furnished in conjunction with the transmittal letter in the Introductory Section and with the accompanying basic financial statements and related notes, which follow this section.

**Financial Highlights**

- In 2024, the Watermaster's net position decreased by 18.01% or \$2,345,775 to \$10,678,709 as a result of ongoing operations. In 2023, the Watermaster's net position increased by 22.07% or \$2,354,561 to \$13,024,484 as a result of ongoing operations. Please see Note 10 for further discussion.
- In 2024, the Watermaster's operating revenues decreased by 3.08% or \$330,749 to \$10,401,254. The Watermaster's operating revenues decreased by 2.79% or \$307,737 to \$10,732,003 in 2023.
- In 2024, the Watermaster's non-operating revenues increased by 113.47% or \$386,897 to \$727,866. The Watermaster's non-operating revenues increased by 100.00% or \$340,969 to \$340,969 in 2023.
- In 2024, the Watermaster's operating expenses increased by 39.68% or \$3,331,853 to \$11,728,422. The Watermaster's operating expenses decreased by 3.09% or \$267,312 to \$8,396,569 in 2023.
- In 2024, the Watermaster's non-operating expenses increased 778.87% or \$1,386,380 to \$1,564,380. The Watermaster's non-operating expenses decreased 68.69% or \$390,566 to \$178,000 in 2023.

**Required Financial Statements**

This annual report consists of a series of financial statements. The Statement of Net Position, Statement of Revenues, Expenses, and Changes in Net Position and Statement of Cash Flows provide information about the activities and performance of the Watermaster using accounting methods similar to those used by private sector companies.

The Statement of Net Position includes all of the Watermaster's investments in resources (assets), deferred outflows of resources, obligations to creditors (liabilities), and deferred inflows of resources. It also provides the basis for computing a rate of return, evaluating the capital structure of the Watermaster and assessing the liquidity and financial flexibility of the Watermaster. All of the current year's revenues and expenses are accounted for in the Statement of Revenues, Expenses, and Changes in Net Position. This statement measures the outcome of the Watermaster's operations over the past year and can be used to determine if the Watermaster has successfully recovered all of its costs through its rates and other charges. This statement can also be used to evaluate profitability and credit worthiness. The final required financial statement is the Statement of Cash Flows, which provides information about the Watermaster's cash receipts and cash payments during the reporting period. The Statement of Cash Flows reports cash receipts, cash payments, and net changes in cash resulting from operations, investing, non-capital financing, and capital and related financing activities and provides answers to such questions as where did cash come from, what was cash used for, and what was the change in cash balance during the reporting period.

**Financial Analysis of the Watermaster**

One of the most important questions asked about the Watermaster's finances is, "Is the Watermaster better off or worse off as a result of this year's activities?" The Statement of Net Position and the Statement of Revenues, Expenses, and Changes in Net Position report information about the Watermaster in a way that helps answer this question.

**Chino Basin Watermaster**  
**Management's Discussion and Analysis, continued**  
**For the Fiscal Years Ended June 30, 2024 and 2023**

**Financial Analysis of the Watermaster, continued**

These statements include all assets, deferred outflows of resources, liabilities, and deferred inflows of resources using the *accrual basis of accounting*, which is similar to the accounting method used by most private sector companies. All of the current year's revenues and expenses are taken into account regardless of when the cash is received or paid.

These two statements report the Watermaster's *net position* and changes in it. You can think of the Watermaster's net position – assets and deferred outflow of resources, less liabilities and deferred inflows of resources – as one way to measure the Watermaster's financial health, or *financial position*. Over time, *increases or decreases* in an organization's net position is one indicator of whether its *financial health* is improving or deteriorating. However, one will need to consider other non-financial factors such as changes in economic conditions, population growth, zoning, and new or changed government legislation, such as changes in federal and state water quality standards. The Watermaster is funded on an annual basis through a court-mandated process.

**Notes to the Basic Financial Statements**

The notes provide additional information that is essential to a full understanding of the data provided in the basic financial statements. The notes to the basic financial statements can be found on pages 17 through 42.

**Statements of Net Position**

<b>Condensed Statements of Net Position</b>					
	<u>2024</u>	<u>2023</u>	<u>Change</u>	<u>2022</u>	<u>Change</u>
<b>Assets:</b>					
Current assets	\$ 13,091,179	15,417,627	(2,326,448)	13,281,715	2,135,912
Capital assets, net	934,260	196,878	737,382	323,330	(126,452)
<b>Total assets</b>	<u>14,025,439</u>	<u>15,614,505</u>	<u>(1,589,066)</u>	<u>13,605,045</u>	<u>2,009,460</u>
<b>Deferred outflows of resources</b>	<u>902,988</u>	<u>863,919</u>	<u>39,069</u>	<u>431,688</u>	<u>432,231</u>
<b>Liabilities:</b>					
Current liabilities	1,141,456	718,737	422,719	1,018,738	(300,001)
Non-current liabilities	2,968,345	2,600,947	367,398	1,669,164	931,783
<b>Total liabilities</b>	<u>4,109,801</u>	<u>3,319,684</u>	<u>790,117</u>	<u>2,687,902</u>	<u>631,782</u>
<b>Deferred inflows of resources</b>	<u>139,917</u>	<u>134,256</u>	<u>5,661</u>	<u>9,861</u>	<u>124,395</u>
<b>Net position:</b>					
Net investment in capital assets	117,916	145,069	(27,153)	160,442	(15,373)
Unrestricted	10,560,793	12,879,415	(2,318,622)	10,509,481	2,369,934
<b>Total net position</b>	<u>\$ 10,678,709</u>	<u>13,024,484</u>	<u>(2,345,775)</u>	<u>10,669,923</u>	<u>2,354,561</u>

As noted earlier, net position may serve over time as a useful indicator of an organization's financial position. In the case of the Watermaster, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$10,678,709 and \$13,024,484 as of June 30, 2024 and 2023, respectively.

**Chino Basin Watermaster**  
**Management's Discussion and Analysis, continued**  
**For the Fiscal Years Ended June 30, 2024 and 2023**

**Statements of Net Position, continued**

Compared to prior year, net position of the Watermaster decreased 18.01% or \$2,345,775. The Watermaster's total net position is made up of three components: (1) net investment in capital assets, (2) restricted, and (3) unrestricted.

A portion of the Watermaster's net position, 1.10% and 1.11%, as of June 30, 2024 and 2023, respectively, reflects the Watermaster's investment in capital assets (net of accumulated depreciation) less any related debt (where applicable) used to acquire those assets that is still outstanding. The Watermaster uses these capital assets to provide services to customers within the Watermaster's service area; consequently, these assets are not available for future spending.

At the end of fiscal years 2024 and 2023, the Watermaster reflected a positive balance in its unrestricted net position of \$10,560,793 and \$12,879,415, respectively, that may be utilized in future years. See note 11 for further discussion.

**Statements of Revenues, Expenses, and Changes in Net Position**

**Condensed Statements of Revenues, Expenses, and Changes in Net Position**

	<u>2024</u>	<u>2023</u>	<u>Change</u>	<u>2022</u>	<u>Change</u>
<b>Revenues:</b>					
Operating revenues	\$ 10,401,254	10,732,003	(330,749)	11,039,740	(307,737)
Non-operating revenues	<u>727,866</u>	<u>340,969</u>	<u>386,897</u>	-	<u>340,969</u>
<b>Total revenues</b>	<u>11,129,120</u>	<u>11,072,972</u>	<u>56,148</u>	<u>11,039,740</u>	<u>33,232</u>
<b>Expenses:</b>

Depreciation	182,093	143,842	38,251	141,357	2,485
Non-operating expense	<u>1,564,380</u>	<u>178,000</u>	<u>1,386,380</u>	<u>568,566</u>	<u>(390,566)</u>
<b>Total expenses</b>	<u>13,474,895</u>	<u>8,718,411</u>	<u>4,756,484</u>	<u>9,373,804</u>	<u>(655,393)</u>
<b>Changes in net position</b>	(2,345,775)	2,354,561	(4,700,336)	1,665,936	688,625
<b>Net position, beginning of period, as restated (Note 10)</b>	<u>13,024,484</u>	<u>10,669,923</u>	<u>2,354,561</u>	<u>9,003,987</u>	<u>1,665,936</u>
<b>Net position, end of period</b>	<u>\$ 10,678,709</u>	<u>13,024,484</u>	<u>(2,345,775)</u>	<u>10,669,923</u>	<u>2,354,561</u>

The statements of revenues, expenses, and changes of net position show how the Watermaster's net position changed during the fiscal years. In the case of the Watermaster, net position decreased by 18.01% or \$2,345,775 to \$10,678,709 as a result of ongoing operations for the year ended June 30, 2024; and net position increased by 22.07% or \$2,354,561 to \$13,024,484 as a result of ongoing operations for the year ended June 30, 2023.

A closer examination of the sources of changes in net position reveals that:

In 2024, the Watermaster's total revenues increased 0.51% or \$56,148 to \$11,129,120. The Watermaster's operating revenues decreased by 3.08% or \$330,749 to \$10,401,254, due primarily to a decrease of \$359,646 in administrative assessments, which was offset by an increase of \$32,349 in replenishment water revenue. The Watermaster's non-operating revenues increased by 113.47% or \$386,897 to \$727,866, due to an increase in investment earnings, net of a year-end fair value adjustment for LAIF in the amount \$2,344.

**Chino Basin Watermaster**  
**Management's Discussion and Analysis, continued**  
**For the Fiscal Years Ended June 30, 2024 and 2023**

**Statements of Revenues, Expenses, and Changes in Net Position, continued**

In 2023, the Watermaster's total revenues increased 0.30% or \$33,232 to \$11,072,972. The Watermaster's operating revenues decreased by 2.79% or \$307,737 to \$10,732,003, due primarily to a decrease of \$1,376,213 in replenishment water revenue, which was offset by an increase of \$1,056,511 in administrative assessments. The Watermaster's non-operating revenues increased by 100.00% or \$340,969 to \$340,969, due to an increase in investment earnings, net of a year-end fair value adjustment for LAIF in the amount \$123,794.

In 2024, the Watermaster's total expenses increased 54.56% or \$4,756,484 to \$13,474,895. The Watermaster's operating expenses increased by 39.68% or \$3,331,853 to \$11,728,422, due primarily to increases of \$1,606,779 in groundwater replenishment and other water purchases, \$931,282 in optimum basin management plan, and \$821,319 in Watermaster administration. The Watermaster's non-operating expenses increased 778.87% or \$1,386,380 to \$1,564,380, primarily due to an increase of \$1,364,804 in reserve distribution expenses.

In 2023, the Watermaster's total expenses decreased 6.99% or \$655,393 to \$8,718,411. The Watermaster's operating expenses decreased by 3.09% or \$267,312 to \$8,396,569, due primarily to a decrease of \$1,303,798 in optimum basin management plan, which was offset by increases of \$653,842 in Watermaster administration, and \$278,982 in groundwater replenishment and other water purchases. The Watermaster's non-operating expenses decreased 68.69% or \$390,566 to \$178,000, primarily due to decreases of \$285,334 in reserve distribution expenses.

**Capital Asset Administration**

At the end of fiscal years 2024 and 2023, the Watermaster's investment in capital assets amounted to \$934,260 and \$196,878 (net of accumulated depreciation and amortization), respectively. This investment in capital assets includes leasehold improvements, office equipment, vehicles, leased building, and leased equipment. The capital assets of the Watermaster are more fully analyzed in note 3 to the basic financial statements.

Changes in capital assets in 2024 were as follows:

	<u>Balance 2023</u>	<u>Additions</u>	<u>Disposals/ Transfers</u>	<u>Balance 2024</u>
Capital assets:				
Depreciable assets	\$ 861,191	919,475	(355,479)	1,425,187
Accumulated depreciation	<u>(664,313)</u>	<u>(182,093)</u>	<u>355,479</u>	<u>(490,927)</u>
Total capital assets	<u>\$ 196,878</u>	<u>737,382</u>	<u>-</u>	<u>934,260</u>

Changes in capital assets in 2023 were as follows:

	<u>Balance 2022</u>	<u>Additions</u>	<u>Disposals/ Transfers</u>	<u>Balance 2023</u>
Capital assets:				
Depreciable assets	\$ 843,801	17,390	-	861,191
Accumulated depreciation	<u>(520,471)</u>	<u>(143,842)</u>	<u>-</u>	<u>(664,313)</u>
Total capital assets	<u>\$ 323,330</u>	<u>(126,452)</u>	<u>-</u>	<u>196,878</u>

*Management's Discussion and Analysis, continued*  
**For the Fiscal Years Ended June 30, 2024 and 2023**

**Conditions Affecting Current Financial Position**

Management is unaware of any conditions, which could have a significant impact on the Watermaster's current financial position, net position, or operating results in terms of past, present, and future.

**Requests for Information**

This financial report is designed to provide the Watermaster's present users, including funding sources, customers, stakeholders, and other interested parties with a general overview of the Watermaster's finances and to demonstrate Watermaster's accountability with an overview of Watermaster's financial operations and financial condition. Should the reader have questions regarding the information included in this report or wish to request additional financial information, please contact the Watermaster's Director of Administration, Anna Nelson, at Chino Basin Watermaster, 9641 San Bernardino Road, Rancho Cucamonga, CA 91730 or (909) 484-3888.

**Chino Basin Watermaster  
Notes to the Financial Statements  
For the Fiscal Years Ended June 30, 2024 and 2023**

**(1) Reporting Entity and Summary of Significant Accounting Policies**

**A. Organization and Operations of the Reporting Entity**

The Chino Basin Watermaster (“Watermaster”) was established under a judgment entered in the Superior Court of the State of California for the County of San Bernardino as a result of Case No. RCV 51010 (formerly Case No. SCV 164327) entitled “Chino Basin Municipal Water District v. City of Chino, et al.”, signed by the Honorable Judge Howard B. Weiner on January 27, 1978. The effective date of this Judgment for accounting and operations was July 1, 1977.

Pursuant to the Judgment, the Chino Basin Municipal Water District (CBMWD) five-member Board of Directors was initially appointed as “Watermaster”. Their term of appointment as Watermaster was for five years, and the Court, by subsequent orders, provided for successive terms, or for a successor Watermaster. Pursuant to a recommendation of the Advisory Committee, the Honorable J. Michael Gunn appointed a nine-member board as Watermaster on September 28, 2000. Under the Judgment, three Pool committees were formed: (1) Overlying (Agricultural) Pool which includes the State of California and all producers of water for overlying uses other than industrial or commercial purposes; (2) Overlying (Non-Agricultural) Pool which represents producers of water for overlying industrial or commercial purposes; and (3) Appropriative Pool which represents cities, districts, other public or private entities, and utilities. The three Pool committees act together to form the “Advisory Committee.” The Watermaster provides the Chino Groundwater Basin service area with services which primarily include: Accounting for water appropriations and components of acre-footage of stored water by agency, purchase of replenishment water, groundwater monitoring, and implementation of special projects.

Watermaster expenditures are allocated to the pools based on the prior year’s production volume (or the same percentage used to set the annual assessments). Allocations for fiscal year 2023-2024 expenses are based on the 2022-2023 production volume.

<u>Production volume</u>	<u>Fiscal Year 2024</u>		<u>Fiscal Year 2023</u>	
	<u>Acre Feet</u>	<u>Percentage</u>	<u>Acre Feet</u>	<u>Percentage</u>
Appropriative Pool	54,722	72.65%	68,788	77.41%
Agricultural Pool	17,717	23.52%	17,082	19.22%
Non-agricultural Pool	2,879	3.82%	2,995	3.37%
Total production volume	<u>75,318</u>	<u>100.00%</u>	<u>88,865</u>	<u>100.00%</u>

The Agricultural Pool members ratified an agreement with the Appropriative Pool at their meeting of June 16, 1988, wherein the Appropriative Pool assumes Agricultural Pool administrative expenses and special project cost allocations in exchange for an accelerated transfer of un-pumped agricultural water to the Appropriative Pool. In addition, the Agricultural Pool transferred all pool administrative reserves at June 30, 1988, to the Appropriative Pool effective July 1, 1988.

In July of 2000, the principal parties in the Basin signed an agreement, known as the Peace Agreement, which formalized the Basin parties' commitment to implement an Optimum Basin Management Program (OBMP). The OBMP was developed in a collaborative public process that identified the needs and wants of all stakeholders; described the physical state of the groundwater basin; developed a set of management goals; identified impediments to those goals; described a series of actions that could be taken to remove those impediments and achieve the management goals; developed and executed agreements to implement the OBMP; and certified a programmatic Environmental Impact Report (PEIR) pursuant to CEQA with IEUA as the lead Agency. The Peace Agreement was signed by all the parties, and the Court approved the agreement and ordered the Watermaster to proceed in accordance with the terms of the agreement.

**Chino Basin Watermaster**  
**Notes to the Financial Statements, continued**  
**For the Fiscal Years Ended June 30, 2024 and 2023**

**(1) Reporting Entity and Summary of Significant Accounting Policies, continued**

**A. Organization and Operations of the Reporting Entity, continued**

In 2019, with a nearly two-decade-old “2000 OBMP,” the “2020 OBMP Update (2020 OBMPU)” was begun. This entailed a multi-stakeholder collaborative process wherein Watermaster hosted many Listening Sessions to bring the 20-year old planning document up to date. The process acknowledged the new challenges and opportunities that the region faced and provided solutions through collaboration. The multi-stakeholder effort concluded in the finalization of the 2020 OBMPU Report in October of 2020 setting the framework of basin management into the foreseeable future. A Subsequent Environmental Impact Report (SEIR) in support of the 2020 OBMPU was certified pursuant to Section 15088.5 of CEQA guidelines by IEUA as the lead agency.

**B. Basis of Accounting and Measurement Focus**

The Watermaster reports its activities as an enterprise fund, which is used to account for operations that are financed and operated in a manner similar to a private business enterprise, where the intent of the Watermaster is that the costs of providing water to its service area on a continuing basis be financed or recovered primarily through user charges (water sales), capital grants, and similar funding. Revenues and expenses are recognized on the full accrual basis of accounting. Revenues are recognized in the accounting period in which they are earned, and expenses are recognized in the period incurred, regardless of when the related cash flows take place.

Operating revenues and expenses, such as replenishment water revenues and groundwater replenishment, result from exchange transactions associated with the principal activity of the Watermaster. Exchange transactions are those in which each party receives and gives up essentially equal values. Management, administration, and depreciation expenses are also considered operating expenses. Other revenues and expenses not included in the above categories are reported as non-operating revenues and expenses.

**C. Financial Reporting**

The Watermaster’s basic financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP), as applied to enterprise funds. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The Watermaster solely operates as a special-purpose government which means it is only engaged in business-type activities; accordingly, activities are reported in the Watermaster’s proprietary fund.

The Watermaster has adopted the following GASB pronouncements in the current year:

In April 2022, the GASB issued Statement No. 99 – *Omnibus 2022*. The objectives of this Statement are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing (1) practice issues that have been identified during implementation and application of certain GASB Statements and (2) accounting and financial reporting for financial guarantees.

The requirements of this Statement will enhance comparability in the application of accounting and financial reporting requirements and will improve the consistency of authoritative literature. Consistent authoritative literature enables governments and other stakeholders to locate and apply the correct accounting and financial reporting provisions, which improves the consistency with which such provisions are applied. The comparability of financial statements also will improve as a result of this Statement. Better consistency and comparability improve the usefulness of information for users of state and local government financial statements.

The requirements of this Statement are effective for fiscal years beginning after June 15, 2023, and all reporting periods thereafter. Earlier application is encouraged.

**Chino Basin Watermaster**  
**Notes to the Financial Statements, continued**  
**For the Fiscal Years Ended June 30, 2024 and 2023**

**(1) Reporting Entity and Summary of Significant Accounting Policies, continued**

**C. Financial Reporting, continued**

In June 2022, the GASB issued Statement No. 100 – *Accounting Changes and Error Corrections – An Amendment of GASB Statement No. 62*. The primary objective of this Statement is to enhance accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessing accountability.

This Statement defines accounting changes as changes in accounting principles, changes in accounting estimates, and changes to or within the financial reporting entity and describes the transactions or other events that constitute those changes. As part of those descriptions, for (1) certain changes in accounting principles and (2) certain changes in accounting estimates that result from a change in measurement methodology, a new principle or methodology should be justified on the basis that it is preferable to the principle or methodology used before the change. That preferability should be based on the qualitative characteristics of financial reporting—understandability, reliability, relevance, timeliness, consistency, and comparability. This Statement also addresses corrections of errors in previously issued financial statements.

The requirements of this Statement will improve the clarity of the accounting and financial reporting requirements for accounting changes and error corrections, which will result in greater consistency in application in practice. In turn, more understandable, reliable, relevant, consistent, and comparable information will be provided to financial statement users for making decisions or assessing accountability. In addition, the display and note disclosure requirements will result in more consistent, decision useful, understandable, and comprehensive information for users about accounting changes and error corrections.

The requirements of this Statement are effective for accounting changes and error corrections made in fiscal years beginning after June 15, 2023, and all reporting periods thereafter. Earlier application is encouraged.

**D. Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Net Position**

**1. Use of Estimates**

The preparation of the basic financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows, liabilities, and deferred inflows, and disclosures of contingent assets, deferred outflows, liabilities, and deferred inflows at the date of the financial statements and the reported changes in net position during the reporting period. Actual results could differ from those estimates.

**2. Cash and Cash Equivalents**

Substantially all the Watermaster’s cash is invested in interest-bearing accounts. The Watermaster considers all highly liquid investments with a maturity of three months or less to be cash equivalents.

**3. Investments**

The Watermaster has adopted an investment policy directing the General Manager to invest and reinvest funds subject to the provisions of the Watermaster’s Investment Policy and the ongoing review and control of the Watermaster and the Watermaster Advisory Committee in accordance with California Government Code section 53600.

Changes in fair value that occur during a fiscal year are recognized as investment income reported for that fiscal year. Investment income includes interest earnings, changes in fair value, and any gains or losses realized upon the liquidation or sale of investments.

**Chino Basin Watermaster**  
**Notes to the Financial Statements, continued**  
**For the Fiscal Years Ended June 30, 2024 and 2023**

**(1) Reporting Entity and Summary of Significant Accounting Policies, continued**

**D. Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Net Position**

**4. Accounts Receivable and Allowance for Uncollectible Accounts**

The Watermaster extends credit to customers in the normal course of operations. Management has determined that all amounts are considered collectable. As a result, the Watermaster has not recorded an allowance for doubtful accounts as of June 30, 2024 and 2023, respectively.

**5. Prepaid Expenses**

Certain payments to vendors reflect costs or deposits applicable to future accounting periods and are recorded as prepaid items in the basic financial statements.

**6. Capital Assets**

Capital assets acquired and/or constructed are capitalized at historical cost. Donated assets are recorded at estimated fair market value at the date of donation. Upon retirement or other disposition of capital assets, the cost and related accumulated depreciation are removed from the respective balances and any gains or losses are recognized.

Depreciation is recorded on a straight-line basis over the estimated useful lives of the assets as follows:

Computer equipment and software	5 years
Office furniture and fixtures	7 years
Leasehold improvements	10 years
Automotive equipment	7 years

Leased assets are amortized on a straight-line basis over the life of the lease term.

**7. Deferred Outflows of Resources**

The statements of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents the consumption of net assets applicable to future periods and, therefore, will not be recognized as an outflow of resources (expenditure) until that time. The Watermaster has the following items that qualify for reporting in this category:

*Post-Employment Benefits Other Than Pensions (OPEB)*

- Deferred outflow for the net change in assumptions which will be amortized over a closed period equal to the average of the expected remaining service lives of all employees that are provided with post-employment benefits through the Plan.
- Deferred outflow which is equal to the employer contributions made after the measurement date of the total OPEB liability. This amount will be amortized-in-full against the total OPEB liability in the next fiscal year.

*Pensions*

- Deferred outflow which is equal to the employer contributions made after the measurement date of the net pension liability. This amount will be amortized-in-full against the net pension liability in the next fiscal year.
- Deferred outflow for the net difference between the actual and expected experience which will be amortized over a closed period equal to the average of the expected remaining service lives of all employees that are provided with pensions through the Plan.

**Chino Basin Watermaster**  
**Notes to the Financial Statements, continued**  
**For the Fiscal Years Ended June 30, 2024 and 2023**

**(1) Reporting Entity and Summary of Significant Accounting Policies, continued**

**D. Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Net Position**

**7. Deferred Outflows of Resources, continued**

*Pensions*

- Deferred outflow for the net difference in actual and proportionate share of employer contribution which will be amortized over a closed period equal to the average of the expected remaining service lives of all employees that are provided with pensions through the Plan.
- Deferred outflow for the net adjustment due to the changes in proportions of the net pension liability which will be amortized over a closed period equal to the average of the expected remaining service lives of all employees that are provided with pensions through the Plan.

**8. Compensated Absences**

The Watermaster's policy is to permit eligible employees to accumulate earned vacation up to a total of 320 hours. Employees may receive pay in lieu of using vacation for up to one-half of their annual vacation accrual if: (1) within the prior twelve months, the employee has used vacation in an amount equal to at least half of their annual vacation accrual rate; and (2) the employee has a minimum remaining accrued vacation balance of at least 40 hours. Eligible employees accrue and accumulate sick leave based on Watermaster policy. Twice a year, employees may buy-back accrued sick leave at 50% of their current pay provided that at least 480 hours of accrued sick leave remain after the cash-out. Upon termination of employment, employees are paid all unused vacation. Unused sick time is paid out based on Watermaster policy.

**9. Pensions**

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Watermaster's California Public Employees' Retirement System (CalPERS) plans (Plans) and addition to/deduction from the Plans' fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

GASB 68 requires that the reported results must pertain to liability and asset information within certain defined timeframes. For this report, the following timeframes are used:

- Valuation Dates: June 30, 2022 and 2021
- Measurement Dates: June 30, 2023 and 2022
- Measurement Periods: July 1, 2022 to June 30, 2023 and July 1, 2021 to June 30, 2022

**10. Deferred Inflows of Resources**

The statements of net position will sometimes report a separate section for deferred inflows of resources. This financial statement element, deferred inflows of resources, represents an acquisition of net assets applicable to future periods and, therefore, will not be recognized as an inflow of resources (revenue) until that time. The Watermaster has the following items that qualify for reporting in this category:

*Post-Employment Benefits Other Than Pensions (OPEB)*

- Deferred inflow for the net difference between the actual and expected experience which will be amortized over a closed period equal to the average of the expected remaining service lives of all employees that are provided with post-employment benefits through the Plan.

**(1) Reporting Entity and Summary of Significant Accounting Policies, continued**

**D. Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Net Position**

**10. Deferred Inflows of Resources, continued**

*Pensions*

- Deferred inflow for the net difference in projected and actual earnings on investments of the pension plan fiduciary net position. This amount is amortized over a 5-year period.

**11. Lease payable**

The Watermaster’s lease obligation is measured at the present value of payments expected to be paid during the lease term.

**12. Water Production Assessments**

Water Production Assessment categories include Administration, Optimum Basin Management Program, Special Projects, and Water Replenishment. Assessments are billed on a yearly basis.

**13. Budgetary Policies**

The Watermaster adopts an annual operational budget for planning, control, and evaluation purposes. Budgetary control and evaluation are affected by comparisons of actual revenues and expenses with planned revenues and expenses for the period. Encumbrance accounting is not used to account for commitments related to unperformed contracts for construction and services.

**14. Net Position**

The financial statements utilize a net position presentation. Net position is categorized as follows:

- **Net investment in capital assets** – This component of net position consists of capital assets, net of accumulated depreciation and amortization, and reduced by outstanding balances of any debt, or other long-term borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- **Restricted** – This component of net position consists of assets that have restrictions placed upon their use by external constraints imposed either by creditors (debt covenants), grantors, contributors, or laws and regulations of other governments or constraints imposed by law through enabling legislation.
- **Unrestricted** – This component of net position consists of the net amount of assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of the net *investment in capital assets* or *restricted* components of net position.

**(2) Cash and Investments**

Cash and investments as of June 30 are classified in the accompanying financial statements as follows:

	2024	2023
Cash and investments	\$ 11,693,858	13,717,687
Total cash and investments	\$ 11,693,858	13,717,687

**Chino Basin Watermaster**  
**Notes to the Financial Statements, continued**  
**For the Fiscal Years Ended June 30, 2024 and 2023**

**(2) Cash and Investments, continued**

Cash and investments as of June 30 consist of the following:

	<b>2024</b>	<b>2023</b>
Cash on hand	\$ 302	500
Deposits with financial institutions	610,770	604,495
California CLASS Investment Pool	10,448,927	5,076,824
Local Agency Investment Fund (LAIF)	633,859	8,035,868
Total cash and investments	\$ 11,693,858	13,717,687

As of June 30, Watermaster's authorized deposits had the following maturities:

	<b>2024</b>	<b>2023</b>
Deposits in California CLASS Investment Pool	75 days	76 days
Deposits in California Local Agency Investment Fund (LAIF)	217 days	260 days

***Investments Authorized by the California Government Code and the Watermaster's Investment Policy***

The table below identifies the investment types that are authorized by the Watermaster in accordance with the California Government Code (or the Watermaster's investment policy, where more restrictive). The table also identifies certain provisions of the California Government Code (or the Watermaster's investment policy, where more restrictive) that address interest rate risk, credit risk, and concentration of credit risk.

<b>Authorized Investment Type</b>	<b>Maximum Maturity</b>	<b>Maximum Percentage of Portfolio</b>	<b>Maximum Investment in One Issuer</b>
Local Agency Bonds	5 years	None	None
U.S. Treasury Obligations	5 years	None	None
State Obligations - CA and Others	5 years	None	None
CA Local Agency Obligations	5 years	None	None

**Notes to the Financial Statements, continued**  
**For the Fiscal Years Ended June 30, 2024 and 2023**

**(2) Cash and Investments, continued**

***Investment in California State Investment Pool***

The Watermaster is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by the California Government Code Section 16429 and is under the management of the Treasurer of the State of California with oversight provided by the Local Agency Investment Advisory Board. The fair value of the Watermaster's investment in this pool is reported in the accompanying financial statements at amounts based upon the Watermaster's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis.

Bank balances are secured by the pledging of a pool of eligible securities to collateralize the Watermaster's deposits with the bank in accordance with the Code.

The pool portfolio is invested in a manner that meets the maturity, quality, diversification, and liquidity requirements set forth by GASB 79 for external investment pools that elect to measure, for financial reporting purposes, investments at amortized cost. LAIF does not have any legally binding guarantees of share values. LAIF does not impose liquidity fees or redemption gates on participant withdrawals.

***Investment in California CLASS***

The Watermaster is a voluntary participant in the California CLASS (CLASS) that is regulated by the California Government Code Section 16429 and is a Joint Powers Authority investment pool that provides the opportunity to invest funds on a cooperative basis in rated pools that are managed in accordance with state law with the primary objectives of offering Participants safety, daily, and next day liquidity, and optimized returns.

The fair value of the Watermaster's investment in this pool is reported in the accompanying financial statements at amounts based upon the Watermaster's pro-rata share of the fair value provided by CLASS for the entire CLASS portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by the CLASS, which are recorded on an amortized cost basis. Bank balances are secured by the pledging of a pool of eligible securities to collateralize the Watermaster's deposits with the bank in accordance with the Code.

***Custodial Credit Risk***

The custodial credit risk for *deposits* is the risk that, in the event of failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party.

The custodial credit risk for *investments* is the risk that, in the event of failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. With respect to investments, custodial credit risk generally applies only to direct investments in marketable securities. Custodial credit risk does not apply to a local government's indirect investment in securities through the use of mutual funds or government investment pools (such as LAIF). The California Government Code and the Watermaster's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits or investments, other than the following provision for deposits: The California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by public agencies. California law also allows financial institutions to secure Watermaster deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits. As of June 30, 2024 and 2023, bank balances are federally insured up to \$250,000 and the remaining balance is collateralized in accordance with the Code.

**Chino Basin Watermaster**  
**Notes to the Financial Statements, continued**  
**For the Fiscal Years Ended June 30, 2024 and 2023**

**(2) Cash and Investments, continued**

***Interest Rate Risk***

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment the greater the sensitivity of its fair value to changes in market interest rates. One of the ways that the Watermaster manages its exposure to interest rate risk is by purchasing a combination of shorter term and longer term investments and by timing cash flows from maturities so that a portion of the portfolio matures or comes close to maturity evenly over time as necessary to provide for cash flow requirements and liquidity needed for operations.

***Credit Risk***

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization.

Presented below is the minimum rating required by the California Government Code (where applicable), the District's investment policy, or debt agreements, and the actual rating as of year-end for each investment type.

Investment Type	Total	Minimum Legal Rating	Ratings as of year-end	
			S&P Global Ratings AAAm	Not Rated
California CLASS	\$ 10,448,927	AAAm	10,448,927	-
Local Agency Investment Fund (LAIF)	633,859	N/A	-	633,859
	<u>\$ 11,082,786</u>		<u>10,448,927</u>	<u>633,859</u>

***Concentration of Credit Risk***

The Watermaster's investment policy contains no limitations on the amounts that can be invested in any one issuer as beyond that stipulated by the California Government Code. There were no investments in any one issuer (other than external investment pools) that represented 5% or more of total Watermaster's investment at June 30, 2024 and 2023.

**(3) Compensated Absences**

Changes to compensated absences for 2024 were as follows:

Balance 2023	Additions	Deletions	Balance 2024	Due Within One Year	Due in more than one year
\$ 311,114	134,310	(289,724)	155,700	54,495	101,205

Changes to compensated absences for 2023 were as follows:

**Chino Basin Watermaster**  
**Notes to the Financial Statements, continued**  
**For the Fiscal Years Ended June 30, 2024 and 2023**

**(5) Leases Payable, continued**

***Cucamonga Valley Water District – Office Building***

In September 2003, the Watermaster entered into an agreement with Cucamonga Valley Water District (District) to rent office building space for the purpose of providing an administrative headquarters location for the Watermaster. Terms of the agreement commenced on September 1, 2003 with an initial 10 year term with automatic extension for 3 periods of 5 years through August 30, 2023. Terms of the agreement include base rent is due monthly at \$4,900 per month due on the 1<sup>st</sup> of each month. Base rent is adjusted annually based on the Consumer Price Index for Riverside and San Bernardino County.

In August 2023, the Watermaster amended its agreement with the District. Terms of the agreement commenced on September 1, 2023 and continue through August 31, 2030. Terms of the agreement include base rent is due monthly at \$11,727 per month due on the 1<sup>st</sup> of each month. Commencing with the first day of the thirteenth month of the lease term, the monthly rent payable under this agreement shall be adjusted on an annual basis thereafter in accordance with the applicable Consumer Price Index of the Bureau of Labor Statistics of the Department of Labor for all Urban Consumers, Riverside-San Bernardino-Ontario (“CPI”). As of June 30, 2024 and 2023, rental payments amounted to \$132,407 and \$95,635, respectively. The Watermaster recorded a right-to-use asset and a lease payable at present value using an interest rate of 2.42%. The right-to-use asset is amortized on a straight-line basis over the term of the lease.

Annual lease payments are as follows:

<u>Year</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2025	\$ 121,436	19,288	140,724
2026	124,374	16,350	140,724
2027	127,384	13,340	140,724
2028	130,467	10,257	140,724
2029	133,624	7,100	140,724
2030-2031	<u>159,758</u>	<u>4,420</u>	<u>164,178</u>
Total	797,043	<u>70,755</u>	<u>867,798</u>
Current	<u>(121,436)</u>		
Long-term	\$ <u>675,607</u>		

***Advanced Office – Ricoh Copiers***

In October 2019, the Watermaster entered into an agreement with Advanced Office for the purpose of acquiring two Ricoh copy machines. Terms of the agreement commenced in July 2019 and matures in August 2025. As of June 30, 2024 and 2023, rental payments amounted to \$17,338 and \$16,065, respectively.

Following the guidelines of *GASB Statement No. 87*, the Watermaster recorded a right-to-use asset and a lease payable at present value using an interest rate of 2.40%. The right-to-use asset is amortized on a straight-line basis over the term of the lease.

**Notes to the Financial Statements, continued**  
**For the Fiscal Years Ended June 30, 2024 and 2023**

**(5) Leases Payable, continued**

*Advanced Office – Ricoh Copiers*

Annual lease payments are as follows:

Year	Principal	Interest	Total
2025	\$ 16,511	282	16,793
2026	2,790	8	2,798
Total	19,301	290	19,591
Current	(16,511)		
Long-term	\$ 2,790		

**(6) Other Post-Employment Benefits Payable**

*Plan Description*

The Watermaster’s defined benefit other post-employment benefit (OPEB) plan (Plan) provides OPEB for all permanent and vested full-time employees. The Plan is a single-employer defined benefit OPEB plan administered by the Watermaster. The Watermaster’s Board has the authority to establish and amend the benefit terms and financing requirements of the Plan. Watermaster participates in a CalPERS Health Program, a community-rated program for its medical coverage. Watermaster does not have an OPEB trust established and no assets are accumulated in a trust that meets the criteria in paragraph 4 of Statement 75.

*Benefits Provided*

The Plan provides a contribution up to the CalPERS PEMCHA minimum employer contribution for eligible retirees and surviving spouses in receipt of a pension benefit from CalPERS. An employee is eligible for this employer contribution provided they are vested in their CalPERS pension benefit and commence payment of their pension benefit within 120 days of retirement from the Watermaster.

Vesting requires at least 5 years of CalPERS total service. The surviving spouse of an eligible retiree who elected spouse coverage under CalPERS is eligible for the employer contribution upon death of the retiree. Board members during or prior to 1994 are also eligible for Watermaster contribution at retirement.

*Employee Covered by Benefit Terms*

As of June 30, 2024 and 2023, the following employees were covered by the benefit terms:

	2024	2023
Active employees	9	10
Inactive employees or beneficiaries currently receiving benefit payments	3	2
Total plan membership	12	12

*Total OPEB Liability*

The Watermaster’s total OPEB liability of \$275,478 and \$269,751 was measured as of December 31, 2023 and 2022, respectively, and was determined by an actuarial valuation as of December 31, 2023 and 2021.

**Chino Basin Watermaster**  
**Notes to the Financial Statements, continued**

***OPEB Expense and Deferred Outflows and Inflows of Resources Related to OPEB***

For the fiscal years ended June 30, 2024 and 2023, the Watermaster recognized OPEB expense of \$7,671 and \$15,969, respectively. As of June 30, the Watermaster reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

<u>Description</u>	<u>2024</u>		<u>2023</u>	
	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Change in assumptions	\$ 73,897	(49,539)	58,103	(20,580)
Difference between actual and expected experience	17,158	(90,378)	19,509	(103,950)
Contributions subsequent to measurement date	-	-	-	-
Total	<u>\$ 91,055</u>	<u>(139,917)</u>	<u>77,612</u>	<u>(124,530)</u>

At June 30, 2024, there were amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB which are required to be recognized in OPEB expense over future periods. OPEB related amounts will be recognized as OPEB expense as follows:

<u>Fiscal Year Ending June 30</u>	<u>Deferred Net Outflows/(Inflow) of Resources</u>
2025	(7,216)
2026	(4,706)
2027	(4,706)
2028	(4,706)
2029	(4,706)
Thereafter	(22,822)

***Schedule of Changes in the Watermaster's Total OPEB Liability and Related Ratios***

See page 43 for the Required Supplementary Schedule.

**(7) Defined Benefit Pension Plan**

***Plan Description***

All qualified permanent and probationary employees are eligible to participate in the Watermaster's Miscellaneous Employee Pension Plan, cost-sharing multiple employer defined benefit pension plan administered by the California Public Employees' Retirement System (CalPERS). Benefit provisions under the Plan are established by State statute and Watermaster's resolution. CalPERS issues publicly available reports that include a full description of the pension plan regarding benefit provisions, assumptions, and membership information that can be found on the CalPERS website.

**Chino Basin Watermaster**  
**Notes to the Financial Statements, continued**  
**For the Fiscal Years Ended June 30, 2024 and 2023**

**(7) Defined Benefit Pension Plan, continued**

***Benefits Provided***

CalPERS provides service retirement and disability benefits, annual cost of living adjustments, and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full time employment. Members with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after 10 years of service. The death benefit is one of the following: The Basic Death Benefit, the 1957 Survivor Benefit, or the Optional Settlement 2W Death Benefit. Cost of living adjustments for each plan are applied as specified by the Public Employees' Retirement Law.

On September 12, 2012, the California Governor signed the California Public Employees' Pension Reform Act of 2013 (PEPRA) into law. PEPRA took effect January 1, 2013. The new legislation closed the Watermaster's CalPERS 2.5% at 55 Risk Pool Retirement Plan to new employee entrants effective December 31, 2012. All employees hired after January 1, 2013 are eligible for the Watermaster's CalPERS 2.0% at 62 Retirement Plan under PEPRA.

***Benefits provided, continued***

The Watermaster participates in the Plan's miscellaneous risk pool. The provisions and benefits for the Plan's miscellaneous risk pool in effect at June 30, 2024 and 2023, are summarized as follows:

	<b>Miscellaneous Plan</b>	
	<b>Classic</b>	<b>PEPRA</b>
	Prior to January 1, 2013	On or after January 1, 2013
Hire date		
Benefit formula	2.5% @ 55	2.0% @ 62
Benefit vesting schedule	5 years of service	
Benefit payments	monthly for life	
Retirement age	50 - 55	52 - 67
Monthly benefits, as a percentage of eligible compensation	2.0% to 2.5%	1.0% to 2.5%
Required employee contribution rates		
2024	7.96%	7.75%
2023	7.96%	6.75%
Required employer contribution rates		
2024	14.06%	7.68%
2023	12.21%	7.47%

***Contributions***

Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates, for all public employers, be determined on an annual basis by the actuary and shall be effective on July 1 following notice of the change in rate. Funding contributions for the Plan is determined annually on an actuarial basis as of June 30 by CalPERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The Watermaster is required to contribute the difference between the actuarially determined rate and the contribution rate of employees.

**Chino Basin Watermaster**  
**Notes to the Financial Statements, continued**  
**For the Fiscal Years Ended June 30, 2024 and 2023**

**(7) Defined Benefit Pension Plan, continued**

***Contributions, continued***

For the years ended June 30, the contributions recognized as part of pension expense for the Plan were as follows:

	<b>Miscellaneous</b>	
	<b>2024</b>	<b>2023</b>
Contributions – employer	\$ 282,363	258,881

***Net Pension Liability***

As of June 30, the Watermaster reported net pension liabilities for its proportionate share of the net pension liability of the Plan as follows:

	<b>2024</b>	<b>2023</b>
Proportionate share of net pension liability	\$ 1,913,265	1,720,196

The Watermaster’s net pension liability for the Plan is measured as the proportionate share of the net pension liability. The net pension liability of the Plan is measured as of June 30, 2023 and 2022 (the measurement dates), and the total pension liability for the Plan used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2022 and 2021 (the valuation dates), rolled forward to June 30, 2023 and 2022, using standard update procedures.

The Watermaster’s proportion of the net pension liability was based on a projection of the Watermaster’s long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined.

The Watermaster’s proportionate share of the pension liability for the Plan’s miscellaneous risk pool as of the measurement date June 30, 2023 was as follows:

	<b>Miscellaneous</b>
Proportion – June 30, 2022	0.01489%
Increase in proportion	0.00044%
Proportion – June 30, 2023	0.01534%

The Watermaster’s proportionate share of the pension liability for the Plan’s miscellaneous risk pool as of the measurement date June 30, 2022 was as follows:

	<b>Miscellaneous</b>
Proportion – June 30, 2021	0.01435%
Increase in proportion	0.00054%
Proportion – June 30, 2022	0.01489%

***Deferred Pension Outflows (Inflows) of Resources***

For the fiscal years ended June 30, 2024 and 2023, the Watermaster recognized pension expense (credit) of \$157,717 and \$(106,211), respectively.

**Chino Basin Watermaster**  
**Notes to the Financial Statements, continued**  
**For the Fiscal Years Ended June 30, 2024 and 2023**

**(7) Defined Benefit Pension Plan, continued**

***Deferred Pension Outflows (Inflows) of Resources, continued***

At June 30, 2024, other amounts reported as deferred outflows and inflows of resources related to the pensions, which will be recognized as pension expense as follows:

<u>Fiscal Year Ending June 30,</u>	<u>Deferred Net Outflows/(Inflows) of Resources</u>
2025	\$ 176,345
2026	120,372
2027	252,781
2028	8,890

As of June 30, 2024 and 2023, employer pension contributions reported as deferred outflows of resources related to contributions subsequent to the measurement date of \$253,545 and \$282,363, respectively, and will be and were recognized as a reduction of the net pension liability in the fiscal years ended June 30, 2025 and 2024, respectively.

As of June 30, 2024 and 2023, the Watermaster reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

<u>Description</u>	<u>2024</u>		<u>2023</u>	
	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Pension contributions subsequent to the measurement date	\$ 253,545	-	282,363	-
Differences between actual and expected experience	82,578	-	11,408	-
Changes in assumptions	115,512	-	176,270	-
Net difference between projected and actual earnings on plan investments	309,775	-	315,094	-
Differences between actual contribution and proportionate share of contribution	20,077	-	-	(9,726)
Net adjustment due to differences in proportions of net pension liability	30,446	-	1,172	-
Total	<u>\$ 811,933</u>	<u>-</u>	<u>786,307</u>	<u>(9,726)</u>

**Chino Basin Watermaster**  
**Notes to the Financial Statements, continued**  
**For the Fiscal Years Ended June 30, 2024 and 2023**

**(7) Defined Benefit Pension Plan, continued**

***Actuarial assumptions***

The total pension liabilities in the June 30, 2022 and 2021, actuarial valuations were determined using the following actuarial assumptions and methods:

Valuation dates	June 30, 2021 and 2022
Measurement dates	June 30, 2022 and 2023
Actuarial cost method	Entry Age Normal in accordance with the requirements of GASB Statement No. 68
Actuarial assumptions:	
Discount rate	2022: 7.15% and 2023: 6.90%
Inflation rate	2022: 2.50% and 2023: 2.30%
Salary increases	Varies by Entry Age and Service
Mortality Rate Table*	Derived using CalPERS' Membership Data for all Funds
Period Upon Which Actuarial Experience Survey Assumptions Were Based	1997-2015
Post Retirement Benefit Increase	Contract COLA up to 2.50% (2023) and 2.30% (2022) until Purchasing Power Protection Allowance Floor on Purchasing Power applies

\* The mortality table used was developed based on CalPERS' specific data. The rates incorporate Generational Mortality to capture ongoing mortality improvements using 80% of Scale MP 2020, published by the Society of Actuaries. For more details on this table, please refer to the 2021 experience study that can be found on the CalPERS website.

***Pension Plan Fiduciary Net Position***

Detailed information about the pension plan's fiduciary net position is available in separately issued CalPERS financial reports. See pages 44 through 46 for the Required Supplementary Information.

***Discount Rate***

The discount rate used to measure the total pension liability for PERF C was 6.90%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability. This discount rate is not adjusted for administrative expenses.

In determining the long-term expected rate of return, CalPERS took into account long-term market return expectations as well as the expected pension fund cash flows. Projected returns for all asset classes are estimated and, combined with risk estimates, are used to project compound (geometric) returns over the long term. The discount rate used to discount liabilities was informed by the long-term projected portfolio return.

**Chino Basin Watermaster**  
**Notes to the Financial Statements, continued**  
**For the Fiscal Years Ended June 30, 2024 and 2023**

**(7) Defined Benefit Pension Plan, continued**

***Discount Rate, continued***

The table below reflects the expected real rates of return by asset class.

<u>Asset Class</u>	<u>Assumed Asset Classification</u>	<u>Real Return 1-10<sup>1,2</sup></u>
Global Equity - Cap-weighted	30.00%	4.54%
Global Equity Non-Cap-weighted	12.00%	3.84%
Private Equity	13.00%	7.28%
Treasury	5.00%	0.27%
Mortgage-backed Securities	5.00%	0.50%
Investment Grade Corporates	10.00%	1.56%
High Yield	5.00%	2.27%
Emerging Market Debt	5.00%	2.48%
Private Debt	5.00%	3.57%
Real Assets	15.00%	3.21%
Leverage	-5.00%	-0.59%

<sup>1</sup> An expected inflation of 2.30% used for this period.

<sup>2</sup> Figures are based on the 2021-22 Asset Liability Management Study.

***Sensitivity of the Proportionate Share of Net Pension Liability to Changes in the Discount Rate***

The following table presents the Watermaster's proportionate share of the net position liability for the Plan, calculated using the discount rate, as well as what the Watermaster's proportional share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate.

As of June 30, 2024, the Watermaster's net pension liability at the current discount rate, using a discount rate that is one-percentage point lower, and using a discount rate that is one-percentage point higher, is as follows:

	<u>Discount Rate - 1%</u>	<u>Current Discount Rate</u>	<u>Discount Rate + 1%</u>
	<u>5.90%</u>	<u>6.90%</u>	<u>7.90%</u>
Net pension liability	\$ <u>2,968,140</u>	<u>1,913,265</u>	<u>1,045,012</u>

As of June 30, 2023, the Watermaster's net pension liability at the current discount rate, using a discount rate that is one-percentage point lower, and using a discount rate that is one-percentage point higher, is as follows:

	<u>Discount Rate - 1%</u>	<u>Current Discount Rate</u>	<u>Discount Rate + 1%</u>
	<u>5.90%</u>	<u>6.90%</u>	<u>7.90%</u>
Net pension liability	\$ <u>2,692,428</u>	<u>1,720,196</u>	<u>920,289</u>

**Chino Basin Watermaster**  
**Notes to the Financial Statements, continued**  
**For the Fiscal Years Ended June 30, 2024 and 2023**

**(8) Nonqualified Employee Compensation Plan**

Effective June 1, 2015, the Watermaster established a Nonqualified Deferred Compensation Plan (Plan). The purpose of this Plan is to provide deferred compensation for selected public employees to participate in the Plan. The Plan is intended to be an unfunded deferred compensation plan that complies with the requirements of Section 457(f) and 409A of the Internal Revenue Code of 1986. Each Plan Participant shall be entitled to elect and forego all or any portion, as either a dollar amount or a percentage, of the Participant's salary and/or bonus that may become payable by the Employer for a Plan year after all applicable deductions and withholdings. Such election shall be evidenced by a deferral agreement. During the fiscal years ended June 30, 2023, the Watermaster made an employer contributions of \$78,988, to the Plan for the benefit of its eligible employees.

For each of Watermaster's regular payroll periods beginning on and after July 1, 2015 through the remainder of the employment term (from June 30, 2014 up to the expiration date of June 30, 2017), the Watermaster agreed to make an employer contributions to the Plan for the benefit of the eligible employee equal to 8% of the corresponding salary including any incentive compensation paid during that payroll period; provided that the eligible employee is still employed with Watermaster on the payday of that payroll period. On June 22, 2017, Watermaster agreed to make an employer contribution to the Plan for the benefit of another eligible employee equal to 4% of the corresponding salary effective for payroll period following July 1, 2017; and shall continue to be provided on each paycheck date thereafter until the Board takes further action.

The balance of the Watermaster's Employee Compensation Plan as of June 30, 2023 amounted to \$389,475, which was paid out as of June 30, 2024.

**(9) Deferred Compensation Savings Plan**

For the benefit of its employees, the Watermaster participates in a 457 and 401(a) Deferred Compensation Program (Program). The purpose of this Program is to provide deferred compensation for public employees that elect to participate in the Program. Generally, eligible employees may defer receipt of a portion of their salary until termination, retirement, death or unforeseeable emergency. Until the funds are paid or otherwise made available to the employee, the employee is not obligated to report the deferred salary for income tax purposes.

Federal law requires deferred compensation assets to be held in trust for the exclusive benefit of the participants. Accordingly, the Watermaster is in compliance with this legislation. Therefore, these assets are not the legal property of the Watermaster, and are not subject to claims of the Watermaster's general creditors.

Fair value of all plan assets held in trust for the 457 Plan at June 30, 2024 and 2023 was \$2,065,835 and \$2,198,227, respectively. Fair value of all plan assets held in trust by the District's 401(a) Plan at June 30, 2024 and 2023, amounted to \$631,429, and \$600,671, respectively.

The Watermaster has implemented GASB Statement No. 32, Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans. Since the Watermaster has little administrative involvement and does not perform the investing function for this plan, the assets and related liabilities are not shown on the statement of net position.

**(10) Adjustments to Net Position**

In fiscal year 2023, the Watermaster implemented *GASB Statement No. 87* to recognize its lessee arrangements. As a result of the implementation, the Watermaster recognized the lease right-to-use assets and lease payables and recorded prior period adjustments, a decrease to net position, of \$6,174 and \$3,109 at June 30, 2021 and 2020, respectively.

**Chino Basin Watermaster**  
**Notes to the Financial Statements, continued**  
**For the Fiscal Years Ended June 30, 2024 and 2023**

**(10) Adjustments to Net Position, continued**

In fiscal year 2021, the Watermaster determined compensated absences were overstated. As a result, the Watermaster has recorded a prior period adjustment to restate compensated absences. The effect of the above change is summarized as follows:

	<b>Net Position</b>
Net position at July 1, 2018, as previously stated	\$ 9,767,437
Effect of 2019 compensated absence adjustment	120,725
Change in net position at June 30, 2019	(1,612,215)
Net position at June 30, 2019, as restated	8,275,947
Effect of 2020 compensated absence adjustment	12,273
Effect of 2020 <i>GASB Statement No. 87</i> lease adjustments	(3,109)
Change in net position at June 30, 2020	(262,123)
Net position at June 30, 2020, as restated	\$ 8,022,988
Effect of 2021 <i>GASB Statement No. 87</i> lease adjustments	(6,174)
Change in net position at June 30, 2021	987,173
Net position at June 30, 2021, as restated	\$ 9,003,987

**(11) Net Position**

Calculation of net position as of June 30, is as follows:

	<b>2024</b>	<b>2023</b>
<b>Net investment in capital assets:</b>		
Capital assets, net	\$ 934,260	196,878
Leases payable, current	(137,947)	(32,508)
Leases payable, non-current	(678,397)	(19,301)
<b>Total net investment in capital assets</b>	<b>117,916</b>	<b>145,069</b>
<b>Unrestricted:</b>		
<b>Non-spendable net position:</b>		
Prepaid expenses and deposits	36,657	51,784
<b>Total non-spendable net position</b>	<b>36,657</b>	<b>51,784</b>
<b>Spendable net position:</b>		
Undesignated net position reserve	10,524,136	12,827,631
<b>Total spendable net position</b>	<b>10,524,136</b>	<b>12,827,631</b>
<b>Total unrestricted net position</b>	<b>10,560,793</b>	<b>12,879,415</b>
<b>Total net position</b>	<b>\$ 10,678,709</b>	<b>13,024,484</b>

**Chino Basin Watermaster**  
**Notes to the Financial Statements, continued**  
**For the Fiscal Years Ended June 30, 2024 and 2023**

**(12) Risk Management**

The Watermaster is exposed to various risks of loss related to torts, theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Watermaster is insured for a variety of potential exposures. The following is a summary of the insurance policies carried by the Watermaster as of June 30, 2024:

- Commercial General Liability: \$2,000,000 General Aggregate Limit (Other than Products/Completed Operations); \$2,000,000 Products/Completed Operations Aggregate Limit (Any One Person or Organization); \$1,000,000 Personal and Advertising Injury Limit; \$1,000,000 Each Occurrence Limit; \$300,000 Rented To You Limit; \$15,000 Medical Expenses Limit (Any One Person).
- Commercial Excess Liability: Limits of Liability are \$10,000 Retained Limit, \$8,000,000 Each Occurrence, \$8,000,000 General Aggregate Limit, \$8,000,000 Products/Completed Operations to Aggregate.
- Automobile: \$1,000,000 Combined Bodily Injury and Property Damage Single Limit (Each Accident); \$1,000,000 Uninsured Motorists Single Limit. \$1,000 deductible for Comprehensive and \$1,000 deductible for Collision.
- Property: \$525,000 with liability limits varying by property type with a \$1,000 deductible.
- Crime coverage: \$50,000 per claim with a \$1,000 deductible.
- Director & Officers Liability: \$1,000,000 Liability Coverage; Employment Practices Liability: \$1,000,000 Liability Coverage. Director and Officer/Crisis Management: \$25,000 to \$100,000 with liability limits varying by type of coverage.
- Workers' compensation: Total annual premium is \$8,607.

**(13) Governmental Accounting Standards Board Statements Issued, Not Yet Effective**

The Governmental Accounting Standards Board (GASB) has issued several pronouncements prior to June 30, 2024, that have effective dates that may impact future financial presentations.

***Governmental Accounting Standards Board Statement No. 101***

In June 2022, the GASB issued Statement No. 101 – *Compensated Absences*. The objective of this Statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures. This Statement requires that liabilities for compensated absences be recognized for (1) leave that has not been used and (2) leave that has been used but not yet paid in cash or settled through noncash means. A liability should be recognized for leave that has not been used if (a) the leave is attributable to services already rendered, (b) the leave accumulates, and (c) the leave is more likely than not to be used for time off or otherwise paid in cash or settled through noncash means. Leave is attributable to services already rendered when an employee has performed the services required to earn the leave. Leave that accumulates is carried forward from the reporting period in which it is earned to a future reporting period during which it may be used for time off or otherwise paid or settled. In estimating the leave that is more likely than not to be used or otherwise paid or settled, a government should consider relevant factors such as employment policies related to compensated absences and historical information about the use or payment of compensated absences. However, leave that is more likely than not to be settled through conversion to defined benefit postemployment benefits should not be included in a liability for compensated absences.

The requirements of this Statement are effective for fiscal years beginning after December 15, 2023, and all reporting periods thereafter. Earlier application is encouraged.

**Chino Basin Watermaster**  
**Notes to the Financial Statements, continued**  
**For the Fiscal Years Ended June 30, 2024 and 2023**

**(13) Governmental Accounting Standards Board Statements Issued, Not Yet Effective, continued**

***Governmental Accounting Standards Board Statement No. 102***

In December 2023, the GASB issued Statement No. 102 – *Certain Risk Disclosures*. The primary objective of this Statement requires a government to assess whether a concentration or constraint makes the primary government reporting unit or other reporting units that report a liability for revenue debt vulnerable to the risk of a substantial impact. Additionally, this Statement requires a government to assess whether an event or events associated with a concentration or constraint that could cause the substantial impact to have occurred, have begun to occur, or are more likely than not to begin to occur within 12 months of the date the financial statements are issued.

The requirements of this Statement are effective for fiscal years beginning after June 15, 2024, and all reporting periods thereafter. Earlier application is encouraged.

***Governmental Accounting Standards Board Statement No. 103***

In April 2024, the GASB issued Statement No. 103 – *Financial Reporting Model Improvements*. The primary objective of this Statement is to improve key components of the financial reporting model to enhance effectiveness in providing information that is essential for decision making and assessing a government’s accountability. Also, this Statement: (1) continues the requirement that the basic financial statements be preceded by management’s discussion and analysis (MD&A), which is presented as required supplementary information (RSI); (2) describes unusual or infrequent items as transactions and other events that are either unusual in nature or infrequent in occurrence; (3) requires that the proprietary fund statement of revenues, expenses, and changes in fund net position continue to distinguish between operating and nonoperating revenues and expenses; (4) requires governments to present each major component unit separately in the reporting entity’s statement of net position and statement of activities if it does not reduce the readability of the statements; and (5) requires governments to present budgetary comparison information using a single method of communication—RSI.

The requirements of this Statement are effective for fiscal years beginning after June 15, 2025, and all reporting periods thereafter. Earlier application is encouraged.

***Governmental Accounting Standards Board Statement No. 104***

In September 2024, the GASB issued Statement No. 104 – *Disclosure of Certain Capital Assets*. The primary objective of this Statement is to provide users of government financial statements with essential information about certain types of capital assets. This Statement establishes requirements for certain types of capital assets to be disclosed separately in the capital assets note disclosures required by Statement No. 34, *Basic Financial Statements and Management Discussion and Analysis for State and Local Governments*. Also, this Statement establishes requirements for capital assets held for sale, including additional disclosures for those capital assets. The requirements of this Statement apply to the financial statements of all state and local governments.

The requirements of this Statement are effective for fiscal years beginning after June 15, 2025, and all reporting periods thereafter. Earlier application is encouraged.

**Chino Basin Watermaster**  
**Notes to the Financial Statements, continued**  
**For the Fiscal Years Ended June 30, 2024 and 2023**

**(14) Commitments and Contingencies**

***Grant Awards***

Grant funds received by the Watermaster are subject to audit by grantor agencies. Such audit could lead to requests for reimbursements to grantor agencies for expenditures disallowed under terms of the grant. Management of the Watermaster believes that such disallowances, if any, would not be significant.

***Litigation***

In the ordinary course of operations, the Watermaster is subject to claims and litigation from outside parties. After consultation with legal counsel, the Watermaster believes the ultimate outcome of such matters, if any, will not materially affect its financial condition.

**(15) Subsequent Events**

Events occurring after June 30, 2024, have been evaluated for possible adjustment to the financial statements or disclosure as of November 21, 2024, which is the date the financial statements were available to be issued.

Notes to schedule:

Changes in benefit terms: None noted.

Changes in assumptions: The changes in actuarial assumptions include changes in discount rates as follows:

Fiscal year 2018:	3.38%
Fiscal year 2019:	3.80%
Fiscal year 2020:	3.26%
Fiscal year 2021:	2.12%
Fiscal year 2022:	2.06%
Fiscal year 2023:	3.72%
Fiscal year 2023:	3.26%

\* The Watermaster has presented information for those years for which information is available until a full 10-year trend is compiled.

**Notes to the Schedules of the Watermaster's Proportionate Share of Net Pension Liability**

**Changes in Benefit Terms**

Public agencies can make changes to their plan provisions, and such changes occur on an ongoing basis. A summary of the plan provisions that were used for a specific plan can be found in the plan's annual valuation report.

**Change of Assumptions and Methods**

In fiscal year 2023, there were no changes to actuarial assumptions or methods.

In fiscal year 2022, the accounting discount rate was reduced from 7.15% to 6.90%. In determining the long-term expected rate of return, CalPERS took into account long-term market return expectations as well as the expected pension fund cash flows. Projected returns for all asset classes are estimated, combined with risk estimates, and are used to project compound (geometric) returns over the long term.

The discount rate used to discount liabilities was informed by the long-term projected portfolio return. In addition, demographic assumptions and the inflation rate assumption were changed in accordance with the

2021 CalPERS Experience Study and Review of Actuarial Assumptions.

In fiscal year 2021, there were no changes to actuarial assumptions or methods.

The CalPERS Board of Administration adopted a new amortization policy effective with the June 30, 2019, actuarial valuation. The new policy shortens the period over which actuarial gains and losses are amortized from 30 years to 20 years with the payments computed as a level dollar amount. In addition, the new policy does not utilize a five-year ramp-up and ramp-down on UAL bases attributable to assumption changes and non-investment gains/losses. The new policy also does not utilize a five-year ramp-down on investment gains/losses.

**Chino Basin Watermaster  
Schedules of the Watermaster's Proportionate Share of the Net Pension Liability, continued  
As of June 30, 2024  
Last Ten Years**

**Notes to the Schedules of the Watermaster's Proportionate Share of Net Pension Liability, continued**

***Change of Assumptions and Methods, continued***

These changes will apply only to new UAL bases established on or after June 30, 2019. In fiscal year 2020, no changes have occurred to the actuarial assumptions in relation to financial reporting.

In fiscal year 2020, CalPERS implemented a new actuarial valuation software system for the June 30, 2018 valuation. This new system has refined and improved calculation methodology.

In December 2017, the CalPERS Board adopted new mortality assumptions for plans participating in the PERF. The new mortality table was developed from the December 2017 experience study and includes 15 years of projected ongoing mortality improvement using 90% of scale MP 2016 published by the Society of Actuaries. The inflation assumption is reduced from 2.75% to 2.50%.

The assumptions for individual salary increases and overall payroll growth are reduced from 3.00% to 2.75%. These changes will be implemented in two steps commencing in the June 30, 2017 funding valuation. However, for financial reporting purposes, these assumption changes are fully reflected in the results for fiscal year 2018.

In fiscal year 2017, the financial reporting discount rate for the PERF C was lowered from 7.65% to 7.15%. In December 2016, the CalPERS Board approved lowering the funding discount rate used in the PERF C from 7.50% to 7.00%, which is to be phased in over a three-year period (7.50% to 7.375%, 7.375% to 7.25%, and 7.25% to 7.00%) beginning with the June 30, 2016, valuation reports. The funding discount rate includes a 15 basis-point reduction for administrative expenses, and the remaining decrease is consistent with the change in the financial reporting discount rate.

In fiscal year 2015, the financial reporting discount rate was increased from 7.50% to 7.65% resulting from eliminating the 15 basis-point reduction for administrative expenses. The funding discount rate remained at 7.50% during this period, and remained adjusted for administrative expenses.

# **Report on Internal Controls and Compliance**

**Independent Auditor’s Report on Internal Control over Financial Reporting  
and on Compliance and Other Matters Based on Audits of Financial Statements  
Performed in Accordance with *Government Auditing Standards***

Chino Basin Watermaster Board  
Rancho Cucamonga, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Chino Basin Watermaster (Watermaster) as of and for the years ended June 30, 2024 and 2023, and the related notes to the financial statements, which collectively comprises the Watermaster’s basic financial statements, and have issued our report thereon dated November 21, 2024.

**Internal Control Over Financial Reporting**

In planning and performing our audits of the financial statements, we considered the Watermaster’s internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Watermaster’s internal control. Accordingly, we do not express an opinion on the effectiveness of the Watermaster’s internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity’s financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audits we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

**Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Watermaster’s financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audits and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**Independent Auditor's Report on Internal Controls Over Financial Reporting  
and on Compliance and Other Matters Based on Audits of Financial Statements  
Performed in Accordance with *Government Auditing Standards*, (continued)**

**Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Watermaster's internal control or on compliance. This report is an integral part of audits performed in accordance with *Government Auditing Standards* in considering the Watermaster's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

# WATERMASTER AND BASIN MILESTONES

## 1970s

*Conflicts over water threaten supply reliability, water quality, and the regional economy. In 1973 a pump tax is enacted to raise money to implement recharge projects.*

## 1978

*Chino Basin is adjudicated and the Chino Basin Municipal Water District Board is appointed as Watermaster. Planning and funding are initiated to manage the Basin.*

## 1998

*The nine-member Watermaster Board is created and tasked with developing the Optimum Basin Management Program (OBMP).*

## 1999

*The first OBMP provides a detailed blueprint to ensure a reliable water supply and quality.*

## 2000

*Stakeholders enter into the Peace Agreement, advancing the OBMP Implementation Plan. Basin monitoring begins in earnest, as does the first desalter expansion.*

## 2002

*The Recharge Master Plan implementation and funding agreement advances the \$40 million Chino Basin Facilities Project, securing grant funding for approximately half the cost.*

## 2004

*RWQCB adopts the Max Benefit Salinity Management Program, enabling a massive recycled water and supplemental water recharge program and desalter expansion to achieve Hydraulic Control.*

## 2007

*Stakeholders enter into the Peace II Agreement for a second desalter expansion to meet the Maximum Benefit commitments, securing millions in grant funding and hundreds of millions in cost savings and benefits.*

## 2013

*The 2013 Amendment to the 2010 Recharge Master Plan Update (RMPU) reflects providers' revised Urban Water Management Plans, forming the foundation for cost-effective recharge using storm, imported, and recycled water to improve water quality and ensure reliable supply. Recharge improvement projects begin.*

## 2016

*The Chino Basin Desalter Authority demonstrates Hydraulic Control. Desalter expansion continues.*

## 2018

*Appeals to the first Safe Yield Reset Court Order conclude and the first Safe Yield Reset is adopted effective 2011; Safe Yield is set at 135,000 acre-feet per year.*

## 2020

*The 2020 OBMP is developed with stakeholder input and adopted by the Watermaster Board, updating the 20-year-old document. The Court orders a second Safe Yield Reset, setting the Safe Yield at 131,000 acre-feet per year.*

## 2021

*The Court approves an expansion of the current Storage Management Plan, from 500,000 acre-feet to 700,000 acre-feet, until 2030.*

## 2023

*Adaptive Management strategies are adopted, further increasing local water reserves.*

## 2024

*The Environmental Impact Report for the Optimum Basin Management Program Update is certified.*

CHINO BASIN WATERMASTER

Case No. RCVRS 51010

Chino Basin Municipal Water District v. City of Chino, et al.

PROOF OF SERVICE

I declare that:

I am employed in the County of San Bernardino, California. I am over the age of 18 years and not a party to the action within. My business address is Chino Basin Watermaster, 9641 San Bernardino Road, Rancho Cucamonga, California 91730; telephone (909) 484-3888.

On January 30, 2025 I served the following:

1. DECLARATION OF BRADLEY J. HERREMA IN SUPPORT OF CHINO BASIN WATERMASTER MOTION FOR COURT TO RECEIVE AND FILE 47<sup>TH</sup> ANNUAL REPORT

/X/ BY MAIL: in said cause, by placing a true copy thereof enclosed with postage thereon fully prepaid, for delivery by the United States Postal Service mail at Rancho Cucamonga, California, addresses as follows:

**See attached service list:** Mailing List 1

/\_\_\_/ BY PERSONAL SERVICE: I caused such envelope to be delivered by hand to the addressee.

/\_\_\_/ BY FACSIMILE: I transmitted said document by fax transmission from (909) 484-3890 to the fax number(s) indicated. The transmission was reported as complete on the transmission report, which was properly issued by the transmitting fax machine.

/X/ BY ELECTRONIC MAIL: I transmitted notice of availability of electronic documents by electronic transmission to the email address indicated. The transmission was reported as complete on the transmission report, which was properly issued by the transmitting electronic mail device.

**See attached service list:** Master Email Distribution List

I declare under penalty of perjury under the laws of the State of California that the above is true and correct.

Executed on January 30, 2025 in Rancho Cucamonga, California.
