

Meeting and Workshop Schedule
 2025 Safe Yield Reevaluation
 Pursuant to the April 28, 2017 Safe Yield Court Order

Date/Time (format)	Topic	Objective	Intended Audience		Associated Documents	Meeting Materials
			Technical Peer Review Committee	General Stakeholders		
August 30, 2023 9:00am (virtual)	Hydrogeologic Conceptual Model	Review the structure of the 2020 CVM, discuss the updates made to the HCM based on information gathered since 2020 SYR, and gather feedback on changes.	✓		2022 Safe Yield Reset Methodology TM	Agenda Presentation
October 24, 2023 9:00am (in-person)	Scenario Design #1	Discuss the process to develop an ensemble of projection scenarios, gather input from the Parties on drivers of and uncertainties in future water demands and supply plans. Includes discussion of potential extreme scenarios for effort to evaluate of future extremes.	✓	✓	Scenario Design TM #1	Agenda Presentation
March 7, 2024 1:00pm (in-person)	Scenario Design #2	Review Scenario Design TM #2 describing proposed water demand and supply plan scenarios, discuss recommendations on climate scenarios to use in model ensemble, and gather feedback.	✓	✓	Scenario Design TM #2	Agenda Presentation
May 29, 2024 2:00pm (virtual)	Calibration #1	Present initial results on model calibration/uncertainty analysis and proposed process for choosing calibrated realizations. Gather feedback on recommendations.	✓			Agenda Presentation
June 25, 2024 9:00am (in-person)	Scenario Design #3	Review draft Scenario Design TM #3, gather feedback on recommended Water Plan scenarios and proposed approach to simulate climate scenarios.	✓	✓	6/25 Draft Scenario Design TM #3	Agenda Presentation
August 6, 2024 9:00am (virtual)	Calibration #2	Summarize calibration workshop #1 and feedback gathered since then. Present updates and proposed calibrated realizations for feedback.	✓			Agenda Presentation
August 27, 2024 9:00am (virtual)	Scenario Design #4	Review revised draft Scenario Design TM #3, gather feedback on quantified Projection Ensemble and assignment of likelihoods.	✓	✓	Final Scenario Design TM #3	Agenda Presentation
November 20, 2024 9:00am (in-person)	MPI Thresholds/ 2025 SYR Process	Discuss the proposed metrics and thresholds for determining MPI and undesirable results and gather feedback on methods of interpreting the projection ensemble.	✓	✓	Final MPI Analysis/SYR Process TM	Agenda Presentation
March 25, 2025 1:00pm (in-person)	Preliminary Results	Review the projection ensemble, discuss preliminary results, and gather feedback.	✓	✓		Agenda Presentation
May 2025	Draft 2025 SYR Report	Review the draft 2025 SYR Report and gather feedback.	✓	✓
