

Exhibit 1 – Drivers and Trends and Their Implications 2020 OBMP Update

Drivers

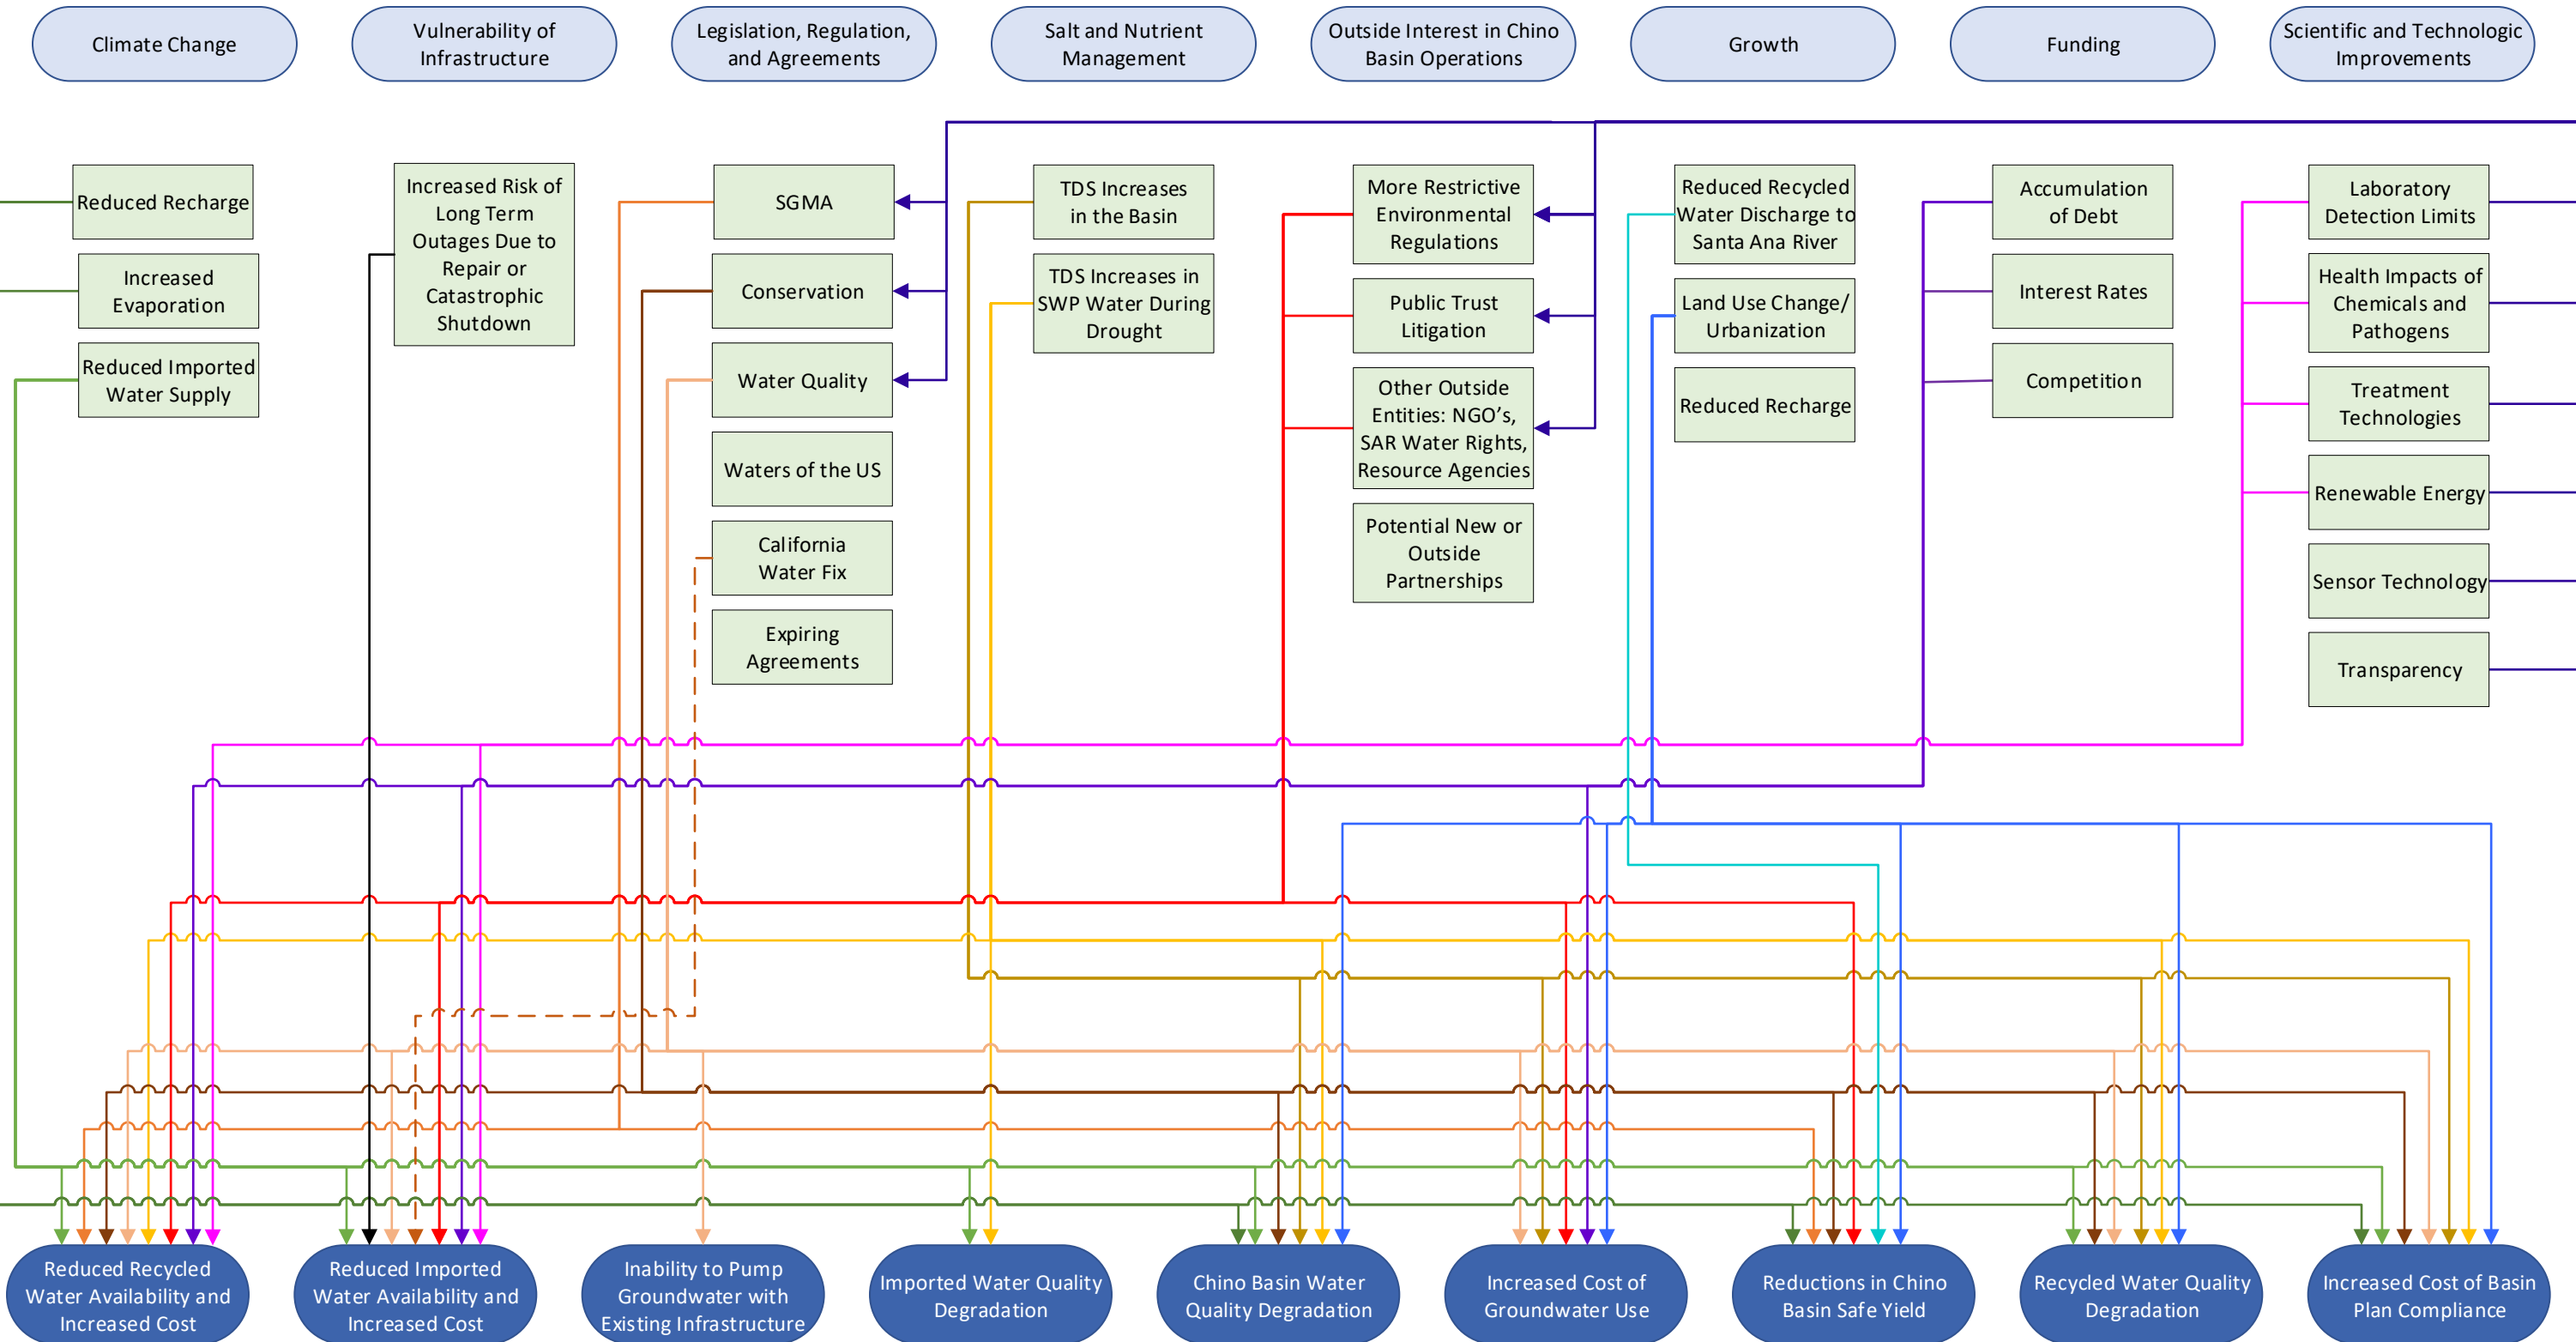

Trends

Implications

Drivers

Trends

Implications

- Reduced Recycled Water Availability and Increased Cost
- Reduced Imported Water Availability and Increased Cost
- Inability to Pump Groundwater with Existing Infrastructure
- Imported Water Quality Degradation
- Chino Basin Water Quality Degradation
- Increased Cost of Groundwater Use
- Reductions in Chino Basin Safe Yield
- Recycled Water Quality Degradation
- Increased Cost of Basin Plan Compliance
