B. APPLICATIONS FOR RECHARGE

Consider Approval for Application for Recharge - Vulcan Materials Company has submitted an Application for Recharge for 1,200 acre-feet to be placed into a Local Supplemental Storage Account. Date of Application: September 12, 2012. Consider Approval of the Vulcan Material Company's Application in so far as Recharge is concerned if it demonstrates, to Watermaster's satisfaction, that the water recharged at the Vulcan Pit will not become contaminated through contact with the soil, or that any water quality degradation caused by contact with the soil will not result in a chemical concentration in the recharge water to increase to a level that would exceed

a maximum contaminant level established in California Code of Regulation Title 22 or a notification level established by the Department of Public Health. Also, Watermaster should expressly condition the Storage element so that it is expressly subject to subsequent Watermaster determinations on: (1) the quantity of Local Supplemental Water in Storage; (2) the priority among all competing applications for Local Storage Agreements; and (3) the general terms and conditions concerning Preemptive Replenishment and Storage.
