Chair Kinsey called the Joint Appropriative and Non-Agricultural Pool Meeting to order at 10:05 a.m.

AGENDA - ADDITIONS/REORDER

It was asked to move the Confidential Session Item VII directly after the Consent Calendar items.

CONSENT CALENDAR

MINUTES

1. Minutes of the Joint Appropriative and Non-Agricultural Pool Meeting held June 11, 2009

B. FINANCIAL REPORTS

- Cash Disbursements for the month of June 2009
- 2. Watermaster Visa Check Detail
- Combining Schedule for the Period July 1, 2008 through May 31, 2009
- 4. Treasurer's Report of Financial Affairs for the Period May 1, 2009 through May 31, 2009
- 5. Budget vs. Actual July 2008 through May 2009

C. INTERVENTION INTO THE AGRICULTURAL POOL

 Intervention into the Agricultural Pool from Guillermo Hurtado through the Well Used by Alfredo Jara's Mountain Green Nursery

D. WATER TRANSACTION

 Consider Approval for Notice of Sale or Transfer – The lease and/or purchase of 765 AF from San Antonio Water Company to the City of Ontario. This lease is made first from San Antonio's net under-production in Fiscal Year 2008-09, with any remainder to be recaptured from storage. Date of application: June 30, 2009

Motion by Garibay, second by Moorrees, and by unanimous vote – Non-Ag concurred

Moved to approve Consent Calendar A through D, as presented

The Appropriative Pool meeting convened a confidential session at 10:12 a.m.

VII. CONFIDENTIAL SESSION - POSSIBLE ACTION

Pursuant to the Appropriative and Non-Agricultural Pool Rules & Regulations, a Confidential Session may be held during the Watermaster Pool meeting for the purpose of discussion and possible action.

The open session was reconvened at 10:25 a.m.

Chair Kinsey stated there was no reportable action resulting from the confidential session.

II. BUSINESS ITEM

A. WATERMASTER AUCTION

Mr. Manning stated there is a detailed staff report included in the meeting packet and staff is recommending the Appropriative Pool authorize staff to retain FTI Auction Solutions/Harold Lea and to draft a contract with that firm to perform the Watermaster auction. Chair Kinsey noted this contract was discussed in closed session and inquired if there were any further questions or comments on the item before the call for motion. No further comment was made regarding this item.

Motion by El Amamy, second by Moorrees, and by unanimous vote – of the Appropriative Pooloverlying Non agricultural pool abstained

Moved to approve retaining FTI Auction Solutions/Harold Lea to administer the water auction services, as presented

B. BUDGET TRANSFER

Mr. Manning stated the staff report included in the meeting packet reviews the process that is gone through with our consultants to come up with the best numbers for the budget; however, there are times when budget transfers need to take place. Ms. Rojo noted staff gets together frequently with the Wildermuth Environmental staff to review budget and project progress. Ms. Rojo stated Watermaster staff does review several of the budget items to track the progress that is being made on a monthly basis. Ms. Rojo discussed the need for shifting monies to accommodate funds needed in other categories. Ms. Rojo noted the staff report gives a breakdown on why staff is able to shift money away from some categories and why monies are needed to be added to other categories. Mr. Wildermuth offered comment on Wildermuth Environmental's unforeseen changes on projects that are being worked on which

lead to the shifting of monies within the categories. Chair Kinsey inquired if this transfer is for fiscal year 2008/2009. Ms. Rojo stated that was correct.

Motion by Garibay, second by Zvirbulis, and by unanimous vote – Non-Ag concurred
Moved to approve fiscal year 2008/2009 budget transfer T-09-07-01 for OBMP
Condition Subsequent No. 7, Hydraulic Control Monitoring Program Water Quality
Committee, and Storage Program to OBMP Data and CEO Requests, OBMP SOB
Report, Groundwater Quality Monitoring Program, and Recharge Master Plan, as
presented

C. REVISED FORMS

Mr. Manning stated this item was part of the CEO Report at last month's meeting and at that meeting Ms. Maurizio gave a presentation on the newly revised forms. Mr. Manning stated Ms. Maurizio has been working on revising these forms at the request of producers over the last few years by the parties to provide more user friendly ones. Mr. Garibay inquired if these forms are a part of the original Rules & Regulations (R&R) for the basin and if they would require any kind of change to the R&R's. Counsel Fife stated yes and noted this is why this matter is going through the Watermaster process and will constitute an amendment to the Rules & Regulations. Ms. Maurizio stated after the Advisory Committee meeting last month there was no comments received back on the forms presented; consequently the forms are the same. Mr. Garibay stated the forms were reviewed carefully and there were no need for changes from the City of Pomona. Mr. Zvirbulis thanked staff for the time and effort put into creating the new forms which will make filling them out much easier.

Motion by Moorrees, second by Crosley, and by unanimous vote – Non-Ag concurred

Moved to approve revised Rules & Regulations forms for Water Transfers and Land
Use Conversions, as presented

III. REPORTS/UPDATES

A. WATERMASTER GENERAL LEGAL COUNSEL REPORT

1. June 29, 2009 Hearing

Counsel Fife stated the June 29, 2009 hearing took place, making it the third hearing with Judge Wade. Counsel Fife noted the hearing went fairly quickly and was for all intent and purposes an informal hearing. Unfortunately Judge Wade announced at that hearing, he was going to be retiring in September and would not be keeping our case. In the September/October time frame the process of securing another judge will begin. Counsel Fife stated he has had some dialog with other attorneys of the parties and they expressed various concerns about the matter. Counsel Fife stated Judge Wade does want to hold the fourth hearing. That hearing will be regarding Program Elements 7, 8, and 9. Program Elements 8 and 9 are the storage elements of the OBMP and coincidentally Watermaster needs to be submitting the Template Storage Agreement to court for approval meaning the last hearing can be used to submit items for more than just the Program Elements. The next hearing will be on August 11, 2009 in San Bernardino at 9:30 a.m. and that notice has been sent out. Counsel Fife stated a pleading regarding the motion for approval for the Template Storage Agreement needs to be filed with the court by July 20, 2009 and a draft of that pleading should be sent out shortly for comment. This draft pleading can be discussed at the upcoming Watermaster Workshop on July 16, 2009. A discussion regarding the next judges' term ensued. Mr. Manning commented on Jude Wade's comments made at the last hearing regarding the hearings and his desire, to have a clear record that the new judge could draw from that was relevant and recent. A brief discussion regarding this matter ensued.

B. ENGINEERING REPORT

1. Recharge Master Plan Update

Mr. Wildermuth stated he has two items to report on this morning; 1) Recharge Master Plan Update, and 2) CEQA Hydrology and Modeling work that is being done for Peace II. Mr. Wildermuth sated the Recharge Master Plan is moving along on the supplemental water side of it very well. More details on this item will be discussed at the Workshop scheduled for July 23, 2009. Mr. Wildermuth stated the upcoming workshop will be information intensive and it is an important workshop for the parties to attend. Mr. Wildermuth reviewed several items that are currently being worked on for the storm water work and with regard to the Peace II work. A discussion regarding Mr. Wildermuth's report on the Recharge Master Plan and the modeling work ensued.

2. CEQA Modeling Assessment of Peace II

This item was presented during the Recharge Master Plan Update.

C. FINANCIAL REPORT

Year End Reporting

Ms. Rojo stated the Land Use Conversions are done and there are some reversions Land use Revision in progress. Production reports have been sent out and they are due to be received at Watermaster by July 15, 2009. Ms. Rojo noted Voluntary Agreements is something staff is still working on to tie up the year end, as well as obtaining all the water transaction information for the past fiscal year. Ms. Rojo stated as soon as those items are handled, staff will be sending out the Water Activity Reports.

D. CEO/STAFF REPORT

1. Legislative Update

Mr. Manning stated Sacramento is embroiled in discussions regarding the budget. Mr. Manning stated there was a workshop/meeting scheduled between the Senate Natural Resources Committee combined with the Water Parks & Wildlife Committees to discuss Delta programs, water issues, and the potential of a bond measure or a construction of a proposed program that would incorporate all of the water issues dealing with the Delta. That workshop/combined meeting was cancelled indefinitely due to the budget issue and several other legislative happenings are taking place. Mr. Manning commented on AB1366, the Water Softener bill which will hit the senate floor in August. Mr. Manning commented on IEUA's award notification of grant funds which were distributed locally.

Recharge Update

Mr. Manning stated there is not a current recharge water update for distribution; however, a detailed report will be given at the Advisory Committee meeting.

3. Watermaster Policies

Mr. Manning stated this is an information only item and this item will be seen more in the upcoming months. Mr. Manning stated Watermaster operates by using a variety of different documents regarding procedures and operations; staff is attempting to consolidate those in an actual Policy Manual. This manual will come to you in two segments. First there will be those that are easily identifiable and non-controversial; after that, a series of additional policies that will have greater implications and will need discussions and/or input will be brought forward. This will then become a regular part of the agenda as this manual is refined. A discussion regarding the new Policy Manual process ensued.

IV. INFORMATION

Newspaper Articles

No comment was made regarding this item.

V. POOL MEMBER COMMENTS

Ms. Rose inquired if there is an agenda for the upcoming workshop on July 16, 2009. Mr. Manning stated there will be agenda issued prior to the workshop and offered comment on how the two scheduled workshops regarding the auction will be handled.

VI. OTHER BUSINESS

No comment was made regarding this item.

KENNETH R. MANNING Chief Executive Officer

STAFF REPORT

DATE:

August 13, 2009

TO:

Committee Members

SUBJECT:

Cash Disbursement Report

SUMMARY

Issue - Record of cash disbursements for the month of July 2009.

Recommendation – Staff recommends the Cash Disbursements for July 2009 be received and filed as presented.

Fiscal Impact – Funds disbursed were included in the FY 2009-2010 Watermaster Budget.

BACKGROUND

A monthly cash disbursement report is provided to keep all members apprised of Watermaster expenditures.

DISCUSSION

Total cash disbursements during the month of July 2009 were \$280,409.30. The most significant expenditures during the month were Brownstein Hyatt Farber Schreck in the amount of \$72,557.52, Philadelphia Insurance Company in the amount of 15,703.00, and Santa Ana Watershed Project Authority in the amount of \$10,339.00.

STAFF REPORT

DATE:

August 13, 2009

TO:

Pool Members

SUBJECT:

Notice of Intent to Purchase

Background

Section C of the *Purchase and Sale Agreement for the Purchase of Water by Watermaster from Overlying (Non-Agricultural) Pool* (Attachment "G" to Watermaster Resolution 07-05) says:

"C. Notice. Within twenty-four months of the final Court approval of this Agreement ("Effective Date"), and only with the prior approval of the Appropriative Pool, Watermaster will provide written **Notice of Intent to Purchase** the Non-Agricultural (Overlying) Pool water pursuant to Section 5.3(a) of the Peace Agreement, which therein identifies whether such payment will be in connection with Desalter Replenishment or a Storage and Recovery Program."

Final Court approval of the Agreement ("Effective Date") was obtained through the December 21, 2007 Order approving the Peace II Measures.

Explanation of Notice

Watermaster staff has prepared a form of the Notice to satisfy the requirements of section C.

Section D of the Purchase and Sale Agreement requires that the payment schedule to the Non-Agricultural Pool will commence thirty days after the Notice of Intent to Purchase ("Payment Date"). Staff has proposed that the date of the Notice be December 18, 2009 as that is the last business day before the deadline for the Notice. Given that the current date of the auction is unknown, this date will provide maximum opportunity for the Pool to have received the proceeds of the auction prior to the required Payment Date and will provide maximum flexibility in the event that the auction is not completed as anticipated.

At the July 30, 2009 Appropriative Pool meeting, staff provided an accounting of the amount of water available for purchase under the Purchase and Sale Agreement. This amount is 38,600 acre-feet. Planning for the auction to date has presumed a purchase amount of 36,000 acre-feet. Staff requires a recommendation from the Pool as to whether the full amount (38,600) should be purchased for the purpose of the auction, or whether the Pool would prefer to utilize a portion of the water for some other purpose such as desalter replenishment or a separate storage and recovery program.

Recommendation

Staff Recommendation: (1) consider and approve form of Notice of Intent to Purchase; (2) consider and recommend to staff intended purpose of full amount purchased from Non-Agricultural Pool.

9641 San Bernardino Road, Rancho Cucamonga, Ca 91730 Tel: 909.484.3888 Fax: 909.484.3890 www.cbwm.org

KENNETH R. MANNING Chief Executive Officer

NOTICE OF INTENT TO PURCHASE

Pursuant to Section C of the *Purchase and Sale Agreement for the Purchase of Water by Watermaster from Overlying (Non-Agricultural) Pool*, Watermaster hereby provides notice to the Overlying (Non-Agricultural) Pool that Watermaster intends to tender purchase of the Storage Transfer Quantity pursuant to the terms of the Purchase and Sale Agreement for use in a Storage and Recovery Agreement.

On _____ the Appropriative Pool provided approval for the issuance of this notice. The date of issuance of this notice is December 18, 2009.

II. <u>BUSINESS ITEM</u>

C. MEETING SCHEDULES

9641 San Bernardino Road, Rancho Cucamonga, Ca 91730 Tel: 909.484.3888 Fax: 909.484.3890 www.cbwm.org

KENNETH R. MANNING Chief Executive Officer

STAFF REPORT

DATE:

August 13, 2009

TO:

Appropriative Pool Members

SUBJECT:

Review of meeting schedules

Summary

At the request of the chairman of the Appropriative Pool this item is being added to the August agenda for discussion and possible recommendation.

The Appropriative Pool chair would like to discuss the reordering of meetings within Watermaster to allow for a more efficient and effective process.

II. BUSINESS ITEM

D. OPEN MEETING RULES

9641 San Bernardino Road, Rancho Cucamonga, Ca 91730 Tel: 909.484.3888 Fax: 909.484.3890 www.cbwm.org

KENNETH R. MANNING Chief Executive Officer

STAFF REPORT

DATE:

August 13, 2009

TO:

Appropriative Pool Members

SUBJECT:

Discussion on the Development of Open Meeting Rules for Watermaster

SUMMARY:

At the request of the Appropriative Pool Chairman this item is being added to the agenda for discussion and possible recommendation.

The Appropriative Pool chairman would like to have a discussion on the merits of developing "Open Meeting Rules" for Watermaster that more clearly define the differences between an "interest based" agency and those covered by the Brown Act.

II. <u>BUSINESS ITEM</u>

E. EXTENSION OF DYY EXPANSION

CHINO BASIN WATERMASTER

9641 San Bernardino Road, Rancho Cucamonga, Ca 91730 Tel: 909.484.3888 Fax: 909.484.3890 www.cbwm.org

KENNETH R. MANNING Chief Executive Officer

STAFF REPORT

DATE:

August 13, 2009

TO:

Appropriative Pool Members

SUBJECT:

Consider Approval of Application for a Storage Account by IEUA, TVMWD, and WMWD on behalf of Metropolitan Water District of Southern California for an additional 74,000.00 AF in

addition to the 100,000 AF existing Storage Account.

Summary

In May staff placed this item on the agenda for consideration and possible action. At that meeting the Appropriative Pool took action to defer the consideration of the item to a later date pending staff's discussion with MWD about a potential extension to the agreement. That discussion with MWD has stalled and in order to allow for no interruption to the Desalter LRP subsidy Watermaster is asking for reconsideration of the agreement. The deadline for implementation of Watermaster approval for the DYY expansion is the end of September.

Action taken in May:

Motion by Kinsey, second by Bosler, and by unanimous vote - Non-Ag concurred

Moved to defer item until June and request staff to work with Metropolitan Water District and the MWD agencies in our area on a six month extension, as presented

The attached May staff report outlines the issues related to the agreement.

CHINO BASIN WATERMASTER

TO:

Committee Members

SUBJECT:

Consider Approval Application for a Storage Account by IEUA, TVMWD, and WMWD on behalf of Metropolitan Water District of Southern California for an additional 74,000.000 acre-feet in addition to the 100,000.000 acre-feet existing

Storage Account

SUMMARY

Recommendation - Staff recommends that any approval of the Application be conditioned upon compliance with the WEI Material Physical Injury Report discussed in the staff report. However, concerns exist about compliance of the Application with the Peace Agreement. Staff requests a recommendation from the Appropriative Pool as to how the Pool believes the Application should proceed through the Watermaster process.

I. INTRODUCTION

The Inland Empire Utilities Agency (IEUA), Three Valleys Municipal Water District (TVMWD), and Western Municipal Water District (WMWD), on behalf of the Metropolitan Water District of Southern California (Metropolitan), have submitted an Application under Article X of the Watermaster Rules and Regulations for a storage account in the amount of an additional 74,000.000 acre-feet in addition to the 100,000.000 acre-feet existing Storage Account.

This Application has been submitted in order to implement future amendments to the terms of the existing Groundwater Storage Program Funding Agreement by and among Metropolitan, IEUA, TVMWD, WMWD, and the Chino Basin Watermaster (Agreement No. 49960) that was approved by the Watermaster Board on October 23, 2003. These amendments are described in "Joint Participation Agreement No. 93343" between the Chino Desalter Authority ("CDA"), IEUA, WMWD and Metropolitan. This agreement was included in the submittal of the Application and provides for subsidies for the Chino II Desalter, Section

7.4 of Agreement No. 93343 specifies that if the expansion of the Dry Year Yield account is not approved by September 1, 2009, then the agreement to provide the subsidy for the Chino II Desalter will terminate.

II. ARTICLE X APPLICATION RULES AND PROCEDURES

Under Watermaster's Rules and Regulations § 10.7, any person may request Watermaster's approval of an Agreement to participate in a Storage and Recovery Program by submitting an Application to Watermaster that, at a minimum, includes the following information:

- (a) The identity of the person(s) that will Recharge, Store and Recover the water as well as its ultimate place of use;
- (b) The quantity of water to be Stored and Recovered;
- (c) The proposed schedule for the Recharge of water for storage, if any;
- (d) The proposed schedule and method for Recovery;
- (e) The location of the Recharge facilities through which the Stored Water will be recharged;
- (f) The location of the Production facilities through which the Stored Water will be recovered;
- (g) The water levels and water quality of the Groundwater in the areas likely to be affected by the Storage and Recovery, if known; and
- (h) Any other information that Watermaster requires to be included.

Watermaster shall have no obligation to process incomplete Applications. (Rules § 10.3(a).) Watermaster staff has reviewed the Application and the previously approved Funding Agreement and finds that the information required by the Rules and Regulations has been provided as reasonably required to allow Watermaster to analyze the Application for its potential to cause Material Physical Injury.

Under Rules and Regulations § 8.1(h), each Groundwater Storage Agreement shall include but not be limited to the following components [Judgment Exhibit "I" ¶ 3.]:

- (i) The quantities and the term of the storage right, which shall specifically exclude credit for any return flows;
- (ii) A statement of the priorities of the storage right as against overlying, Safe Yield uses, and other storage rights;
- (iii) The delivery rates, together with schedules and procedures for spreading, injection or in-lieu deliveries of Supplemental Water for direct use;
- (iv) The calculation of storage water losses and annual accounting for water in storage; and
- The establishment and administration of withdrawal schedules, locations and methods.

Under the Rules and Regulations § 8.1(f)(ii), Watermaster may not approve an Application to store and Recover water if it is inconsistent with the terms of the Peace Agreement or will cause any Material Physical Injury to any party to the Judgment or the Basin. Any potential or threatened Material Physical Injury to any party to the Judgment or the Basin caused by the storage and Recovery of water shall be reasonably and fully mitigated as a condition of approval. In the event the Material Physical Injury cannot be mitigated, the request for storage and Recovery must be denied. (Peace Agreement § 5.2 (a) (iii).) Applications for the storage of Supplemental Water shall be processed in accordance with the provisions of Article X.

Under the Rules and Regulations section 10.13, following consideration of an Application by each Pool Committee, a Contest to the Application may be filed by any party to the Judgment. Contests shall be submitted a minimum of fourteen (14) days prior to the date scheduled for Advisory Committee consideration and possible action. Under section 10.11, an Application shall not be considered by the Advisory Committee until at least twenty-one (21) days after the last of the three Pool Committee meetings to consider the matter. Under section 10.17(a), Watermaster shall not deny an uncontested Application until it has referred the matter to a hearing officer.

¹ Section 7.4 of Agreement No. 93343 also specifies that approval of an elimination of losses to the DYY account must be approved by September 1, 2009 in order to avoid termination of the subsidy. The issue of loss elimination does not appear to be addressed in the Application.

III. PEACE AGREEMENT

Peace Agreement section 5.2(c)(iv)(b) requires that Watermaster shall prioritize its efforts to regulate and condition the storage and recovery of water developed in a Storage and Recovery Program for the mutual benefit of the parties to the Judgment and give first priority to Storage and Recovery Programs that provide broad mutual benefits.

Peace Agreement section 7.4(b) describes the order of priority of various sources of funding to satisfy all unmet capital, operation and maintenance costs relative to the Chino II Desalter. The fourth source of funding is, "MWD subsidies or other funding without committing the storage space of the Chino Basin under any storage and recovery or conjunctive use agreement, such as that secured pursuant to Agreement Number 7658, between MWD, SAWPA, IEUA, WMWD and OCWD dated December 7, 1995, and entitled "Chino Basin Desalinization Program, Phase I, Joint Participation Agreement for Recovery and Utilization of Contaminated Groundwater."

IV. SUMMARY OF THE APPLICATION

The Application identifies the maximum quantity of the storage account to be an additional 74,000.000 acre-feet in addition to the 100,000.000 acre-feet existing storage account. This is within the targeted 500,000.000 acre-feet identified in the Peace Agreement as the Storage and Recovery Program.

The Application identifies the method of placement of water in storage as in-lieu delivery by Metropolitan and direct injection with aquifer storage and recovery wells. The specific amount of water to be delivered into storage will be determined according to availability by the Operating Committee under Agreement No. 49960 and future amendments to it. However, the maximum that can be placed into storage in any one year is 50,000.000 acre-feet (16,667.000 acre-feet in addition to the current 33,333.000 acre-feet).

Recapture from storage will be accomplished by pumping from wells. Likely, new wells will be constructed, as well as new treatment facilities for existing impaired wells. A list of new wells to be constructed under the Program will be included in future amendments to Agreement No. 49960. While these new facilities are constructed in order to provide the ability to recapture the water out of storage, it is recognized that the production of water out of the storage account will be determined by the Operating Committee by looking at the gross production from the participating entities and comparing this with past pumping. Under the Application, the maximum amount that can be recaptured from storage in any one year is 50,000.000 acre-feet (16,667.000 acre-feet addition to the current 33,333.000 acre-feet).

Specific commitments by the appropriators to take the in lieu deliveries of water and to shift to increased groundwater pumping to accomplish the recapture of water are detailed in the Local Agency Agreements which are being developed for approval by each of the local agencies.

In addition to Form 6, the Application also includes Form 2 (Recharge) and Form 4 (Recapture).

V. SUMMARY OF ANALYSIS OF POTENTIAL TO CAUSE MATERIAL PHYSICAL INJURY

In addition to providing a summary of the Application, Watermaster's notice of the Application is required to provide a reasonable preliminary analysis of the potential for the activities described in the Application to result in Material Physical Injury (Rules § 10.10)

In the latter half of 2008, an investigation was completed to evaluate the feasibility of the Expansion. This analysis was published as the *Chino Basin Dry-Year Yield Program Expansion Project Development Report* (Black & Veatch, 2008). Three expansion alternatives were developed and evaluated. Wildermuth Environmental Inc. (WEI), at the direction of the Watermaster, conducted a Material Physical Injury analysis on these expansion alternatives. The detailed Material Physical analysis is attached. The IEUA adopted a mitigated negative declaration for the Expansion in December 2008.

Based on WEI's analysis, Material Physical Injury—related to storage losses, groundwater level changes, and plume migration—will occur; however, this Material Physical Injury can be mitigated if the mitigation measures from the Mitigated Negative Declaration are substantially expanded and included in the DYY Program Expansion agreements.

VI. ANALYSIS AND STAFF RECOMMENDATION

At the April Pool meetings, Watermaster staff was made aware that one or more member of the Appropriative Pool may contest approval of the Application as a violation of the Peace Agreement section 7.4(b)(iv). Watermaster is not aware of any steps that have been taken by any of the Appropriative Pool members that are parties to Agreement No. 93343 or by any of the members of the Pool that may contest approval of the Application to find a resolution of the situation. Watermaster staff raised this issue as part of the March Pool agenda so that the relevant parties could confer about resolution.

It appears that the exchange described by the Joint Participation Agreement No. 93343 currently violates section 7.4(b)(iv) of the Peace Agreement. Given the current situation, staff would not likely be able to recommend approval of the Application to the Watermaster Board. Watermaster staff thus asks for a recommendation from the Appropriative Pool as to how it would like the Application to proceed through the Watermaster process.

In addition, Staff recommends that the Appropriative Pool recommend that if the Board ultimately approves the Application, that approval should be conditioned on implementation of WEI's recommendations regarding mitigation of potential Material Physical Injury.

CHINO BASIN WATERMASTER

NOTICE

OF

APPLICATION(S)

RECEIVED FOR

WATER TRANSACTION - STORAGE ACCOUNT

Date of Notice:

March 27, 2009

This notice is to advise interested persons that the attached application will come before the Watermaster Board on or after 90 days from the date of this notice.

NOTICE OF APPLICATION(S) RECEIVED

Date of Applications:

March 20, 2009

Date of this notice: March 26, 2009

Please take notice that the following Application has been received by Watermaster:

A. Notice of Application for a Storage Account by IEUA, TVMWD, and WMWD on behalf of Metropolitan Water District of Southern California for an additional 74,000.000 acre-feet in addition to the 100,000.000 acre-feet existing Storage Account

This Application will first be considered by each of the respective pool committees on the following dates:

Agricultural Pool:

May 19, 2009

Appropriative Pool:

May 14, 2009

Non-Agricultural Pool:

May 14, 2009

This Application will be scheduled for consideration by the Advisory Committee no earlier than ninety-days from the date of this notice and a minimum of twenty-one calendar days after the last pool committee reviews it.

After consideration by the Advisory Committee, the Application will be considered by the Board.

Unless the Application is amended, parties to the Judgment may file Contests to the Application with Watermaster within seven calendar days of when the last pool committee considers it. Any Contest must be in writing and state the basis of the Contest.

Summary and Analysis

Notice of Application for a Storage Account by IEUA, TVMWD, and WMWD on behalf of Metropolitan Water District of Southern California for an additional 74,000.000 acre-feet in addition to the 100,000.000 acre-feet existing Storage

Account

I. INTRODUCTION

The Inland Empire Utilities Agency (IEUA), Three Valleys Municipal Water District (TVMWD), and Western Municipal Water District (WMWD), on behalf of the Metropolitan Water District of Southern California (Metropolitan), have submitted an Application under Article X of the Watermaster Rules and Regulations for a storage account in the amount of an additional 74,000.000 acre-feet in addition to the 100,000.000 acre-feet existing Storage Account. This Application has been submitted in order to implement future amendments to the terms of the existing Groundwater Storage Program Funding Agreement by and among Metropolitan, IEUA, TVMWD, WMWD, and the Chino Basin Watermaster (Agreement No. 49960) that was approved by the Watermaster Board on October 23, 2003.

II. ARTICLE X APPLICATION RULES AND PROCEDURES

Under Watermaster's Rules and Regulations § 10.7, any person may request Watermaster's approval of an Agreement to participate in a Storage and Recovery Program by submitting an Application to Watermaster that, at a minimum, includes the following information:

- (a) The identity of the person(s) that will Recharge, Store and Recover the water as well as its ultimate place of use;
- (b) The quantity of water to be Stored and Recovered;
- (c) The proposed schedule for the Recharge of water for storage, if any;
- (d) The proposed schedule and method for Recovery;
- (e) The location of the Recharge facilities through which the Stored Water will be recharged:
- (f) The location of the Production facilities through which the Stored Water will be recovered;
- (g) The water levels and water quality of the Groundwater in the areas likely to be affected by the Storage and Recovery, if known; and
- (h) Any other information that Watermaster requires to be included.

Watermaster shall have no obligation to process incomplete Applications. (Rules § 10.3(a).) Watermaster staff has reviewed the Application and the previously approved Funding Agreement and finds that the information required by the Rules and Regulations has been provided as reasonably required to allow Watermaster to analyze the Application for its potential to cause Material Physical Injury.

Under Rules and Regulations § 8.1(h), each Groundwater Storage Agreement shall include but not be limited to the following components [Judgment Exhibit "I" ¶ 3.]:

- The quantities and the term of the storage right, which shall specifically exclude credit for any return flows;
- (ii) A statement of the priorities of the storage right as against overlying, Safe Yield uses, and other storage rights;
- (iii) The delivery rates, together with schedules and procedures for spreading, injection or in-lieu deliveries of Supplemental Water for direct use;
- (iv) The calculation of storage water losses and annual accounting for water in storage; and
- The establishment and administration of withdrawal schedules, locations and methods.

Under the Rules and Regulations § 8.1(f)(ii), Watermaster may not approve an Application to store and Recover water if it is inconsistent with the terms of the Peace Agreement or will cause any Material Physical Injury to any party to the Judgment or the Basin. Any potential or threatened Material Physical Injury to any party to the Judgment or the Basin caused by the storage and Recovery of water shall be reasonably and fully mitigated as a condition of approval. In the event the Material Physical Injury cannot be mitigated, the request for storage and Recovery must be denied. (Peace Agreement § 5.2 (a) (iii).) Applications for the storage of Supplemental Water shall be processed in accordance with the provisions of Article X.

III. SUMMARY OF THE APPLICATION

The Application identifies the maximum quantity of the storage account to be an additional 74,000.000 acre-feet in addition to the 100,000.000 acre-feet existing storage account. This is within the targeted 500,000.000 acre-feet identified in the Peace Agreement as the Storage and Recovery Program.

The Application identifies the method of placement of water in storage as in-lieu delivery by Metropolitan and direct injection with aquifer storage and recovery wells. The specific amount of water to be delivered into storage will be determined according to availability by the Operating Committee under Agreement No. 49960 and future amendments to it. However, the maximum that can be placed into storage in any one year is 50,000.000 acre-feet (16,667.000 acre-feet in addition to the current 33,333.000 acre-feet).

Recapture from storage will be accomplished by pumping from wells. Likely, new wells will be constructed, as well as new treatment facilities for existing impaired wells. A list of new wells to be constructed under the Program will be included in future amendments to Agreement No. 49960. While these new facilities are constructed in order to provide the ability to recapture the water out of storage, it is recognized that the production of water out of the storage account will be determined by the Operating Committee by looking at the gross production from the participating entities and comparing this with past pumping. Under the Application, the maximum amount that can be recaptured from storage in any one year is 50,000.000 acre-feet (16,667.000 acre-feet addition to the current 33,333.000 acre-feet).

Specific commitments by the appropriators to take the in lieu deliveries of water and to shift to increased groundwater pumping to accomplish the recapture of water are detailed in the Local Agency Agreements which are being developed for approval by each of the local agencies.

In addition to Form 6, the Application also includes Form 2 (Recharge) and Form 4 (Recapture).

IV. SUMMARY OF ANALYSIS OF POTENTIAL TO CAUSE MATERIAL PHYSICAL INJURY

In addition to providing a summary of the Application, Watermaster's notice of the Application is required to provide a reasonable preliminary analysis of the potential for the activities described in the Application to result in Material Physical Injury (Rules § 10.10)

In the latter half of 2008, an investigation was completed to evaluate the feasibility of the Expansion. This analysis was published as the *Chino Basin Dry-Year Yield Program Expansion Project Development Report* (Black & Veatch, 2008). Three expansion alternatives were developed and evaluated. Wildermuth Environmental Inc. (WEI), at the direction of the Watermaster, conducted a Material Physical Injury analysis on these expansion alternatives. The detailed Material Physical analysis is attached. The IEUA adopted a mitigated negative declaration for the Expansion in December 2008.

Based on WEI's analysis, Material Physical Injury—related to storage losses, groundwater level changes, and plume migration—will occur; however, this Material Physical Injury can be mitigated if the mitigation measures from the Mitigated Negative Declaration are substantially expanded and included in the DYY Program Expansion agreements.

March 20, 2009

Mr. Kenneth Manning, Chief Executive Officer Chino Basin Watermaster 8632 Archibald Ave, Suite 109 Rancho Cucamonga, CA 91730 6075 Kimbali Ave, • Chino, CA 91708 P.O. Box 9020 • Chino, Hills, CA 91709 TEL (909) 993-1600 • FAX (909) 597-8875 www.leua.org

Subject: Application for an additional 74,000 AF Storage and Recovery Program, to the existing approved 100,000 AF The Metropolitan Water District of Southern California (MWD) storage account, with MWD and the local Dry Year Yield Conjunctive Use Program (Expansion) participating agencies.

Dear Mr. Manning:

On behalf of The Metropolitan Water District of Southern Callfornia (MWD) and the Dry Year Yield Conjunctive Use Program (Expansion), Inland Empire Utilities Agency (IEUA), Three Valleys Municipal Water District (TVMWD) and Western Municipal Water District (WMWD) Jointly submit this letter along with; Chino Basin Watermaster Forms 2, 4 and 6, "Agreement No. 49960, Dry Year Yield Conjunctive Use Program" and "Agreement No. 93343, Chino Basin Desalination Program (Phase II)."

These application documents are submitted consistent with the requirements for Regional Storage and Recovery Program Section 5.2 provisions of the Peace Agreement and the Rules and Regulations of Section 8.3. The requirements of Section 10.7 of the Rules and Regulations and are summarized below:

- (A) MWD, through its member agencies, IEUA, TVMWD and WMWD, will provide imported water for storage and recovery via direct replenishment, injection (ASR wells), and in-lieu.
- (B) Consistent with Agreement No. 49960, as amended in the future between MWD, TVMWD, IEUA and Chino Basin Watermaster, the amount of water placed into storage and recovered from storage will be administered through an Operating Committee.
- (C) The ability to put water into the MWD account will be based on availability of imported water and also be consistent with Agreement No. 49960, as amended in the future.

Fifty-Five Years of Excellence in Water Resources & Quality Management

Mr. Kenneth Manning March 20, 2009 Page 2

- (D) . The schedule for recovery of MWD water will be based on the timing of a cell from MWD, and the development of annual Operating Plans with participating agencies and will also be consistent with Agreement No. 49960, as amended in the future.
- (E) The location of the Dry Year Yield Conjunctive Use Program (Expansion) groundwater recharge facilities have been CEQA certified by IEUA and are fully described in the report titled "Optimum Basin Management Program, Chino Basin Dry Year Yield Program Expansion Project Development Report," dated December 2008.
- The locations of the Dry Year Yield Conjunctive Use Program (Expansion) groundwater (F) production facilities have been CEQA certified by IEUA and are fully described in the report titled "Optimum Basin Management Program, Chino Basin Dry Year Yield: Program Expansion Project Development Report," dated December 2008.
- Water level and water quality information is documented in the "Optimum Basin (G) Management Program, Chino Basin Dry Year Yield Program Expansion Project Development Report," dated December 2008.

The inland Empire Utilities Agency certified the CEQA documentation on December 17, 2008. As part of the CEQA analysis, a four volume "Optimum Basin Management Program, Chino Basin Dry Year Yield Project Development Report" was published and should be incorporated with this letter application to Chino Basin Watermaster.

Sincerely,

INLAND EMPIRE UTILITIES AGENCY
