

CHINO BASIN WATERMASTER

NOTICE OF MEETING

Thursday, March 3, 2011

1:00 p.m. – Appropriative Pool Meeting

AT THE CHINO BASIN WATERMASTER OFFICES

*9641 San Bernardino Road
Rancho Cucamonga, CA 91730
(909) 484-3888*

CHINO BASIN WATERMASTER

Thursday, March 3, 2011

1:00 p.m. – Appropriative Pool Meeting

AGENDA PACKAGE

**CHINO BASIN WATERMASTER
APPROPRIATIVE POOL MEETING**

1:00 p.m. – March 3, 2011

Mr. John Mura, Chair

Mr. Marty Zvirbulis, Vice-Chair

At The Offices Of

Chino Basin Watermaster

9641 San Bernardino Road

Rancho Cucamonga, CA 91730

AGENDA

CALL TO ORDER

AGENDA - ADDITIONS/REORDER

I. CONSENT CALENDAR

Note: All matters listed under the Consent Calendar are considered to be routine and be no separate discussion on these items prior to voting unless any members, staff, or the public requests specific items be discussed and/or removed from the Consent Calendar for separate action.

A. MINUTES

1. Minutes of the Appropriative Meeting held February 3, 2011 *(Page 1)*

B. FINANCIAL REPORTS

1. Cash Disbursements for the month of January 2011 *(Page 7)*
2. Watermaster Visa Check Detail for the month of January 2011 *(Page 22)*
3. Combining Schedule for the Period July 1, 2010 through January 31, 2011 *(Page 26)*
4. Treasurer's Report of Financial Affairs for the Period January 1, 2011 through January 31, 2011 *(Page 30)*
5. Budget vs. Actual July through January 2011 *(Page 34)*

C. WATER TRANSACTION

1. **Consider Approval for Notice of Sale or Transfer** – The lease and/or purchase of 60.000 acre-feet of water from San Antonio Water Company to the City of Ontario. This lease is made first from San Antonio's Annual Production Right, with any remainder to be recaptured from storage. Date of Application: January 26, 2011 *(Page 38)*
2. **Consider Approval for Notice of Sale or Transfer** – The lease and/or purchase of 60.000 acre-feet of water from San Antonio Water Company to the Monte Vista Water District. This lease is made first from San Antonio's Annual Production Right, with any remainder to be recaptured from storage. Date of Application: January 26, 2011 *(Page 48)*
3. **Consider Approval for Notice of Sale or Transfer** – The lease and/or purchase of 274.294 acre-feet of water from San Antonio Water Company to the Monte Vista Water District. This lease is made first from San Antonio's Annual Production Right, with any remainder to be recaptured from storage. Date of Application: January 28, 2011 *(Page 58)*
4. **Consider Approval for Notice of Sale or Transfer** – The lease and/or purchase of 880.000 acre-feet of water from San Antonio Water Company to the City of Upland. This lease is made first from San Antonio's Annual Production Right, with any remainder to be recaptured from storage. Date of Application: January 26, 2011 *(Page 70)*

5. **Consider Approval for Notice of Sale or Transfer** – The lease and/or purchase of 895.190 acre-feet of water from San Antonio Water Company to the City of Upland. This lease is made first from San Antonio’s Annual Production Right, with any remainder to be recaptured from storage. Date of Application: February 1, 2011 *(Page 82)*

II. BUSINESS ITEMS

A. AUTHORIZE LEGAL AGREEMENT WITH JOHN SCHATZ

Move to authorize the Retention of Legal Counsel Regarding Review of the Restated Judgment *(Page 90)*

B. AGREEMENT FOR THE CONDITIONAL CONTRIBUTION OF SAFE YIELD TO OFFSET FUTURE DESALTER REPLENISHMENT

Move to Approve Agreement Between Watermaster and City of Ontario Regarding the Dedication of Safe Yield Rights to Satisfy Desalter Replenishment Obligation Pursuant to Peace II Agreement Section 6.2(a)(v) - *(Page 94)*

III. REPORTS/UPDATES

A. WATERMASTER GENERAL LEGAL COUNSEL REPORT

1. April 22, 2011 Hearing
2. Calendar of Events for Paragraph 31 Appeal

B. ENGINEERING REPORT

1. Basin Plan Amendment Issue as it Relates to Surface Water Monitoring
2. Recharge Master Plan Implementation in MZ3

C. CEO/STAFF REPORT

1. Recharge Update

IV. INFORMATION

1. Cash Disbursements for February 2011 *(Page 98)*
2. Newspaper Articles *(Page 106)*

V. POOL MEMBER COMMENTS

VI. OTHER BUSINESS

VII. CONFIDENTIAL SESSION - POSSIBLE ACTION

Pursuant to the Appropriative Pool Rules & Regulations, a Confidential Session may be held during the Watermaster Pool meeting for the purpose of discussion and possible action.

1. Personnel Action

VIII. FUTURE MEETINGS

Thursday, March 3, 2011	1:00 p.m.	Appropriative Pool Meeting @ CBWM
Thursday, March 3, 2011	2:30 p.m.	Non-Agricultural Pool Conference Call Meeting
Thursday, March 10, 2011	9:00 a.m.	Agricultural Pool Meeting @ IEUA
Thursday, March 17, 2011	8:00 a.m.	IEUA Dry Year Yield Meeting @ CBWM
Thursday, March 17, 2011	9:00 a.m.	Advisory Committee Meeting @ CBWM
Thursday, March 17, 2011	10:30 a.m.	Land Subsidence Committee Mtg. @ CBWM
Thursday, March 17, 2011	1:00 p.m.	CEO Interview Panel Meeting @ CBWM
Tuesday, March 22, 2011	9:00 a.m.	GRCC Meeting @ CBWM
Thursday, March 24, 2011	11:00 a.m.	Watermaster Board Meeting @ CBWM
Friday, April 22, 2011	10:00 a.m.	Chino Basin Watermaster Court Hearing

Meeting Adjourn

CHINO BASIN WATERMASTER

I. CONSENT CALENDAR

A. MINUTES

1. Appropriative Pool Meeting held on February 3, 2011

Draft Minutes
CHINO BASIN WATERMASTER
APPROPRIATIVE POOL MEETING

February 3, 2011

The Appropriative Pool Meeting was held at the offices of Chino Basin Watermaster, 9641 San Bernardino Road, Rancho Cucamonga, CA, on February 3, 2011 at 1:00 p.m.

APPROPRIATIVE POOL MEMBERS PRESENT WHO SIGNED IN

John Mura, Chair	City of Chino Hills
Mark Kinsey	Monte Vista Water District
Josh Swift	Fontana Water Company
Raul Garibay	City of Pomona
Mohamed El-Amamy	City of Ontario
Jo Lynne Russo-Pereyra	Cucamonga Valley Water District
Tom Harder	Jurupa Community Services District
Charles Moorrees	San Antonio Water Company
Dave Crosley	City of Chino

Watermaster Staff Present

Kenneth R. Manning	Chief Executive Officer
Ben Pak	Senior Project Engineer
Danielle Maurizio	Senior Engineer
Joe Joswiak	Chief Financial Officer
Sherri Lynne Molino	Recording Secretary

Watermaster Consultants Present

Michael Fife	Brownstein, Hyatt, Farber & Schreck
Mark Wildermuth	Wildermuth Environmental Inc.

Others Present Who Signed In

Robert DeLoach	DeLoach & Associates
Geoffrey Kamansky	Niagara Bottling, LLC
Chris Berch	Inland Empire Utilities Agency
Curtis Paxton	Chino Desalter Authority
Steven G. Lee	Reid & Hellyer
Sheri Rojo	Consultant for Fontana Water Company

Chair Mura called the Appropriative Pool Meeting to order at 1:00 p.m.

AGENDA - ADDITIONS/REORDER

Mr. Manning noted under the Turner Basin Excavation Costs there is an updated agreement with some minor changes in it. Those changes will be reviewed under that item on the agenda.

I. CONSENT CALENDAR

A. MINUTES

1. Minutes of the Annual Appropriative Meeting held January 3, 2011

B. FINANCIAL REPORTS

1. Cash Disbursements for the month of December 2010
2. Watermaster Visa Check Detail for the month of December 2010

3. Combining Schedule for the Period July 1, 2010 through December 31, 2010
4. Treasurer's Report of Financial Affairs for the Period December 1, 2010 through December 31, 2010
5. Budget vs. Actual July through December 2010

C. WATER TRANSACTION

1. **Consider Approval for Notice of Sale or Transfer** – The City of Pomona will transfer 370.000 acre-feet of water to the City of Upland. The water will be transferred from Pomona's Excess Carryover Account to Upland's Excess Carryover Account
Date of Application: January 18, 2011
2. **Consider Approval for Notice of Sale or Transfer** – On January 20, 2011, Watermaster received Consolidated Water Transfer Forms 3, 4, and 5 with Southern California Edison (SCE) as the Transferor and the City of Ontario (as an Overlying Non-Agricultural party) as Transferee in the amount of 27.959 acre-feet of safe yield as a permanent transfer. Also to be transferred are all of SCE's post-June 30, 2007 stored, carry-over and unpumped groundwater. Date of Application: January 20, 2011

Motion by Kinsey, second by Garibay, and by unanimous vote

Moved to approve Consent Calendar items A, through C, as presented

II. BUSINESS ITEMS

A. TURNER BASIN EXCAVATION COST SHARING AGREEMENT

Mr. Manning stated the agreement that is in the meeting package has been altered slightly and the revised agreement is on the back table. The alterations are from conversations that took place with Inland Empire Utilities Agency (IEUA) to incorporate into the agreement a 15% contingency clause so this item does not have to come back for revisions later. Mr. Manning stated staff has consented to the change and those changes are included in the handout agreement. Mr. Manning stated staff will be working with IEUA on the development of the environmental work and the grading plan for the parcel. Mr. Manning stated the ability to get the parcel included within the Milliken Project will be a tremendous savings for both IEUA and Watermaster in the development of another recharge basin. Mr. Manning stated by having the environmental work and the grading plan completed this will get the project started. A discussion regarding the revised dollar amount and the possible traffic study ensued. Mr. Manning stated the money for this project is not budgeted and that discussion will take place under the CFO item on the agenda. Mr. Manning noted this will be a line item transfer item that will be done later in the fiscal year. A discussion regarding the location of this property and the priority of this basin being completed ensued. A question regarding the contract being for O&M work to an existing basin or for a capital to develop additional recharge was presented. Mr. Manning stated the money that is being put into this agreement is for the environmental and grading plan; there is no money for any work to be done on the basin or any O&M and that will be included in the O&M budget that is done yearly after the project is completed. Mr. Manning stated a line item transfer will have to be done and staff will have to create an item for this project and explained this item in detail as a Cost Sharing Agreement. A discussion regarding where this item will be placed in the budget once that time comes ensued. Mr. Manning stated staff feels the current budget incorporates the money necessary to cover this project without having to do any special Assessment or do anything abnormally other than to move monies around in the budget and that will not be done today. Mr. Manning stated the recommendation is to hold off on that line item budget transfer for now until it can better be defined. A discussion regarding this item being in the OBMP category ensued.

Motion by Kinsey, second by El-Amamy, and by unanimous vote

Moved to approve the Turner Basin Excavation and Grading Agreement subject to establishment of fiscal year ending 2011 funding for the project, as presented

A. RFP FOR OUTSIDE AUDIT FIRM

Mr. Manning stated Chino Basin Watermaster has been using Mayer Hoffman McCann as our outside audit firm for the last five years. As part of the discussions that have come based on recommendations made by the State Controller's Office and parallel positions that other agencies are going through, it is Watermaster's opinion this should go out for an RFP. Mr. Joswiak has been tasked with putting together the basis for an RFP and then to move it through the Watermaster process; staff does not want to hold up its yearly outside audit which will begin in a few months. Mr. Joswiak referred to page 65 and page 66 of the meeting package which is Watermaster's staff letter regarding this item and Mr. Joswiak noted staff does recommend a request for this RFP. Mr. Joswiak offered background and comment on this item. A discussion regarding this matter ensued.

Motion by Kinsey, second by Moorrees, and by unanimous vote

Moved to approve staff to send out an RFP for an outside audit firm, as presented

B. WELL LOCATION OF WELLS I-19, I-20, AND I-21

Mr. Manning stated Mr. Wildermuth is here today to answer any questions regarding the well locations I-19, I-20, and I-21. Mr. Manning stated as staff has been discussing with the Chino Desalter Authority (CDA) as these types of items move forward, Watermaster has taken on the role as a close partner with the CDA to make sure there is no lapse in time for moving forward. Mr. Manning stated Watermaster in this partnership that has been developed with the CDA has been working with them to make sure that as they make decisions that those decisions are in fact aligned with the Hydraulic Control mission that Watermaster is concerned about. Mr. Manning commented on the previous wells that were approved. Mr. Manning stated we are now the position to evaluate the locations of the final three wells. Mr. Manning stated Wildermuth Environmental has gone through an evaluation and included in this item is the recommendation to approve the well locations for I-19-, I-20, and I-21. Mr. Wildermuth reviewed a map which shows the existing wells and the proposed new well locations and discussed the item in detail. A discussion regarding this item and Mr. Wildermuth's comments ensued. Mr. Crosley inquired about the action being approved today. Mr. Manning stated it is well location only. Mr. El-Amamy inquired about the approval process focusing on Hydraulic Control only or other areas of subsidence. Mr. Wildermuth stated only Hydraulic Control. Mr. Manning stated Watermaster's approval of these wells is contingent upon pumping from the shallow zone only at reasonable rates that will be determined later. Mr. Kinsey stated that in prior approvals the motion contained additional language regarding pumping in the shallow zone and inquired if this language is different from what has been done in the past. Mr. Manning stated it is not; however, the only difference is that they have accepted that premise already so that additional language is not needed because their designs are in the shallow zones only. Mr. Harder inquired about the approval of the locations as opposed to accepting Watermaster's staff recommendation. Mr. Manning stated the language is consistent with what has been done in the past and to provide the confidence to the CDA that they in fact have locations that will meet our Hydraulic Control needs. A discussion regarding the determination of the well locations and the approval given by this committee ensued. Mr. Crosley inquired about TCE contamination data showing up in the shallow zone or deep zone. Mr. Wildermuth stated it is almost all showing up in the shallow zone and offered further comment on Mr. Crosley's inquiry. Mr. Crosley inquired about the County's involvement in the cleanup. Mr. Manning stated the County has not indicated they are or they are not going to be involved with the cleanup effort as approved by the CDA and this design is strictly between the CDA and Watermaster. A discussion regarding this matter ensued.

Motion by Moorrees, second by Garibay, and by unanimous vote

Moved to approve well locations based on staff's recommendation for wells I-19, I-20, and I-21, as presented

III. REPORTS/UPDATES**A. WATERMASTER GENERAL LEGAL COUNSEL REPORT****1. Draft Restated Watermaster Judgment**

Counsel Fife stated this has been a process that has been worked on for the past several months. The draft Restated Watermaster Judgment is posted on the Watermaster ftp site. Counsel has been receiving comments from parties and those have been helpful. The text of the Judgment is mostly finished and currently the party lists are being worked on. Counsel Fife stated the nearly all party lists are easily formed; however, the Agricultural Pool's party list has been a challenge but the appointed sub-committee has met several times and that one is almost finished. Counsel Fife stated after the completion of the Agricultural Pool party list, it may involve going back to the court before we go to court for the actual Restated Judgment so that we can get approval for how to notify the people/parties and bind them to the Judgment in an easy and cost effective way. Counsel Fife stated this process is continued to be worked through.

2. January 21, 2011 Hearing Update

Counsel Fife stated this hearing did take place a few weeks ago and that hearing was to continue the appointment of the nine member board for a further five-year term and there was no opposition to that motion. The court did grant the request and the court signed an order which was served on the parties last week. Counsel Fife stated at that hearing the court was updated both on the Restated Judgment issue and on the CDA Desalter approval of the Watermaster Resolution and the Judge seemed satisfied with the progress that is being made on those two items. The court did set another hearing for April 22, 2011 at 10:30 a.m. and the anticipation is to present the Watermaster Resolution at that hearing. Counsel Fife stated hopefully the Agricultural Pool process issues can be included in that upcoming hearing.

3. January 26, 2011 Settlement Conference Update

Counsel Fife stated this is the Paragraph 31 Appeal from the Non-Agricultural Pool. Counsel Fife stated that Settlement conference was well attended and ultimately there was no settlement reached at the mediation meeting and the court has now ordered a briefing schedule for the appeal. Counsel Fife stated that order was served on the parties this morning and a copy of that order is on the back table. The order sets the deadline for the opening briefs by the Non-Agricultural Pool and California Steel Industries for forty days from the date of the order. Counsel Fife stated after the filing briefs are filed, Watermaster, the Appropriative Pool and anyone else that wants to reply will have a chance to file a reply briefs. Counsel Fife stated the court did state there will be no extensions granted without good cause. Counsel Fife offered comment on some of the recent court cases in which the Judge ruled in different ways other than an actual hearing.

4. Santa Ana Sucker Critical Habitat Designation

Counsel Fife stated the Fish and Wildlife Service did designate part of the river that goes by Chino Basin as critical habitat for the Santa Ana Sucker. This is not the result any of the parties wanted; the other parties on the river such as San Bernardino Municipal Water District, Western Municipal Water District and the City of Riverside are also dissatisfied with the decision by Fish and Wildlife and they have more of a significant concern because they actually do things in the river; a committee has been formed and their deciding what their appropriate response will be. Watermaster has participated in that and Watermaster will follow in their lead in whatever they decide to do; it looks like they will challenge the decision and litigate it. Counsel Fife stated if that happens Watermaster will follow as our own entity, not part of a coalition; however, still following their lead. Counsel Fife stated staff and counsel will keep the parties updated as decisions are made in this matter.

B. ENGINEERING REPORT1. Land Subsidence Committee Meeting Update

Mr. Wildermuth stated there was a Land Subsidence Committee meeting in January. Mr. Wildermuth offered comment on the newly expanded committee. Mr. Wildermuth stated from that last meeting it was apparent some parties needed more technical information to be caught up with the parties that had been attending the MZ1 meetings and noted a separate technical meeting was scheduled at the Wildermuth office and that meeting was well attended. Mr. Wildermuth offered comment on the items reviewed at that technical meeting. Mr. Wildermuth noted there are minutes from that meeting and those will be distributed shortly. The next meeting was scheduled for February 17, 2011, at 10:30 a.m. but that meeting date has now changed to February 24, 2011, at 9:00 a.m. due to some scheduling conflicts.

2. MZ3 Recharge Opportunities Effort

Mr. Wildermuth stated Wildermuth staff, Watermaster staff, and staff from the Water Conservation District had been working hard to come up with the proposal of what is possible/what could be looked at. Mr. Wildermuth offered comment on the progress. Mr. Manning stated Mr. Pak did attend a budget hearing for the County of Riverside recently, representing Watermaster to make a plea on behalf of the Watermaster parties in the MZ3 area to include funding within their budget for the Riverside Flood Control for projects dedicated to the Chino Basin. The County of Riverside did agree to place funding into their budget; however, no dollar amount has been identified. Mr. Wildermuth stated by having Ben be at that meeting making that pitch was very important.

3. Chino Creek Well Field Well I-18 Design

Mr. Wildermuth stated Watermaster was asked to take a look at the Chino Creek Well Field well I-18 design and those related documents are in the meeting packet starting on page 78. Mr. Wildermuth reviewed a map and discussed the well design and the issue of the removal of the cap in detail. Mr. Wildermuth stated this might be seen in other designs as well. A discussion regarding this matter ensued.

C. FINANCIAL REPORT1. Expected Cost of Completion Mid-Year

Mr. Manning introduced this item with regard to the past six months of the Watermaster's budget. Mr. Joswiak noted this item is presented in the meeting package on pages 92 through 96. Mr. Joswiak noted this is the second quarter financial review. Mr. Joswiak gave the Expected Cost of Completion Mid-Year presentation and discussed each category item in detail. A discussion regarding the Chino Airport Plume and legal services ensued. Mr. Manning stated when we look at the positives and negatives through the budget, half way through the year, even when you include the \$62,000 fine from the Regional Board that there will not be any special assessment of the Appropriative Pool in order to be able to make up for all of those funds. A discussion regarding the Regional Board fine ensued. Ms. Rojo offered comment on some of the concerns from Fontana Water Company on how capital costs for basin improvements are allocated. Mr. Manning asked that Ms. Rojo put her concerns in writing and submit them to Watermaster.

D. CEO/STAFF REPORT1. CEO Resignation

Mr. Manning stated

2. Legislative Update

Mr. Manning stated

3. Recharge Update

Mr. Manning stated

STAFF REPORT

DATE: March 3, 2011
TO: Committee Members
SUBJECT: Cash Disbursement Report – Financial Report B1

SUMMARY

Issue – Record of cash disbursements for the month of January 2011.

Recommendation – Staff recommends the Cash Disbursements for January 2011 be received and filed as presented.

Fiscal Impact – Funds disbursed were included in the FY 2010-2011 Watermaster Budget.

BACKGROUND

A monthly cash disbursement report is provided to keep all members apprised of Watermaster expenditures.

DISCUSSION

Total cash disbursements during the month of January 2011 were \$3,048,507.12. The most significant expenditures during the month were The City of Ontario in the amount of \$719,613.83 (check number 14819 dated January 10, 2011), Aqua Capital Management, LP in the amount of \$478,091.63 (check number 14814 dated January 10, 2011) and GenOn West LP in the amount of \$317,570.53 (check number 14817 dated January 10, 2011). All three checks were part of the 2nd of four (4) annual installment payments for the purchase of Non-Ag Water.

Actions:

STAFF REPORT

DATE: March 3, 2011
TO: Committee Members
SUBJECT: VISA Check Detail Report – Financial Report B2

SUMMARY

Issue – Record of VISA credit card payment disbursed for the month of January 2011.

Recommendation – Staff recommends the VISA Check Detail Report for January 2011 be received and filed as presented.

Fiscal Impact – Funds disbursed were included in the FY 2010-2011 Watermaster Budget.

BACKGROUND

A monthly VISA Check Detail report is provided to keep all members apprised of Watermaster expenditures charged against the CEO and/or CFO's Bank of America VISA card.

DISCUSSION

Total cash disbursement during the month of January 2011 was \$2,421.45. The monthly charges for January 2011 were for routine and customary expenditures and properly documented with receipts.

Actions:

March 3, 2011 Appropriative Pool –
March 3, 2011 Non-Agricultural Pool –
March 10, 2011 Agricultural Pool –
March 17, 2011 Advisory Committee –
March 24, 2011 Watermaster Board –

STAFF REPORT

DATE: March 3, 2011
TO: Committee Members
SUBJECT: Combining Schedule of Revenue, Expenses and Changes in Working Capital for the Period July 1, 2010 through January 31, 2011 - Financial Report B3

SUMMARY

Issue – Record of Revenue, Expenses and Changes in Working Capital for the Period July 1, 2010 through January 31, 2011.

Recommendation – Staff recommends the Combining Schedule of Revenue, Expenses and Changes in Working Capital for the Period July 1, 2010 through January 31, 2011 be received and filed as presented.

Fiscal Impact – Funds disbursed were included in the FY 2010-2011 Watermaster Budget.

BACKGROUND

A Combining Schedule of Revenue, Expenses and Changes in Working Capital for the period July 1, 2010 through January 31, 2011 is provided to keep all members apprised of the FY 2010/2011 cumulative Watermaster revenues, expenditures and changes in working capital for the period listed.

DISCUSSION

The Combining Schedule of Revenue, Expenses and Changes in Working Capital has been created from various financial reports and statements created from QuickBooks Enterprise Solutions 9.0, the Watermaster accounting system. The Combining Schedule provided balances to the supporting documentation in the Watermaster accounting system as presented.

STAFF REPORT

DATE: March 3, 2011
TO: Committee Members
SUBJECT: Treasurer's Report of Financial Affairs for the Period January 1, 2011 through January 31, 2011 - Financial Report B4

SUMMARY

Issue – Record of increases or decreases in the cash position, assets and liabilities of Watermaster for the Period of January 1, 2011 through January 31, 2011.

Recommendation – Staff recommends the Treasurer's Report of Financial Affairs for the Period January 1, 2011 through January 31, 2011 be received and filed as presented.

Fiscal Impact – Funds disbursed were included in the FY 2010-2011 Watermaster Budget.

BACKGROUND

A Treasurer's Report of Financial Affairs for the Period January 1, 2011 through January 31, 2011 is provided to keep all members apprised of the total cash in banks (Bank of America and LAIF) and on hand at the Watermaster office (petty cash) at the end of the period stated. The Treasurer's Report details the change (increase or decrease) in the overall cash position of Watermaster, as well as the changes (increase or decrease) to the assets and liabilities section of the balance sheet. The report also provides a detailed listing of all deposits and/or withdrawals in the California State Treasurer's Local Agency Investment Fund (LAIF), the most current effective yield as of the last quarter, and the ending balance in LAIF as of the reporting date.

DISCUSSION

The Treasurer's Report of Financial Affairs has been created from various financial reports and statements created from QuickBooks Enterprise Solutions 9.0, the Watermaster accounting system. The Treasurer's Report provided, balances to the supporting documentation in the Watermaster accounting system, as well as the supporting bank statements.

STAFF REPORT

DATE: March 3, 2011
TO: Committee Members
SUBJECT: Budget vs. Actual Report for the Period July 1, 2010 through January 31, 2011 - Financial Report - B5

SUMMARY

Issue – Record of revenues and expenses of Watermaster for the Period of July 1, 2010 through January 31, 2011.

Recommendation – Staff recommends the Budget vs. Actual Report for the Period July 1, 2010 through January 31, 2011 be received and filed as presented.

Fiscal Impact – Funds disbursed were included in the FY 2010-2011 Watermaster Budget.

BACKGROUND

A Budget vs. Actual Report for the period July 1, 2010 through January 31, 2011 is provided to keep all members apprised of the total revenues and expenses for the current fiscal year. The expense section is categorized into four distinct sections. Those sections are: General and Administrative Expenses; Optimal Basin Management Program Expenses; Project Expenses; and Other Income/Expenses.

DISCUSSION

The Budget vs. Actual report has been created from QuickBooks Enterprise Solutions 9.0, the Watermaster accounting system. The Budget vs. Actual report provided, balances to the supporting documentation in the Watermaster accounting system, as well as the supporting bank statements.

Year-To-Date (YTD) for the seven month period ending January 31, 2011 of the fiscal year, all categories were at or below the projected budget with the exception of category 6900 (Optimum Basin Mgmt Plan). Within the 6900 category is the regional board fine in the amount of \$62,675 which was posted to account 6909 (OBMP Other Expenses). The regional board fine of \$62,675 was not included as part of the fiscal year 2010/2011 budget. Also recorded within this category are the Watermaster's legal expenses. Currently, the legal expenses are above the Y-T-D budget as a direct result of the ongoing Desalter Negotiations of \$160,760, the Chino Airport Plume of \$45,570, Santa Ana River Critical Habitat of \$10,307, the Paragraph 31 Motion activity of \$58,192 and the South Archibald Plume (formerly known as the Ontario Airport Plume) of \$2,987. Several individual legal projects were below budget for the Y-T-D period. These were the Peace II (\$25,149), the Santa Ana River Water Rights Application of (\$3,988), Water Auction (\$22,150), Regional Water Quality Control Board of (\$5,159), Recharge Master Plan (\$19,609) and General Administrative Legal Costs (Pool, Advisory and Board meetings) of (\$31,546).

The budgeted amount for legal expenses for the entire fiscal year of \$450,000 was allocated at \$37,500 per month. For the seven month period, the cumulative Y-T-D budget was \$262,500 and actual legal expenses totaled \$432,716 which resulted in an over budget variance of \$170,216. To date, the legal contingency of \$145,000 has not been used.

Total 6909 · OBMP Other Expenses	67,672.31	15,000.00	52,672.31	451.15%

Looking ahead, the month of February should provide similar financial results. The legal expenses will be slightly higher than the previous month's activity with the return of legal activities and projects after the holiday season and increased activity with the South Archibald Plume. For February, there is no expectation of any "abnormal financial activity" resulting in large over budget variances. It is anticipated that the Budget Transfers will be requested during the month of April 2011.

NOTICE

OF

APPLICATION(S)

RECEIVED FOR

WATER TRANSACTIONS – ACTIVITIES

Date of Notice:

February 24, 2011

This notice is to advise interested persons that the attached application(s) will come before the Watermaster Board on or after 30 days from the date of this notice.

NOTICE OF APPLICATION(S) RECEIVED

Date of Application: **January 26, 2011**

Date of this notice: **February 24, 2011**

Please take notice that the following Application has been received by Watermaster:

- Notice of Sale or Transfer – The lease and/or purchase of 60.000 acre-feet of water from San Antonio Water Company to the City of Ontario. This lease is made first from San Antonio's Annual Production Right, with any remainder to be recaptured from storage.

This *Application* will first be considered by each of the respective pool committees on the following dates:

Appropriative Pool: March 3, 2011

Non-Agricultural Pool: March 3, 2011

Agricultural Pool: March 10, 2011

This *Application* will be scheduled for consideration by the Advisory Committee *no earlier than thirty days from the date of this notice and a minimum of twenty-one calendar days* after the last pool committee reviews it.

After consideration by the Advisory Committee, the *Application* will be considered by the Board.

Unless the *Application* is amended, parties to the Judgment may file *Contests* to the *Application* with Watermaster *within seven calendar days* of when the last pool committee considers it. Any *Contest* must be in writing and state the basis of the *Contest*.

Fax: (909) 484-3890

CHINO BASIN WATERMASTER

NOTICE OF TRANSFER OF WATER

Notification Dated: February 24, 2011

A party to the Judgment has submitted a proposed transfer of water for Watermaster approval. Unless contrary evidence is presented to Watermaster that overcomes the rebuttable presumption provided in Section 5.3(b)(iii) of the Peace Agreement, Watermaster must find that there is "no material physical injury" and approve the transfer. Watermaster staff is not aware of any evidence to suggest that this transfer would cause material physical injury and hereby provides this notice to advise interested persons that this transfer will come before the Watermaster Board on or after 30 days from the date of this notice. The attached staff report will be included in the meeting package at the time the transfer begins the Watermaster process (comes before Watermaster).

KENNETH R. MANNING
CHIEF EXECUTIVE OFFICER

DATE: February 24, 2011
TO: Watermaster Interested Parties
SUBJECT: Summary and Analysis of Application for Water Transaction

Summary –

There does not appear to be a potential material physical injury to a party or to the basin from the proposed transaction as presented.

Issue –

- Notice of Sale or Transfer – The lease and/or purchase of 60,000 acre-feet of water from San Antonio Water Company to the City of Ontario. This lease is made first from San Antonio's Annual Production Right, with any remainder to be recaptured from storage.

Recommendation –

1. Continue monitoring as planned in the Optimum Basin Management Program.
2. Use all new or revised information when analyzing the hydrologic balance and report to Watermaster if a potential for material physical injury is discovered, and
3. Approve the transaction as presented.

Fiscal Impact –

- None
- Reduces assessments under the 85/15 rule
- Reduce desalter replenishment costs

Background

The Court approved the Peace Agreement, the Implementation Plan and the goals and objectives identified in the OBMP Phase I Report on July 13, 2000, and ordered Watermaster to proceed in a manner consistent with the Peace Agreement. Under the Peace Agreement, Watermaster approval is required for applications to store, recapture, recharge or transfer water, as well as for applications for credits or reimbursements and storage and recovery programs.

Where there is no material physical injury, Watermaster must approve the transaction. Where the request for Watermaster approval is submitted by a party to the Judgment, there is a rebuttable presumption that most of the transactions do not result in Material Physical Injury to a party to the Judgment or the Basin (Storage and Recovery Programs do not have this presumption).

The following application for water transaction is attached with the notice of application.

- Notice of Sale or Transfer - The lease and/or purchase of 60,000 acre-feet of water from San Antonio Water Company to the City of Ontario. This lease is made first from San Antonio's Annual Production Right, with any remainder to be recaptured from storage.

Notice of the water transaction identified above was mailed on February 24, 2011 along with the materials submitted by the requestors.

DISCUSSION

Water transactions occur each year and are included as production by the respective entity (if produced) in any relevant analyses conducted by Wildermuth Environmental pursuant to the Peace Agreement and the Rules & Regulations. There is no indication additional analysis regarding this transaction is necessary at this time. As part of the OBMP Implementation Plan, continued measurement of water levels and the installation of extensometers are planned. Based on no real change in the available data, we cannot conclude that the proposed water transaction will cause material physical injury to a party or to the Basin.

CONSOLIDATED WATER TRANSFER FORMS:
 FORM 3: APPLICATION FOR SALE OR TRANSFER OF RIGHT TO PRODUCE WATER FROM STORAGE
 FORM 4: APPLICATION OR AMENDMENT TO APPLICATION TO RECAPTURE WATER IN STORAGE
 FORM 5: APPLICATION TO TRANSFER ANNUAL PRODUCTION RIGHT OR SAFE YIELD

FISCAL YEAR 2010-2011

DATE REQUESTED: 1-26-11

AMOUNT REQUESTED: 60 Acre-Feet

<p>TRANSFER FROM (SELLER / TRANSFEROR): <u>SAN ANTONIO WATER CO.</u> Name of Party <u>139 N. EUCLID AVE.</u> Street Address <u>UPLAND</u> <u>CA</u> <u>91786</u> City State Zip Code <u>909. 982. 4107</u> Telephone <u>909. 920. 3047</u> Facsimile</p>	<p>TRANSFER TO (BUYER / TRANSFEREE): <u>CITY OF ONTARIO</u> Name of Party <u>1425 S. Bon View Ave</u> Street Address <u>Ontario</u> <u>CA</u> <u>91761</u> City State Zip Code <u>909 395-2605</u> Telephone <u>909 391-2601</u> Facsimile</p>
---	---

Have any other transfers been approved by Watermaster between these parties covering the same fiscal year? — Yes No

PURPOSE OF TRANSFER:

- Pump when other sources of supply are curtailed
- Pump to meet current or future demand over and above production right
- Pump as necessary to stabilize future assessment amounts
- Other, explain _____

WATER IS TO BE TRANSFERRED FROM:

- Annual Production Right (Appropriative Pool) or Operating Safe Yield (Non-Agricultural Pool)
- Storage
- Annual Production Right / Operating Safe Yield first, then any additional from Storage
- Other, explain _____

WATER IS TO BE TRANSFERRED TO:

- Annual Production Right / Operating Safe Yield (common)
- Storage (rare)
- Other, explain _____

IS THE 85/15 RULE EXPECTED TO APPLY? (If yes, all answers below must be "yes.") Yes No
 Is the Buyer an 85/15 Party? Yes No
 Is the purpose of the transfer to meet a current demand over and above production right? Yes No
 Is the water being placed into the Buyer's Annual Account? Yes No

IF WATER IS TO BE TRANSFERRED FROM STORAGE:

Varies Projected Rate of Recapture July 2010 to June 30, 2011 Projected Duration of Recapture

METHOD OF RECAPTURE (e.g. pumping, exchange, etc.):
Recapture by Ontario will be accomplished by pumping R3 wells.

PLACE OF USE OF WATER TO BE RECAPTURED:
Management zones 1, 2, & 3

LOCATION OF RECAPTURE FACILITIES (IF DIFFERENT FROM REGULAR PRODUCTION FACILITIES):

WATER QUALITY AND WATER LEVELS

Are the Parties aware of any water quality issues that exist in the area? Yes No

If yes, please explain:

Nitrate levels in pumped ground water varies from < 5 mg/L to 30 mg/L

What are the existing water levels in the areas that are likely to be affected?

Static water levels vary from 270 ft to 530 ft.

MATERIAL PHYSICAL INJURY

Are any of the recapture wells located within Management Zone 1? Yes No

Is the Applicant aware of any potential Material Physical Injury to a party to the Judgment or the Basin that may be caused by the action covered by the application? Yes No

If yes, what are the proposed mitigation measures, if any, that might reasonably be imposed to ensure that the action does not result in Material Physical Injury to a party to the Judgment or the Basin?

N/A

SAID TRANSFER SHALL BE CONDITIONED UPON:

- (1) Transferee shall exercise said right on behalf of Transferor under the terms of the Judgment, the Peace Agreement, the Peace II Agreement, and the Management Zone 1 Subsidence Management Plan for the period described above. The first water produced in any year shall be that produced pursuant to carry-over rights defined in the Judgment. After production of its carry-over rights, if any, the next (or first if no carry-over rights) water produced by Transferee from the Chino Basin shall be that produced hereunder.
- (2) Transferee shall put all waters utilized pursuant to said Transfer to reasonable beneficial use.
- (3) Transferee shall pay all Watermaster assessments on account of the water production hereby Transferred.
- (4) Any Transferee not already a party must Intervene and become a party to the Judgment.

MONTE VISTA WATER DISTRICT

Recapture Plan

Location of where the recaptured water will be extracted by the District is within Management Zone 1 of the Chino Basin and will be accomplished by any or all of the 13 wells owned and operated by the District. The approximate daily production capacity of these wells is noted below.

The 274.294 AF transfer will be utilized for delivery to the District's retail customers, for delivery to the City of Chino Hills, or to offset future District replenishment obligations.

NOTICE

OF

APPLICATION(S)

RECEIVED FOR

WATER TRANSACTIONS – ACTIVITIES

Date of Notice:

February 24, 2011

This notice is to advise interested persons that the attached application(s) will come before the Watermaster Board on or after 30 days from the date of this notice.

NOTICE OF APPLICATION(S) RECEIVED

Date of Application: **January 26, 2011**

Date of this notice: **February 24, 2011**

Please take notice that the following Application has been received by Watermaster:

- Notice of Sale or Transfer – The lease and/or purchase of 880.000 acre-feet of water from San Antonio Water Company to the City of Upland. This lease is made first from San Antonio's Annual Production Right, with any remainder to be recaptured from storage.

This *Application* will first be considered by each of the respective pool committees on the following dates:

Appropriative Pool: March 3, 2011

Non-Agricultural Pool: March 3, 2011

Agricultural Pool: March 10, 2011

This *Application* will be scheduled for consideration by the Advisory Committee *no earlier than thirty days from the date of this notice and a minimum of twenty-one calendar days* after the last pool committee reviews it.

After consideration by the Advisory Committee, the *Application* will be considered by the Board.

Unless the *Application* is amended, parties to the Judgment may file *Contests* to the *Application* with Watermaster *within seven calendar days* of when the last pool committee considers it. Any *Contest* must be in writing and state the basis of the *Contest*.

Watermaster address:

Chino Basin Watermaster

Fax: (909) 484-3890

CHINO BASIN WATERMASTER

NOTICE OF TRANSFER OF WATER

Notification Dated: February 24, 2011

A party to the Judgment has submitted a proposed transfer of water for Watermaster approval. Unless contrary evidence is presented to Watermaster that overcomes the rebuttable presumption provided in Section 5.3(b)(iii) of the Peace Agreement, Watermaster must find that there is "no material physical injury" and approve the transfer. Watermaster staff is not aware of any evidence to suggest that this transfer would cause material physical injury and hereby provides this notice to advise interested persons that this transfer will come before the Watermaster Board on or after 30 days from the date of this notice. The attached staff report will be included in the meeting package at the time the transfer begins the Watermaster process (comes before Watermaster).

KENNETH R. MANNING
CHIEF EXECUTIVE OFFICER

DATE: February 24, 2011
TO: Watermaster Interested Parties
SUBJECT: Summary and Analysis of Application for Water Transaction

Summary –

There does not appear to be a potential material physical injury to a party or to the basin from the proposed transaction as presented.

Issue –

- Notice of Sale or Transfer – The lease and/or purchase of 880,000 acre-feet of water from San Antonio Water Company to the City of Upland. This lease is made first from San Antonio's Annual Production Right, with any remainder to be recaptured from storage.

Recommendation –

1. Continue monitoring as planned in the Optimum Basin Management Program.
2. Use all new or revised information when analyzing the hydrologic balance and report to Watermaster if a potential for material physical injury is discovered, and
3. Approve the transaction as presented.

Fiscal Impact –

- None
- Reduces assessments under the 85/15 rule
- Reduce desalter replenishment costs

Background

The Court approved the Peace Agreement, the Implementation Plan and the goals and objectives identified in the OBMP Phase I Report on July 13, 2000, and ordered Watermaster to proceed in a manner consistent with the Peace Agreement. Under the Peace Agreement, Watermaster approval is required for applications to store, recapture, recharge or transfer water, as well as for applications for credits or reimbursements and storage and recovery programs.

Where there is no material physical injury, Watermaster must approve the transaction. Where the request for Watermaster approval is submitted by a party to the Judgment, there is a rebuttable presumption that most of the transactions do not result in Material Physical Injury to a party to the Judgment or the Basin (Storage and Recovery Programs do not have this presumption).

The following application for water transaction is attached with the notice of application.

- Notice of Sale or Transfer - The lease and/or purchase of 880,000 acre-feet of water from San Antonio Water Company to the City of Upland. This lease is made first from San Antonio's Annual Production Right, with any remainder to be recaptured from storage.

Notice of the water transaction identified above was mailed on February 24, 2011 along with the materials submitted by the requestors.

DISCUSSION

Water transactions occur each year and are included as production by the respective entity (if produced) in any relevant analyses conducted by Wildermuth Environmental pursuant to the Peace Agreement and the Rules & Regulations. There is no indication additional analysis regarding this transaction is necessary at this time. As part of the OBMP Implementation Plan, continued measurement of water levels and the installation of extensometers are planned. Based on no real change in the available data, we cannot conclude that the proposed water transaction will cause material physical injury to a party or to the Basin.

CONSOLIDATED WATER TRANSFER FORMS:
FORM 3: APPLICATION FOR SALE OR TRANSFER OF RIGHT TO PRODUCE WATER FROM STORAGE
FORM 4: APPLICATION OR AMENDMENT TO APPLICATION TO RECAPTURE WATER IN STORAGE
FORM 5: APPLICATION TO TRANSFER ANNUAL PRODUCTION RIGHT OR SAFE YIELD

FISCAL YEAR 2010-2011

Have any other transfers been approved by Watermaster between these parties covering the same fiscal year? Yes No

PURPOSE OF TRANSFER:

- Pump when other sources of supply are curtailed
- Pump to meet current or future demand over and above production right
- Pump as necessary to stabilize future assessment amounts
- Other, explain _____

WATER IS TO BE TRANSFERRED FROM:

- Annual Production Right (Appropriative Pool) or Operating Safe Yield (Non-Agricultural Pool)
- Storage
- Annual Production Right / Operating Safe Yield first, then any additional from Storage
- Other, explain _____

WATER IS TO BE TRANSFERRED TO:

- Annual Production Right / Operating Safe Yield (common)
- Storage (rare)
- Other, explain _____

IS THE 85/15 RULE EXPECTED TO APPLY? (If yes, all answers below must be "yes.") Yes No

Is the Buyer an 85/15 Party? Yes No

Is the purpose of the transfer to meet a current demand over and above production right? Yes No

Is the water being placed into the Buyer's Annual Account? Yes No

IF WATER IS TO BE TRANSFERRED FROM STORAGE:

1,000 gpm Projected Rate of Recapture FUTURE FISCAL YEARS Projected Duration of Recapture

METHOD OF RECAPTURE (e.g. pumping, exchange, etc.):

PUMPING

PLACE OF USE OF WATER TO BE RECAPTURED:

CITY OF UPLAND'S WATER SYSTEM

LOCATION OF RECAPTURE FACILITIES (IF DIFFERENT FROM REGULAR PRODUCTION FACILITIES):

WATER QUALITY AND WATER LEVELS

Are the Parties aware of any water quality issues that exist in the area? Yes No

If yes, please explain:

DBCP AND NITRATE

What are the existing water levels in the areas that are likely to be affected?

APPROXIMATELY 600' BGS

MATERIAL PHYSICAL INJURY

Are any of the recapture wells located within Management Zone 1? Yes No

Is the Applicant aware of any potential Material Physical Injury to a party to the Judgment or the Basin that may be caused by the action covered by the application? Yes No

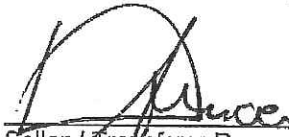

If yes, what are the proposed mitigation measures, if any, that might reasonably be imposed to ensure that the action does not result in Material Physical Injury to a party to the Judgment or the Basin?

SAID TRANSFER SHALL BE CONDITIONED UPON:

- (1) Transferee shall exercise said right on behalf of Transferor under the terms of the Judgment, the Peace Agreement, the Peace II Agreement, and the Management Zone 1 Subsidence Management Plan for the period described above. The first water produced in any year shall be that produced pursuant to carry-over rights defined in the Judgment. After production of its carry-over rights, if any, the next (or first if no carry-over rights) water produced by Transferee from the Chino Basin shall be that produced hereunder.
- (2) Transferee shall put all waters utilized pursuant to said Transfer to reasonable beneficial use.
- (3) Transferee shall pay all Watermaster assessments on account of the water production hereby Transferred.
- (4) Any Transferee not already a party must Intervene and become a party to the Judgment.

STAFF REPORT

DATE: March 3, 2011
TO: Committee Members
SUBJECT: Retention of legal counsel regarding review of restated Judgment

SUMMARY

Recommendation – Staff Recommends the Retention of Legal Counsel Regarding Review of Restated Judgment

Financial Impact - Not to exceed \$1,000

Background

The following information concerning this item was provided to staff by the Appropriative Pool:

On February 3, 2011, Appropriative meeting, following Closed Session, Appropriative Pool Chairman John Mura requested an item be included on the agenda for the March Appropriative Pool meeting for consideration of authorizing the engagement of John Schatz to represent the Pool concerning review of the Restated Judgment and to further represent the Pool when this matter is heard by the Court.

Unless issues are raised that may require additional time, the budget for this item is not expected to exceed \$1,000.

Further information concerning this item is found in the attached proposal from Mr. Schatz to the Pool.

Watermaster staff requests that if the Appropriative Pool approves this item that the Pool specify the source of the funds.

Actions:
March 3, 2011 Appropriative Pool -

February 25, 2011

John Mura
Chairman
Appropriative Pool
Chino Basin Watermaster
9641 San Bernardino Road
Rancho Cucamonga, Ca. 91730

RE: LEGAL REPRESENTATION – RESTATED JUDGMENT

Chairman Mura and Pool Members:

This is to memorialize discussions with you and members of the Pool with respect to representing the Pool for purposes of reviewing the draft Restated Judgment and attending the Court hearing regarding this matter. The same terms and conditions will apply as for my representation of the Pool in connection with the Overlying (Non-Agricultural) Pool matter, including the same hourly rate.

The estimated budget for this matter is not to exceed \$1,000, inclusive of approximately three hours to review the draft Restated Judgment and attending the Court hearing. In the event there are challenges, or issues are raised by Judgment parties or others concerning this matter regarding which it is advisable for the Pool to be represented, I will consult with you with respect to a revised estimated budget.

If you have any questions, please contact me. I appreciate the opportunity to continue representing the Pool.

Sincerely,

John J. Schatz

CHINO BASIN WATERMASTER

II. BUSINESS ITEM

- B. AGREEMENT FOR THE
CONDITIONAL CONTRIBUTION OF
SAFE YIELD TO OFFSET FUTURE
DESALTER REPLENISHMENT

CHINO BASIN WATERMASTER

9641 San Bernardino Road, Rancho Cucamonga, Ca 91730
Tel: 909.484.3888 Fax: 909.484.3890 www.cbwm.org

STAFF REPORT

DATE: March 3, 2011
TO: Committee Members
SUBJECT: Agreement Between Watermaster and City of Ontario Regarding Dedication of Safe Yield Rights to Satisfy Desalter Replenishment Obligation Pursuant to Peace II Agreement

SUMMARY

Issue - Approval of agreement between Watermaster and City of Ontario re dedication of Safe Yield rights to satisfy desalter replenishment obligation pursuant to Peace II Agreement section 6.2(a)(v).

Recommendation - Staff recommends approval of the Agreement.

Financial Impact - None anticipated. Dedication of Safe Yield right to satisfy desalter replenishment obligations will potentially reduce future CURO.

Background

Both the Peace Agreement and the Peace II Agreement address future replenishment obligations by the Desalters. The Peace Agreement established a hierarchy of source of water that would be used to satisfy such replenishment obligations. One of these sources was Safe Yield. (Peace Agreement Section 7.5(c).)

Referencing Peace Agreement section 7.5(c), the Peace II Agreement section 6.2(a)(v) states that one offset against Desalter replenishment obligations shall be, "Safe Yield that may be contributed by the parties"

To date, no party has utilized this provision to dedicate Safe Yield for the purpose of offsetting Desalter obligations.

The City of Ontario has acquired or is in the process of acquiring rights within the Non-Agricultural Pool and has sought an assurance from Watermaster that it will have the ability to dedicate such rights as an offset against its replenishment obligations pursuant to Peace II Agreement section 6.2(a)(v).

Watermaster staff believes such dedication of Non-Agricultural rights is appropriate under the Peace II Agreement. Staff notes that other sections in the Peace II Agreement contemplate use of Non-Agricultural Pool water as an offset against Desalter replenishment obligations. (See Peace II Agreement section 6.2(a)(ii).) Staff believes such dedications may satisfy policy goals of reducing the CURO.

Any party with Safe Yield rights may utilize the dedication provision of Peace II Agreement section 6.2(a)(v). The current assurance is framed as an agreement between Watermaster and the City of Ontario only because it is addressing the specific circumstance of a party purchasing Non-Agricultural Pool rights and dedicating those rights to satisfy Desalter replenishment obligations. The form of the agreement is not intended to limit any party's rights under either the Peace Agreement or the Peace II Agreement.

Actions:

- March 3, 2011 Appropriative Pool –
- March 3, 2011 Non-Agricultural Pool –
- March 10, 2011 Agricultural Pool –
- March 17, 2011 Advisory Committee –
- March 24, 2011 Watermaster Board –

AGREEMENT FOR THE CONDITIONAL CONTRIBUTION OF SAFE YIELD TO OFFSET FUTURE DESALTER REPLENISHMENT

WHEREAS, Watermaster is charged with responsibility to administer the Judgment and the Optimum Basin Management Program ("OBMP");

WHEREAS, there is projected to be a substantial Replenishment Obligation for the Chino Basin Desalters within the next decade;

WHEREAS, the City of Ontario (City) is a party to the Judgment and the owner of appropriative and overlying rights and is a member of the Appropriative and Overlying (Non-Agricultural) Pools;

WHEREAS, the City intends to acquire rights to a portion of the Safe Yield allocated among the members of the Overlying (Non-Agricultural) Pool;

WHEREAS, Section 7.5(c) of the Peace Agreement provides that "Safe Yield" may be dedicated by a Purchaser of Desalted Water to Offset the cost of Desalted Water;

WHEREAS, the Judgment includes all Basin water produced by each of the three Pools and the subsequent actions of Watermaster have established the "Safe Yield" at 140,000 acre-feet per year and apportioned the Safe Yield among the three Pools;

WHEREAS, pursuant to Peace Agreement II Section 6.2(a) the Replenishment Obligation attributable to the Desalters will be determined by Watermaster after taking into account Safe Yield "contributed by the parties," citing Section 7.5(c) of the Peace Agreement;

WHEREAS, the City has a prospective Replenishment Obligation as an individual member of the Appropriative Pool that it desires to offset by the contribution of Safe Yield;

WHEREAS, Watermaster has previously acquired Safe Yield from other Parties to offset subsequent Desalter Replenishment obligations;

WHEREAS, the City intends to conditionally contribute Safe Yield acquired from the Overlying (Non-Agricultural) Pool to Watermaster in accordance with these provisions;

NOW THEREFORE, the parties agree as follows:

AGREEMENT

1. Acquisition of Safe Yield. The City may acquire Overlying (Non-Agricultural) Pool water from Parties to the Judgment and hold this water in Local Storage with the intention of subsequently contributing this Safe Yield to Watermaster, provided that it complies with all Watermaster rules and regulations concerning the beneficial use and storage of Basin water, including but not limited to the application of an annual loss from storage until a contribution occurs or the City otherwise elects to use the Safe Yield for another permissible purpose.

2. Contribution. At any time between the date of execution and December 31, 2015, if a Replenishment Obligation arises that is attributable to Desalter Production as provided in Section 6.2 of the Peace II Agreement, the City will contribute Safe Yield to Watermaster for the purpose of offsetting its individual Replenishment Obligation as a member of the Appropriative Pool. Watermaster will make a corresponding adjustment to the City's assessment and thereby reduce the City's Replenishment obligation in an amount equal to the number of acre-feet contributed by the City in that year. For the avoidance of doubt, this means that the City shall receive a credit for the contributed water in an amount equal to the cost of Replenishment Water at the time of the contribution.

3. No Prejudice. The execution of this Agreement will be without prejudice to the City's right to use the acquired Safe Yield for permissible purposes under the Judgment.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement as of the day and year first above written.

Brockovich pushes for chromium 6 limits

Joe Nelson, Staff Writer

Created: 02/15/2011 07:45:27 PM PST

Environmental and consumer advocate Erin Brockovich on Tuesday shot off a letter to the federal Office of Environmental Health Hazard Assessment supporting its proposed public health goal for the cancer-causing hexavalent chromium in drinking water.

In December, the office, an arm of the Environmental Protection Agency, proposed a public health goal of 0.02 parts per billion of the chemical, also known as chromium 6, in drinking water.

Since leading the charge in landmark litigation against Pacific Gas & Electric in the 1990s, Brockovich has been the public voice on the dangers of chromium 6.

PG&E was accused of contaminating groundwater in the High Desert town of Hinkley, which allegedly caused hundreds of residents myriad ailments. The San Francisco-based utility doled out \$333 million to more than 600 residents.

The 2000 film "Erin Brockovich" brought Brockovich's story to the public arena, as well as that of chromium 6.

In a letter addressed to Michael Baes of the Pesticide and Environmental Toxicology branch of the Office of Environmental Health Hazard Assessment, Brockovich said a public health goal for chromium 6 is long past.

"It was December 1987 when PG&E first notified the state of California they had polluted the groundwater of scores of privately owned drinking water wells in Hinkley; their reckless action causing death and disease," Brockovich said. "It has been over 11 years since the movie was

released bringing this issue national attention, and 10 years this week since Sen. Debra Ortiz introduced legislation instructing the state Department of Health Services to develop a recommended standard for chromium 6 in water by July 1, 2003, and to adopt a maximum contaminant level beginning Jan. 1, 2004."

The legacy of chromium 6 in Hinkley resurfaced late last year when residents learned that a toxic plume had expanded. A series of public meetings have occurred since.

PG&E has provided residents and the Hinkley Elementary/Middle School with bottled drinking water, offered to buy homes, has been setting up monitoring wells and has embarked on an aggressive cleanup effort to try to contain the plume.

Just last week, the Lahontan Regional Water Quality Control Board, which is overseeing PG&E's cleanup efforts, announced that an

Bioreactors for water cleanup take shape

Jim Steinberg, Staff Writer

Created: 02/07/2011 09:19:03 PM PST

Work has begun on a \$19 million project that will use naturally occurring microbes to clean up contaminated groundwater from Fontana to Colton for nearly 17,000 people.

Texas-based Envirogen Technologies Inc. has begun building two giant stainless-steel tanks to be used as bioreactors.

In those tanks perchlorate-eating bacteria will turn hazardous groundwater in Rialto into quality drinking water, said Todd Webster, an environmental engineer with Texas-based Envirogen Technologies Inc.

Since its detection in 1997, a plume containing perchlorate in the Rialto-Colton basin has continued to move through the aquifer, resulting in the shutdown of nearly a quarter of Rialto's 22 wells, Envirogen said in a statement about the project.

Perchlorate is known to interfere with the creation of hormones that are critical to the development of fetuses and infants.

"The technology has been proven," said Webster. "We have done it many times before. What is

new is that this water will go directly into a potable water supply."

The project, planned for the site of the West Valley Water District headquarters, 855 W. Base Line Road, should break ground in May, said Tom Crowley, assistant general manager. The project - to be paid primarily by state and federal funds - is expected to produce up to 3 million gallons per day when it is completed in 2013, Crowley said.

"The outcomes of this large-scale project are going to be intensely

watched around the county," Crowley said. There will be basically two parts to the project: two bioreactors to treat perchlorate-laden groundwater - now being built in Los Angeles - and a separate facility to make that treated water ready for home and business consumption.

"Fine tuning," the second phase of the cleanup, is the pioneering aspect, Crowley said.

Once that is done, the California Department of Public Health will have established guidelines that can be followed in the certification of similar plants elsewhere in the state - and around the nation.

This will speed the time frame and reduce start-up costs for future plants, Crowley said.

The project will, for the first time, provide real data - not estimates - on operational costs for a bioreactor water cleanup plant that moves its

product directly into tap water, Crowley said.

The Rialto bioreactor will treat perchlorate, as well as nitrate, from groundwater at WWWD well No. 11, which has perchlorate levels of 20 parts per billion and the nearby city of Rialto's well No. 6, which has perchlorate concentrations of about 300 parts per billion.

The maximum contamination level for perchlorate in California is 6 parts per billion, although recently, one California agency published a draft recommendation that the public health goal be lowered to 1 part per billion.

For several years, one of Envirogen's biologically-based water treatment systems has been cleaning up perchlorate-contaminated ground and surface water in the Henderson, Nev., area.

Treated water from that plant has significantly reduced perchlorate concentrations in Lake Mead and the lower Colorado River, says the U.S. Environmental Protection Agency's Superfund website.

Earlier this week, the EPA said it will move forward to develop a national standard for perchlorate in drinking water.

Local water officials said the plant will be able to clean up water enough to meet that standard.

"We are confident that at whatever level the standard moves to, it will be something this plant can handle," Crowley said. "That is why we

selected this technology."

Webster said the microbes used in the project are naturally occurring in the groundwater and soil of this area - but in small concentrations.

Before the cleanup process can begin, a small number of these microbes must be transformed into a very large population within the large stainless steel "reactor" tanks, Webster said.

"When you first get them going, they can be a little finicky," he said. But after the population mass expands significantly and the microbes settle in, they are very resilient."

REGION: Seven Oaks Dam testing goes smoothly

10:13 PM PST on Tuesday, February 15, 2011

By JANET ZIMMERMAN
The Press-Enterprise

Testing of Seven Oaks Dam begins
Testing of Seven Oaks Dam begins
Published: 2/15/2011 06:11 PM

Photo Gallery: Water release test at Seven Oaks Dam in Highland

Muddy water and the boom of churning boulders in the Santa Ana River on Tuesday marked the largest releases ever from the Seven Oaks Dam in Highland.

Engineers with the U.S. **Army Corps of Engineers**, which finished building the dam in 1999, monitored vibrations to make sure gates and the outlet tunnel were operating as designed, chief hydrologist Rene Vermeeren said. No problems were detected as the release was amped up from 500 cubic feet per second to 3,600 over six hours.

That was good news for officials who had to cancel a similar test in 2005 after water flowed underneath the floor of the outlet tunnel and eroded large sections of concrete.

Story continues below

Paul Alvarez/Special to The Press-Enterprise
A wall of water shoots out of an open channel below

Seven Oaks Dam in Highland on Tuesday, kicking up clouds of mist. It takes about eight hours for the flow to reach Prado Dam near Corona.

After more than \$2 million in repairs, they had to wait for enough rain and runoff to be held behind the dam to complete the tests. December's storms helped push reservoir levels to the 2,359-foot elevation, the second highest level ever recorded.

"We've been waiting 11 years for this," Vermeeren said.

The Corps plans to release more water today and Thursday, when it will peak at 6,000 cubic feet per second, equal to 45,000 gallons per second. The amounts could be ratcheted down if predicted rainfall this week is heavy, he said.

A smaller test was conducted in July, when the Army Corps of Engineers released 2,500 cubic feet per second, enough to fill a medium-size swimming pool in one second.

The sight was an impressive one Tuesday as a wall of water shot out of an open channel below the dam, kicking up clouds of mist and sending small waves lapping at the rocky shores of a plunge pool. It takes about eight hours for the flow to reach Prado Dam.

Story continues below

Paul Alvarez/Special to The Press-Enterprise
Rudy Torres, County of Orange Public Works, and Judy Fischer, U.S. Army Corps of Engineers, watch as water is released at Seven Oaks Dam in Highland.

"We're happy with the way (the dam) is performing," said Dave Lovell, an engineer with the San Bernardino County Flood Control District.

Over the three days of tests, a total of 10,000 acre-feet of water will be released. That is about one-third of what's been stockpiled behind the dam.

Local water agencies and conservation districts captured the lower flow of water at the beginning and end of the releases and diverted it to spreading basins to replenish aquifers.

About a mile below the dam, scientists from the U.S. Geological Survey floated a yellow acoustic sonar boat into the choppy river, pulling it between ropes to gauge the depth and velocity of the water.

In Riverside County, the Flood Control and Water Conservation District took advantage of the increased flow to wash newly delivered sand and rocks into the middle of the river along a 700-foot swath on either side of the Market Street Bridge, said Zully Smith, chief of operations and maintenance.

Truckloads of sand were brought from another basin that was filled up by the last round of storms. The move will help protect the toes of the 1950s-era earthen and rock levees from erosion, Smith said.

The district consulted with the U.S. **Fish and Wildlife Service** on the project. It was determined that the rocks would provide good habitat for Santa Ana suckers, small algae-eating fish that live in the lower and middle portions of the river.

The fish are listed as threatened under the Endangered Species Act and now exist primarily in a three-mile stretch of river south from Highway 60 in Riverside. After the

dam releases in July, biologists rescued several of the fish from drying pools in the river.

Psst... Groundwater and Surface Water Do Mix

By [FELICITY BARRINGER](#)

An [article](#) published in the journal Geophysical Research Letters this week describes a new and simple way of measuring groundwater's contribution to small streams on the surface.

By taking snapshots of streams with a device designed to capture, through infrared radiation images, the temperatures in various parts of the water, the approach "advances the immediate detection and quantification of localized groundwater inflow for hydrology, geology and ecology," the article's authors, Tobias Schuetz and Marcus Weiler of the University of Freiburg's Institute of Hydrology, wrote.

Sinking land levels in the San Joaquin Valley in California.

Groundwater, they found, tends to be cooler than surface water in summer and warmer in winter; the infrared devices record the difference and produce images that show groundwater as clearly as night goggles show a human figure in the dark.

By coincidence, on Tuesday, the same day the article was officially published, the California state assembly's committee on water, parks and wildlife held a [hearing](#) on groundwater that was part science class and part exploration about what to do to regulate the use of groundwater in the state.

More than any state in the West, California severely limits the circumstances under which groundwater can be regulated in view of its connection to both surface water and other pockets of groundwater.

Only when it is in a "known and definite channel" underground is groundwater subject to significant controls. Hard pumping of the groundwater located outside such channels over the last 60 years has caused land in the San Joaquin Valley to drop more than 25 feet.

So while the Freiburg researchers show side-by-side photographs of streams as seen by the naked eye, and the same streams with the groundwater inflow clearly visible to infrared sensors, California water law, figuratively, closes its eyes, operating under theories that are largely oblivious to the connections that the Freiburg researchers and others have been documenting for decades.

Pumping groundwater beneath one's land is commonplace in agricultural areas, and largely unregulated. Although the state does now [monitor](#) the levels of groundwater tables, legislative efforts to establish a state system to permit wells or simply monitor the amount of water pumped have failed repeatedly over the past decade.

But, as demonstrated by the hearing called by Assemblyman Jared Huffman, chairman of the water and parks committee, the effort to manage groundwater as if it were part of the surface water system may finally be gathering momentum. (It was going nowhere when I first [wrote](#) about the issue back in 2009.)

As Thomas Harter, a hydrologist at the University of California, Davis and a witness at Tuesday's hearing, said in an interview, "In legal terms, there are, historically, two very different doctrines on how groundwater and surface water has been allocated."

But, he added, "to the degree that groundwater feeds streams it's important to stream flows and stream ecosystems." And "streams are an important component of the groundwater budget in California," he said.

Tony Rossmann, a lawyer in San Francisco. said that the state is unlikely to abandon its current legal distinction between groundwater an surface water soon.

The major constituency for the status quo is California's \$30 billion agricultural industry. But each new study that confirms the connections between water on underground and water on the surface gives a little more ammunition to environmental groups, legislators and water lawyers who want to bring groundwater under unambiguous state control, as it is in every other state except Texas.

Barry Nelson of the National Resources Defense Council took up the issue in a [blog post](#) this week, noting that over eight years, overpumping averaged seven million acre-feet each year, he noted. "The impacts of this level of unsustainable pumping are far-reaching — declining water tables, increasing pumping costs, rivers like the Cosumnes literally sucked dry from below, subsiding land and more."

"Liquid Assets," a [report](#) issued last year by the California legislature's legislative analyst's office, recommended phasing in a system of permitting groundwater withdrawals.

As the authors of the new Freiburg study, even though their methodology is currently limited to small streams, their measuring process "may well improve our ability of sustainable water management in water-scarce regions" — maybe even regions governed by laws and court rulings that create distinctions that fly in the face of this kind of science.

Region poised to lead in water-related R&D

LA VERNE - The water technology industry is going to be an economic anchor for the eastern San Gabriel Valley, according to William Lyte, president of Technplex Inc.

Lyte delivered that assessment last week during a water technology conference at the University of La Verne.

Richard Hansen also spoke about the emergence of water purification technology and the potential for that industry's growth in La Verne and the Valley.

Hansen has served as general manager and chief engineer for Three Valleys Municipal Water District, which includes the eastern San Gabriel Valley, since 1981.

The conference featured water experts as well as venture capitalists and legal and business leaders. MWD Director Tim Brick delivered the keynote address during a luncheon that also featured a video message from Rep. David Dreier, R-San Dimas. Rep. Grace Napolitano, D-Santa Fe Springs, was invited but couldn't be

there because she was held up by bad weather on the East Coast.

Napolitano is a leading voice on the issue of water recycling. She is the ranking minority member on the House Water and Power Subcommittee.

The city of La Verne and its namesake university are positioned to lead the Valley in this industry which could bring job growth, university Vice President Phil Hawkey said.

"The University of La Verne is in a role to facilitate the growth of the water industry in La Verne," Hawkey said. "The university owns 50 acres of vacant

land that could be part of a water campus - essentially a business and technology park that would focus on water-related industries."

La Verne's main campus is just minutes from the MWD's Weymouth Water Treatment facility, one of the world's leading water research laboratories.

Lyte also pointed out the city's importance as a leader in the field, noting that besides La Verne having a major university, it is also close to other major universities, including the Claremont Colleges.

"Major firms such as the Lewis Group of Companies are also committed to the success of this program, as is the region's world-class engineering industry," he added. "La Verne has a

dailybulletin.com

unique combination of educational, technological and business resources to become the center of water technology for the region."

During one of the panel discussions, Weymouth Research Lab scientists discussed research activities and provided presentations on water microbiology and purification techniques.

"Don't worry about water running out, because we know how to make more of it," said Ric DeLeon, a microbiologist with the MWD. DeLeon and his colleagues addressed concerns over growing pollutants in drinking water, such as chemicals found in toiletries and medication.

Fellow panelist Carrie Guo noted that while there are emerging concerns over contaminants, they are on a nano level. She compared the level of these types of pollutants to 10 drops in a Rose Bowl-sized water container.

Lyte, whose firm specializes in technology projects on the ports and in the green technology sector, moderated a panel on the monetization of water purifying technologies and also gave the conference's closing remarks.

"Southern California is acknowledged globally as the center of water technology innovation," Lyte said. "The region has the biggest water infrastructure, the most advanced water quality methodologies, at least 50 of the largest engineering firms in the U.S. and 84 consulates."

Get a **FREE ADT-Monitored Home Security System.***

(With \$99 customer installation and purchase of ADT alarm monitoring services. See important terms and conditions below.)

*\$99.00 Customer Installation Charge. 36 Month Monitoring Agreement required at \$35.99 per month (\$1,295.64). Form of payment must be by credit card or electronic charge to post checking or savings account. Offer applies to homeowners only. Local permit fees may be required. Satisfaction guarantee required. Certain restrictions apply. Offer valid for new Security Choice - An ADT Authorized Dealer customers only and not on purchases from ADT Security Services, Inc. Other rate plans available. Cannot be combined with any other offer. **\$500 Visa® Gift Card Offer: \$500 Visa Gift Card is provided by Security Choice and is not sponsored by ADT Security Services. Requires mail-in redemption. Call 1-877-835-8373 for complete restrictions and redemption requirements.
