Chair Pierson called the Advisory Committee meeting to order at 9:06 a.m.

AGENDA - ADDITIONS/REORDER

There were no additions or reorders made to the agenda.

I. CONSENT CALENDAR

A. MINUTES

- 1. Minutes of the Advisory Committee Meeting held June 21, 2012

B. FINANCIAL REPORTS

- 1. Cash Disbursements for the month of May 2012
- 2. Watermaster VISA Check Detail for the month of May 2012
- 3. Combining Schedule for the Period July 1, 2011 through May 31, 2012
- 4. Treasurer's Report of Financial Affairs for the Period May 1, 2012 through May 31, 2012
- 5. Budget vs. Actual Report for the Period July 1, 2011 through May 31, 2012

C. WATER TRANSACTION

- 1. **Consider Approval for Notice of Sale or Transfer** – The purchase of 1,000.000 acre-feet of water from Santa Ana River Water Company (SARWC) to Jurupa Community Services District (JCSD). This purchase is made first from SARWC's Annual Production Right, with any additional from storage. Date of Application: May 29, 2012
- 2. **Consider Approval for Notice of Sale or Transfer** – The lease and/or purchase of 782.000 acre-feet of water from San Antonio Water Company to the City of Ontario. This lease is made first from San Antonio's net under-production in Fiscal Year 2011-12, with any remainder to be recaptured from storage. Date of Application: June 1, 2012

*Motion by Mejia, second by Garibay, and by unanimous vote
 Moved to approve Consent Calendar Items A through C, as presented*

II. BUSINESS ITEMS

A. BUDGET TRANSFERS

Mr. Jeske stated starting on page 57 of the meeting packet is the budget transfers for the end of the fiscal year to clean up the last fiscal year financials. Mr. Jeske stated there were discussions at all three Pools and the budget transfers were unanimously approved by all three. Mr. Jeske discussed the task order system to be able to track expenses. Mr. Jeske stated last year Watermaster tried to control legal expenses through the budget which were clearly under budgeted from what the anticipated needs were and the actual needs were. Mr. Jeske stated Watermaster is now aligning the budget to the expenses, and legal expenses are best controlled through the parties and the process. Mr. Jeske stated staff was able to close out the year-end budget without requiring any additional revenues.

Mr. Scott-Coe reiterated the comments that he made at the Appropriative Pool meeting regarding continued legal expenses which need to be better controlled. Mr. Scott-Coe stated further efforts need to be made by the Watermaster and the parties to control legal expenses and he offered some potential suggestions to reduce legal counsel expenses.

Motion by Craig, second by Scott-Coe, and by unanimous vote

Moved to approve Watermaster FY2011/2012 Budget Transfer Form T-12-06-01, as presented

B. WATERMASTER RESTATED JUDGMENT

Mr. Jeske stated legal counsel will give a brief summary on this item from the discussions at the Pool meetings. Mr. Jeske stated all three Pools have made a recommendation to move forward with the Restated Judgment as the official copy; however, the Non-Agricultural Pool did have a few changes and legal counsel will recap those changes. Mr. Jeske noted the changes did appear to be helpful to the process and not in conflict with anything that was heard from the other two Pools.

Counsel Herrema stated the Restated Judgment is a copy of the 1978 Judgment that incorporates all the amendments that the court has ordered since the 1978 inception. Counsel Herrema stated this was presented to the court last fall as a reference document; however, the court at the October 28, 2011 hearing requested that Watermaster bring it back for approval as the official and operative copy of the Judgment. Counsel Herrema stated he has worked with the Pools on this endeavor, and a separate discussion took place with the Non-Agricultural Pool counsel to address his concern that there might be some order or amendment out there that was somehow missed in compiling the Restated Judgment. Counsel Herrema stated the order which is in the meeting packet today incorporates some changes that were made to address his concern. Counsel Herrema read the changes in the order. Counsel Herrema stated counsel members of the Pools gave comment and is all fine with the document which is before this committee today. Chair Pierson inquired about the language being inserted into the order and the possibility of creating ambiguity with our judge or what he asked for in the Restated Judgment. Counsel Herrema stated he does not believe it will create any conflict, and to date no one has come forward with something that was missed.

Motion by Garibay, second by Craig, and by unanimous vote

Moved to approve the Restated Judgment as the Official Copy of the Judgment, as presented

III. REPORTS/UPDATES

A. LEGAL REPORT

1. CSI Paragraph 15 Motion

Counsel Herrema stated this item is an update on the California Steel Industries (CSI) paragraph 15 motion. Counsel Herrema stated Watermaster has sent out email notices through the Watermaster email process regarding filings by CSI and Aqua Capital Management (ACM) in regard to CSI's motion to confirm post judgment orders. Counsel Herrema stated these are related to disputed water rights for the Non-Agricultural Pool overlying water rights. Counsel Herrema stated there is an ongoing dispute between CSI and ACM as to each of their interest in those water rights. Counsel Herrema noted there is a separately pending quiet title action that was filed by ACM. The motion that was filed by CSI on June 20, 2012 is a motion requesting that Judge Reichert, under paragraph 15 of the Judgment which allows the court to make interpretative orders pursuant to the Judgment in carrying out the Judgment. There has been a request that the judge state that the effect of two of its prior orders related to these particular water rights is that CSI has a interest in those particular water rights for which ACM has filed a this separate quiet title action. Counsel Herrema stated what CSI is looking to do is take an order from the court into its quiet title action as proof of their ownership. Counsel Herrema stated recently ACM filed its opposition; effectively it's their position that the quiet title action is not prohibited by the Judgment and that Judge Reichert should allow it to proceed and not make any order that would have any affect in that proceeding. Counsel Herrema stated he believes the reply by CSI will be due next Monday, and there will be a hearing on the motion next Friday. Counsel Herrema noted the two parties that are active in that are CSI and ACM and both have a

direct interest in those water rights. Mr. Craig inquired if there is any potential precedent setting that could come out of this as the results of this debate. Counsel Herrema stated as far as he knows there has not been a judicial determination on another Paragraph 15 motion prior to this one; there have been Paragraph 15 motions that have been filed previously. Counsel Herrema stated this may be the first Paragraph 15 order that is seen and he does not know if there will be any other precedent coming out of this. A discussion regarding this matter ensued.

B. CEO REPORT

1. August Meeting Schedule

Mr. Jeske stated the three Pools took a previous action to cancel their August meetings. There is only one action item for the Advisory meeting which would be the Fontana Water Company transaction and they were asked if it would be alright to put it through the September meetings and they approved that decision. Chair Pierson stated he agrees to suspend the August meetings as long as Fontana Water agrees to hold their item over for another month.

Motion by Scott-Coe, second by Zvirbulis, and by unanimous vote

Moved to approve suspending the August 2012 Advisory Committee meeting, as presented

2. CBWM 34th Annual Report

Mr. Jeske the 34th Annual Report is on the back table for those of you who want a copy.

C. INLAND EMPIRE UTILITIES AGENCY

1. MWD Update – Oral/Presentation

Mr. Shaw stated over the past few years Metropolitan Water District (MWD) has had working groups tackling separate issues, and last month they reinitiated one work group to tackle all those issues now. Mr. Shaw stated MWD has a fairly aggressive schedule to tackle purchase orders, the replenishment program, and any potential fixed versus variable revenue streams which will need to go to their board by the end of the year. Mr. Shaw stated over the next three or four months MWD is going to have one or two meetings every month which will generate a lot of information which we will bring to the parties.

2. State and Federal Legislative Reports

No comment was made.

3. Community Outreach/Public Relations

No comment was made.

4. IEUA Monthly Water Newsletter

No comment was made

C. OTHER METROPOLITAN MEMBER AGENCY REPORTS

Mr. Hansen gave an early heads up on the Metropolitan Water District's Long Range Financial Plan and process, and offered further comment on this matter. A discussion on the 26 purchase orders agreements expiring at the end of the year ensued.

Mr. Safely discussed the Prop 81 grants.

IV. INFORMATION

1. Cash Disbursements for June 2012

No comment was made.

V. COMMITTEE MEMBER COMMENTS

No comment was made.

VI. OTHER BUSINESS

No comment was made.

VII. CONFIDENTIAL SESSION - POSSIBLE ACTION

No confidential session was called.

STAFF REPORT

DATE: September 20, 2012
TO: Committee Members
SUBJECT: Cash Disbursement Report – Financial Report B1 (June 30, 2012)

SUMMARY

Issue – Record of cash disbursements for the month of June 2012.

Recommendation – Staff recommends the Cash Disbursements for June 2012 be received and filed as presented.

Fiscal Impact – Funds disbursed were included in the FY 2011-2012 Watermaster Budget.

BACKGROUND

A monthly cash disbursement report is provided to keep all members apprised of Watermaster expenditures.

DISCUSSION

Total cash disbursements during the month of June 2012 were \$1,207,653.46. The most significant expenditures during the month were to Wildermuth Environmental, Inc. in the amount of \$127,690.85 (check number 16110 dated June 13, 2012); City of Ontario in the amount of \$104,349.28 (check number 16136 dated June 27, 2012); and the following checks all in the amount of \$95,168.64:

City of Chino - Check number 16070 dated June 5, 2012
Monte Vista Irrigation Company - Check number 16073 dated June 5, 2012
Monte Vista Water District - Check number 16074 dated June 5, 2012
Santa Ana River Water Company - Check number 16077 dated June 5, 2012
City of Upland - Check number 16078 dated June 5, 2012
Cucamonga Valley Water District - Check number 16135 dated June 27, 2012

Actions:

September 13, 2012 Appropriative Pool – Approved unanimously
September 13, 2012 Non-Agricultural Pool – Moved to receive and file, without approval
September 13, 2012 Agricultural Pool – Approved unanimously
September 20, 2012 Advisory Committee –
September 27, 2012 Watermaster Board –

STAFF REPORT

DATE: September 20, 2012
TO: Committee Members
SUBJECT: VISA Check Detail Report – Financial Report B2 (June 30, 2012)

SUMMARY

Issue – Record of VISA credit card payment disbursed for the month of June 2012.

Recommendation – Staff recommends the VISA Check Detail Report for June 2012 be received and filed as presented.

Fiscal Impact – Funds disbursed were included in the FY 2011-2012 Watermaster Budget.

BACKGROUND

A monthly VISA Check Detail report is provided to keep all members apprised of Watermaster expenditures charged against the CEO and/or CFO's Bank of America VISA card.

DISCUSSION

Total cash disbursement during the month of June 2012 was \$912.43. The monthly charges for June 2012 were for routine and customary expenditures and properly documented with receipts.

Actions:

- September 13, 2012 Appropriative Pool – Approved unanimously
- September 13, 2012 Non-Agricultural Pool – Moved to receive and file, without approval
- September 13, 2012 Agricultural Pool – Approved unanimously
- September 20, 2012 Advisory Committee –
- September 27, 2012 Watermaster Board –

STAFF REPORT

DATE: September 20, 2012
TO: Committee Members
SUBJECT: Combining Schedule of Revenue, Expenses and Changes in Working Capital for the Period July 1, 2011 through June 30, 2012 - Financial Report B3 (June 30, 2012)

SUMMARY

Issue – Record of Revenue, Expenses and Changes in Working Capital for the Period July 1, 2011 through June 30, 2012.

Recommendation – Staff recommends the Combining Schedule of Revenue, Expenses and Changes in Working Capital for the Period July 1, 2011 through June 30, 2012 be received and filed as presented.

Fiscal Impact – Funds disbursed were included in the FY 2011-2012 Watermaster Budget.

BACKGROUND

A Combining Schedule of Revenue, Expenses and Changes in Working Capital for the period July 1, 2011 through June 30, 2012 is provided to keep all members apprised of the FY 2011/2012 cumulative Watermaster revenues, expenditures and changes in working capital for the period listed.

DISCUSSION

The Combining Schedule of Revenue, Expenses and Changes in Working Capital have been created from various financial reports and statements created from QuickBooks Enterprise Solutions 9.0, the Watermaster accounting system. The Combining Schedule provided balances to the supporting documentation in the Watermaster accounting system as presented.

Actions:

September 13, 2012 Appropriative Pool – Approved unanimously

STAFF REPORT

DATE: September 20, 2012
TO: Committee Members
SUBJECT: Treasurer's Report of Financial Affairs for the Period June 1, 2012 through June 30, 2012 - Financial Report B4 (June 30, 2012)

SUMMARY

Issue – Record of increases or decreases in the cash position, assets and liabilities of Watermaster for the Period of June 1, 2012 through June 30, 2012.

Recommendation – Staff recommends the Treasurer's Report of Financial Affairs for the Period June 1, 2012 through June 30, 2012 be received and filed as presented.

Fiscal Impact – Funds disbursed were included in the FY 2011-2012 Watermaster Budget.

BACKGROUND

A Treasurer's Report of Financial Affairs for the Period June 1, 2012 through June 30, 2012 is provided to keep all members apprised of the total cash in banks (Bank of America, LAIF, and CalTRUST) and on hand at the Watermaster office (petty cash) at the end of the period stated. The Treasurer's Report details the change (increase or decrease) in the overall cash position of Watermaster, as well as the changes (increase or decrease) to the assets and liabilities section of the balance sheet. The report also provides a detailed listing of all deposits and/or withdrawals in the California State Treasurer's Local Agency Investment Fund (LAIF) and/or CalTRUST, the most current effective yield as of the last quarter, and the ending balance in LAIF as of the reporting date.

DISCUSSION

The Treasurer's Report of Financial Affairs has been created from various financial reports and statements created from QuickBooks Enterprise Solutions 9.0, the Watermaster accounting system. The Treasurer's Report provided, balances to the supporting documentation in the Watermaster accounting system, as well as the supporting bank statements.

Actions:

September 13, 2012 Appropriative Pool – Approved unanimously
September 13, 2012 Non-Agricultural Pool – Moved to receive and file, without approval
September 13, 2012 Agricultural Pool – Approved unanimously

STAFF REPORT

DATE: September 20, 2012
TO: Committee Members
SUBJECT: Budget vs. Actual Report for the Period July 1, 2011 through June 30, 2012 - Financial Report - B5 (June 30, 2012)

SUMMARY

Issue – Record of revenues and expenses of Watermaster for the Period of July 1, 2011 through June 30, 2012.

Recommendation – Staff recommends the Budget vs. Actual Report for the Period July 1, 2011 through June 30, 2012 be received and filed as presented.

Fiscal Impact – Funds disbursed were included in the FY 2011-2012 Watermaster Budget.

BACKGROUND:

A Budget vs. Actual Report for the period July 1, 2011 through June 30, 2012 is provided to keep all members apprised of the total revenues and expenses for the current fiscal year. The expense section is categorized into four distinct sections. Those sections are: General and Administrative Expenses; Optimal Basin Management Program Expenses; Project Expenses; and Other Income/Expenses.

DISCUSSION:

The Budget vs. Actual report has been created from QuickBooks Enterprise Solutions 9.0, the Watermaster accounting system. The Budget vs. Actual report provided, balances to the supporting documentation in the Watermaster accounting system, as well as the supporting bank statements.

There were Budget Transfers of \$253,000 which were presented and approved during July's Pool, Advisory and Board meetings. These Budget Transfers were recorded for the accounting period of June and are reflected in the financials presented.

Year-To-Date (YTD) for the twelve months ending June 30, 2012, all categories were at or below the projected budget. Overall, the (YTD) Actual Expenses were \$103,028 or 1.4% below the (YTD) Budgeted Expenses of \$7,336,737.

The chart listed below summarized the Year-To-Date (YTD) Actual Watermaster salary costs compared to the Year-To-Date (YTD) Budget. Please be advised that the "\$ Over Budget" and the "% of Budget" columns are a comparison of the (YTD) Actual to the (YTD) Budget, not the 12-month Annual Budget. The 12-month Annual Budget column is presented only to provide the data in a full and complete format. As of June 30, 2012, the total (YTD) Watermaster salary expenses are \$68,608 or 4.4% above the (YTD) budgeted amount of \$1,557,936. Included within the June 2012 salary costs are the final reconciliations of accrued vacation and sick at fiscal year-end. The following details are provided:

The chart listed below summarizes the Brownstein Hyatt Farber Schreck (BHFS) expenses as of June 30, 2012 compared to the Year-To-Date (YTD) budget. Please be advised that the "\$ Over Budget" and the "% of Budget" columns are a comparison of the (YTD) Actual to the (YTD) Budget, not the 12-month Annual Budget. The 12-month Annual Budget column is presented only to provide the data in a full and complete format. As of June 30, 2012, the BHFS expenses are \$52,579 or 7.2% below the (YTD) budgeted amount of \$727,775. As discussed in the mid-year review presentation, the BHFS expenses were projected to be between \$650,000 and \$750,000 at the end of this fiscal year. The actual year-end expenses were \$675,196. The following details are provided:

OBMP Engineering Services and Legal Costs:

Only one individual line item within the 6900 (Optimum Basin Mgmt Program) is above the Year-To-Date (YTD) budget. This line item is 6906 (OBMP Engineering Services-Other) of \$7,845. The overage was partially offset by line item 6901 (WM Staff Salaries) which was under budget by \$5,689.

Within the category 6900 (Optimum Basin Mgmt Program) are the remaining Brownstein Hyatt Farber Schreck (BHFS) Watermaster's legal expenses. Within the legal expense category, some individual line item activities were above the budget \$48,605 while some other line item activities were below the budget \$62,363. Above the budget line items were the Peace II CEQA of \$3,365; the Desalter Negotiations of \$16,688; the Santa Ana River Habitat of \$12,100; and the Recharge Master Plan of \$16,452. The individual legal projects/activities that were below budget for the Year-To-Date (YTD) period were the South Archibald Plume (formerly the OIA Plume) of \$17,983; the Chino Airport Plume of \$15,316; the Santa Ana River Water Rights Application of \$9,686; the Paragraph 31 Motion of \$5,628; and the Regional Water Quality Control Board of \$13,750. For the twelve months ended June 30, 2012, the overall cumulative (YTD) budget was \$300,160 and the actual (BHFS) legal expenses totaled \$286,402 which resulted in an under budget variance of \$13,758 or 4.6%.

The chart listed below summarizes the Optimum Basin Management Program (OBMP) expenses as of June 30, 2012 compared to the Year-To-Date (YTD) budget. Please be advised that the "\$ Over Budget" and the "% of Budget" columns are a comparison of the (YTD) Actual to the (YTD) Budget, not the 12-month Annual Budget. The 12-month Annual Budget column is presented only to provide the data in a full and complete format. Overall, the Optimum Basin Management Program (OBMP) category was \$1,104,156 compared to a (YTD) budget of \$1,111,094 for an under budget of \$6,938 or 0.62% as of June 30, 2012.

The OBMP Implementation Projects (accounts 7100's – 7700's) were all (Under) budget as of June 30, 2012.

The Recharge Improvement Debt Payment (Category 7690) had funds available of \$272,829 which have now been 100% allocated to the next fiscal year as approved by the Board. The amount of \$162,236 has been appropriated for use for the upcoming 3-year Turner Basin Improvements, which are estimated in the range of \$270K+. An amount of \$30,900 has been appropriated for the Hickory Basin improvement project. The remaining amount of \$79,693 will be carried over into the next fiscal year for use on Recharge Improvement Projects only.

The chart listed below summarized the Year-To-Date (YTD) Actual Wildermuth Environmental, Inc., (WEI) and other Engineering costs compared to the Year-To-Date (YTD) Budget. Please be advised that the "\$ Over Budget" and the "% of Budget" columns are a comparison of the (YTD) Actual to the (YTD) Budget, not the 12-month Annual Budget. The 12-month Annual Budget column is presented only to provide the data in a full and complete format. As of June 30, 2012, the total (YTD) Engineering expenses are \$13,178 or 0.5% above the (YTD) budget amount of \$2,698,648. The following details are provided:

Other Income and Expense:

In August 2011, Watermaster received two payments from the Metropolitan Water District. Metropolitan entered into agreements with Watermaster and other member agencies and partners for dry-year groundwater storage. Pursuant to Section VI of these agreements, Metropolitan committed to pay an annual administrative fee to one of the partners on each of the agreements for the 25-year term of the each agreement a) beginning on July 1st after the initial storage of water in each program, and b) with the set fee dollar amount escalating annually by the lesser of 2.5% or CPI. Watermaster received \$145,568.70 for the FY 2009/2010 payment (due July 1, 2010) and \$149,207.92 for the FY 2010/2011 payment (due July 1, 2011). The total amount received of \$294,776.62 was recorded to account 4040 (Cooperative Agreements).

The entire amount of the \$294,776.62 has now been appropriated and included in the FY 2011/2012. An amount of \$91,580 was used to offset the additional extensometer costs; \$120,000 was used to offset other salary costs; and \$32,000 was used to fund the CEO Recruitment costs. The remaining Budget Amendment amount of \$51,197 was used to fund the following projects: (1) the testing of several remaining wells in the Plume area of \$5,000; (2) additional costs related to the In-Line Meter Maintenance

Program of \$6,197; (3) the new funding of the Prado Basin Habitat Monitoring Program of \$20,000; and (4) the new funding to determine the state of hydraulic control in the Chino Creek Well Field (CCWF) of \$20,000.

With the approval of the new fund carryover policy during the current fiscal year, there were amounts carried over into the next fiscal year as follows:

Accrued Expenses At June 30, 2012		GL Account	Type
Accrue Verizon VoIP Equipment, Installation	\$ 1,500.00	6055	Expense
Accrue GM Search Expenses	\$ 9,000.00	6064	Expense
Accrue Wildermuth Project Expense	\$ 24,500.00	7107.2	Expense
Accrue Wildermuth Project Expense	\$ 1,000.00	7107.6	Expense
Chino Hills ASR Project Carryover Funds	\$ 104,977.00	7107.61	Fund
Accrue Wildermuth Project Expense	\$ 4,500.00	7107.8	Expense
Accrue Wildermuth Project Expense	\$ 8,856.25	7108.7	Expense
Accrue Wildermuth Project Expense	\$ 5,954.30	7502	Expense
Recharge Improvement Debt Project - Turner Basin	\$ 162,236.00	7690.2	Fund
Recharge Improvement Debt Project - Hickory Basin	\$ 30,900.00	7690.3	Fund
Recharge Improvement Debt Project - Misc. Basins	\$ 79,693.00	7690.9	Fund
Appropriative Pool Legal Services Fund Balance	\$ 95.93	8367	Fund
Accrued Balance, June 30, 2012	\$ 433,212.48		

With the exceptions previously noted, there were no other unusual or significant transactions or events that occurred during the month of June 2012. Looking ahead, the month of July should not bring any unexpected expenses or provide significant budget variances.

Audit Field Work:

Auditors from the audit firm of Charles Z. Fedak & Company were onsite at the Watermaster offices on July 16th and 17th to conduct scheduled field work for the upcoming FY 2011/2012 financial audit. Final field work is scheduled for October 1st and 2nd with the Annual Financial and Audit Reports issued in December 2012 and the presentation to the Board in January 2013. Preliminary audit results from the auditors have not provided any need for audit adjustments or corrections.

STAFF REPORT

DATE: September 20, 2012
TO: Committee Members
SUBJECT: Cash Disbursement Report – Financial Report B1 (July 31, 2012)

SUMMARY

Issue – Record of cash disbursements for the month of July 2012.

Recommendation – Staff recommends the Cash Disbursements for July 2012 be received and filed as presented.

Fiscal Impact – Funds disbursed were included in the FY 2012-2013 Watermaster Budget.

BACKGROUND

A monthly cash disbursement report is provided to keep all members apprised of Watermaster expenditures.

DISCUSSION

Total cash disbursements during the month of July 2012 were \$950,816.19. The most significant expenditures during the month were to Inland Empire Utilities Agency in the amount of \$594,487.94 (check number 16208 dated July 25, 2012); Wildermuth Environmental, Inc. in the amount of \$103,417.50 (check number 16204 dated July 17, 2012); and Brownstein Hyatt Farber Schreck in the amount of \$32,688.83 (check number 16215 dated July 26, 2012).

Actions:

September 13, 2012 Appropriative Pool – Approved unanimously
September 13, 2012 Non-Agricultural Pool – Moved to receive and file, without approval
September 13, 2012 Agricultural Pool – Approved unanimously
September 20, 2012 Advisory Committee –
September 27, 2012 Watermaster Board –

STAFF REPORT

DATE: September 20, 2012
TO: Committee Members
SUBJECT: VISA Check Detail Report – Financial Report B2 (July 31, 2012)

SUMMARY

Issue – Record of VISA credit card payment disbursed for the month of July 2012.

Recommendation – Staff recommends the VISA Check Detail Report for July 2012 be received and filed as presented.

Fiscal Impact – Funds disbursed were included in the FY 2012-2013 Watermaster Budget.

BACKGROUND

A monthly VISA Check Detail report is provided to keep all members apprised of Watermaster expenditures charged against the General Manager, Assistant General Manager and Chief Financial Officer's Bank of America VISA card.

DISCUSSION

Total cash disbursement during the month of July 2012 was \$697.29. This payment was processed by check number 16186 dated July 17, 2012. The monthly charges for July 2012 were for routine and customary expenditures and properly documented with receipts.

STAFF REPORT

DATE: September 20, 2012
TO: Committee Members
SUBJECT: Combining Schedule of Revenue, Expenses and Changes in Working Capital for the Period July 1, 2012 through July 31, 2012 - Financial Report B3 (July 31, 2012)

SUMMARY

Issue – Record of Revenue, Expenses and Changes in Working Capital for the Period July 1, 2012 through July 31, 2012.

Recommendation – Staff recommends the Combining Schedule of Revenue, Expenses and Changes in Working Capital for the Period July 1, 2012 through July 31, 2012 be received and filed as presented.

Fiscal Impact – Funds disbursed were included in the FY 2012-2013 Watermaster Budget.

BACKGROUND

A Combining Schedule of Revenue, Expenses and Changes in Working Capital for the period July 1, 2012 through July 31, 2012 is provided to keep all members apprised of the FY 2012/2013 cumulative Watermaster revenues, expenditures and changes in working capital for the period listed.

DISCUSSION

The Combining Schedule of Revenue, Expenses and Changes in Working Capital have been created from various financial reports and statements created from QuickBooks Enterprise Solutions 9.0, the Watermaster accounting system. The Combining Schedule provided balances to the supporting documentation in the Watermaster accounting system as presented.

Actions:

STAFF REPORT

DATE: September 20, 2012
TO: Committee Members
SUBJECT: Treasurer's Report of Financial Affairs for the Period July 1, 2012 through July 31, 2012 - Financial Report B4 (July 31, 2012)

SUMMARY

Issue – Record of increases or decreases in the cash position, assets and liabilities of Watermaster for the Period of July 1, 2012 through July 31, 2012.

Recommendation – Staff recommends the Treasurer's Report of Financial Affairs for the Period July 1, 2012 through July 31, 2012 be received and filed as presented.

Fiscal Impact – Funds disbursed were included in the FY 2012-2013 Watermaster Budget.

BACKGROUND

A Treasurer's Report of Financial Affairs for the Period July 1, 2012 through July 31, 2012 is provided to keep all members apprised of the total cash in banks (Bank of America, LAIF, and CalTRUST) and on hand at the Watermaster office (petty cash) at the end of the period stated. The Treasurer's Report details the change (increase or decrease) in the overall cash position of Watermaster, as well as the changes (increase or decrease) to the assets and liabilities section of the balance sheet. The report also provides a detailed listing of all deposits and/or withdrawals in the California State Treasurer's Local Agency Investment Fund (LAIF) and/or CalTRUST, the most current effective yield as of the last quarter, and the ending balance in LAIF as of the reporting date.

DISCUSSION

The Treasurer's Report of Financial Affairs has been created from various financial reports and statements created from QuickBooks Enterprise Solutions 9.0, the Watermaster accounting system. The Treasurer's Report provided, balances to the supporting documentation in the Watermaster accounting system, as well as the supporting bank statements.

STAFF REPORT

DATE: September 20, 2012
TO: Committee Members
SUBJECT: Budget vs. Actual Report for the Period July 1, 2012 through July 31, 2012 - Financial Report - B5 (July 31, 2012)

SUMMARY

Issue – Record of revenues and expenses of Watermaster for the Period of July 1, 2012 through July 31, 2012.

Recommendation – Staff recommends the Budget vs. Actual Report for the Period July 1, 2012 through July 31, 2012 be received and filed as presented.

Fiscal Impact – Funds disbursed were included in the FY 2012-2013 Watermaster Budget.

BACKGROUND:

A Budget vs. Actual Report for the period July 1, 2012 through July 31, 2012 is provided to keep all members apprised of the total revenues and expenses for the current fiscal year. The expense section is categorized into four distinct sections. Those sections are: General and Administrative Expenses; Optimal Basin Management Program Expenses; Project Expenses; and Other Income/Expenses.

DISCUSSION:

The Budget vs. Actual report has been created from QuickBooks Enterprise Solutions 9.0, the Watermaster accounting system. The Budget vs. Actual report provided, balances to the supporting documentation in the Watermaster accounting system, as well as the supporting bank statements.

There were no Budget Transfers or Budget Amendments proposed or presented for the accounting period of July 2012 or during last month's Pool, Advisory and Board meetings.

Year-To-Date (YTD) for the one month ending July 31, 2012, all but four categories were at or below the projected budget. Overall, the (YTD) Actual Expenses were \$177,428 or 14.6% below the (YTD) Budgeted Expenses of \$1,211,351. The four categories above budget were the Watermaster Legal Services (6070's) over budget by the amount of \$6,562; Non-Agricultural Pool Administration Expenses

(8500's) over budget by the amount of \$7,003; Water Supply/Desalter Expenses (7300's) over budget by the amount of \$6,561; and Recharge Debt Payment Expenses (7690's) over budget by the amount of \$3,633. Three of the four expense categories which were over budget was a direct result of increased activities and allocating the budget in equal 1/12 portions throughout the fiscal year. The Year-To-Date expenses in these categories are running ahead of budget and should level off as the fiscal year progresses. At the current time, a budget transfer request is not scheduled to adjust any categories in the next month. The Recharge Debt Payment (7690) is always based upon estimated information from IEUA and the actual Debt Service payment amount was slightly higher than the estimate, which resulted in the over budget by \$3,633.

The chart listed below summarized the Year-To-Date (YTD) Actual Watermaster salary costs compared to the Year-To-Date (YTD) Budget. Please be advised that the "\$ Over Budget" and the "% of Budget" columns are a comparison of the (YTD) Actual to the (YTD) Budget, not the 12-month Annual Budget. The 12-month Annual Budget column is presented only to provide the data in a full and complete format. As of July 31, 2012, the total (YTD) Watermaster salary expenses are \$19,749 or 15.8% below the (YTD) budgeted amount of \$124,839. The following details are provided:

The chart listed below summarizes the Brownstein Hyatt Farber Schreck (BHFS) expenses as of July 31, 2012 compared to the Year-To-Date (YTD) budget. Please be advised that the "\$ Over Budget" and the

"% of Budget" columns are a comparison of the (YTD) Actual to the (YTD) Budget, not the 12-month Annual Budget. The 12-month Annual Budget column is presented only to provide the data in a full and complete format. As of July 31, 2012, the BHFS expenses are \$88 or 0.13% below the (YTD) budgeted amount of \$69,686. For the month of July, there were some individual line items that were over the budgeted amount, but overall the BHFS expenses were on target with the overall legal budget. The following details are provided:

	Jul '12 - Jul '12	Budget	\$ Over Budget	% of Budget	Annual Budget

OBMP Engineering Services and Legal Costs:

For July 31, 2012, the 6900 (Optimum Basin Mgmt Program) section is below the Year-To-Date (YTD) budget by \$9,602 or 25.9%. Within the category 6900 (Optimum Basin Mgmt Program) are the remaining Brownstein Hyatt Farber Schreck (BHFS) Watermaster's legal expenses. Within the legal expense category, some individual line item activities were above the budget \$4,135 while some other line item

activities were below the budget \$16,848. Above the budget line items were the Peace II CEQA of \$498; the Santa Ana River Water Rights of \$446; and the Paragraph 31 Motion of \$3,191. The individual legal projects/activities that were below budget for the Year-To-Date (YTD) period were the South Archibald Plume of \$2,650; the Chino Airport Plume of \$2,650; the Desalter/Hydraulic Control of \$3,748; the Santa Ana River Habitat of \$1,433; the Regional Water Quality Control Board of \$996; the Recharge Master Plan of \$320; Storage Agreements of \$1,484; Prado Basin Habitat Sustainability of \$1,484; and Unanticipated Legal Expenses of \$2,083. For the one month ended July 31, 2012, the overall cumulative (YTD) budget was 29,696 and the actual (BHFS) legal expenses totaled \$16,983 which resulted in an under budget variance of \$12,713 or 42.8%.

The chart listed below summarizes the Optimum Basin Management Program (OBMP) expenses as of July 31, 2012 compared to the Year-To-Date (YTD) budget. Please be advised that the "\$ Over Budget" and the "% of Budget" columns are a comparison of the (YTD) Actual to the (YTD) Budget, not the 12-month Annual Budget. The 12-month Annual Budget column is presented only to provide the data in a full and complete format. Overall, the Optimum Basin Management Program (OBMP) category was \$57,454 compared to a (YTD) budget of \$86,767 for an under budget of \$29,314 or 33.82% as of July 31, 2012.

The OBMP Implementation Projects (accounts 7100's – 7700's) were all (Under) budget as of July 31, 2012 with the exception of the Water Supply/Desalter category (7300's) which was over budget by the amount of \$6,561. This category's over budget was a direct result of increased activities and allocating the budget in equal 1/12 portions throughout the fiscal year. The Year-To-Date expense in the category is ahead of budget and should level off as the fiscal year progresses. At the current time, a budget transfer request is not scheduled to adjust this category in the next month.

As a reminder, from last fiscal year Watermaster carried over \$272,829 in the Recharge Improvements Project categories. The amount of \$162,236 has been appropriated for use for the upcoming 3-year Turner Basin Improvements (7690.2), estimated in the range of \$270K+. The amount of \$30,900 has been appropriated for the Hickory Basin improvement project (7690.3) while the remaining amount of \$79,693 has been appropriated for Other Recharge Improvement Projects (7690.9).

The chart listed below summarized the Year-To-Date (YTD) Actual Wildermuth Environmental, Inc., (WEI) and other Engineering costs compared to the Year-To-Date (YTD) Budget. Please be advised that the "\$ Over Budget" and the "% of Budget" columns are a comparison of the (YTD) Actual to the (YTD) Budget, not the 12-month Annual Budget. The 12-month Annual Budget column is presented only to provide the data in a full and complete format. As of July 31, 2012, the total (YTD) Engineering expenses are \$73,718 or 45.3% below the (YTD) budget amount of \$162,692. The following details are provided:

	Jul '11 - Jul '12	Budget	\$ Over Budget	% of Budget	Annual Budget

Other Income and Expense:

There are no significant items to report within the category of Other Income and Expenses for the month of July 31, 2012. As a reminder, with the approval of the new fund carryover policy during the previous fiscal year (FY 2011/2012), there were amounts carried over into the current fiscal year (FY 2012/2013) as follows:

Accrued Expenses At June 30, 2012			
		GL Account	Type
Accrue Verizon VoIP Equipment, Installation	\$ 1,500.00	6055	Expense
Accrue GM Search Expenses	\$ 9,000.00	6064	Expense
Accrue Wildermuth Project Expense	\$ 24,500.00	7107.2	Expense
Accrue Wildermuth Project Expense	\$ 1,000.00	7107.6	Expense
Chino Hills ASR Project Carryover Funds	\$ 104,977.00	7107.61	Fund
Accrue Wildermuth Project Expense	\$ 4,500.00	7107.8	Expense
Accrue Wildermuth Project Expense	\$ 8,856.25	7108.7	Expense
Accrue Wildermuth Project Expense	\$ 5,954.30	7502	Expense
Recharge Improvement Debt Project - Turner Basin	\$ 162,236.00	7690.2	Fund
Recharge Improvement Debt Project - Hickory Basin	\$ 30,900.00	7690.3	Fund
Recharge Improvement Debt Project - Misc. Basins	\$ 79,693.00	7690.9	Fund
Appropriative Pool Legal Services Fund Balance	\$ 95.93	8367	Fund
Accrued Balance, June 30, 2012	\$ 433,212.48		

As invoices are received from the vendors and booked against these accruals, the "Accrued Balance" will be reduced throughout the fiscal year.

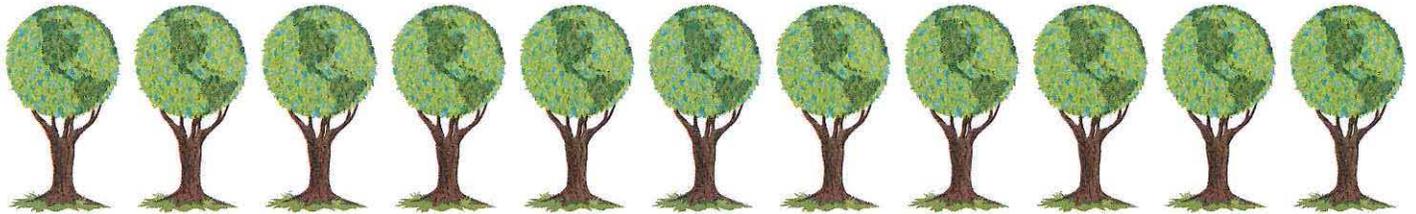

With the exceptions previously noted, there were no other unusual or significant transactions or events which occurred during the month of July 2012. Looking ahead, the month of August should not bring any unexpected expenses or provide significant budget variances.

Audit Field Work:

Auditors from the audit firm of Charles Z. Fedak & Company were onsite at the Watermaster offices on July 16th and 17th to conduct scheduled field work for the upcoming FY 2011/2012 financial audit. Final field work is scheduled for October 1st and 2nd with the Annual Financial and Audit Reports issued in December 2012 and the presentation to the Board in January 2013. Preliminary audit results from the auditors have not provided any need for audit adjustments or corrections.

Actions:

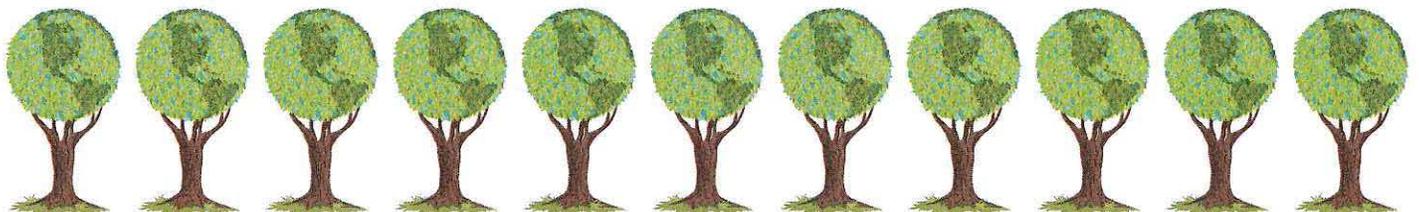

- September 13, 2012 Appropriative Pool – Approved unanimously
- September 13, 2012 Non-Agricultural Pool – Moved to receive and file, without approval
- September 13, 2012 Agricultural Pool – Approved unanimously
- September 20, 2012 Advisory Committee –

STAFF REPORT

DATE: September 20, 2012
TO: Committee Members
SUBJECT: OBMP Status Report 2012-1

SUMMARY

Issue – Watermaster produces Semi-Annual Optimum Basin Management Program (OBMP) Status Reports. The report for the period from January to June of 2012 has been drafted.

Recommendation – Staff recommends receiving and filing the report along with filing of a courtesy copy with the Court.

Financial Impact – There are no significant direct costs for receiving and filing the draft report.

BACKGROUND

Semi-Annual Status Report 2012-1 covers the period from January to June 2012. The report describes work conducted, and the current status of the nine Program Elements of the Optimum Basin Management Program (OBMP) during the six-month period.

Actions:

September 13, 2012 Appropriative Pool – Approved unanimously
September 13, 2012 Non-Agricultural Pool – Approved unanimously
September 13, 2012 Agricultural Pool – Approved unanimously
September 20, 2012 Advisory Committee –
September 27, 2012 Watermaster Board –

Optimum Basin Management Program

Staff Status Report 2012-1: January to June 2012

CHINO BASIN WATERMASTER

Optimum Basin Management Program (OBMP)

Highlighted Activities

- As a requirement of Mitigation Measure 4.4-3 from the Peace II Subsequent Environmental Impact Report (EIR), Watermaster, Inland Empire Utilities Agency (IEUA) and Orange County Water District (OCWD) began to develop a Prado Basin Habitat Sustainability Program. Included within this program will be the Prado Basin Habitat Sustainability Adaptive Management Plan, the installation of up to 17 monitoring wells at nine separate sites, and vegetative monitoring.
- Calibration was completed at the Daniels Street horizontal extensometer, which is located across the City of Chino observed zone of surface ground fissuring.
- A location was identified in February 2012, and construction began in April 2012 on the Chino Creek Well Field (CCWF) vertical cable extensometer (located South of Chino Airport).
- The Chino Basin Recharge Master Plan Update Steering Committee continued to meet and to identify additional cost-effective recharge opportunities and projects that could be undertaken in the future. The Steering Committee developed and approved a scope of work and report outline and commenced with the execution of the work. The scope of work was responsive to the October 2010 and December 2011 Court Orders and the December 2011 Board direction. The Steering Committee's final report will include nine sections with technical appendices. The Final Draft of Sections One through Four of the Report was completed and approved by the Watermaster Board on May 24, 2012. These four sections fulfilled the requirements of the June Status Report deadline to the Court, which was filed on May 31, 2012. Work on the remainder of the Recharge Master Plan Update continues expeditiously.
- Watermaster and the IEUA continue to work together toward the creation of a fifth retention facility at the Turner Basin. Following completion in 2014, the expansion project is projected to recharge an addition 300 acre-feet of storm runoff annually.
- In June 2012, the Western Municipal Water District (WMWD) was awarded a \$51 million state grant from the California Department of Public Health for the desalter expansion project under Proposition 50 Chapter 4b.
- During the fiscal year, approximately 9,271 acre-feet of stormwater, 8,634 acre-feet of recycled water, and 23,449 acre-feet of imported water were recharged.

Program Element 1: Develop and Implement a Comprehensive Monitoring Program

Groundwater Level Monitoring

Watermaster initiated a comprehensive monitoring program as part of the implementation of the OBMP. The current groundwater level monitoring program is comprised of about 700 wells. At about 500 of these wells, water levels are measured by well owners, which include municipal water agencies, the California Department of Toxic Substance Control (DTSC), the County of San Bernardino, and various private consulting firms. The measurement frequency is typically about once per month. Watermaster collects these water level data quarterly. The remaining 200 wells are mainly south of the 60 Freeway and assess hydraulic control, land subsidence, impacts from the desalter wells, and are monitored in support of the triennial re-computation of ambient water quality

Important Court Hearings and Orders

- APRIL 10 - COURT OF APPEAL OPINION (REGARDING PARAGRAPH 31)
- JUNE 13 - COURT OF APPEAL REMITTITUR (REGARDING PARAGRAPH 31)
- JUNE 15 - SUPPLEMENTAL ORDER AFTER HEARING ON MOTION FOR APPROVAL OF WATERMASTER RESOLUTION 2010-04
- JUNE 29 - ORDER POST APPEAL (REGARDING PARAGRAPH 31)

Optimum Basin Management Program

Program Element 1: Develop and Implement a Comprehensive Monitoring Program (Continued)

in the Chino-North Management Zone. Watermaster manually measures water levels at these wells monthly or by using pressure transducers that record data in 15-minute increments. These data are quality control checked, loaded into a relational database, and used to develop groundwater level contour maps and implementation assumptions.

Groundwater Quality Monitoring

Watermaster initiated a comprehensive monitoring program as part of the implementation of the OBMP. The groundwater quality monitoring program consists of the following four components:

1. An Annual Key Well Water Quality Monitoring Program consisting of 120 wells which are mostly privately owned agricultural wells in the southern portion of Chino Basin that are otherwise not included in an established sampling program. Twenty of these wells are sampled every year; the remaining wells are sampled every three years. The wells sampled annually are for the continuous monitoring of areas of concern associated with the southern edge of the Archibald South (formerly OIA) volatile organic compound (VOC) plume, the southern region of the Chino Airport Plume, and the Kaiser Steel Plume which includes the two multi-port MZ-3 monitoring wells. Data obtained for the Key Well Quality Monitoring Program are used for the triennial ambient water quality analysis, hydraulic control assessment, the Biennial State of the Basin Report, and to assess the overall health of the Basin.
2. Annual sampling at nine HCMP multi-port monitoring wells strategically placed between the Chino Basin Desalter well fields and the Santa Ana River. Results of the annual sampling are used to analyze the effect of desalter pumping over time by comparing water quality of the native groundwater and the Santa Ana River.
3. Monthly sampling at four near-river wells to characterize the Santa Ana River's influence to nearby groundwater. These shallow monitoring wells along the Santa Ana River consist of two former United States Geologic Survey (USGS) National Water Quality Assessment Program (NAWQA) wells (Archibald 1 and Archibald 2), and two wells (Well 9 and Well 11) owned by the Santa Ana River Water Company (SARWC).
4. A cooperative basin-wide data collection effort known as the Chino Basin Data Collection (CBDC) program which relies on municipal producers and other government agencies to supply groundwater quality data on a cooperative basis. These sources include the Appropriators, Department of Toxic Substance Control (DTSC), Regional Water Quality Control Board (RWQCB), US Geological Survey (USGS), the Counties, and other cooperators. All water quality data are routinely collected, QA/QC'd, and loaded into Watermaster's relational database. Watermaster's database is used to create detailed maps and for modeling purposes.

Groundwater Production Monitoring

All active wells (except for minimum user wells) are now metered. Watermaster reads the agricultural production data from the meters on a quarterly basis and enters these data into Watermaster's relational database.

Surface Water Monitoring

Water Quality and Quantity in Recharge Basins. Watermaster measures the quantity of storm and supplemental water entering the recharge basins. Pressure transducers or staff gauges are used to measure water levels during recharge operations. In addition to these quantity measurements, imported water quality data for State Water Project water are obtained from the Metropolitan Water District of Southern California (MWDSC) and recycled water quality data for the RP-1 and RP-4 treatment plant effluents are obtained from IEUA. Combining the measured flow data with the respective water qualities enables the calculation of the blended water quality in each recharge basin, the "new yield" to the Chino Basin, and the adequate dilution of recycled water.

Surface Water Monitoring in the Santa Ana River (SAR). Watermaster measures the discharge of the River and selected water quality parameters to determine those reaches of the SAR that are gaining flow from the Chino Basin and/or, conversely, those reaches that are losing flow into the Chino Basin. These bi-weekly flow and water quality measurements are combined with discharge data from permanent USGS stream gauges and discharge data from publicly owned treatment works (POTWs). These data are used along with groundwater modeling to assess the extent of hydraulic control.

Optimum Basin Management Program

Program Element 1: Develop and Implement a Comprehensive Monitoring Program (Continued)

Hydraulic Control

In January 2004, the RWQCB amended the Water Quality Control Plan (Basin Plan) for the Santa Ana River Basin to incorporate an updated total dissolved solids (TDS) and nitrogen (N) management plan. The Basin Plan Amendment includes both "antidegradation" and "maximum benefit" objectives for TDS and nitrate-nitrogen for the Chino and Cucamonga groundwater management zones. The application of the "maximum benefit" objectives relies on Watermaster and IEUA's implementation of a specific program of projects and requirements, which are an integral part of the OBMP. On April 15, 2005, the RWQCB adopted resolution R8-2005-0064; thus approving the Surface Water Monitoring Program and Groundwater Monitoring Program in support of maximum benefit commitments in the Chino and Cucamonga Basins.

Pursuant to the Basin Plan and the Watermaster/IEUA permit to recharge recycled water, Watermaster and IEUA have conducted groundwater and surface water monitoring programs since 2004. During this reporting period, Watermaster measured 445 manual water levels at private wells throughout the Chino Basin, conducted two quarterly downloads at the 112 wells containing pressure transducers, collected 24 groundwater quality samples, 169 surface water quality samples, and 39 direct discharge stream measurements. Quarterly Surface Water Monitoring Program Reports that summarize data collection efforts were submitted to the RWQCB in January and April of 2012. The Chino Basin Maximum Benefit Monitoring Program 2011 Annual Report was submitted to the RWQCB on April 16, 2012.

During this reporting period, as a requirement of Mitigation Measure 4.4-3 from the Peace II Subsequent EIR, Watermaster, IEUA and OCWD began to develop a Prado Basin Habitat Sustainability Program. Included within this program will be the Prado Basin Habitat Sustainability Adaptive Management Plan, the installation of up to 17 monitoring wells at nine separate sites, and vegetative monitoring.

Chino Basin Groundwater Recharge Program

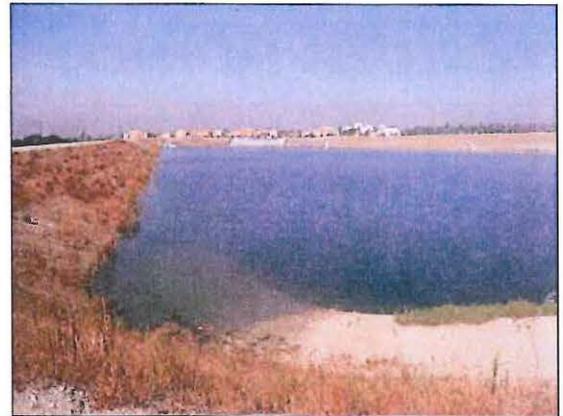

Watermaster, IEUA, the Chino Basin Water Conservation District (CBWCD), and the San Bernardino County Flood Control District (SBCFCD) jointly sponsor the Chino Basin Groundwater Recharge Program. This is a comprehensive water supply program to enhance water supply reliability and improve the groundwater quality in local drinking water wells throughout the Chino Basin by increasing the recharge of storm water, imported water, and recycled water. The recharge program is regulated under RWQCB Order No. R8-2007-0039 and Monitoring and Reporting Program No. R8-2007-0039.

Recharge Activities. On-going recycled water recharge occurred in the Brooks, 7th Street, 8th Street, Turner, Victoria, San Sevaine, Ely, Hickory, DeClez, RP-3, and Banana Basins this reporting period. Stormwater was recharged at 19 recharge basins across all management zones of the Chino Basin during this reporting period. No imported water was recharged this reporting period.

Monitoring Activities. Watermaster and IEUA collect weekly water quality samples from recharge basins that are actively recharging recycled water and from lysimeters installed within those recharge basins. During this reporting period, approximately 261 recharge basin and lysimeter samples were collected and 27 recycled water samples were collected for alternative monitoring plans that include the application of a correction factor for soil-aquifer treatment determined from each recharge basin's start-up period. Monitoring wells located down-gradient of the recharge basins were sampled quarterly at a minimum, however, some monitoring wells were sampled more frequently during the reporting period for a total of 87 samples.

Reporting. Watermaster and IEUA completed the following required reports concerning the recharge program during the reporting period:

- 4Q-2011 Quarterly Report, submitted to the RWQCB – February 2012
- 1Q-2012 Quarterly Report, submitted to the RWQCB – May 2012
- 2011 Annual Report, submitted to the RWQCB – May 2012

Recharging the Chino Basin at Upland Basin

Optimum Basin Management Program

Program Element 1: Develop and Implement a Comprehensive Monitoring Program (Continued)

Land Surface Monitoring

In response to land subsidence in the City of Chino, Watermaster submitted the MZ-1 Subsidence Management (MZ-1) Plan to the Court for approval and, in November 2007, the Court ordered its implementation (see Program Element 4: Develop and Implement a Comprehensive Groundwater Management Plan for Management Zone 1). The MZ-1 Plan proposed several monitoring and mitigation measures to minimize or abate land subsidence and ground fissuring in the western Chino Basin. These measures and activities include:

- Continue water level monitoring, within the Managed Area, comparable to that which occurred during development of the MZ-1 Plan.
- Expand aquifer and land subsidence monitoring into other areas of MZ-1, and the Chino Basin, where data indicate a potential concern for subsidence and ground fissuring.
- Construct a horizontal strain monitor (extensometer) across the observed fissure zone.
- Evaluate the potential contribution of groundwater production, in northern MZ-1, on conditions in southern MZ-1.
- Provide for recovery of MZ-1 groundwater levels, while conducting additional testing and monitoring to refine the PA-7 Guidance Criteria.
- Develop an alternative pumping plan for producers impacted by the MZ-1 Plan and post the PA-7 groundwater levels on the Watermaster website to guide its use.
- Construct, and comparison test, vertical and cable extensometers at Ayala Park.
- Evaluate and compare ground-level surveying with Interferometric Synthetic Aperture Radar (InSAR), and recommend future monitoring protocols for both techniques.
- Conduct an ASR (aquifer storage recovery) feasibility study at a City of Chino Hills MZ-1 production well (Well 16).

Watermaster undertook the following monitoring and testing activities called for in the MZ-1 Plan:

- The Watermaster Land Subsidence Committee (LSC) met twice during the period, to assess future monitoring priorities and identify funding support for those activities.
- Compared vertical and cable extensometers at Ayala Park, to validate use of the more cost-effective cable system for application in other parts of the Basin, as necessary.
- Evaluated InSAR data from alternate satellite system, which may be further analyzed to detect potential land surface displacement (subsidence) in early 2012.
- Continued implementation of the MZ-1 Managed Area Monitoring Program with the goals of: (1) refining the Guidance Criteria; (2) confirming existence of the Riley Barrier; (3) testing ASR feasibility in the Managed Area; and (4) evaluating the effect of groundwater production and injection on subsidence and recovery in the fissure zone.
- Completed calibration of the Daniels Street horizontal extensometer across the City of Chino observed zone of surface ground fissuring.
- Identified a location in February 2012 and began to construct the Chino Creek Well Field (CCWF) vertical cable extensometer (located South of Chino Airport) in April 2012. Construction is expected to be completed in July 2012.

Program Element 2: Develop and Implement a Comprehensive Recharge Program

The theoretical average stormwater recharge capacity of the Chino Basin Facilities Improvement Program (CBFIP) facilities is approximately 14,000 acre-feet/yr (AFY) and the theoretical supplemental water recharge capacity is 99,000 AFY. Stormwater recharge during this period was about 6,162 acre-feet. Recycled water recharge during this period was about 4,361 acre-feet. The IEUA and Watermaster recharge permit was amended in fiscal year 2009/10 to allow for underflow dilution and extended the

Optimum Basin Management Program

Program Element 2: Develop and Implement a Comprehensive Recharge Program (Continued)

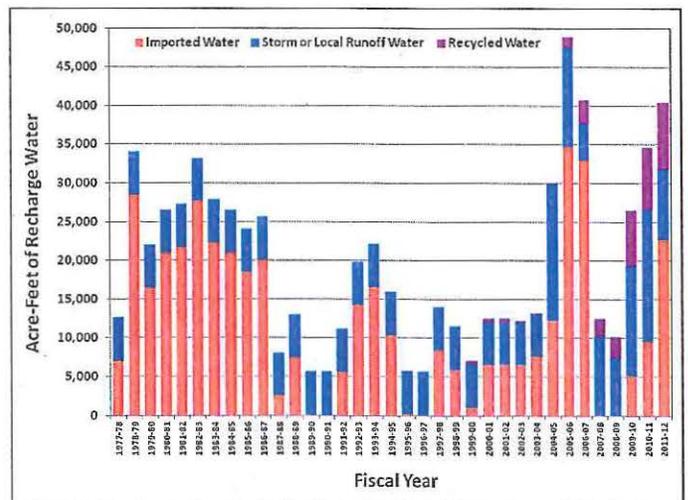

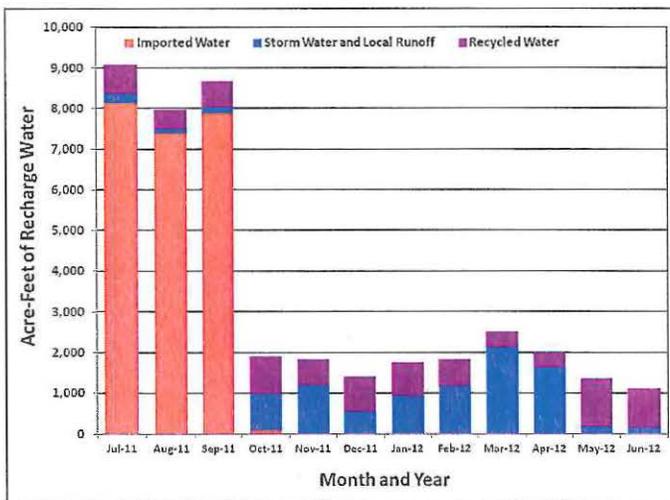

dilution period from a running 60 months to a running 120 months. The significance of this permit amendment was to reduce the amount of imported and storm waters required for dilution. IEUA projects that dilution requirements will likely be met through 2019/20, even if no imported water were available for dilution.

The total amount of supplemental water recharged in MZ-1 since the Peace II Agreement is approximately 37,945 acre-feet, which is 5,445 acre-feet (cumulative) greater than the average annual requirement of 6,500 acre-feet.

Watermaster staff convened a Recharge Master Plan Update Steering Committee (Steering Committee) last fall. The Steering Committee was reformed in January 2012 to include all stakeholders and met seven times during this period. The Steering Committee developed and approved a scope of work and report outline and commenced with the execution of the work. The scope of work was responsive to the October 2010 and December 2011 Court Orders and the December 2011 Board direction. The Steering Committee's final report will include nine sections with technical appendices.

Using updated estimates of stakeholders' groundwater production and projections of replenishment obligations, Watermaster and the parties have evaluated changed circumstances (legislative, regulatory, etc.) that were not addressed in the 2010 RMP Update and how these changes affect the RMP. Based on this evaluation, the Committee has selected agreed upon bookend projected future scenarios for recharge planning. Modeling analyses were performed, predicated on the updated pumping and replenishment projections, estimates of the locations and amounts of recharge required for sustainability, and potential production forbearance. The Committee also conducted an inventory of existing recharge facilities, which included the characterization of recharge basins, recharge capacities and the factors controlling recharge performance. These components comprise the Final Draft of Sections One through Four of the Report, which was completed and approved by the Watermaster Board on May 24, 2012. These four sections fulfill the requirements for the June Status Report deadline to the Court, which was filed on May 31, 2012.

In order to finalize the RMP Update, the parties will next identify the possible recharge mechanisms available to meet current and projected recharge and replenishment needs. This will include the analysis of potential recharge associated with Municipal Separate Storm Sewer Systems (MS4) permits, the identification of areas within the Basin with the potential for production sustainability challenges and other water management challenges that can be addressed by recharge or production management, and the identification of options ensuring production sustainability through the term of Peace Agreements, including increased recharge at existing facilities, new recharge facilities, new recharge sources, adjustment in production patterns, etc. The Committee will also develop the monitoring, reporting, and accounting practices that will be required to estimate local project stormwater recharge and new yield. After the identification of the potential recharge options, the parties will agree upon the methods and criteria that will be used to evaluate each of them. Using these agreed upon methods and criteria, Watermaster's consultants will conduct engineering and economic analyses of each. Based on these analyses, the parties will review and recommend implementation of the selected options, and develop recommended financing and implementation plans for these options.

Optimum Basin Management Program

Program Element 3: Develop and Implement Water Supply Plan for the Impaired Areas of the Basin; and Program Element 5: Develop and Implement Regional Supplemental Water Program

Construction of the Chino I Desalter Expansion and the Chino II Desalter facilities was completed in February 2006. As currently configured, the Chino I Desalter provides 2.6 million gallons per day (MGD) of treated (air stripping for VOC removal) water from Well Nos. 1-4, 4.9 MGD of treated (ion exchange for nitrate removal) water from Well Nos. 5-15, and 6.7 MGD of treated (reverse osmosis for nitrate and TDS removal) water from Well Nos. 5-15 for a total of 14.2 MGD (15,900 AFY). The Chino II Desalter provides 4.0 MGD of ion exchange treated water and 6.0 MGD of reverse osmosis treated water from eight additional wells for a total of 10.0 MGD (11,200 AFY).

Planning continued between the Chino Desalter Authority (CDA) and the WMWD to expand the Chino II Desalter by 10.5 MGD (11,800 AFY). Raw water will be drawn from existing CDA II wells, and possible additional new wells, if needed. In addition, a new Chino Creek Desalter Well Field, required for the hydraulic control commitment associated with Maximum Benefit, will provide additional raw water to the Chino I Desalter, enabling some existing wells to direct production to the expanded Chino II Desalter facility. Watermaster and the CDA demonstrated continued progress on the RWQCB approved project schedule of June 2010, which should be completed sometime in 2015. Existing design contracts for pipeline, well and pump facilities continue to lead toward task and eventual project completion.

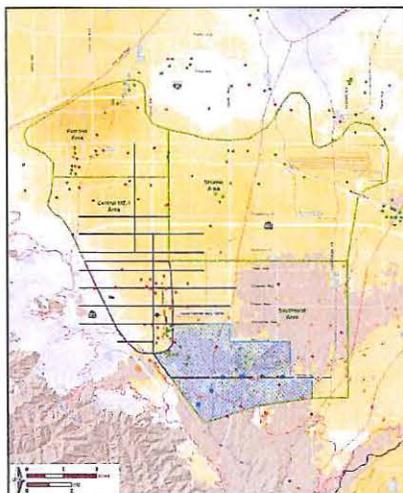

In June 2012, the WMWD was awarded a \$51 million state grant from the California Department of Health for the desalter expansion project.

Program Element 4: Develop and Implement a Comprehensive Groundwater Management Plan for Management Zone 1

MZ-1 Management Plan

Because of the historical occurrence of pumping-induced land subsidence and ground fissuring in southwestern Chino Basin (southern MZ-1), the OBMP called for the development and implementation of an Interim Management Plan (IMP) for MZ-1 that would:

- Minimize subsidence and fissuring in the short-term,
- Collect information necessary to understand the extent, rate, and mechanisms of subsidence and fissuring, and
- Formulate a management plan to reduce to tolerable levels or abate future subsidence and fissuring.

Chino Basin Subsidence Monitoring Program in Management Zone 1

From 2001-2005, Watermaster developed, coordinated, and conducted an Interim Monitoring Program (IMP) under the guidance of the MZ-1 Technical Committee. The investigation provided enough information for Watermaster to develop Guidance Criteria for the MZ-1 producers in the investigation area that, if followed, would minimize the potential for subsidence and fissuring during the completion of the MZ-1 Plan. The Guidance Criteria included a listing of Managed Wells and their owners subject to the criteria, a map of the so-called Managed Area, and an initial threshold water level (Guidance Level) of 245 feet below the top of the PA-7 well casing. The MZ-1 Summary Report and the Guidance Criteria were adopted by the Watermaster Board in May 2006. The Guidance Criteria formed the basis for the MZ-1 Plan, which was approved by Watermaster in October 2007. The Court approved the MZ-1 Plan in November 2007 and ordered its implementation.

During this reporting period, Watermaster continued implementation of the MZ-1 Plan. Drawdown at the PA-7 piezometer did not fall below the Guidance Level during the reporting period, and very little, if any, permanent compaction was recorded at the Ayala Park Extensometer. The ongoing monitoring program called for by the MZ-1 Plan continues to be implemented.

The MZ-1 Technical Committee has since been expanded to LSC. The LSC met on February 16 and March 22, and continues to implement elements of the MZ-1 Plan including InSAR monitoring and construction of the Chino Creek Well Field Cable Extensometer.

Optimum Basin Management Program

Program Element 6: Develop and Implement Cooperative Programs with the Regional Water Quality Control Board, Santa Ana Region (Regional Board) and Other Agencies to Improve Basin Management; and Program Element 7: Develop and Implement a Salt Management Program

Archibald South Plume

In July 2005, The Regional Water Quality Control Board (Regional Board) prepared draft Cleanup and Abatement Orders (CAOs) for six Ontario International Airport (OIA) parties with regard to the Archibald South (trichloroethene [TCE]) Plume. Four of those parties (Aerojet, Boeing, General Electric [GE], and Lockheed Martin, also known as ABGL) formed a group to work jointly on a remedial investigation. Northrop Grumman declined to participate in the group, while the US Air Force, in cooperation with the US Army Corps of Engineers, funded the installation of one of the four clusters of monitoring wells installed by the ABGL.

On October 13, 2011, Erler & Kalinowski, Inc. (EKI) published a Remedial Investigation (RI) Report on behalf of the ABGL concerning the Archibald South Plume. On November 4, 2011, Geoscience Support Services, Inc. issued its technical report on the Archibald South Plume on behalf of the City of Ontario. Both technical reports were submitted to the Regional Board.

Chino Airport

The County of San Bernardino, Department of Airports is working under Regional Board CAO No. R8-2008-0064. Beginning in 2007, Tetra Tech, the consultant to the County, conducted several off-site plume characterization studies to delineate the areal and vertical extent of the plume. Tetra Tech will be publishing two reports in the next period describing the progress of this work to date: The *Semiannual Groundwater Monitoring Report, Winter and Spring 2012*, and the *Phase I Monitoring Well Installation Report*. Watermaster has collected samples from dedicated monitoring wells and private wells in and around the Chino Airport plume area. The County and Watermaster have been sharing these investigation data so that both parties can utilize a robust data set for plume characterization. Watermaster has also used its calibrated groundwater model to estimate cleanup times and contaminant concentrations in the Chino Creek Well Field. This work will be updated, given new information about the extent of contamination, subsurface hydrogeology, well performance, and the need for habitat sustainability in the Prado Basin.

Other Water Quality Issues

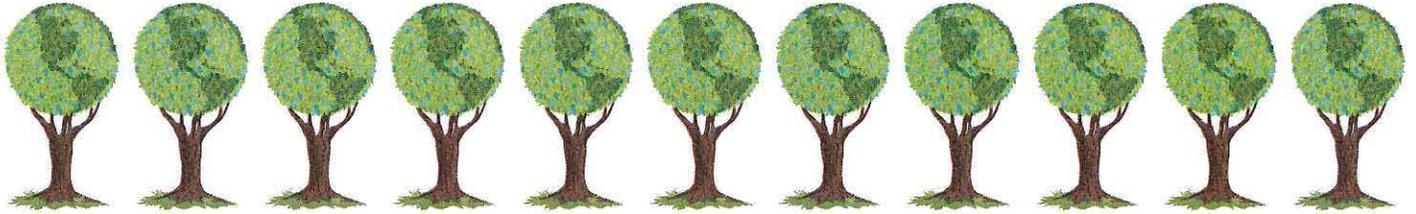

Watermaster continues to track monitoring programs and mitigation measures associated other point sources in the Chino Basin, including: Alumax Aluminum Recycling, the California Institute for Men, Crown Coach, GE Test Cell and Flatiron, Kaiser Steel, Milliken Landfill, Upland Landfill, and the Stringfellow National Priorities List sites.

Program Element 8: Develop and Implement a Groundwater Storage Management Program; and Program Element 9: Develop and Implement a Storage and Recovery Program

Recent events demonstrate the importance of groundwater storage to the Chino Basin. Watermaster has committed to investigate the technical and management implications of Local Storage Agreements, improve related policies and procedures, and then revisit all existing applications of Local Storage Agreements.

The existing Watermaster/IEUA/MWDSC/Three Valley Municipal Water District (TVMWD) Dry-Year Yield (DYY) program continued during the reporting period. By April 30, 2011, all DYY program construction projects and a full "put" and "take" cycle had been completed, leaving the storage account with a zero balance. Watermaster, IEUA, and MWDSC are negotiating potential amendments to the current contract.

I. CONSENT CALENDAR

D. WATER TRANSACTIONS

1. **Consider Approval for Notice of Sale or Transfer** - Fontana Water Company ("Company") has Agreed to Purchase from the Nicholson Trust 2011-2012 Annual Production Right in the Amount of 5.000 acre-feet. Date of Application: June 27, 2012

CHINO BASIN WATERMASTER

NOTICE

OF

APPLICATION(S)

RECEIVED FOR

WATER TRANSACTIONS – ACTIVITIES

Date of Notice:

July 5, 2012

This notice is to advise interested persons that the attached application(s) will come before the Watermaster Board on or after 30 days from the date of this notice.

NOTICE OF APPLICATION(S) RECEIVED

Date of Application: **June 27, 2012**

Date of this notice: **July 5, 2012**

Please take notice that the following Application has been received by Watermaster:

- A. Notice of Sale or Transfer – Notice of Sale or Transfer – Fontana Water Company (“Company”) has agreed to purchase from the Nicholson Trust 2011-2012 annual production right in the amount of 5.000 acre-feet.

This *Application* will first be considered by each of the respective pool committees on the following dates:

Appropriative Pool: July 12, 2012

Non-Agricultural Pool: July 12, 2012

Agricultural Pool: July 12, 2012

This *Application* will be scheduled for consideration by the Advisory Committee *no earlier than thirty days from the date of this notice and a minimum of twenty-one calendar days* after the last pool committee reviews it.

After consideration by the Advisory Committee, the *Application* will be considered by the Board.

Unless the *Application is* amended, parties to the Judgment may file *Contests* to the *Application* with Watermaster *within seven calendar days* of when the last pool committee considers it. Any *Contest* must be in writing and state the basis of the *Contest*.

Watermaster address:

CHINO BASIN WATERMASTER

NOTICE OF TRANSFER OF WATER

Notification Dated: July 5, 2012

A party to the Judgment has submitted a proposed transfer of water for Watermaster approval. Unless contrary evidence is presented to Watermaster that overcomes the rebuttable presumption provided in Section 5.3(b)(iii) of the Peace Agreement, Watermaster must find that there is "no material physical injury" and approve the transfer. Watermaster staff is not aware of any evidence to suggest that this transfer would cause material physical injury and hereby provides this notice to advise interested persons that this transfer will come before the Watermaster Board on or after 30 days from the date of this notice. The attached staff report will be included in the meeting package at the time the transfer begins the Watermaster process (comes before Watermaster).

CHINO BASIN WATERMASTER

9641 San Bernardino Road, Rancho Cucamonga, Ca 91730
Tel: (909) 484.3888 Fax: (909) 484-3890 www.cbwm.org

DATE: July 5, 2012
TO: Watermaster Interested Parties
SUBJECT: Summary and Analysis of Application for Water Transaction

Summary –

There does not appear to be a potential material physical injury to a party or to the basin from the proposed transaction as presented.

Issue –

- Notice of Sale or Transfer – Fontana Water Company (“Company”) has agreed to purchase from the Nicholson Trust 2011-2012 annual production right in the amount of 5.000 acre-feet.

Recommendation –

1. Continue monitoring as planned in the Optimum Basin Management Program.
2. Use all new or revised information when analyzing the hydrologic balance and report to Watermaster if a potential for material physical injury is discovered, and
3. Approve the transaction as presented.

Fiscal Impact –

- None
- Reduces assessments under the 85/15 rule
- Reduce desalter replenishment costs

Background

The Court approved the Peace Agreement, the Implementation Plan and the goals and objectives identified in the OBMP Phase I Report on July 13, 2000, and ordered Watermaster to proceed in a manner consistent with the Peace Agreement. Under the Peace Agreement, Watermaster approval is required for applications to store, recapture, recharge or transfer water, as well as for applications for credits or reimbursements and storage and recovery programs.

Where there is no material physical injury, Watermaster must approve the transaction. Where the request for Watermaster approval is submitted by a party to the Judgment, there is a rebuttable presumption that most of the transactions do not result in Material Physical Injury to a party to the Judgment or the Basin (Storage and Recovery Programs do not have this presumption).

The following application for water transaction is attached with the notice of application.

- Notice of Sale or Transfer – Fontana Water Company (“Company”) has agreed to purchase from the Nicholson Trust 2011-2012 annual production right in the amount of 5.000 acre-feet.

Notice of the water transaction identified above was mailed on July 5, 2012 along with the materials submitted by the requestors.

DISCUSSION

Water transactions occur each year and are included as production by the respective entity (if produced) in any relevant analyses conducted by Wildermuth Environmental pursuant to the Peace Agreement and the Rules & Regulations. There is no indication additional analysis regarding this transaction is necessary at this time. As part of the OBMP Implementation Plan, continued measurement of water levels and the installation of extensometers are planned. Based on no real change in the available data, we cannot conclude that the proposed water transaction will cause material physical injury to a party or to the Basin.

CONSOLIDATED WATER TRANSFER FORMS:
FORM 3: APPLICATION FOR SALE OR TRANSFER OF RIGHT TO PRODUCE WATER FROM STORAGE
FORM 4: APPLICATION OR AMENDMENT TO APPLICATION TO RECAPTURE WATER IN STORAGE
FORM 5: APPLICATION TO TRANSFER ANNUAL PRODUCTION RIGHT OR SAFE YIELD

FISCAL YEAR 2011 - 2012

DATE REQUESTED: June 27, 2012

AMOUNT REQUESTED: 5.000 Acre-Feet

Have any other transfers been approved by Watermaster between these parties covering the same fiscal year? Yes No

PURPOSE OF TRANSFER:

- Pump when other sources of supply are curtailed
- Pump to meet current or future demand over and above production right
- Pump as necessary to stabilize future assessment amounts
- Other, explain _____

WATER IS TO BE TRANSFERRED FROM:

- Annual Production Right (Appropriative Pool) or Operating Safe Yield (Non-Agricultural Pool)
- Storage
- Annual Production Right / Operating Safe Yield first, then any additional from Storage
- Other, explain _____

WATER IS TO BE TRANSFERRED TO:

- Annual Production Right / Operating Safe Yield (common)
- Storage (rare)
- Other, explain _____

IS THE 85/15 RULE EXPECTED TO APPLY? (If yes, all answers below must be "yes.") Yes No
 Is the Buyer an 85/15 Party? Yes No
 Is the purpose of the transfer to meet a current demand over and above production right? Yes No
 Is the water being placed into the Buyer's Annual Account? Yes No

IF WATER IS TO BE TRANSFERRED FROM STORAGE:	
Varies	2011-2012
Projected Rate of Recapture	Projected Duration of Recapture
METHOD OF RECAPTURE (e.g. pumping, exchange, etc.):	
Pumping	
PLACE OF USE OF WATER TO BE RECAPTURED:	
Chino Basin Management Zone 3	
LOCATION OF RECAPTURE FACILITIES (IF DIFFERENT FROM REGULAR PRODUCTION FACILITIES):	
N/A	

WATER QUALITY AND WATER LEVELS

Are the Parties aware of any water quality issues that exist in the area? Yes No
 If yes, please explain:
 Of the wells routinely pumped, perchlorate levels range from non detect to 2.9 ppb and nitrate levels range from 6.6 ppm to 32.0 ppm

What are the existing water levels in the areas that are likely to be affected?
 Static Water Levels ranging from 324 feet bgs to 665 feet bgs

MATERIAL PHYSICAL INJURY

Are any of the recapture wells located within Management Zone 1? Yes No
 Is the Applicant aware of any potential Material Physical Injury to a party to the Judgment or the Basin that may be caused by the action covered by the application? Yes No

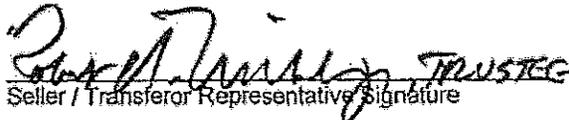

If yes, what are the proposed mitigation measures, if any, that might reasonably be imposed to ensure that the action does not result in Material Physical Injury to a party to the Judgment or the Basin?

SAID TRANSFER SHALL BE CONDITIONED UPON:

- (1) Transferee shall exercise said right on behalf of Transferor under the terms of the Judgment, the Peace Agreement, the Peace II Agreement, and the Management Zone 1 Subsidence Management Plan for the period described above. The first water produced in any year shall be that produced pursuant to carry-over rights defined in the Judgment. After production of its carry-over rights, if any, the next (or first if no carry-over rights) water produced by Transferee from the Chino Basin shall be that produced hereunder.
- (2) Transferee shall put all waters utilized pursuant to said Transfer to reasonable beneficial use.
- (3) Transferee shall pay all Watermaster assessments on account of the water production hereby Transferred.
- (4) Any Transferee not already a party must Intervene and become a party to the Judgment.

**AUTHORIZING INVESTMENT OF MONIES
IN THE LOCAL AGENCY INVESTMENT FUND**

WHEREAS, Pursuant to Chapter 730 of the statutes of 1976 Section 16429.1 was added to the California Government Code to create a Local Agency Investment Fund in the State Treasury for the deposit of money of a local agency for purposes of investment by the State Treasurer; and

WHEREAS, the Chino Basin Watermaster was appointed on January 27, 1978, under San Bernardino Superior Court Case No. WCV51010 (formerly Case No. SCV164327) entitled Chino Basin Municipal Water District V. City of Chino, et al., with powers to authorize the investment or deposit of surplus funds pursuant to the California Government Code, Section 53600; and

WHEREAS, upon filing of an appropriate resolution, local agencies are permitted to remit money to the State Treasurer for deposit in the fund for the purpose of investment; and pursuant to Section 16429.3 of said Government Code, such monies are not subject to impoundment of seizure by any state official or state agency.

NOW THEREFORE, BE IT RESOLVED, that the Board of Directors does hereby authorize the deposit and withdrawal of Chino Basin Watermaster monies in the Local Agency Investment Fund in the State Treasury in accordance with the provisions of Section 16429.1 of the Government Code for the purpose of investment as stated therein, and verification by the State Treasurer's Office of all banking information provided in that record.

BE IT FURTHER RESOLVED, that the following Chino Basin Watermaster officers and designated employees or their successors in office/position shall be authorized to order the deposit or withdrawal of monies in the Local Agency Investment Fund.

<u>Robert Kuhn</u> (NAME)	<u>Chairman of the Board</u> (TITLE)	_____ (SIGNATURE)

General Manager

STAFF REPORT

DATE: September 20, 2012
TO: Committee Members
SUBJECT: Cost Sharing Agreement between Watermaster and the Inland Empire Utilities Agency Regarding the Prado Basin Habitat Sustainability Program

SUMMARY

Issue – Mitigation Measure 4.4-3, from the Peace II Subsequent EIR, requires Watermaster, IEUA and OCWD to develop a Prado Basin Habitat Sustainability Program.

Recommendation – Staff recommends approving this cost sharing agreement.

Financial Impact – Watermaster's approved budgets for FY 2010/2011 and 2011/2012 include a total of \$220,000 for this task.

BACKGROUND

The Peace II Subsequent Environmental Impact Report (SEIR) was completed and adopted by the IEUA Board on October 6, 2010. Mitigation Measure 4.4-3, from the Peace II SEIR (attached), requires that a Prado Basin Habitat Sustainability Committee and Program be developed. The Mitigation Measure requires that the performance standard(s) for determining the significance of potential Peace II Agreement impacts to Prado Basin Riparian Habitat be identified prior to January 1, 2013. Watermaster, IEUA, and OCWD staff have been working together to develop a program that will meet the requirements of the mitigation measure. This cost sharing agreement is the next step in moving forward with this project.

DISCUSSION

IEUA applied for the Department of Water Resources (DWR) Local Groundwater Assistance (LGA) Grant Program, for an amount up to \$250,000. Any funds received through the LGA Grant Program will be put towards the Prado Basin Habitat Sustainability Program. As required by the "Bright Line Agreement" of December 17, 2008, any remaining costs will be split 50/50 between IEUA and Watermaster. Watermaster and IEUA have each budgeted not-to-exceed amounts of \$220,000 (for a total of \$440,000) to include, but not be limited to, the following items: development of the Prado Basin Habitat Sustainability Adaptive Management Plan, construction and installation of up to 17 monitoring wells at nine separate sites and related project management, and United States Bureau of Reclamation (USBR) vegetative monitoring studies. The cost sharing agreement will be effective May 1, 2012. If there are

changes in the Program that cause the total costs to increase above \$220,000 contribution by each party, then both parties shall require approval from their respective Committees and Boards.

Watermaster and IEUA have reached agreement on the language shown on the attached agreement. As approved by the Pools, non-substantive editorial changes have been made since the Pool meetings. The IEUA Board will consider the cost sharing agreement at its October 17, 2012 meeting, and if approved, Watermaster will execute afterward.

Actions:

September 13, 2012 Appropriative Pool – Approved unanimously staff's recommendation to approve this cost sharing agreement subject to any necessary non-substantive changes.

September 13, 2012 Non-Agricultural Pool – Moved to approve staff recommendation (to approve this cost sharing agreement subject to any necessary non-substantive changes) and to direct the Pool representatives to support at the Advisory Committee and Watermaster Board meetings subject to changes which they determine to be appropriate.

September 13, 2012 Agricultural Pool – Approved unanimously staff's recommendation to approve this cost sharing agreement subject to any necessary non-substantive changes.

September 20, 2012 Advisory Committee –

September 27, 2012 Watermaster Board –

Peace II Subsequent EIR – Mitigation Measure 4.4-3

The Chino Basin Stakeholders are committed to ensuring that the Peace II Agreement actions will not significantly adversely impact the Prado Basin riparian habitat. This includes the riparian portions of Chino and Mill Creek's between the terminus of hard lined channels and Prado Basin proper. The available modeling data in the SEIR indicates that Peace II Agreement implementation will not cause significant adverse effects on the Prado Basin riparian habitat. However, the following contingency measure will be implemented to ensure that the Prado Basin riparian habitat will not incur unforeseeable significant adverse effects, due to implementation of Peace II. IEUA, Watermaster, OCWD and individual stakeholders, that choose to participate, will jointly fund and develop an adaptive management program that will include, but not be limited to: monitoring riparian habitat quality and extent; investigating and identifying essential factors to long-term sustainability of Prado Basin riparian habitat; identification of specific parameters that can be monitored to measure potential effects of Peace II Agreement implementation effects on Prado Basin; and identification of water management options to minimize the Peace II Agreement effects on Prado Basin. This adaptive management program will be prepared as a contingency to define available management actions by Prado Basin stakeholders to address unforeseeable significant adverse impacts, as well as to contribute to the long-term sustainability of the Prado Basin riparian habitat. The above effort will be implemented under the supervision of a newly-formed Prado Basin Habitat Sustainability Committee. This Committee will include representatives from all interested parties and will be convened by the Watermaster and IEUA. Annual reports will be prepared and will include recommendations for ongoing monitoring and any adaptive management actions required to mitigate any measured loss or prospective loss of riparian habitat that may be attributable to the Peace II Agreement. Prior to January 1, 2013, the Committee shall identify the performance standard(s) for determining significance of potential Peace II Agreement impacts to Prado Basin Riparian Habitat for implementation by IEUA and Watermaster. As determined by Watermaster and IEUA, significant adverse impacts to riparian habitat that are attributable to the Peace II Agreement will be mitigated.

**AGREEMENT BETWEEN CHINO BASIN WATERMASTER AND INLAND EMPIRE
UTILITIES AGENCY REGARDING REIMBURSEMENT OF THE PEACE II
SUBSEQUENT ENVIRONMENTAL IMPACT REPORT MITIGATION MEASURE 4.4-3
(PRADO BASIN HABITAT SUSTAINABILITY PROGRAM)**

WHEREAS, the Inland Empire Utilities Agency (“IEUA”) and the Chino Basin Watermaster (“Watermaster”) (each individually “Party” and collectively “the Parties”) share common goals and objectives regarding the reasonable and beneficial use of water within the Inland Empire and more specifically the Chino Basin;

WHEREAS, both Parties share responsibility for meeting certain monitoring and reporting requirements detailed in the Basin Plan amendment approved by the Santa Ana Regional Water Quality Control Board (RWQCB) in 2004 (R8-2004-0001, R8-2012-0002);

WHEREAS, both Parties have made commitments to the RWQCB to obtain Maximum Benefit Groundwater Quality Objectives (Quarterly Surface Water Monitoring and Reporting, Annual Hydraulic Control Monitoring Program (HCMP) Monitoring and Reporting);

WHEREAS, the Parties are co-permittees for the Recycled Water Groundwater Recharge Program and share responsibility for meeting certain monitoring and reporting requirements of the RWQCB, Santa Ana Region Order No. R8-2007-0039 (Order) and the Monitoring and Reporting Program (M&RP) No. R8-2007-0039;

WHEREAS, the Peace II Agreement section 2.2 acknowledges that IEUA has been properly designated as the Lead Agency for the purposes of completing the environmental assessment and review of the proposed project;

WHEREAS, the 2008 “Bright Line Agreement” defines the cost sharing arrangement for monitoring programs between IEUA and Watermaster;

WHEREAS, the Peace II Subsequent EIR was completed and adopted by the IEUA Board;
and

WHEREAS, mitigation measure 4.4-3, from the Peace II Subsequent EIR, requires Watermaster, IEUA and OCWD to develop a Prado Basin Habitat Sustainability Program.

NOW THEREFORE IT IS AGREED THAT:

1. This agreement is effective May 1, 2012.
2. IEUA shall apply for the Department of Water Resources (DWR) Local Groundwater Assistance (LGA) Grant Program. Any funds received through the LGA Grant Program will be put towards the Prado Basin Habitat Sustainability Program (“Program”).
3. Any remaining costs will be split 50/50 between IEUA and Watermaster. IEUA and Watermaster have each budgeted not-to-exceed amounts of

\$220,000 (for a total of \$440,000) through the end of FY 2013/14, to include, but not be limited to, the following items as listed below.

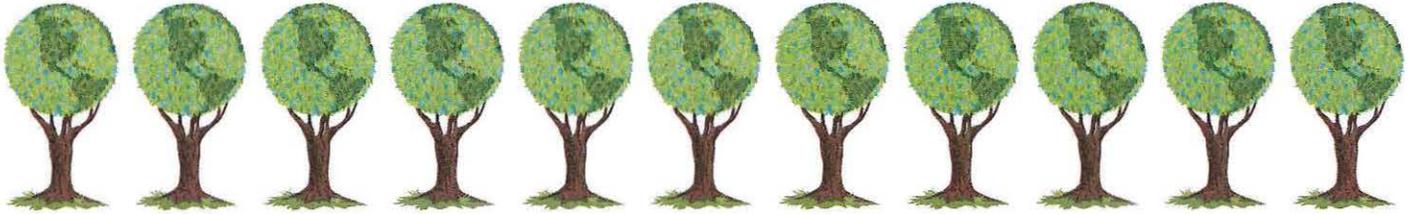

- a) IEUA shall retain a qualified consultant to develop the Prado Basin Habitat Sustainability Adaptive Management Plan, as required by the Peace II Subsequent EIR mitigation measure 4.4-3.
 - b) Watermaster shall retain Wildermuth Environmental, Inc. (WEI) to perform project management tasks related to monitoring well installation, under this Program.
 - c) IEUA shall retain a qualified contractor to construct and install up to 17 monitoring wells at 9 separate sites, as required by the Peace II Subsequent EIR mitigation measure 4.4-3.
 - d) IEUA shall retain the United States Bureau of Reclamation (USBR) to perform vegetative monitoring every 3 years, as required by the Peace II Subsequent EIR mitigation measure 4.4-3.
4. Consistent with the 2008 Bright Line Agreement Section 1A, Watermaster shall be responsible for conducting and funding all groundwater level measurements from the monitoring wells installed under this Agreement.
 5. Within 45 days of the end of each fiscal year quarter, IEUA and Watermaster shall invoice each other for 50% of actual costs associated with activities identified in Section 3 of this Agreement. All invoices shall reference this Agreement and shall include consultant or contractor invoice documentation.
 6. If there are changes in the Program that cause the total costs to increase above \$220,000 contribution by each party, then both parties shall require approval from their respective Committees and Boards.

Legislative Report

TO: Thomas Love
General Manager, Inland Empire Utility Agency

FR: David M. Weiman
Agricultural Resources
LEGISLATIVE REPRESENTATIVE, IEUA

SU: Legislative Report, August 2012

Congress was on recess for the usual August District Work Period combined with the two National Conventions (late August and early September) in Tampa and Charlotte, NC. Congress will reconvene on September 10. Politics – for now – is overwhelming legislation – OR policies and programs.

Last month, this report summarized developments from the late June Governor/Secretary Bay Delta announcement. This month, some additional “what’s it-all-mean” observations.

Bay Delta

- * Between late June and the end of July, the reaction to the Governor-Secretary’s plan largely fell into two camps.
- * The first – San Joaquin Valley and MWD (ag-urban) water interests who generally supported the plan and want to see it move forward. Meanwhile, a second unaffiliated group (more like a loose confederation) of environmental, Delta, fishing and other groups who oppose it – often for varied and sometimes

even conflicting/contradictory reasons. Then there's a hybrid – like ACWA – who's been forced into neutrality because of internal divisions and split constituencies.

- * What's common to both (competing) groups? – somewhat oddly, both largely deny the existence of the other.
- * Supporters largely (over simplified) don't acknowledge problems/challenges – be they technical, engineering, financial, or environmental.
- * Supporters simply say that the Governor and Secretary have created a plan and now it must be implemented – move forward.
- * Opponents – this loose confederation of competing interests take the opposite posture.
- * They declare the proposal “DOA” (dead on arrival) and belittle its feasibility on all grounds – engineeringly, socially, financially and/or environmentally.
- * Somewhat remarkably, neither camp really acknowledges the other – two parallel – wildly different water world views clashing with one another.
- * Given these conflicting views, what will occur – what will happen?
 - first and foremost, the process will move forward
 - later this year – maybe early next – the emerging plan (with the tunnels) will be presented in a more formal proposal with greater specificity (EIR/EIS)
 - more accurate cost figures will have to be presented (the Governor and Secretary June announcement was not helped by allowing wildly conflicting cost estimates, reported in the media, from the press that ranged from \$13-24 billion)
 - the State and DOI did themselves no favors in how this critical information was presented – this part of the presentation was not well managed.
 - a very real debate is all but certain to emerge over precisely who will pay what.
 - the national election may well alter the equation
 - Governor Brown's partner – Secretary Salazar – may well no longer be serving (rumors are, even if Obama is reelected, that Salazar will not continue as Secretary)
 - If Obama is reelected and if Secretary Salazar is retained, then remember, Salazar deeply angered and alienated a quarter of the California congressional delegation – all Northern California Democrats – by

ignoring their concerns, refusing to answer their questions or address issues they raised. Regardless of the “merits” and “substance” – this is a “not-good” development.

- What happens to Brown’s tax package – on the ballot this Fall – if not accepted, could undermine the State’s ability to underwrite this water proposal.
- * Recent reports from the Corps reveal (no surprise) that the Delta Levees are at high risk and in serious trouble.
- * The variables – politically – that can/will influence the ultimate success or failure of this proposal are (a) truly significant – each is a big deal; and (b) there is no way to predict or see a likely outcome.
- * 2013 will likely become a year for a debate about the Delta, water policy, and the very future of the State of California.

Congress to Reconvene – and Adjourn – Then A Lame Duck

- * After both conventions, Congress will return on September 10 and likely adjourn on or around October 1.
- * As a practical matter, little legislation/policy business will be conducted between during this limited session.
- * After the election – and during the lame duck – the opposite will be the case. Congress will become extremely busy – and major issues (on spending priorities) will be on the table – primarily sequestration.
- * A “generational” debate may ensure addressing far-reaching questions about the role of the Federal Government, the role of domestic spending, the allocation of funds to programs, and even the very structure of taxes. At risk – the District’s ability to meet its obligations and requirements.

Extreme Weather

- * Last month, I provided a detailed report on the drought – nationally, regionally and locally.
- * Extreme weather continues to dominate. As the month comes to a close, the hurricane/tropical storm has just landed (and stalled over Louisiana and Mississippi) – while drought dominates in the heartland.

- * It appears that “climate disruption” is a more accurate description of conditions.
- * The massive storm in Florida and the Gulf notwithstanding, more than 90% of the Nation remains in various levels of drought conditions.
- * The House and Senate did NOT agree to a drought relief bill before adjourning, and an “ag-only” relief bill was left unresolved.
- * Rep. Napolitano and others have recommended a more expansive drought legislation that would incorporate additional funding for Title XVI.
- * As the calendar moves into Fall, discussions about drought will lessen – BUT, the impacts of the drought will continue to be felt – everything from groundwater conditions, food prices, and above all – concern for next year.
- * The drought story is an open-ended one – it will continue. Whether or not California – and Southern California – and/or the Inland Empire – will be impacted (and if so how) cannot be known at this time.

To: Inland Empire Utilities Agency
From: John Withers, Jim Brulte
Re: August Activity Report

Please find our monthly activity report for California Strategies, LLC. We appreciate the opportunity to serve IEUA Directors and Staff and look forward to serving IEUA in the months ahead.

- Monthly Strategy Meetings
 - Participated in periodic conference calls with Tom Love and Craig Miller to discuss and review issues of immediate concern/importance.
 - Scheduled and attended meeting with Tom Love and County of San Bernardino CAO Greg Devereaux to discuss County and IEUA issues of importance and to coordinate objectives
- State Legislative Strategy on Local Government Taking
 - Began discussions on 2013 Legislative Strategy to unite local agencies against further state "takes" of local government resources.
 - Scheduled meeting with county leadership to begin County/IEUA cooperation
- Continued Monitoring Issues related to the Bay Delta
 - Continued monitoring and preparing presentation for Board of Directors on the Status of Bay Delta Activities
- Continued Monitoring of the San Diego vs. MET issues
 - Briefed IEUA staff on current actions by various agencies related to this water conflict.

RE: August Status Report

Overview:

August was a busy month in Sacramento. The Legislature returned from Summer Recess and quickly started working on hundreds of bills still awaiting action ahead of the August 31 end of session deadline. Legislators spent the first half of the month working to pass bills out of appropriations committees and the latter half working to move bills out of their respective houses and to the Governor's desk. Just three days remain in the current two-year legislative session as this report is being finalized. Updates on many of the still pending issues discussed below will be forthcoming as the gavel ends the final activity.

Several significant policy measures have been discussed in the waning weeks of the session. Reform of the California Environmental Quality Act (CEQA) was discussed but ultimately tabled until next year to allow for a significant stakeholder process to be convened to work on the details and proposed changes. Additionally, the Legislature is working on pension reform. The Governor released a proposal that he worked on with Democratic leadership, with just three days remaining for its consideration. Early analysis suggests it is a much weaker reform than the Governor's previously proposed 12- point plan. Workers compensation reform has also recently become a last minute legislative item with employers and employees seeking to increase benefits for injured workers and reduce litigation costs on employees

Implementation of the Electric Program Investment Charge (the new version of the Public Goods Charge) has kicked off at the California Energy Commission (CEC) and among the Investor Owned Utilities (IOUs) with several meetings to discuss how the investment plans are going to be written. Both the CEC and IOUs accepted comments from interested parties and will now work on writing investment plans.

The Cap and Trade program designed by the California Air Resources Board (CARB) is set to have the first practice allowance auction on August 30, ahead of the first real auction in mid November. While CARB and covered entities are getting ready for the auction, the Legislature and the Governor are working on a plan to spend the estimated \$1 billion, or more, the auction will generate. Meanwhile, there are several bills still awaiting final approval address how auction revenue will be spent. The main bill is by the Speaker, which would set-up a framework for how the funds would be allocated.

Finally, the State Water Resources Control Board has agreed to a stakeholder workshop to discuss new municipal stormwater permits.

Inland Empire Utilities Agency

Status Report – August 2012

Final Month of the Legislative Session

The Legislature returned to Sacramento after the month long Summer Recess to complete the final month of the two-year legislative session. Lawmakers spent the first few weeks of the session moving hundreds of bills through appropriation committees. Once the fiscal deadline passed, legislators worked on the floor of their respective houses to take action on hundreds of bills before the August 31 deadline.

The Legislature intended to act on significant revisions to the California Environmental Quality Act (CEQA) before the end of the session, however, a deal could not be reached late in the session. An announcement was made that stakeholders will work before the start of the new session next year to come up with comprehensive CEQA review and proposed reform.

Another significant issue being discussed is pension reform. With the Governor asking for a tax increase on the November ballot, he is feeling the pressure to enact measures to curb pension costs to the General Fund. If pension reform is not passed before the August 31 deadline, Republicans will likely use the lack of comprehensive reform as another attack on the Governor's tax proposal and other Democrats running for office. The motivation to pass reform measures is strong. And growing public support for change remains high.

Legislators have been talking about pension reform all year in a series of committee hearings. Earlier this year, both the Governor and Republicans released very similar pension reform plans. The Governor announced a deal with Democratic leadership on August 28 on a pension proposal that includes:

- A salary cap for of future hires that will be considered for pension purposes. The ceilings: \$110,000 for employees who participate in Social Security and \$130,000 for those who don't, such as fire fighters, police and teachers.
- Revised pension formula for new hires- including public safety workers and miscellaneous employees. Brown's earlier proposal to put new hires in hybrid pension plans has been dropped.
- New employees required to pay half of their normal pension costs.

- Miscellaneous employees -- the largest category of workers -- would have to wait until their 67th birthday for maximum retirement benefits, compared with age 62 for most current workers. Future safety employees -- including police, firefighters and prison officers -- would have to wait until age 57 to qualify for maximum benefits. Depending on their employer and contract, current employees in those jobs can retire as early as 50 years old and receive benefits.

- Spiking is addressed through a three-year salary average that includes only regular recurring pay will be used to calculate pensions.

- Retirees will be limited to 960 hours of employment.

- Felons will lose their pensions.

- Retroactive pension enhancements will be curtailed.

- "Pension holidays" that allow employers and employees to skip contributions when pension funds are flush will be precluded.

As the Legislature works through the final days of the session, the Dolphin Group will continue to work with the California Special Districts Association and other stakeholders on the issue.

Electric Program Investment Charge Implementation

As reported in previous months, the Legislature failed to reauthorize the Public Goods Charge before its sunset date on January 1, 2012. The Governor then asked the California Public Utilities Commission (CPUC) to institute a program to continue the Public Goods Charge. The CPUC authorized the new Electric Program Investment Charge (EPIC)* to continue the collecting monthly fees from utility ratepayers. While the California Energy Commission will administer most of the funds, there are some funds that are set aside for the Investor Owned Utilities (IOUs) to administer. The program will collect \$162 million with the funds divided into specific funding areas:

- Applied Research- \$55 million (CEC)
- Technology Demonstration and Deployment- \$45 million (CEC) (20% set aside for bioenergy); \$30 million for IOUs.
- Market Facilitation- \$15 million (CEC)
- Program Oversight and Administration- \$17 million

*for a more detailed description of the EPIC program, please refer to the May report from the Dolphin Group

The CEC is in the process of constructing the first of three triennial investment plans. The CEC held workshops in both Sacramento and Los Angeles to take comment on the investment plans, as well as accepted written comments from stakeholders. Additionally, the IOUs held similar workshops discussing their portion of the EPIC funds. The Dolphin Group submitted comments in both proceedings urging expending EPIC funds to support energy efficiency and bioenergy procurement programs at wastewater treatment plants. The Dolphin Group will continue to engage at the CEC, with the IOUs and at the CPUC on this important matter.

Cap and Trade Revenue

As the first Cap and Trade allowance auction draws near, proposals concerning the projected \$1 billion in revenue have started to come to the surface. Speaker Perez has recently introduced legislation that would, among other things, require the California Air Resources Board (CARB) to direct Cap and Trade auction revenue to provide opportunities for small business, schools, affordable housing developers, water and wastewater agencies, local governments and other community institutions to participate in and benefit from statewide efforts to reduce greenhouse gas emissions. Specifically, the bill establishes the criteria and requirements for use of auction revenue by advancing the goals of the California Global Warming Solutions Act of 2009, by creating a clear and open framework for developing the investment plan and adopting funding criteria. Several other measures are also seeking to direct auction revenues to various pet projects. It remains unclear if the Brown administration will sign any of these measures should they emerge from the process or simply have those decisions made at the California Air Resources Board.

Stormwater Permits

The State Water Resources Control Board (SWRCB) is in the process of updating multiple statewide permits for municipalities. Local municipalities are very concerned and have requested a September workshop to allow stakeholders to discuss the new permits. At issue are the “receiving water limits” within stormwater permits, which refer to limits on stormwater pollutants discharged into a water body. County and flood control districts argue that they should not be responsible for stormwater pollutants originating from other municipalities in the region, as the pollutants pass through sections of rivers the districts controls. Additionally, local governments contend that the SWRCB should work to streamline and adopt a model permit on the receiving water issue because there are several versions of receiving water limit language found throughout the various regional boards and permits. The SWRCB has committed to hosting the workshop, but has yet to decide on a date.

Other Legislation:

As the final days of the Legislative session approaches, lawmakers are working hard to act on hundreds of bills.

SB 1122 (Rubio) would establish a 250 MW biogas procurement program. The 250 MW is divided into three categories: wastewater treatment, municipal organic waste diversion, food processing and codigestion, 110 MW; dairy and agricultural bioenergy 90 MW; Bioenergy using byproducts of sustainable forest management, 50 MW.

AB 2196 (Chesbro) and AB 1900 (Gatto) address the CEC biomethane injection moratorium and the injection of landfill gas into common carrier pipelines in California. Both bills have run into a little trouble, but are still moving through the process. They are important so that biomethane injection can resume in-state. Wastewater processes have the potential to produce biomethane, if agencies choose to do so, therefore it is imperative that the injection moratorium is lifted.

SB 594 (Wolk) would allow for aggregated net-energy metering on contiguous property. Entities could install one solar facility and net-meter it against all meters on that particular property. This is an important proposal to expand opportunities and benefits from solar energy generation.

The following are other bills that IEUA has either taken positions on or is watching: An update will follow this report once the Legislative Session ends on August 31.

Re: August Monthly Legislative Update

With Congress in recess during the month of August, all eyes have been on the upcoming elections. With the political party nominating conventions underway, most of DC is deserted at the moment! The House and Senate will return to work on September 10th.

Sequestration Guidance Expected Soon

According to the mandates of the Sequestration Transparency Act, which was signed into law in early August, the Obama Administration is scheduled to unveil its plan for implementing the automatic sequestration budget cuts. The Act requires that the President report to Congress in early September how the \$1.2 trillion in across the board cuts to the federal agencies will be absorbed. It is expected that personnel reductions, program terminations and procurement cuts will all be forecast in an effort to absorb the drastic budget cuts. The hopes for the report are high as Congress has flailed for months in trying to pin down the President and OMB about how sequestration will be implemented. When the report is available, we will report to you on how the federal agencies who you partner with will be affected.

Looking Ahead to September

As you know from your recent IFS Memos, Congress has a tremendous amount of work to try and accomplish during the remaining months of 2012. In early 2013, the nation is facing the fiscal cliffs, the sequestration budget cuts, tax rate hikes and the end of unemployment benefit extensions.

Unfortunately, there is little chance that any of that work will be undertaken during September. The House is in session for less than ten days during September, allowing for very little time to formulate the major policy initiatives that need to be addressed to avoid the sequestration budget cuts and deal with the myriad of pending tax issues. Fresh from the Republican and Democratic political conventions, it is very likely that House and Senate leadership will pursue legislation aimed at advancing their respective political agendas. The legislative bills could take the form of energy policy changes, jobs creation measures and regulatory relief efforts.

Appropriations work will be accomplished during September in the form of a six-month Continuing Resolution. The CR will fund the federal government from the beginning of Fiscal Year 2013 on October 1st and lasting through the end of March. House and Senate leaders have agreed on the framework of a CR and should pass it easily.

Administration and Public Affairs Officer

Subject: Public Outreach and Communication

RECOMMENDATION

This is an informational item for the Board of Directors to receive and file.

BACKGROUND

September 2012

- September 5, Ontario Day at the LA County Fair
- September 12, IEUA Benefits Fair, Event Room, 9am to 11am
- September 13, Chino Day at the LA County Fair
- September 14, Upland Day at the LA County Fair
- September 21, Chino Hills Day at the LA County Fair
- September 26, Montclair & Fontana Day at the LA County Fair
- September 27, Walnut, Azusa & Rancho Cucamonga Day at the LA County Fair

October 2012

- October 11, Chino Desalter Expansion Groundbreaking Ceremony, JCSD
- October 12, Fuel Cell Dedication, Regional Water Recycling Plant 1
- October 13, Bark for Life Event, CBWCD, 9am to 1pm
- October 17, Project WET Workshop, Frontier Project (WEWAC)
- October 31, IEUA Employee Association Halloween Lunch, Event Room

November 2012

- November 3, Fall Festival of Birds (SAWA), Chino Creek Park, 10am to 3pm

December 2012

- December 1, IEUA Employee Association Holiday Dinner, Sierra La Verne Country Club

Outreach/Educational Inland Valley Daily Bulletin Newspaper Campaign

The monthly tips on ways to help conserve water continue to appear in our local newspapers each month.

Water Conservation Outreach

Regional Conservation Outreach Campaign

- Ongoing monthly ¼-page ads in the Inland Valley Daily Bulletin, Champion Newspaper, Fontana Herald News.
- Ongoing water wise gardening classes
- Free Sprinkler Nozzles program ad will run in Sunday's Daily Bulletin on September 16, October 14, and November 11, 2012.

Educational Updates

- IEUA staff is currently working on an educational outreach brochure to be distributed to all schools within IEUA's service area focusing on education programs and opportunities that the schools can get involved in. These will be distributed by September.
- IEUA has started an Educational Programs blog which will include updates from the Garden in Every School® program eliminating multiple blogs.
- The Water Education Water Awareness Committee (WEWAC) will be displaying a water-wise garden at the LA County Fair.
- The Metropolitan Water District of Southern California has announced the winners of their "Water is Life" student poster contest. Jose Orosquieta (Don Lugo HS), first place winner for IEUA's contest in the 9th-12th grade category, placed in the MWD contest. MWD will be holding a recognition event for all winners in early December. CVWD and MVWD also had one regional winner respectively.
- Construction and work days have begun with the schools participating in the 2012-2013 Garden in Every School® program.

PRIOR BOARD ACTION

None.

IMPACT ON BUDGET

The above-mentioned activities are budgeted in the FY 20011/12 Administrative Service Fund, Public Information Services budget.

IEUA MONTHLY WATER NEWSLETTER

SEPTEMBER 2012 (REPORTING AUGUST 2012 DATA)

Highlights

- **Researchers Shake Delta Soil to Better Understand Earthquake Risk**—UCLA researchers will simulate shaking of an earthquake on a remote part of Sherman Island. (Page 1)
- **DWR Co-Sponsoring Workshop on Drought Early-Warning System**—In September, a workshop in San Diego will review and discuss reauthorization of the nation's drought early-warning system. (Page 1)
- **IEUA Continues to Recharge Recycled Water in Summer Months**— IEUA has recharged over 850 AF of recycled water in July and August of FY 12/13. (Page 2 & 3)

UCLA Researchers Shake Delta Soil

Researchers will simulate the shaking of an earthquake on a remote part of Sherman Island today to better understand how the unique peat soil of the Sacramento-San Joaquin Delta may respond to a seismic event. The engineering researchers from UCLA conducted a similar shaking test last year on dry peat soil. This year, their test will monitor the response of saturated peat soil. "We hope to learn how the peaty organic Delta soil will contribute to seismic levee performance," said Scott Brandenberg, Vice Chair of the UCLA Civil and Environmental Engineering Department and leader of the research team. "We already know that liquefaction of inorganic sandy soils is an important problem in the Delta, but we don't know as much about the peat."

Once a region of tule marsh and tidal wetlands, the Delta of today is a patchwork of islands ringed by levees and separated by waterways. The highly-organic Delta soil, which serves as the foundation for much of the 1,100 miles of levees across the Delta, may be as deep as 80 feet, but it oxidizes and disappears easily when dried and tilled. As a result, some Delta islands are bowl-like, dipping as much as 25 feet below sea level.

Department of Water Resources—Drought Early-Warning System

The Department of Water Resources (DWR) will co-sponsor (with Western States Water Council) a workshop discussion of the merits of federal reauthorization of the nation's drought early-warning system. The September 24-26 workshop in San Diego will review the National Integrated Drought Information System (NIDIS) and other federal agency drought programs from the perspective of states.

The NIDIS program was authorized by federal legislation enacted in 2006. The authorization sunsets at the end of 2012. Managed by the National Oceanic and Atmospheric Administration (NOAA), NIDIS was to provide a drought early-warning system and coordinate federal research related to drought early warning. The US House of Representatives Committee on Science, Space and Technology held a hearing in July to review the NIDIS program.

This summer's intense, and unforeseen, drought that gripped much of the central US illustrates the need for improvements in drought prediction. Water year 2012 was a dry year in California, and in the Colorado River Basin, an important source of imported water for Southern California. Unfortunately, it is not possible to predict with reasonable certainty what water year 2013 will bring for California.

IEUA Water Supply Programs

Imported Water Deliveries

In August 2012, IEUA and its member agencies purchased 6,377 AF of Tier I water (making the calendar year total approximately 65% of the annual Tier I limit of 59,792 AF).

Dry Year Yield (DYY) Program

The Dry Year Yield (DYY) Program is a conjunctive use program that provides additional dry year water supply reliability to the IEUA service area. This is a 20-year program (beginning in 2003) that will store imported water in wet years and extract groundwater during dry years. The storage account has a cap of 100,000 AF. The local DYY participants have already completed one full cycle (of storage and extraction).

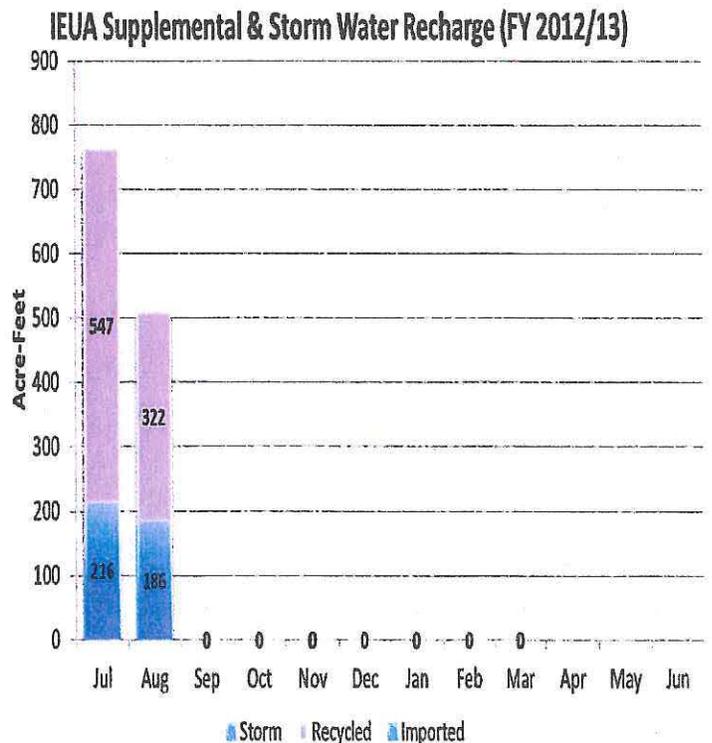

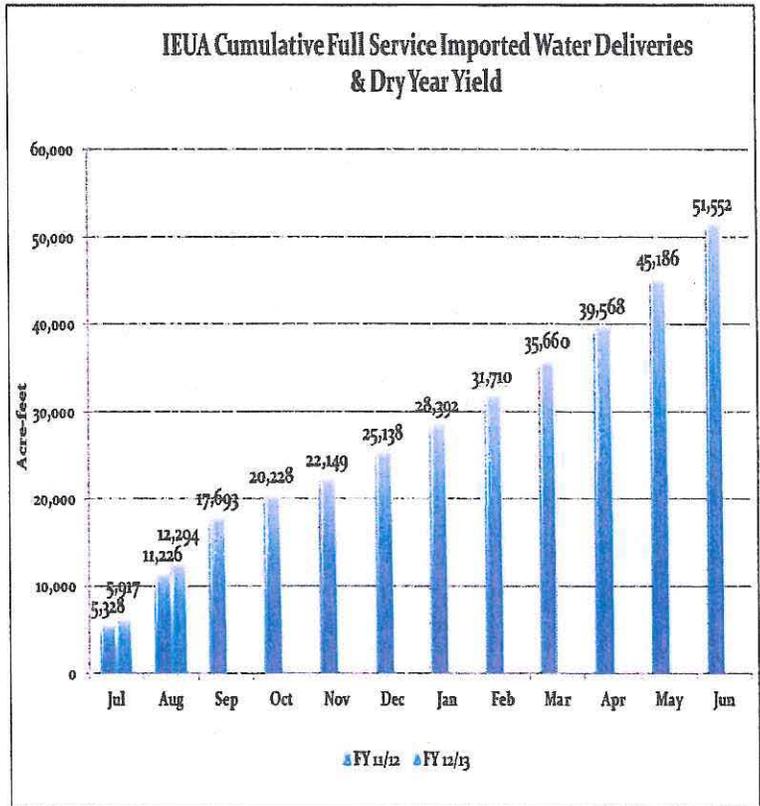

Over the past year, IEUA, TVMWD and Watermaster have meeting with MWD and reviewing their proposed revisions to the program. The proposal will be presented to the DYY participants in the month of September with the hopes of completing any revisions in time to begin storing MWD surplus water in the storage account.

Chino Desalter Authority (CDA)

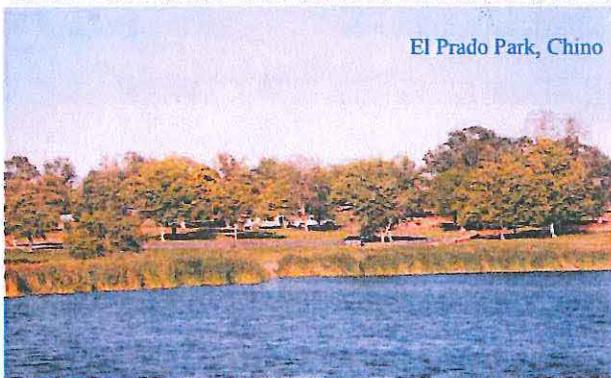

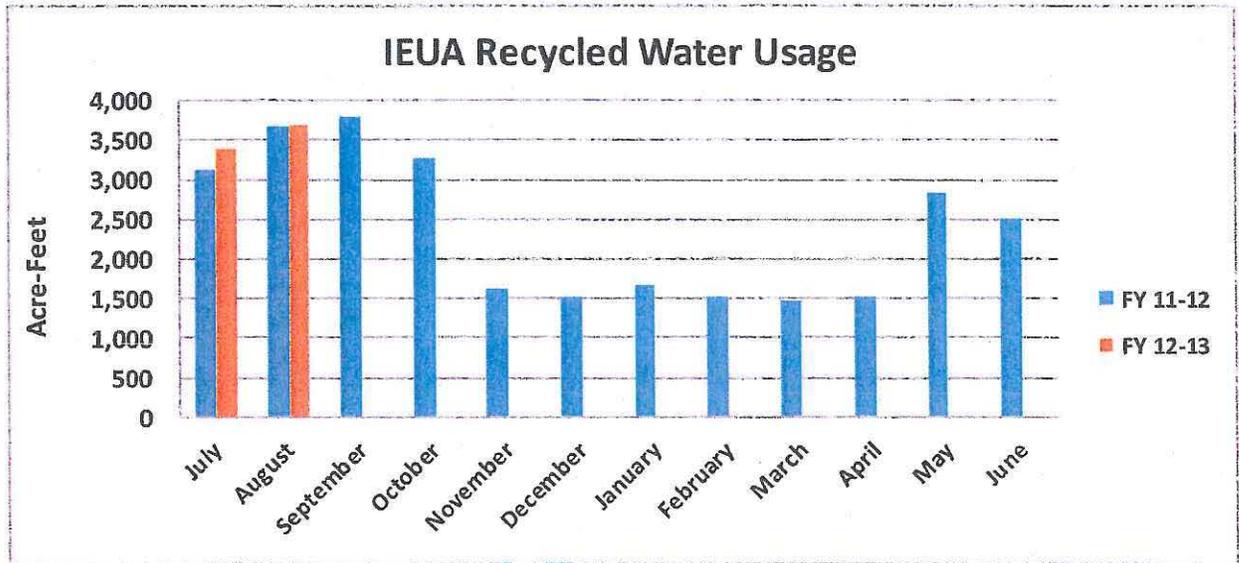

For the month of August, the two desalters produced 2,119 AF of water (of which 1,246 AF was delivered to IEUA retail agencies). The contracted entitlement is 24,600 AFY (but actual production is 25,000 to 26,000 AFY) and is scheduled for expansion to produce approximately 40,000 AFY by 2014, with the implementation of CDA Phase III.

Groundwater Recharge Program

Through August of Fiscal Year 2012/13, 1,271 AF of storm, recycled and imported water has been recharged in the Chino Basin.

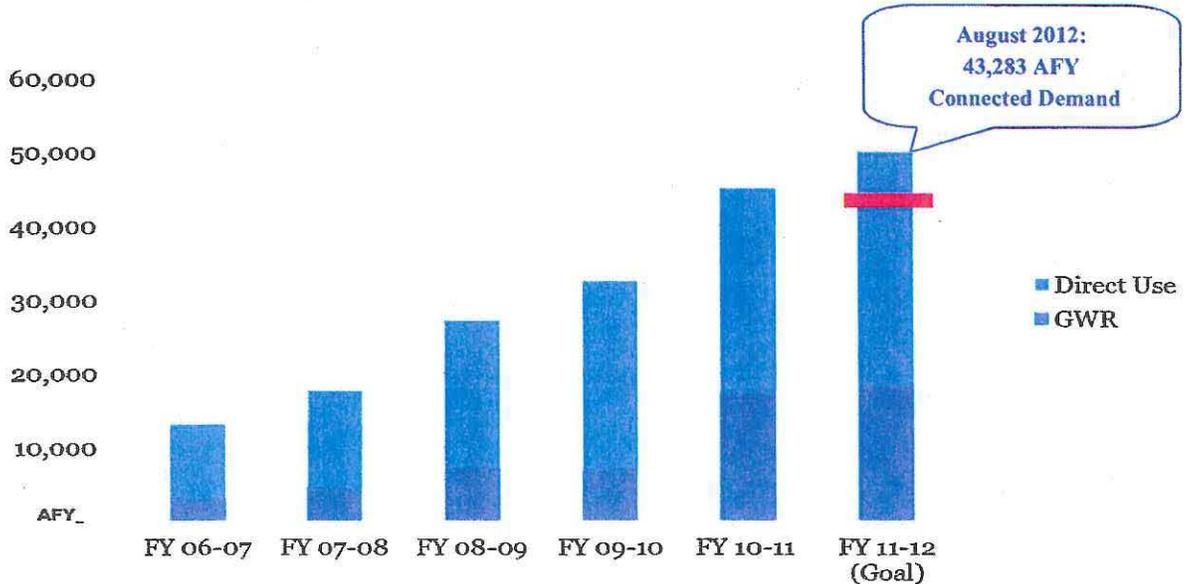

Recycled Water News

Recycled Water Usage: August 2012 Estimates

Recharge: 500 AF
 Direct Sales: 3,200 AF
 Total Usage: 3,700 AF

IEUA Connected Recycled Water Demand

Conservation Program News

Water Use Efficiency Legislation: Proposed Initiatives

AB 1750 (Solorio): Rainwater Capture Act of 2012—Will help expand capture and use of rainwater for non-potable uses, reduce demand for drinking water, and minimize polluted runoff. Allows property owners to install, maintain, and operate rainwater collection systems.

S3352: Expanding Industrial Energy and Water Efficiency Incentives Act of 2012—Tax incentives for efficient industrial process water use projects. Provides incentives for up to 30% of eligible costs for projects that reduce water use by 75% or more.

AB 1615 (Miller): Recycled Water – Authorizes the “green” disposal of human remains by hydrolysis or “Bio Cremation”.

AB 2230 (Gato): Recycled Water: Car Washes—Reduces potable water use through the requirement of in-bay and conveyor carwashes constructed after 1/1/14 to use recycled water. Use that is greater than 60% of wash and rinse water or connect to recycled water supplier.

New Water Savings Incentive Program: Businesses, Agriculture, and Large Landscapes

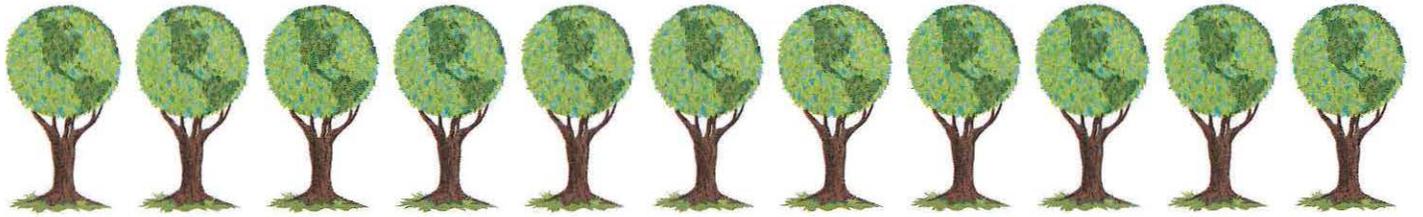

This program will target commercial, industrial, institutional, and agriculture customers to encourage customer projects that can provide long-term water savings and to encourage water management as a standard business practice. The program provides \$195/AF for measured water savings or \$150/AF for estimated water savings. The project must have a 10-year lifespan and up to 50% of the project costs are eligible for reimbursement.

New California Friendly Residential Landscape Training Workshops

MWD is re-launching training workshops during the FY 2012/13 fiscal year. A Request For Proposal has been issued for the selection of instructors for the program. Unlike their previous program, this series of workshops will offer only one class type that will include the general basics for becoming a Water Wise Gardener. This will include aspects of water use, understanding your controller, how to read your bill, tools needed for landscape maintenance, irrigation tune-up, basic design, pressure, water waste, planting, types of plants, types of irrigation, maintenance, etc.
