CALL TO ORDER

Chair Pierson called the Advisory Committee meeting to order at 9:00 a.m.

AGENDA - ADDITIONS/REORDER

None

I. CONSENT CALENDAR

A. MINUTES

1. Minutes of the Advisory Committee Meeting held April 16, 2015

B. FINANCIAL REPORTS

1. Cash Disbursements for the month of March 2015
2. Watermaster VISA Check Detail for the month of March 2015
3. Combining Schedule for the Period July 1, 2014 through March 31, 2015
4. Treasurer's Report of Financial Affairs for the Period March 1, 2015 through March 31, 2015
5. Budget vs. Actual Report for the Period July 1, 2014 through March 31, 2015

C. WATER TRANSACTION

1. **Consider Approval for Notice of Sale or Transfer** – The purchase of 3,000.000 acre-feet of water from the City of Pomona by the Cucamonga Valley Water District. This purchase is made from the City of Pomona's Excess Carryover Account. Date of application: March 13, 2015.

(0:01:13)

*Motion by Mr. Ken Jeske, seconded by Mr. Darron Poulsen, and by unanimous vote
Moved to approve Consent Calendar as presented*

II. BUSINESS ITEMS

A. INTEGRATED RESOURCES PLAN – GROUNDWATER MODELING REIMBURSEMENT AGREEMENT

Approve the Reimbursement Agreement.

(0:01:28) Mr. Kavounas gave a report.

(0:02:10)

*Motion by Mr. Ken Jeske, seconded by Mr. Van Jew, and by unanimous vote
Moved to approve Business Item II.A. as presented*

B. WATERMASTER FISCAL YEAR 2015/16 PROPOSED BUDGET

Approve the Proposed FY 2015/16 Budget as presented.

(0:02:37) Mr. Joswiak offered the budget presentation, the committee declined.

(0:03:42)

*Motion by Mr. Brian Geye, seconded by Mr. Dave Crosley, and by majority vote
Moved to approve Business Item II.B. as presented*

(0:03:51) Ms. Layton commented on the budget. A discussion ensued.

No Vote: Ms. Teri Layton – San Antonio Water Company

C. SAFE YIELD RECALCULATION AND RESET (Discussion Only)

(0:07:06) Mr. Kavounas gave a report.

III. REPORTS/UPDATES

A. LEGAL COUNSEL REPORT

1. SGMA Basin Boundary Revisions Rulemaking Process

(0:07:45) Mr. Herrema offered the SGMA Basin Boundary Revision report as given at the Pool meetings; the committee declined. Mr. Herrema gave two additional reports as shown below.

(0:08:21) Mr. Herrema reported on the City of Ontario Non-Agricultural Pool (NAP) proposals of potential desalter dedication of NAP water and NAP water usage on privately maintained City right-of-way property.

(0:09:47) Mr. Herrema gave a report on the Appropriative Pool's request to have Watermaster counsel provide an opinion on whether appropriate to challenge the State Water Resources Control Board's drought regulations that the State Board has adopted in response to the Governor's executive order. A discussion ensued. Chair Pierson requested that the item be brought back to the Pool meetings in June 2015 for further consideration.

B. ENGINEER REPORT

1. State of the Basin Report – Part 2

- Groundwater Quality
- Land Subsidence

2. Land Subsidence Committee Update

- Work plan to develop a subsidence management plan for North MZ-1 area
- 2014 Annual Report
- Update to MZ-1 Plan

(0:11:32) Mr. Malone introduced the report items and offered both the State of the Basin and Land Subsidence Committee reports as given at the Pool meetings. The committee declined the Land Subsidence report and asked to hear the Groundwater Quality report.

(0:12:26) Ms. Weamer gave a presentation on the Groundwater Quality portion of the State of the Basin Report. A discussion ensued.

C. CFO REPORT

None

D. GM REPORT

1. CBWM 35th Annual Report

(0:24:01) Mr. Kavounas gave a report.

E. INLAND EMPIRE UTILITIES AGENCY

1. MWD Update (Written)
2. State and Federal Legislative Reports
3. Community Outreach/Public Relations Report

(0:24:29) Mr. Berch of Inland Empire Utilities Agency gave a report. A discussion ensued.

F. OTHER METROPOLITAN MEMBER AGENCY REPORTS

None

IV. INFORMATION

1. Cash Disbursements for April 2015

V. COMMITTEE MEMBER COMMENTS

None

VI. OTHER BUSINESS

None

VII. CONFIDENTIAL SESSION - POSSIBLE ACTION

None

ADJOURNMENT

Chair Pierson adjourned the Advisory Committee meeting at 9:32 a.m.

STAFF REPORT

DATE: June 18, 2015
TO: Advisory Committee Members
SUBJECT: Cash Disbursement Report - Financial Report B1 (April 30, 2015)

SUMMARY

Issue: Record of cash disbursements for the month of April 30, 2015.

Recommendation: Receive and file Cash Disbursements for April 30, 2015 as presented.

Financial Impact: Funds disbursed were included in the FY 2014/15 "Amended" Watermaster Budget.

Future Consideration

Advisory Committee: June 18, 2015; Receive and File

Watermaster Board: June 25, 2015; Receive and File (Normal Course of Business)

ACTIONS:

June 11, 2015 – Appropriative Pool – Unanimously approved

June 11, 2015 – Non-Agricultural Pool – Moved unanimously to receive and file, without approval

June 11, 2015 – Agricultural Pool – Unanimously approved

June 18, 2015 – Advisory Committee –

June 25, 2015 – Watermaster Board –

BACKGROUND

A monthly cash disbursement report is provided to keep all members apprised of Watermaster expenditures.

DISCUSSION

Total cash disbursements during the month of April 2015 were \$508,760.91.

The most significant expenditures during the month were to Inland Empire Utilities Agency in the amount of \$185,423.12 (check number 18547 dated April 13, 2015); and Brownstein Hyatt Farber Schreck in the amount of \$122,190.23 (check number 18569 dated April 24, 2015).

STAFF REPORT

DATE: June 18, 2015
TO: Advisory Committee Members
SUBJECT: VISA Check Detail Report - Financial Report B2 (April 30, 2015)

SUMMARY

Issue: Record of VISA credit card payment disbursed for the month of April 30, 2015.

Recommendation: Receive and file VISA Check Detail Report for April 30, 2015 as presented.

Financial Impact: Funds disbursed were included in the FY 2014/15 "Amended" Watermaster Budget.

Future Consideration

Advisory Committee: June 18, 2015; Receive and File

Watermaster Board: June 25, 2015; Receive and File (Normal Course of Business)

ACTIONS:

June 11, 2015 – Appropriative Pool – Unanimously approved

June 11, 2015 – Non-Agricultural Pool – Moved unanimously to receive and file, without approval

June 11, 2015 – Agricultural Pool – Unanimously approved

June 18, 2015 – Advisory Committee –

June 25, 2015 – Watermaster Board –

BACKGROUND

A monthly VISA Check Detail report is provided to keep all members apprised of Watermaster expenditures charged against the General Manager, Assistant General Manager and Chief Financial Officer's Bank of America VISA card.

DISCUSSION

The total cash disbursement during the month of April 2015 was \$2,601.03. The payment was processed by check number 18568 dated April 24, 2015. The monthly charges for April 2015 of \$2,601.03 were for routine and customary expenditures and properly documented with receipts.

STAFF REPORT

DATE: June 18, 2015
TO: Advisory Committee Members
SUBJECT: Treasurer's Report of Financial Affairs for the Period April 1, 2015 through April 30, 2015
- Financial Report B4 (April 30, 2015)

SUMMARY

Issue: Record of increases or decreases in the cash position, assets and liabilities of Watermaster for the Period of April 1, 2015 through April 30, 2015.

Recommendation: Receive and file Treasurer's Report of Financial Affairs for the Period April 1, 2015 through April 30, 2015 as presented.

Financial Impact: Funds disbursed were included in the FY 2014/15 "Amended" Watermaster Budget.

Future Consideration

Advisory Committee: June 18, 2015; Receive and File

Watermaster Board: June 25, 2015; Receive and File (Normal Course of Business)

ACTIONS:

June 11, 2015 – Appropriative Pool – Unanimously approved

June 11, 2015 – Non-Agricultural Pool – Moved unanimously to receive and file, without approval

June 11, 2015 – Agricultural Pool – Unanimously approved

June 18, 2015 – Advisory Committee –

June 25, 2015 – Watermaster Board –

BACKGROUND

A Treasurer's Report of Financial Affairs for the Period April 1, 2015 through April 30, 2015 is provided to keep all members apprised of the total cash in banks (Bank of America, LAIF, and CalTRUST) and on hand at the Watermaster office (petty cash) at the end of the period stated. The Treasurer's Report details the change (increase or decrease) in the overall cash position of Watermaster, as well as the changes (increase or decrease) to the assets and liabilities section of the balance sheet. The report also provides a detailed listing of all deposits and/or withdrawals in the California State Treasurer's Local Agency Investment Fund (LAIF) and/or CalTRUST, the most current effective yield as of the last quarter, and the ending balance in LAIF as of the reporting date.

DISCUSSION

The Treasurer's Report of Financial Affairs has been created from various financial reports and statements created from QuickBooks Enterprise Solutions 15.0, the Watermaster accounting system. The Treasurer's Report provided, balances to the supporting documentation in the Watermaster accounting system, as well as the supporting bank statements.

TO: Advisory Pool Committee Members
SUBJECT: Budget vs. Actual Report for the Period July 1, 2014 through April 30, 2015 -
Financial Report B5 (April 30, 2015)

SUMMARY

Issue: Record of revenues and expenses of Watermaster for the Period of July 1, 2014 through April 30, 2015.

Recommendation: Receive and file Budget vs. Actual Report for the Period July 1, 2014 through April 30, 2015 as presented.

Financial Impact: Funds disbursed were included in the FY 2014/15 "Amended" Watermaster Budget.

Future Consideration

Advisory Committee: June 18, 2015; Receive and File

Watermaster Board: June 25, 2015; Receive and File (Normal Course of Business)

ACTIONS:

June 11, 2015 – Appropriative Pool – Unanimously approved

June 11, 2015 – Non-Agricultural Pool – Moved unanimously to receive and file, without approval

June 11, 2015 – Agricultural Pool – Unanimously approved

June 18, 2015 – Advisory Committee –

June 25, 2015 – Watermaster Board –

BACKGROUND

A Budget vs. Actual Report for the period July 1, 2014 through April 30, 2015 is provided to keep all members apprised of the total revenues and expenses for the current fiscal year. The expense section is categorized into four distinct sections. Those sections are: General and Administrative Expenses; Optimum Basin Management Program Expenses; Project Expenses; and Other Income/Expenses. The Budget vs. Actual report has been created from QuickBooks Enterprise Solutions 15.0, the Watermaster accounting system. The Budget vs. Actual report provided, balances to the supporting documentation in the Watermaster accounting system, as well as the supporting bank statements.

DISCUSSION

CURRENT MONTH – APRIL 2015

Year-To-Date (YTD) for the ten months ending April 30, 2015, all but three categories were at or below the projected budget. The categories over budget were the Watermaster Legal Services expenses (6070's) which were over budget by \$38,971 or 19.5%; the Optimum Basin Management Plan Expenses (6900's) which were over budget by \$196,476 or 18.2%; and the Production Monitoring expenses (7100's) which were over budget by \$10,228 or 17.0%. Overall, the Watermaster (YTD) Actual Expenses were \$2,739,528 or 33.3% below the (YTD) Budgeted Expenses of \$8,229,411.

PREVIOUSLY REPORTED ACTIONS (Descending Order)

November 2014:

During the month of November 2014 there was a Budget Transfer (T-14-10-01) presented and approved. During the IEUA/CBWM Joint Recharge Improvement Projects Committee Meeting held on October 16, 2014, the committee recommended to use the projected budget savings of approximately \$100,000 from the Jurupa Pump Station HVAC Improvements (Task Order No. 5) to fund the GWR SCADA Upgrades (Task Order No. 4) of \$45,700 ($\$91,400 \times 50\% = \$45,700$) and the Hickory Basin Arizona Crossing settlement of \$27,500 ($\$55,000 \times 50\% = \$27,500$). The total Budget Transfer amounts were \$73,200 ($\$45,700 + \$27,500 = \$73,200$). Budget Transfer Form T-14-10-01 was approved by the Board on November 25, 2014. There was no change to the overall budget of \$7,640,381 as a result of Budget Transfer Form T-14-10-01 and no new funds or assessments were required.

September 2014:

During the creation and development of the FY 2014/15 budget, the Land Subsidence Committee recommended specific projects and activities to be included as part of the Engineering Services. During this development period, it was not anticipated that an update to the Subsidence Management Plan for the Chino Basin (MZ1) would be needed. In July 2014, the Land Subsidence Committee recommended an update to the Subsidence Management Plan for the Chino Basin (MZ1) be completed and requested a scope, budget, and project of work be developed and presented to the Pools, Advisory and Board by Wildermuth Environmental, Inc., which was subsequently completed during the month of September. The second Budget Amendment (A-14-08-01) in the amount of \$100,000 was approved by the Watermaster Board on September 25, 2014 for the specific purpose of updating the Subsidence Management Plan for the Chino Basin MZ1 area. The Budget Amendment Form (A-14-08-01) in the amount of \$100,000 increased the FY 2014/15 budget from \$7,540,381 to \$7,640,381. The Budget Amendment Form (A-14-08-01) was recorded to the accounting records for the accounting period ending August 31, 2014. The amount of \$100,000 was added to an existing account (7402) Mgmt. Zone Strategies-Engineering.

August 2014:

The first Budget Amendment was approved during the August 2014 meetings as a result of the adoption of Task Order No. 2 for the Lower Day Basin RMPU Improvement Project of \$49,000 and Task Order No. 8 for the San Sevaine Basin RMPU Improvement Project of \$175,000. The Watermaster Board approved Budget Amendment Form (A-14-07-01) on August 28, 2014. Budget Amendment Form (A-14-07-01) in the amount of \$224,000 increased the FY 2014/15 budget from \$7,316,381 to \$7,540,381. Budget Amendment Form (A-14-07-01) was recorded to the accounting records for the accounting period ending

July 31, 2014, and is included in this financial report. The amount of \$49,000 was included in account (7690.8) Lower Day Basin RMPU (Task Order #2) and the amount of \$175,000 was included in account (7690.4) San Sevaine Recharge Improvement (Task Order #8).

July 2014:

During the month of July 2014, the "Carry Over" funding was calculated. The Total "Carry Over" funding amount of \$1,205,135.82 has been posted to the general ledger accounts. The total amount of \$1,205,135.82 consisted of \$609,855.82 "Carried Over" from FY 2011/12 and FY 2012/13 and \$595,280 "Carried Over" from FY 2013/14. More detailed information is provided regarding this issue under the "Carry Over" Funding section.

SALARIES EXPENSE

CURRENT MONTH – APRIL 2015

As of April 30, 2015, the total (YTD) Watermaster salary expenses were \$26,232 or 2.1% below the (YTD) budgeted amount of \$1,244,604. The budget was developed with a staffing level of nine Full-Time Equivalents (FTE's). As of April 30, 2015, the actual staffing level was nine Full-Time Equivalents (FTE's).

Watermaster utilizes an in-house database time and attendance system to track and record staff's actual hours worked and records those hours to a specific project or activity. This time and attendance database of captured staff hours and activities is the basis for the bi-weekly payrolls which are processed using an external payroll processing service. Watermaster staff can record time to a large number of activities but the five most used categories are as follows (1) General Administrative activities; (2) Paid Leaves of vacation, sick or holiday; (3) Pools, Advisory or Board Meeting attendance; (4) OBMP activities; and (5) OBMP Implementation Program Elements 1 through 9 activities.

When the FY 2014/15 budget was developed, basic assumptions were used in allocating how staff's time would be spent and on which of the projects or activities. The staffing dollars were then allocated into those specific areas and budgeted on a 1/12 monthly budget. When actual staffing activities vary from the budgeted assumptions, a positive or negative variance can be created. Currently, the allocations are tracking within budget.

The table summarizes the Year-To-Date (YTD) Actual Watermaster salary costs compared to the Year-To-Date (YTD) Budget as of April 30, 2015. Please be advised that the "\$ Over Budget" and the "% of Budget" columns are a comparison of the (YTD) Actual to the (YTD) Budget, not the 12-month Annual Budget. The 12-month Annual Budget column is presented only to provide the data in a full and complete format. The following details are provided:

LEGAL SERVICES
BROWNSTEIN HYATT FARBER SCHRECK EXPENSES

CURRENT MONTH – APRIL 2015

As of April 30, 2015, the total (YTD) Watermaster Legal Services expenses (consolidating the three categories of Watermaster Administrative Legal Services, Pool/Advisory/Board Meeting legal expenses, and OBMP legal expenses) were \$177,255 or 23.4% above the (YTD) budgeted amount of \$755,946.

The three line items with the largest over budget variances for the Watermaster Legal Services expenses were Personnel Matters (6073) over budget by \$85,978 or 209.7%; Miscellaneous expenses (6078) over budget by \$51,888 or 190.3%; and the Safe Yield Recalculation expenses (6907.42) over budget by \$429,014 or 389.7%. While there were some expenses that were also under budget for the period, the total consolidated grouping was over budget for the month.

The Watermaster Legal Services budget was developed jointly by the Watermaster staff and Brownstein Hyatt Farber Schreck staff with specific assumptions regarding the tasks and legal activities that would occur during FY 2014/15. The "Approved" budget amount was adopted for the amount of \$875,515. The total budget was developed by multiplying the number of hours that would be required to complete the specific tasks by the hourly rate.

Overall, the Watermaster Administrative Legal Services expense (6070's), as of April 30, 2015, was \$32,823 or 17.7% above the budgeted amount of \$185,025. The specific items within the Administrative Legal Services expenses (6070's) which were under budget were the expenses for Court Coordination (6071) under budget by \$22,652 or 80.5%; Annotated Judgment (6072) under budget by \$27,263 or 100.0%; Interagency Issues (6074) under budget by \$36,079 or 95.4%; and the Party Status Maintenance (6077) under budget by \$3,482 or 18.1%. The specific items within the Administrative Legal Services expenses (6070's) which were over budget were the expenses for Personnel Matters (6073)

over budget by \$78,679 or 191.9%; Miscellaneous (6078) over budget by \$42,739 or 174.1%: and CCG Motion (6078.12) over budget by \$881 or 12.6% %.

Personnel Matters: As reported during the previous monthly meetings, Watermaster's legal counsel filed an appeal with CalPERS regarding CalPERS original determination (from February 2013) which rejected the base salary of the former CEO, Desi Alvarez, with regards to his retirement pension benefit. There have been several filings of appeal and we are awaiting CalPERS determination. On December 9, 2013 CalPERS notified the attorneys of record that the CalPERS Legal Office received the case on November 22, 2013 and we would be notified when the case has been assigned to an attorney who will represent CalPERS regarding the appeal. On February 27, 2014 the case was assigned to Wesley E. Kennedy, Senior Staff Attorney for CalPERS. On July 17, 2014 a document request from CalPERS was received by Watermaster related to the pending case. On August 22, 2014 the specific documents were provided to CalPERS. On September 9, 2014 Watermaster received the Notice of Hearing from CalPERS and the hearing has been scheduled for March 11-13, 2015 at the Glendale CalPERS Regional office. On October 1, 2014 Watermaster received from CalPERS a discovery request for Case No. 2013-1113. On October 31, 2014 Brownstein Hyatt Farber Schreck provided the information to Mr. Kennedy of CalPERS as requested on October 1, 2014. On January 16, 2015 a Prehearing conference along with a Settlement conference was conducted in Los Angeles. On March 2, 2015 a Motion to Continue was granted and the new Administrative Hearing is scheduled for November 16-18, 2015 at the Glendale CalPERS Regional Office.

The Pools, Advisory Committee and the Board meeting legal expenses from BHFS are captured by month within the accounts (6275, 6375, 8375, 8475 and 8575). Overall, this category of legal expenses as of April 30, 2015 was \$81,303 or 45.3% below the budgeted amount of \$179,318. While the regularly scheduled monthly meetings in December 2014 for the Pools, Advisory and Board were cancelled, there was a Special meeting held for the Board, Advisory, along with the Appropriative and Agricultural Pool.

The OBMP legal expenses (accounts 6907.30 through 6907.90) were above the budget for the month. As of April 30, 2015 the category of OBMP legal expenses were \$158,937 or 47.9% above the budgeted amount of \$331,819. The majority of expenses within this OBMP category were under budget for the first nine months, however, the BHFS Safe Yield Recalculation legal expenses (6907.42) continue to increase and exceed the monthly budget. As of April 30, 2015, the Safe Yield Recalculation legal expenses were \$335,830 or 305.0% above the 6-month budgeted amount of \$110,100. The 12-month annual legal budget for the Safe Yield Recalculation was approved at an amount of \$110,100. The approved BHFS legal budget anticipated 260 labor hours for consolidated legal staff time with regards to the Safe Yield Recalculation effort. Continued Safe Yield Recalculation legal expenses might result in a Budget Transfer or Budget Amendment to fund the ongoing increasing expenses.

The table listed below summarizes the Brownstein Hyatt Farber Schreck (BHFS) expenses as of April 30, 2015 compared to the Year-To-Date (YTD) budget. Please be advised that the "\$ Over Budget" and the "% of Budget" columns are a comparison of the (YTD) Actual to the (YTD) Budget, not the 12-month Annual Budget. The 12-month Annual Budget column is presented only to provide the data in a full and complete format. The following details are provided:

Note 1: The types of legal activities that have been charged against the "Miscellaneous" legal category account 6078 are as follows: (1) Correspondence and discussions with Watermaster staff regarding current issues/topics; (2) Correspondence with Watermaster staff regarding special projects (assessment package, annual report, audit report, business plan, etc.); (3) Brownstein's status review of ongoing Watermaster projects and issues; (4) Brownstein's update of the outstanding issues list; (5) Coordination of ongoing Watermaster projects; (6) Review of draft documents; (7) Review application of 85/15 rule; (8) Review transfer documents; (9) Land Subsidence Committee reports/meetings; (10) West Venture background reviews; and (11) Miscellaneous legal research on current and pending issues.

OBMP ENGINEERING SERVICES AND LEGAL COSTS

CURRENT MONTH – APRIL 2015

Reviewing in total the OBMP Engineering Services and Legal Costs (consolidating the four categories of OBMP Watermaster Staff and SAWPA, OBMP Engineering Services, OBMP Legal Costs, and OBMP Other Expenses) for the ten month period ending April 30, 2015, the actual expenses of \$1,278,451 were above the budgeted amount of \$1,081,974 by \$196,477 or 18.2%. For a detailed discussion, the following is provided.

For April 30, 2015, the accounts 6901-6903 (Optimum Basin Mgmt Program) section was above the Year-To-Date (YTD) budget by \$86,135 or 76.2%. Watermaster utilizes an in-house database time and attendance system to record and document staff's actual hours worked and also allocates those hours to a specific project or activity. Watermaster staff time could be charged to Administrative, OBMP, or

Implementation Project categories. Recently, Watermaster staff spent more time on specific OBMP related areas and less time on administrative related tasks. As a result, Watermaster staff allocated more actual time to the OBMP project as budgeted, which resulted in an over budget variance of \$77,485 or 77.1%. The remaining expense was the Santa Ana Watershed Project Authority (SAWPA) FY 2014/15 Basin Monitoring Program Task Force Contribution which was budgeted at \$12,500 but actual expenses were billed at \$21,150 which was above the budget by \$8,650 or 69.2% as of April 30, 2015.

For April 30, 2015, the accounts 6906 (Optimum Basin Mgmt Program Engineering Services) section was below the Year-To-Date (YTD) budget by \$113,818 or 18.9%. The OBMP-Watermaster Model Update and the State of the Basin Report expenses had a budget provided for the month, but there was a small amount of activity and Engineering expenses recorded for this period. These two expenses were the majority of why this expense category was under budget for the month.

Within the category 6907 (Optimum Basin Mgmt Program Legal Fees) are the remaining Brownstein Hyatt Farber Schreck (BHFS) Watermaster's legal expenses. Within the legal expense category, some individual line item activities were above the budget by \$429,077 while some other line item activities were below the budget by \$199,355. Above the budget line items were the Safe Yield Recalculation of \$429,014; and the RMPU-City of Fontana Motion of \$63. The individual legal projects/activities that were below budget for the Year-To-Date (YTD) period were the Archibald South Plume of \$23,729; the Chino Airport Plume of \$23,729; the Desalter/Hydraulic Control of \$45,521; the Santa Ana River Water Rights of \$13,969; the Santa Ana River Habitat of \$16,586; the Regional Water Quality Control Board of \$10,708; the Recharge Master Plan of \$7,174; Storage Agreements of \$21,417; the Prado Basin Habitat Sustainability of \$15,584; and the WM Unanticipated of \$20,938. For the ten months ended April 30, 2015, the overall cumulative (YTD) budget was \$356,454 and the actual (BHFS) legal expenses totaled \$586,177 which resulted in an over budget variance of \$229,722 or 64.4%.

As mentioned in the Brownstein Hyatt Farber Schreck section, the 12-month annual legal budget for the Safe Yield Recalculation was approved at an amount of \$110,100. The approved BHFS legal budget anticipated 260 labor hours for consolidated legal staff time with regards to the Safe Yield Recalculation effort. Continued Safe Yield Recalculation legal expenses will result in a Budget Transfer or Budget Amendment to fund the ongoing increasing expenses.

The OBMP Other Expenses (6909's) were below the budget for the month. These expenses are typically conference calls, meeting expenses, supplies, annual inspection fees, and other miscellaneous type expenses. As of April 30, 2015 this category of expenses was \$5,562 or 55.6% below the budgeted amount of \$10,000.

Overall, the Optimum Basin Management Program (OBMP) category was \$1,278,451 compared to a (YTD) budget of \$1,081,974 for an over budget of \$196,476 or 18.2% as of April 30, 2015.

The table listed below summarizes the Optimum Basin Management Program (OBMP) expenses as of April 30, 2015 compared to the Year-To-Date (YTD) budget. Please be advised that the "\$ Over Budget" and the "% of Budget" columns are a comparison of the (YTD) Actual to the (YTD) Budget, not the 12-month Annual Budget. The 12-month Annual Budget column is presented only to provide the data in a full and complete format. The following details are provided:

ENGINEERING SERVICES - OBMP IMPLEMENTATION PROJECTS COSTS
WILDERMUTH ENVIRONMENTAL, INC.

CURRENT MONTH – APRIL 2015

As of April 30, 2015, the total (YTD) Engineering Services expenses were \$375,248 or 19.8% below the (YTD) budget amount of \$1,896,692. The OBMP Implementation Projects (consolidated accounts 7100's – 7700's) were all (Under) budget as of April 30, 2015.

Wildermuth Environmental, Inc. provides Watermaster an Estimated Cost at Completion (ECAC) report each quarter. The purpose of this ECAC report is to update Watermaster on whether or not the Engineering Services budget will be above or below budget at the end of the fiscal year. If the Engineering Services budget is expected to be above budget at fiscal year-end, a Budget Amendment or Budget Transfer Form would need to be approved to ensure funding. The ECAC report as of March 31,

2015 continues to show the projected expenses to be \$8,029 above the budget of \$2,104,879 (including the Carryover funding of \$388,119). Since the projected amount over budget of \$8,029 is not material in comparison to the budget of \$2,104,879, a Budget Transfer Form is not being processed at this time.

PREVIOUSLY REPORTED ACTIONS (Descending Order)

September 2014:

During the creation and development of the FY 2014/15 budget, the Land Subsidence Committee recommended specific projects and activities to be included as part of the Engineering Services. During this development period, it was not anticipated that an update to the Subsidence Management Plan for the Chino Basin (MZ1) would be needed. The Land Subsidence Committee has since recommended that the plan be updated. Budget Amendment Form (A-14-08-01) for FY 2014/15 in the amount of \$100,000 was approved by the Watermaster Board on September 25, 2014 for the increased costs associated with the updated Subsidence Management Plan for the Chino Basin (MZ1). The Engineering Services budget was amended from \$2,004,879 to \$2,104,879.

July 2014:

The approved "Original" Engineering Services budget of \$1,716,760 was increased by "Carry Over" funding in the amount of \$288,119 to the "Amended" amount of \$2,004,879 for FY 2014/15 as provided in the Engineering Services Task Order. The "Carry Over" amount of \$288,119 is comprised of \$76,796 from FY 2012/13 account (7108.7); and the following amounts from FY 2013/14 of \$30,938 from account (7107.2); \$16,351 from account (7107.6); \$56,175 from account (7108.31); \$48,260 from account (7108.41); \$31,599 from account (7108.7); \$18,000 from account (7108.7); and \$10,000 from account (7502). All of the "Carry Over" funding is for projects or activities that have bridged previous fiscal years and are expected to be completed in the FY 2014/15 timeframe. The breakdown of the total Task Order amount of \$2,004,879 includes direct labor costs for Wildermuth Environmental, Inc. (75%) along with other direct charges such as equipment rental, laboratory fees, travel costs, reproduction costs, and outside professional services (25%).

The table listed below summarized the Year-To-Date (YTD) Actual Wildermuth Environmental, Inc., (WEI) and other Engineering costs compared to the Year-To-Date (YTD) Budget as of April 30, 2015. Please be advised that the "\$ Over Budget" and the "% of Budget" columns are a comparison of the (YTD) Actual to the (YTD) Budget, not the 12-month Annual Budget. The 12-month Annual Budget column is presented only to provide the data in a full and complete format. The following details are provided:

 Carryover Funds FY 2012/13 = \$76,796 (7108.7); FY 2013/14 = \$30,938 (7107.2); \$16,351 (7107.6); \$56,175 (7108.31); \$48,260 (7108.41); \$31,599 (7108.7); \$18,000 (7108.7); and \$10,000 (7502) = \$288,119

PRADO BASIN HABITAT SUSTAINABILITY PROGRAM

The Prado Basin Habitat Sustainability Program came about as a result of the Peace II Agreement SEIR mitigation measure 4.4-3 and was adopted by IEUA's Board in October, 2010. The purpose of the mitigation measure is to ensure that the Prado Basin riparian habitat will not be impacted by Hydraulic Control. The basic program tasks are to convene a committee that will develop this adaptive management plan, to install necessary monitoring wells, to complete vegetation and aerial surveys, and to implement photo station monitoring. In terms of the financial aspects of this program, there is a cost sharing agreement, which was approved by the Watermaster Board in September, 2012 for a total budget of \$440,000. The cost sharing agreement between IEUA and Watermaster was increased from \$220,000 to \$300,000 effective August 22, 2013 with the approval of the Board. This is a 50/50 cost sharing agreement between Watermaster and IEUA with a not to exceed amount of \$300,000 for each party. Included in that cost is hiring a consultant to develop the adaptive management plan, WEI performing the project management tasks related to the monitoring well installation, hiring a contractor to construct and install up to seventeen monitoring wells at nine separate sites, and United States Bureau of Reclamation performing vegetation monitoring every three years. Grants have been applied for to offset the cost of this program; however, the Grants were not approved.

The process of invoicing IEUA for their 50% portion of the (WEI) invoices will be completed by Watermaster staff at the end of every quarter. The information listed below is provided for the period of May 1, 2012 through April 30, 2015:

	Wildermuth Environmental, Inc.	50% Billing "TO" IEUA	50% Billing "FROM" IEUA	Costs For Watermaster	Watermaster Staff "Hours"	Watermaster Staff "Costs"

OTHER INCOME AND EXPENSE

There were no other significant items to report within the category of Other Income and Expenses for the month ending April 30, 2015.

September 2014:

Per section VI.D.3 of the Groundwater Storage Program Funding Agreement No. 49960 in the Chino Basin with The Metropolitan Water District of Southern California, the FY 2014/15 annual administrative fee invoice was issued on September 19, 2014 in the amount of \$155,606.67 under invoice number DYY 14-01. On October 23, 2014 payment in the amount of \$155,606.67 was received from The Metropolitan Water District of Southern California.

"CARRY OVER" FUNDING

CURRENT MONTH – APRIL 2015

As of April 30, 2015, the total (YTD) amount remaining of the "Carried Over" funding is \$702,995.52 (\$1,205,135.82 - \$502,140.30 = \$702,995.52). The following details are provided:

"Carried Over" Expenses At June 30, 2014

Chino Hills ASR Project	\$ 203,322.00	A	7107.62

Updated Balance as of April 30, 2015	\$ 702,995.52			

¹ Tasks include quarterly reports and final grant report to the DWR and project administration. The CH-16 ASR project is a multi-year project and is expected to be completed during FY2015/16.

² The spring ground-level survey in Managed Area was postponed in 2014 because the Long-Term Pumping Test was not performed. The test and associated surveys are now planned for FY2014/15.

³ Tasks include groundwater level and water-quality data collection, analysis, and reporting from the future PBHSP monitoring wells. The installation of the PBHSP monitoring wells was delayed by property acquisition issues for IEUA.

⁴ Task includes laboratory costs associated with water-quality sample analysis from PBHSP wells. The installation of the PBHSP monitoring wells was delayed by property acquisition issues for IEUA.

⁵ Tasks include well site CPT tests, well design, well installation oversight, and reporting. The installation of the PBHSP monitoring wells was delayed by property acquisition issues for IEUA.

⁶ Tasks include contribution of monitoring information and review of the draft and final Adaptive Management Plan. The draft AMP was started in FY2013/14.

⁷ Task includes a catalog and summary of all relevant GeoTracker and EnviroStor sites and recommendations for future site monitoring. The effort began in FY2013/14 and will be completed in FY2014/15.

BACKGROUND OF "CARRY OVER" FUNDING

Once the FY 2013/14 period as of June 30, 2014 was closed, the amount of unfinished capital projects and related engineering costs was calculated and the "Carry Over" funding amount was added to the current FY 2014/15 budget. The Total "Carry Over" funding amount of \$1,205,135.82 was posted to the

accounts as of July 31, 2014. The total amount of \$1,205,135.82 consisted of \$595,280 "Carried Over" from the FY 2013/14 expense funding and \$609,855.82 "Carried Over" from FY 2012/13 and prior expense funding.

Unspent funds related to ongoing projects and associated activities from the Engineering Services budget from FY 2013/14 in several accounts totaling \$288,119 were "Carried Over" into the current FY 2014/15 budget. These funds were from the Hydraulic Control Monitoring-Prado Basin (7108.7) in the amount of \$76,796; Ground Level Monitoring-Engineering (7107.2) in the amount of \$30,938; Ground Level Monitoring-Contracted Services (7107.6) in the amount of \$16,351; Hydraulic Control Monitoring-Engineering-PBHSP (7108.31) in the amount of \$56,175; Hydraulic Control Monitoring-Lab Services-PBHSP (7108.41) in the amount of \$48,260; Hydraulic Control Monitoring Well Installation-PBHSP (7108.7) in the amount of \$31,599; Hydraulic Control Monitoring-Adaptive Management Plan (7108.7) in the amount of \$18,000; and Cooperative Efforts/Salt Management Engineering Services (7502) in the amount of \$10,000.

The ongoing Chino Hills ASR Project continues into FY 2014/15 and previous years funding of \$203,322 has been carried over into account (7107.62).

Several Recharge Improvement Projects (Hickory Basin and the CB 20 Turnout) along with the Jurupa Pumping Station and Wineville Proof of Concept have been continued into FY 2014/15. The Hickory Basin project has a remaining funded budget balance of \$3,877 in account (7690.3); the CB 20 Turnout project has a remaining funded budget balance of \$80,000 in account (7690.5) which is comprised of \$58,193 from FY 2012/13 and \$21,807 from FY 2013/14; the Jurupa Pumping Station (Task Order # 5) has a remaining funded budget balance of \$150,000 in account (7209.1); the Wineville Basin Proof of Concept project (Task Order # 6) has a remaining funded budget balance of \$179,817.82 in account (7209.2) which is comprised of \$117,667.82 from FY 2012/13 and \$62,150 from FY 2013/14; and the San Sevaine Recharge Improvement Project (Task Order # 8) has a remaining funded budget balance of \$300,000 in account (7690.4) from FY 2013/14.

As invoices are received from the vendors and booked against these items listed above, the "Carried Over" balance will be reduced throughout the current fiscal year. At June 30, 2015, any remaining balances of the FY 2013/14 and prior years funding (if any), along with any new FY 2014/15 expenses, will then be "Carried Over" into the FY 2015/16 budget.

"Carried Over" Expenses At June 30, 2014

AUDIT FIELD WORK

FY 2014/15

Auditors from the audit firm of Charles Z. Fedak & Company are scheduled to be onsite at the Watermaster offices on June 15 and June 16, 2015 to conduct preliminary audit field work for the FY 2014/15 financial audit. The final field work is scheduled for August 10 and August 11, 2015. The presentation of the "Draft" Annual Financial and Audit Reports to the Watermaster Board by the Senior Manager of Charles Z. Fedak & Company is tentatively scheduled for November 19, 2015. The "Final" Annual Financial and Audit Reports for FY 2014/15 are tentatively scheduled to be posted to the Watermaster website no later than December 18, 2015.

FY 2013/14

Auditors from the audit firm of Charles Z. Fedak & Company were onsite at the Watermaster offices on May 12, 2014 to conduct scheduled field work for the FY 2013/14 financial audit. The final field work was completed on August 6 and August 7, 2014. The presentation of the "Draft" Annual Financial and Audit Reports to the Watermaster Board by the Senior Manager of Charles Z. Fedak & Company was completed on November 25, 2014. The "Final" Annual Financial and Audit Reports for FY 2013/14 were posted to the Watermaster website on December 10, 2014.

FY 2014/15 EXHIBIT "G" NON-AGRICULTURAL POOL SALE OF WATER

Pursuant to Exhibit "G" of the Restated Judgment, members of the Overlying (Non-Agricultural) Pool may annually transfer water to members of the Appropriative Pool through a Watermaster clearinghouse process. Watermaster purchases water from the Overlying (Non-Agricultural) Pool members, which Watermaster then transfers to the members of the Appropriative Pool based on the prescribed process. Members of the Appropriative Pool purchasing water through the process must complete their payments to Watermaster by June 30 of the fiscal year. Watermaster has determined that Aqua Capital Management, California Speedway Corporation and NRG CA South, LP are in compliance with Restated Judgment, Exhibit "G" ¶9(g), authorizing 2014-2015 Exhibit "G" Physical Solution Transfers.

The invoices to the nine Appropriators who purchased Exhibit "G" water from the Non-Agricultural Pool were issued on March 30, 2015 totaling \$1,151,196. Once Watermaster has received all of the payments from the Appropriators and those payments have cleared the bank, Watermaster will issue payment to Aqua Capital Management in the amount of \$150,156 (300.000 AF x \$500.52 = \$150,156); California Speedway Corporation in the amount of \$500,520 (1,000.000 AF x \$500.52 = \$500,520); and NRG CA South, LP in the amount of \$500,520 (1,000.000 AF x \$500.52 = \$500,520).

ASSESSMENT INVOICING

CURRENT MONTH – APRIL 2015

On March 12, 2015 the Appropriative Pool approved their Pool's legal services budget to be increased from \$75,000 to \$140,000 for FY 2014/15. With this action, the Appropriative Pool instructed the Watermaster accounting office to bill the entire amount of \$140,000 based upon the formula of 50% "Operating Safe Yield (OSY)" and 50% based upon "Physical Production". The Assessment invoices issued on November 25, 2014 included a Special Assessment of \$75,000 for legal services based upon "Actual Production". The invoicing for the Special Assessment of \$65,000 to the members of the Appropriative Pool was issued on April 16, 2015. The invoicing issued on April 16, 2015 corrected any adjustments that might be required as a result of the differences between the mathematical formula using "Actual Production" and "Physical Production".

PREVIOUSLY REPORTED ACTIONS (Descending Order)

The Watermaster Board approved the FY 2014/15 Assessment Package at the November 25, 2014 meeting. Watermaster staff created and emailed the Assessment invoices on Tuesday, November 25, 2014. The Assessment invoices were due 30 days from invoice date, so payment would be received by Watermaster on or before Friday, December 26, 2014. The Watermaster office was closed during the holidays until Friday, January 2, 2015. All checks received by the postal service during the office closure period were delivered to the Watermaster office on January 2, 2015. To date, all payments have been received and accounted for.

This year's Assessment invoicing included the standard Assessment amounts per the Assessment Package, along with any Special Assessments and the "Excess Cash Reserve" refund credits. The Appropriative Pool had a Special Assessment of \$75,000 as approved during the budgeting process. The \$75,000 was allocated to the Appropriative Pool members based upon prorated actual production numbers from 2013/14. The Non-Agricultural Pool had a Special Assessment of \$60,000 as approved during a Confidential Session on November 13, 2014. The \$60,000 was allocated to the Non-Agricultural Pool members based upon prorated actual production numbers from 2013/14. The Excess Cash Reserves refunds were \$6,456 to the Appropriative Pool members and \$1,841 to the Non-Agricultural Pool members. The refunds were applied as credits on the Assessment invoices and allocated based upon last year's percentage of assessments paid.

I. CONSENT CALENDAR

C. MONTE VISTA WATER DISTRICT AQUIFER STORAGE AND RECOVERY AGREEMENT

CHINO BASIN WATERMASTER

9641 San Bernardino Road, Rancho Cucamonga, Ca 91730
Tel: 909.484.3888 Fax: 909.484.3890 www.cbwm.org

PETER KAVOUNAS, P.E.
General Manager

STAFF REPORT

DATE: June 18, 2015
TO: Advisory Committee Members
SUBJECT: Monte Vista Water District Aquifer Storage and Recovery Agreement

SUMMARY

Issue: The prior agreement between Monte Vista Water District, Inland Empire Utilities Agency (IEUA), and Chino Basin Watermaster (CBWM) that permitted MVWD's Aquifer Storage and Recovery (ASR) program under the joint IEUA/CBWM permit expired in 2009.

Recommendation: Approve the updated agreement.

Financial Impact: No impact to Watermaster.

Future Consideration

Advisory Committee: June 18, 2015 Approval

Watermaster Board: June 25, 2015 Approval [Advisory Committee Approval Required]

ACTIONS:

June 11, 2015 – Appropriative Pool – unanimously voted to recommend Advisory Committee approval.

June 11, 2015 – Non-Agricultural Pool – unanimously voted to recommend Advisory Committee approval; and directed the Pool representatives to support at the Advisory Committee and Board meetings subject to changes which they deem appropriate.

June 11, 2015 – Agricultural Pool – unanimously voted to recommend Advisory Committee approval.

June 18, 2015 – Advisory Committee –

June 18, 2015 – Watermaster Board –

BACKGROUND

Monte Vista Water District (MVWD) developed an Aquifer Storage and Recovery (ASR) program that injects treated water from the State Water Project in Chino Basin for storage and later pumping. This activity was permitted under the recharge permit issued by the Regional Water Quality Control Board (RWQCB) jointly to IEUA and Watermaster (CBWM) in 2005 (R8-2005-0033).

In 2007 MVWD, IEUA, and CBWM entered into an agreement (Attachment 1) to incorporate the MVWD ASR program in the IEUA/CBWM permit issued in 2005. According to the terms of the agreement, MVWD conducted the operations and required monitoring, and IEUA/CBWM complied with reporting requirements. The agreement expired in 2009, as a result of an amendment to the IEUA/Watermaster permit at that time.

DISCUSSION

MVWD wishes to update the prior agreement. The proposed updates are references to RWQCB Orders affecting the IEUA/Watermaster permit since it was first issued, specifically 2007 updated recharge permit (R8-2007-0039) and 2009 permit amendment (R8-2009-0057); reference to the 2014 California Groundwater regulations; and a ten year agreement term.

Entering into the proposed updated agreement (Attachment 2) allows MVWD to operate its program more efficiently. IEUA has approved the proposed updated Agreement.

ATTACHMENTS

1. Original Agreement (2007)
2. Proposed updated Agreement

ATTACHMENT 1

AGREEMENT BETWEEN CHINO BASIN WATERMASTER, INLAND EMPIRE UTILITIES AGENCY AND MONTE VISTA WATER DISTRICT REGARDING INCORPORATION OF GROUNDWATER INJECTION WITH STATE WATER PROJECT WATER BY MONTE VISTA WATER DISTRICT IN THE CHINO BASIN WATERMASTER AND INLAND EMPIRE UTILITIES AGENCY PERMIT R8-2005-0033

WHEREAS, Monte Vista Water District (MVWD) proposes to recharge up to 3,500 acre-ft/yr of treated State Water Project (SWP) water by injection at its wells 1, 4, 30 and 32 (ASR project), and to subsequently recover most this water within the same year.

WHEREAS, this water will be treated to CCR Title 22 drinking water standards at the Water Facilities Authority treatment plant prior to injection.

WHEREAS, injection will generally occur in the seven-month period of October through April and recovery will generally occur in the five-month period May through September.

WHEREAS, the injected water will be used to offset a portion of the MVWD annual overproduction in the Chino Basin.

WHEREAS, MVWD completed an investigation entitled *Groundwater Recharge Facilities Program Feasibility Study* in April 2003 and a related CEQA document entitled *Findings of Consistency, Groundwater Recharge Facility Feasibility Study* in May 2003 that was tiered off of the OBMP Program EIR completed in 2000.

WHEREAS, on November 1, 2005, MVWD sent an application to the Chino Basin Watermaster (Watermaster) pursuant to the Peace Agreement and Watermaster's Rules and Regulation requesting to recharge to the Chino Basin up to 3,500 acre-ft/yr of treated SWP water.

WHEREAS, the Watermaster approved this application in its January 2006 Watermaster process meetings.

WHEREAS, the Watermaster and the Inland Empire Utilities Agency (IEUA) received a permit to recharge supplemental waters in the Chino Basin from the Regional Water Quality Control Board (RWQCB) pursuant to RWQCB Order R8-2005-0033 adopted on April 15, 2005 (hereafter Watermaster and IEUA joint permit).

WHEREAS, the RWQCB requires that MVWD either apply for and receive an individual permit to inject treated SWP water through its ASR project or apply to Watermaster and IEUA for inclusion of its ASR project under their joint permit described in RWQCB Order R8-2005-0033.

WHEREAS, MVWD desires to have the operation of its ASR project included in the Watermaster and IEUA joint permit.

WHEREAS, MVWD has reviewed the Watermaster and IEUA joint permit described in R8-2005-0033 and agrees to perform appropriate monitoring and reporting as required by the Watermaster.

THEREFORE, the parties do hereby agree as follows:

1. The Watermaster and IEUA have developed an Operations and Monitoring Program for the injection of treated SWP water through MVWD ASR project pursuant to RWQCB Order R8-2005-0033 and other criteria as the Watermaster and IEUA deem necessary based on the OBMP, the Peace Agreement, mitigation requirements contained in the ASR project CEQA document, and sound basin management based, a copy of which is attached hereto as Exhibit A.

2. MVWD will, at its sole expense, operate its ASR project pursuant to the Operations and Monitoring Program referenced in Paragraph 1 above, its recharge application to the Watermaster dated November 1, 2005 and the MVWD ASR project CEQA document .
3. Watermaster and IEUA will notify the RWQCB that MVWD's ASR project is included in the Watermaster and IEUA joint permit.
4. Failure to comply with the Operations and Monitoring Program will result in immediate termination of this Agreement and MVWD ASR project will no longer be included in the Watermaster and IEUA joint permit. The RWQCB will be notified immediately if this Agreement is terminated.
5. From time to time the Watermaster and IEUA may determine it necessary to modify the supplemental water recharge in the Basin to remain in compliance with the Watermaster and IEUA joint permit. If this occurs the Watermaster and IEUA may, at their sole discretion, modify the Operations and Monitoring Program and MVWD agrees to comply with the revised Operations and Monitoring Plan.
6. From time to time MVWD may apply to Watermaster and IEUA to modify the operation of the ASR project. Watermaster and IEUA will consider this application and, at their sole discretion, modify the Operations and Monitoring Program.
7. The term of this Agreement shall coincide with the Watermaster and IEUA joint permit. To be clear, this Agreement will terminate automatically when the Watermaster and IEUA joint permit is revised by the RWQCB or if the Watermaster and IEUA joint permit is terminated by the RWQCB. The Watermaster and IEUA joint permit should expire on or around April 15, 2010.

Exhibit A

Operations and Monitoring Program for the MVWD ASR Project

This Exhibit contains the operations and monitoring requirements for the injection of State Water Project (SWP) water through the Monte Vista Water District (MVWD) ASR Project and is provided for in the Agreement among the MVWD, the Chino Basin Watermaster (Watermaster) and the Inland Empire Utilities Agency (IEUA) Regarding Incorporation of Groundwater Injection with State Water Project Water by Monte Vista Water District in the Chino Basin Watermaster and Inland Empire Utility Agency Permit R8-2005-0033. Pursuant to its authorities in Chino Basin Judgment, the Peace Agreement, the Agreement for Operations and Maintenance of Facilities to Implement the Chino Basin Recharge Master Plan, and the Chino Basin Recharge Facilities Operations Procedures, the Watermaster regulates and coordinates all recharge activities in the Chino Basin. It is the intent of the Watermaster to revise this Exhibit from time to time to reflect new regulatory requirements, R8-2005-0033 (hereafter the Watermaster and IEUA joint permit), other new information, and sound basin management practices.

Source Water for Injection

1. The source water used by MVWD for injection shall be State Water Project water treated to drinking water standards as described in Title 22 of the California Code of Regulations.

Integrated Recharge Operations

2. The Watermaster and the IEUA have integrated recharge operations to maximize the use of storm, recycled and imported waters. Pursuant to Watermaster and IEUA's joint permit (R8-2005-0033), the five-year, volume-weighted average total dissolved solids (TDS) and total inorganic nitrogen (TIN) limits for recharge must not exceed 420 mg/L and 5 mg/L-N, respectively. The Watermaster and the IEUA, pursuant to the Watermaster and IEUA joint permit, must monitor and make determinations to the Regional Board to demonstrate compliance. The MVWD ASR project will inject treated SWP water into the Chino Basin during non-peak water use periods and will pump the injected water and groundwater from the basin such that the amount of pumped water will equal or exceed the volume of water injected. Operated this way, there should be no increase in TDS or TIN in groundwater associated with the ASR project.

Monitoring and Reporting

3. The volume of water injected in and pumped from each well will be reported to the Watermaster monthly as direct meter readings and computations based on the meter readings.

4. All water quality determinations used to demonstrate compliance with Title 22 Drinking water requirements at the WFA and in the water recovered from the ASR wells shall be submitted to the Watermaster and IEUA in hardcopy and electronic formats at the same frequency that this information is submitted to the Department of Health Services.

5. During the first year of operation and otherwise if directed by the Watermaster, MVWD shall obtain and analyze TDS and TIN samples from the ASR wells when they are being

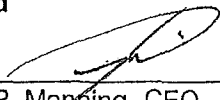

used to recover injected water. These samples will be taken when the cumulative water pumped at these wells equals approximately 20, 40, 60, 80, 100 and 120 percent of the injected water volume. These data shall be submitted to the Watermaster and IEUA on a timely basis in hardcopy and electronic formats.

6. The Watermaster and the IEUA will use the information described in paragraphs 4, 5 and 6 along with production data from the ASR wells reported to the Watermaster pursuant to the Judgment to determine compliance with Watermaster and IEUA joint permit. This information will then be included in the Watermaster/IEUA quarterly monitoring reports that are submitted to the Regional Board, and the annual compliance reports submitted to the Regional Board.

Effective Date

7. These requirements are effective as of March 22, 2007 and will remain in effect until modified by the Watermaster.

Approved

Kenneth R. Manning, CEO
Chino Basin Watermaster

Date

4/19/07

**AGREEMENT BETWEEN CHINO BASIN WATERMASTER, INLAND EMPIRE UTILITIES AGENCY
AND MONTE VISTA WATER DISTRICT
REGARDING INCORPORATION OF GROUNDWATER INJECTION WITH STATE WATER PROJECT
WATER BY MONTE VISTA WATER DISTRICT IN THE CHINO BASIN WATERMASTER AND INLAND
EMPIRE UTILITIES AGENCY PERMIT ORDER NO. R8-2007-0039**

WHEREAS, Monte Vista Water District (MVWD) may recharge up to 3,500 acre-feet per year of treated State Water Project (SWP) water by injection at its wells, 4, 30, 32, and 33 and subsequently recover most of this water within the same year as part of their Aquifer Storage and Recovery (ASR) program. A map showing the ASR well location is attached hereto as Exhibit A.

WHEREAS, this water will be treated to California Code of Regulations (CCR) Title 22 drinking water standards at the Water Facilities Authority treatment plant prior to injection.

WHEREAS, injection will generally occur in the seven-month period of October through April and recovery will generally occur in the five-month period May through September.

WHEREAS, MVWD intends to use the injected water to offset a portion of the MVWD annual overproduction from the Chino Basin.

WHEREAS, MVWD completed an investigation entitled *Groundwater Recharge Facilities Program Feasibility Study* in April 2003 and a related CEQA document entitled *Findings of Consistency, Groundwater Recharge Facility Feasibility Study* in May 2003 that was tiered off of the OBMP Program EIR completed in 2000.

WHEREAS, on November 1, 2005, MVWD sent an application to the Chino Basin Watermaster (Watermaster) pursuant to the Peace Agreement and Watermaster's Rules and Regulations requesting to recharge to the Chino Basin up to 3,500 acre-fee per year of treated SWP water.

WHEREAS, the Watermaster approved this application in its January 2006 Watermaster process meetings.

WHEREAS, the Watermaster and the Inland Empire Utilities Agency (IEUA) received a permit to recharge supplemental waters in the Chino Basin from the Regional Water Quality Control Board (RWQCB) pursuant to Order No. R8-2005-0033 adopted on April 15, 2005 for Phase I program basins.

WHEREAS, in 2007 the Watermaster and IEUA received a new joint permit from the RWQCB to implement both Phase I and Phase II Projects of the Chino Basin Recycled Water Groundwater Recharge Program pursuant to Order No. R8-2007-0039 adopted on June 29, 2007.

WHEREAS, in 2009 the Watermaster and IEUA received an amendment to their joint permit from the RWQCB for Water Recycling Requirements for the Chino Basin Recycled Water Groundwater Recharge Program Phase I and Phase II projects, San Bernardino County pursuant to Order No. R8-2009-0057 adopted on October 23, 2009.

WHEREAS, in 2014 the California Division of Drinking Water approved regulations for Groundwater Replenishment Using Recycled Water pursuant to DPH-14-003E, which may impact existing and future groundwater recharge permits.

WHEREAS, the RWQCB required that MVWD either apply for and receive an individual permit to inject treated SWP water through its ASR project or apply to Watermaster and IEUA for inclusion of its ASR project under the Watermaster and IEUA joint permit.

WHEREAS, Watermaster and IEUA has originally notified the RWQCB that it was MVWD's desire to include the ASR project within Order No. R8-2005-0033.

WHEREAS, MVWD, Watermaster and IEUA still desire to include the ASR project within Watermaster and IEUA's joint permit R8-2007-0039 and amended by Order No. R8-2009-0057.

WHEREAS, MVWD ASR injection well data have been included in quarterly monitoring reports since the second quarter of 2007.

WHEREAS, MVWD has agreed to perform appropriate monitoring and reporting as required by the Watermaster.

THEREFORE, the parties do hereby agree as follows:

1. The Watermaster and IEUA developed an Operations and Monitoring Program for the injection of treated SWP water through MVWD's ASR project pursuant to Order No. R8-2007-0039 and other criteria as the Watermaster and IEUA deem necessary based on the OBMP, the Peace Agreement, mitigation requirements contained in the ASR project CEQA document, and sound basin management, a copy of the Operations and Monitoring Program is attached hereto as Exhibit B.
2. MVWD will, at its sole expense, operate its ASR project pursuant to the Operations and Monitoring Program referenced in Paragraph 1 above, its recharge application to the Watermaster dated November 1, 2005 and the MVWD ASR project CEQA document.
3. Failure to comply with the Operations and Monitoring Program will result in immediate termination of this Agreement and the subsequent removal of the MVWD ASR project from coverage pursuant to Order No. R8-2007-0039. Watermaster and IEUA will immediately notify the RWQCB if this Agreement is terminated.
4. From time to time the Watermaster and IEUA may determine it necessary to modify the supplemental water recharge in the Basin to remain in compliance with Order No. R8-2007-0039 and Order No. R8-2009-0057. If this occurs, the Watermaster and IEUA may, at their sole discretion, modify the Operations and Monitoring Program, and MVWD agrees to comply with the revised Operations and Monitoring Plan.
5. From time to time, MVWD may apply to Watermaster and IEUA to modify the operation of the ASR project. Watermaster and IEUA will consider this application and, at their sole discretion, modify the Operations and Monitoring Program.
6. The term of this Agreement shall be 10 years from the signature date, or sooner should Order No. R8-2007-0039 be terminated or should the RWQCB elect to individually permit the MVWD ASR project.
7. Notices among the parties to this agreement may be sent shall be as follows:

Exhibit A – MVWD ASR Well Map

Exhibit B – Operations and Monitoring Program for the MVWD ASR Project

Exhibit A
MVWD ASR Well Map

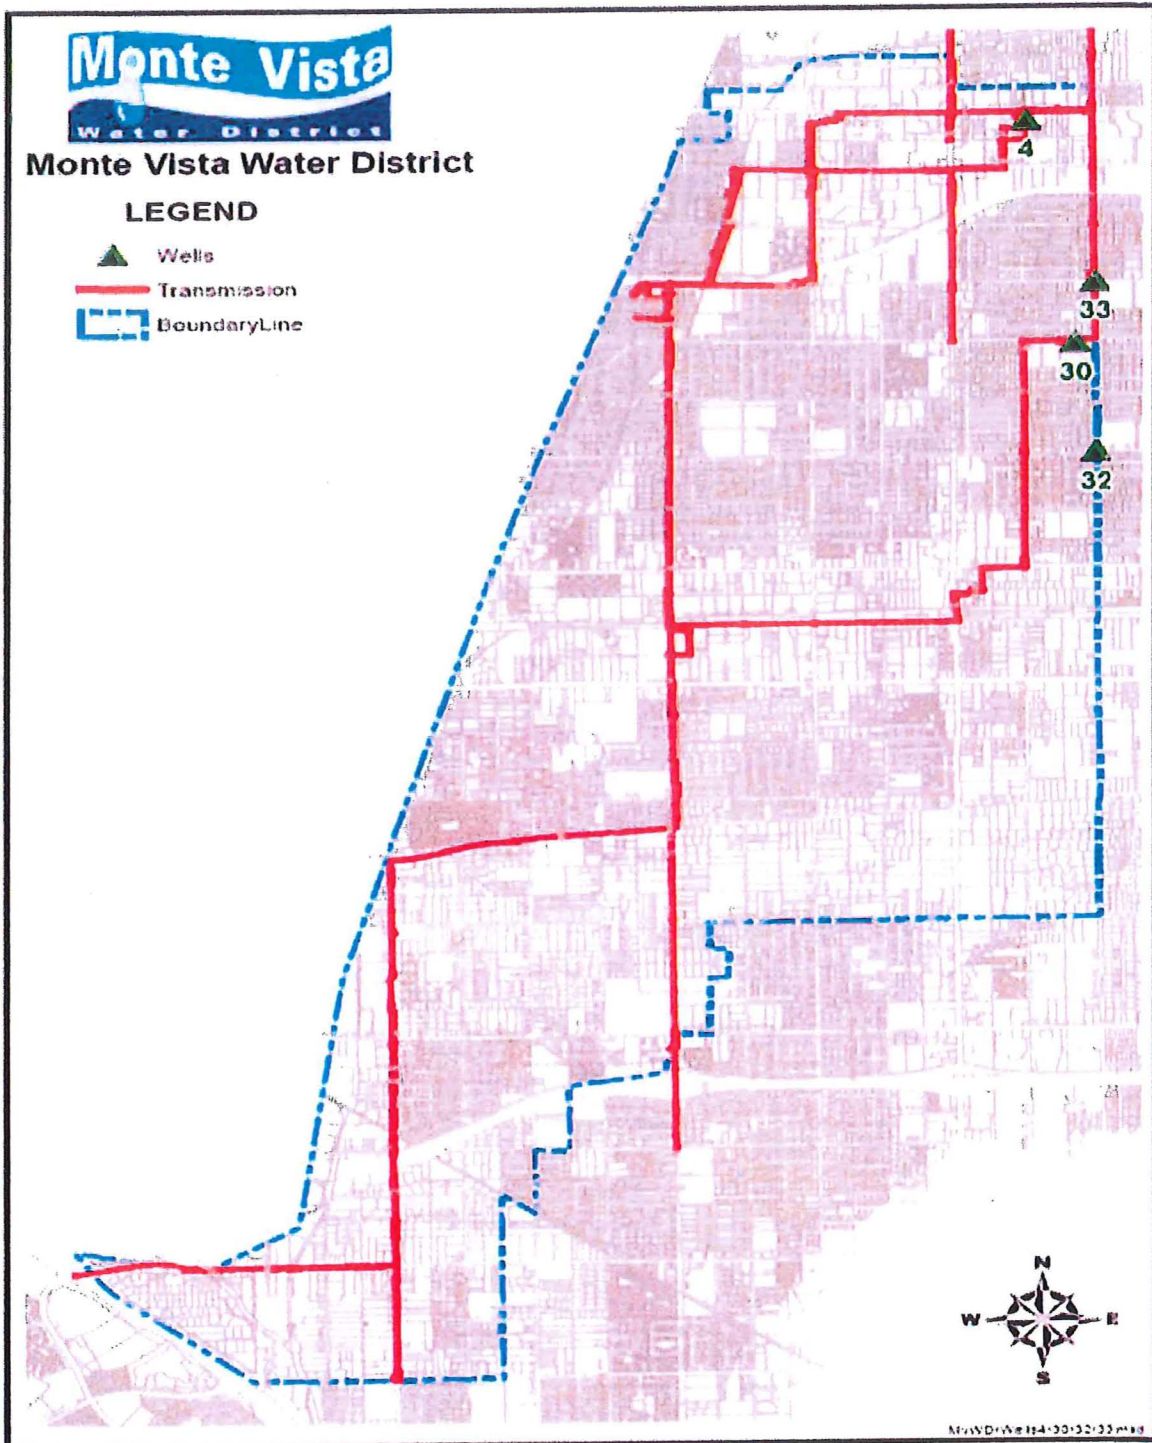

Exhibit B
Operations and Monitoring Program for the MVWD ASR Project

This Exhibit contains the operations and monitoring requirements for the injection of State Water Project (SWP) water through the Monte Vista Water District (MVWD) ASR Project and is provided for in the Agreement among *the MVWD, the Chino Basin Watermaster (Watermaster) and the Inland Empire Utilities Agency (IEUA) Regarding Incorporation of Groundwater Injection with State Water Project Water by Monte Vista Water District in the Chino Basin Watermaster and Inland Empire Utilities Agency Permit Order No. R8-2007-0039*. Pursuant to its authorities in Chino Basin Judgment, the Peace Agreement, the Agreement for Operations and Maintenance of Facilities to Implement the Chino Basin Recharge Master Plan, and the Chino Basin Recharge Facilities Operations Procedures, the Watermaster regulates and coordinates all recharge activities in the Chino Basin. It is the intent of the Watermaster to revise this Exhibit from time to time to reflect new regulatory requirements, other new information, and sound basin management practices.

Source Water for Injection

1. The source water used by MVWD for injection shall be State Water Project water treated to drinking water standards as described in Title 22 of the California Code of Regulations.

Integrated Recharge Operations

2. The Watermaster and the IEUA have integrated recharge operations to maximize the use of stormwater / local runoff, recycled water, and imported waters. Pursuant to the Watermaster and IEUA joint permit (Order No. R8-2007-0039), the five-year, volume-weighted average total dissolved solids (TDS) and total inorganic nitrogen (TIN) limits for recharge must not exceed 420 mg/L and 5 mg/L as nitrogen, respectively. The Watermaster and the IEUA, pursuant to Order No. R8-2007-0039, must monitor and make determinations to the Regional Board to demonstrate compliance. The MVWD ASR project will inject treated SWP water into the Chino Basin during non-peak water use periods and will pump the injected water and groundwater from the basin such that the amount of pumped water will equal or exceed the volume of water injected. Operated this way, there should be no net increase in TDS or TIN in groundwater associated with the ASR project.

Monitoring and Reporting

3. The volume of water injected in and pumped from each well will be reported to the Watermaster and IEUA monthly as direct meter readings and computations based on the meter readings.

4. All water quality determinations used to demonstrate compliance with Title 22 Drinking water requirements at the WFA and in the water recovered from ASR wells shall be submitted to the Watermaster and the IEUA in electronic format at the same frequency that this information is submitted to the State Water Resources Control Board – Division of Drinking Water (formerly California Department of Public Health).

5. MVWD shall obtain and analyze samples for TDS and TIN (summation of nitrate as nitrogen, nitrite as nitrogen, and ammonia as nitrogen) from the ASR wells on a quarterly basis

when they are being used to recover injected water. These data shall be electronically submitted to the Watermaster and the IEUA in a timely manner to facilitate quarterly reporting.

6. The Watermaster and the IEUA will use the information described in paragraphs 3, 4, and 5 to determine compliance with the Order No. R8-2007-0039. This information will then be included in the Watermaster/IEUA quarterly compliance monitoring reports submitted to the Regional Board.

Effective Date

7. These requirements are effective as of _____, 2015 and will remain in effect until modified by the Watermaster.

ACTIONS:

June 11, 2015 – Appropriative Pool – Unanimously recommended Advisory Committee approval
June 11, 2015 – Non-Agricultural Pool – Unanimously recommended Advisory Committee approval; and directed the Pool representatives to support at the Advisory Committee and Board meetings subject to changes which they deem appropriate
June 11, 2015 – Agricultural Pool – Unanimously recommended Advisory Committee approval
June 18, 2015 – Advisory Committee –
June 25, 2015 – Watermaster Board –

BACKGROUND

Aqua Capital Management Intervened into the Judgment as an Overlying Non-Agricultural Party in November 2008. It currently has 332.981 acre-feet of Safe Yield in the Overlying (Non-Agricultural) Pool, obtained through transfers from CCG Ontario, LLC and Calmat (Vulcan Materials).

Aqua Capital Management and MVWD have submitted Consolidated Forms 3, 4 & 5 (Application for Sale or Transfer of Right to Produce Water from Storage, Application or Amendment to Application to Recapture Water in Storage, and Application to Transfer Annual Production Right or Safe Yield). The Application indicates that the quantity of Safe Yield to be permanently transferred from Aqua Capital Management to MVWD is 50.000 acre-feet, effective in Production Year 2015/2016.

DISCUSSION

Intervention Requests

Interventions are governed by paragraph 60 of the Judgment: "Any non-party assignee of the adjudicated appropriative rights of any appropriator, or any other person newly proposing to produce water from the Chino Basin, may become a party to this Judgment upon filing a petition in intervention. Said intervention must be confirmed by order of [the] Court. Such intervenor shall thereafter be a party bound by [the] Judgment and entitled to the rights and privileges accorded under the Physical Solution...through the pool to which the Court shall assign such intervenor."

Watermaster's practice has been to accept interventions informally by way of a letter request and then process the request through the Pools, Advisory Committee and Board. After this internal approval process, the request for Intervention is filed with the Court for approval.

Overlying (Non-Agricultural) Pool Membership

According to the Judgment, a producer is assigned to the Overlying (Non-Agricultural) Pool if it is an overlying producer who produces water for industrial or commercial purposes. (Judgment, ¶ 43(b).) "Any party who changes the character of his use may, by subsequent order of the Court, be reassigned to the proper pool. ... Any non-party producer or any person who may hereafter commence production of water from Chino Basin, and who may become a party to [the] physical solution by intervention, shall be assigned to the proper pool by the order of the Court authorizing such intervention." (Judgment, ¶ 43.)

The 1978 Judgment specified that Overlying (Non-Agricultural) Pool rights were appurtenant to the land and were therefore only assignable with the land for overlying uses on that land. (Judgment, ¶ 8; Exhibit "G" ¶ 6.) This appurtenancy requirement was modified through the Peace Agreement process and Paragraph 8 and Exhibit "G" paragraph 6 were amended to allow Pool members to transfer or lease their rights as between members of the Pool. The Peace II process, which allowed for Non-Agricultural Pool water to be transferred to Watermaster and ultimately to members of the Appropriative Pool under defined conditions, further modified this appurtenancy requirement.

The only definition of the scope of allowable uses of Non-Agricultural Pool water is found in Paragraph 1 or Exhibit "G" to the Judgment: "Said pool includes producers of water for overlying industrial or commercial (non-agricultural) purposes ..." This is a general description which on its face would allow a broad category of beneficial uses. However, the scope of use of Overlying (Non-Agricultural) Pool water is also informed by the history of actual use by the Pool members, as the custom and usage among the parties to the Judgment and similarly situated users. Overlying (Non-Agricultural) Pool water is used for a variety of uses including landscaping, indoor uses at facilities and outdoor uses at commercial and industrial facilities. Watermaster has not historically regulated specific uses of Overlying (Non-Agricultural) Pool water by members of the Pool so long as they are using the water on land owned by the Pool member that overlies the Basin.

MVWD's Request for Intervention

MVWD has requested Intervention into the Overlying (Non-Agricultural) Pool for the purpose of accepting the Transfer of Aqua Capital Management's water rights. MVWD intends to be a member of each of the Appropriative and Overlying (Non-Agricultural) Pools, and will therefore hold separate Carryover and Storage accounts with Watermaster within each Pool. There is precedent for this kind of intervention—it is similar to the manner in which the City of Ontario intervened into the Overlying (Non-Agricultural) Pool.

MVWD has indicated that it owns multiple properties overlying the Chino Basin, including a property previously owned by Conrock (APN #1007-722-06-0000), an original party to the Overlying (Non-Agricultural) Pool and a predecessor in interest to the water rights held by Aqua Capital Management. The property ownership history is consistent with what Watermaster staff found using County Assessor's records. Upon successful intervention into the Overlying (Non-Agricultural) Pool, MVWD intends to use the overlying rights purchased from Aqua Capital Management on its overlying properties and in a manner consistent with the Judgment and current practices as approved through the Chino Basin Watermaster process and the Watermaster Court. MVWD has indicated that it will separately meter and report all overlying uses of its overlying rights.

Watermaster staff interprets the applicable authorities as allowing Monte Vista to use the water transferred to it by Aqua Capital Management according to its intended uses as described above. Watermaster staff finds that the proposed intervention is consistent with the Judgment. On this basis, Watermaster staff recommends the approval of the request for Intervention.

Mark N. Kinsey
GENERAL MANAGER

May 28, 2015

Mr. Peter Kavounas
Chino Basin Watermaster
9641 San Bernardino Road
Rancho Cucamonga, California 91730

**Request to Intervene in Chino Basin Municipal Water District v. City of Chino, et al.
San Bernardino Superior Court Case No. RCV 51010 (Formerly Case No. 164327)**

Dear Mr. Kavounas:

The Monte Vista Water District (District) hereby submits this request to intervene in the above-referenced action under paragraph 60 of the Chino Basin Judgment (Judgment) as a member of the Overlying Non-Agricultural Pool (NAP). The purpose for this request is to accept permanent transfer of 50 acre-feet (AF) of safe yield overlying groundwater rights from Aqua Capital Management LP (ACM). The District will utilize these groundwater rights on properties owned by the District and overlying the Chino Basin, consistent with the Judgment as administered by the Chino Basin Watermaster.

The District's request is based on the following facts:

- A. ACM owns overlying groundwater production rights adjudicated to ACM or its predecessor-in-interest under the Judgment.
- B. Pursuant to an executed water purchase agreement between ACM and the District, ACM has requested the permanent transfer of 50 acre-feet of its overlying groundwater productions rights to the District (see attached letter and executed water transfer forms).
- C. The Judgment allocates overlying water rights based on land ownership and overlying use. The District owns multiple properties overlying the Chino Basin, including a property appurtenant to the historical production and use of overlying groundwater production rights (APN #1007-722-06-0000). Upon successful intervention into the NAP, the District intends to use the overlying rights purchased from ACM on its overlying properties and in a manner consistent with the Judgment and current practices as approved through the Chino Basin Watermaster process and the San Bernardino Superior Court. The District will separately meter and report all overlying uses of its overlying rights.

Mr. Peter Kavounas

May 28, 2015

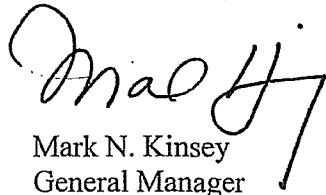

- D. The District understands the distinction between overlying and appropriative rights under the Judgment. Therefore, the District will not seek special status or treatment as a member of both the NAP and the Appropriative Pool. This includes the use of overlying rights to meet the District's obligations under existing agreements as a member of the Appropriative Pool.
- E. The transfer from ACM to the District does not involve any additional groundwater extractions not provided for under the Judgment. As a result, the transfer will not result in any "material physical injury" to any party under the Judgment's Physical Solution.

Based on the foregoing, the District respectfully requests that the Chino Basin Watermaster approve its request to intervene in the Judgment to become a member of the NAP. The District also respectfully requests that Watermaster approve ACM's request to permanently transfer 50 acre-feet of overlying groundwater rights to the District. The District shall comply with all provisions of the Judgment in a manner consistent with past actions and approvals by Watermaster and the Court.

Please agendaize the District and ACM's requests for the June 2015 Pool and Advisory Committee meetings. If you have any questions or require additional information concerning this matter, please call me at (909) 624-0035, extension 170. Thank you.

Sincerely,

Monte Vista Water District

Mark N. Kinsey
General Manager

Permanent Transfer of Safe Yield

Dear Mr. Kavounas,

This is to notify Chino Basin Watermaster that Aqua Capital Management LP (ACM) is hereby requesting the permanent transfer to the Monte Vista Water District (District) of 50 acre-feet of its remaining groundwater production rights, adjudicated to ACM or its predecessor-in-interest in the Judgment rendered in the case of *Chino Basin Municipal Water District vs City of Chino, et al.* RCV 51010 (formerly Case No. SCV 164327). This transfer is contingent on the District's successful intervention into the Overlying (Non-Agricultural) Pool.

The executed original Watermaster forms and all supporting documentation are attached. Please put the proposed purchase on the agenda for the next Watermaster meetings.

Sincerely,

A handwritten signature in blue ink, appearing to read "D. Penrice", is written over a large, light blue circular watermark or stamp.

Have any other transfers been approved by Watermaster between these parties covering the same fiscal year? Yes No

PURPOSE OF TRANSFER:

- Pump when other sources of supply are curtailed
- Pump to meet current or future demand over and above production right
- Pump as necessary to stabilize future assessment amounts
- Other, explain Pump to meet current or future overlying demands

WATER IS TO BE TRANSFERRED FROM:

- Annual Production Right (Appropriative Pool) or Operating Safe Yield (Non-Agricultural Pool)
- Storage
- Annual Production Right / Operating Safe Yield first, then any additional from Storage
- Other, explain Permanent transfer of 50 AF of Safe Yield

WATER IS TO BE TRANSFERRED TO:

- Annual Production Right / Operating Safe Yield (common)
- Storage (rare)
- Other, explain Permanent transfer of 50 AF of Safe Yield

IS THE 85/15 RULE EXPECTED TO APPLY? (If yes, all answers below must be "yes.") Yes No
Is the Buyer an 85/15 Party? Yes No
Is the purpose of the transfer to meet a current demand over and above production right? Yes No
Is the water being placed into the Buyer's Annual Account? Yes No

IF WATER IS TO BE TRANSFERRED FROM STORAGE:

Projected Rate of Recapture _____ Projected Duration of Recapture _____

METHOD OF RECAPTURE (e.g. pumping, exchange, etc.):

PLACE OF USE OF WATER TO BE RECAPTURED:

LOCATION OF RECAPTURE FACILITIES (IF DIFFERENT FROM REGULAR PRODUCTION FACILITIES):

WATER QUALITY AND WATER LEVELS

Are the Parties aware of any water quality issues that exist in the area? Yes No
If yes, please explain:

What are the existing water levels in the areas that are likely to be affected?
Static water levels range from 504' to 533' below ground levels.

MATERIAL PHYSICAL INJURY

Are any of the recapture wells located within Management Zone 1? Yes No

Is the Applicant aware of any potential Material Physical Injury to a party to the Judgment or the Basin that may be caused by the action covered by the application? Yes No

If yes, what are the proposed mitigation measures, if any, that might reasonably be imposed to ensure that the action does not result in Material Physical Injury to a party to the Judgment or the Basin?

SAID TRANSFER SHALL BE CONDITIONED UPON:

- (1) Transferee shall exercise said right on behalf of Transferor under the terms of the Judgment, the Peace Agreement, the Peace II Agreement, and the Management Zone 1 Subsidence Management Plan for the period described above. The first water produced in any year shall be that produced pursuant to carry-over rights defined in the Judgment. After production of its carry-over rights, if any, the next (or first if no carry-over rights) water produced by Transferee from the Chino Basin shall be that produced hereunder.
- (2) Transferee shall put all waters utilized pursuant to said Transfer to reasonable beneficial use.
- (3) Transferee shall pay all Watermaster assessments on account of the water production hereby Transferred.
- (4) Any Transferee not already a party must Intervene and become a party to the Judgment.

NOTICE OF APPLICATION(S) RECEIVED

Date of Application: **March 21, 2015**

Date of this notice: **May 8, 2015**

Please take notice that the following Application has been received by Watermaster:

- Notice of Sale or Transfer – The purchase of 5,000.000 acre-feet of water from the City of Upland by Fontana Water Company. This purchase is made from the City of Upland's Excess Carryover Account.

This *Application* will first be considered by each of the respective pool committees on the following dates:

Appropriative Pool:	May 14, 2015
Non-Agricultural Pool:	May 14, 2015
Agricultural Pool:	May 14, 2015

This *Application* will be scheduled for consideration by the Advisory Committee *no earlier than thirty days from the date of this notice and a minimum of twenty-one calendar days* after the last pool committee reviews it.

After consideration by the Advisory Committee, the *Application* will be considered by the Board.

Unless the *Application* is amended, parties to the Judgment may file *Contests* to the *Application* with Watermaster *within seven calendar days* of when the last pool committee considers it. Any *Contest* must be in writing and state the basis of the *Contest*.

CHINO BASIN WATERMASTER

NOTICE OF TRANSFER OF WATER

Notification Dated: May 8, 2015

A party to the Judgment has submitted a proposed transfer of water for Watermaster approval. Unless contrary evidence is presented to Watermaster that overcomes the rebuttable presumption provided in Section 5.3(b)(iii) of the Peace Agreement, Watermaster must find that there is "no material physical injury" and approve the transfer. Watermaster staff is not aware of any evidence to suggest that this transfer would cause material physical injury and hereby provides this notice to advise interested persons that this transfer will come before the Watermaster Board on or after 30 days from the date of this notice. The attached staff report will be included in the meeting package at the time the transfer begins the Watermaster process (comes before Watermaster).

DATE: May 8, 2015

TO: Watermaster Interested Parties

SUBJECT: Summary and Analysis of Application for Water Transaction

Summary –

There does not appear to be a potential material physical injury to a party or to the basin from the proposed transaction as presented.

Issue –

- Notice of Sale or Transfer – The purchase of 5,000,000 acre-feet of water from the City of Upland by Fontana Water Company. This purchase is made from the City of Upland's Excess Carryover Account.

Recommendation –

1. Continue monitoring as planned in the Optimum Basin Management Program.
2. Use all new or revised information when analyzing the hydrologic balance and report to Watermaster if a potential for material physical injury is discovered, and
3. Approve the transaction as presented.

Fiscal Impact –

- None
- May reduce assessments under the 85/15 rule
- Reduce desalter replenishment costs

Background

The Court approved the Peace Agreement, the Implementation Plan and the goals and objectives identified in the OBMP Phase I Report on July 13, 2000, and ordered Watermaster to proceed in a manner consistent with the Peace Agreement. Under the Peace Agreement, Watermaster approval is required for applications to store, recapture, recharge or transfer water, as well as for applications for credits or reimbursements and storage and recovery programs.

Where there is no material physical injury, Watermaster must approve the transaction. Where the request for Watermaster approval is submitted by a party to the Judgment, there is a rebuttable presumption that most of the transactions do not result in Material Physical Injury to a party to the Judgment or the Basin (Storage and Recovery Programs do not have this presumption).

The following application for water transaction is attached with the notice of application.

- Notice of Sale or Transfer – The purchase of 5,000,000 acre-feet of water from the City of Upland by Fontana Water Company. This purchase is made from the City of Upland's Excess Carryover Account.

Notice of the water transaction identified above was mailed on May 8, 2015 along with the materials submitted by the requestors.

DISCUSSION

Water transactions occur each year and are included as production by the respective entity (if produced) in any relevant analyses conducted by Wildermuth Environmental pursuant to the Peace Agreement and the Rules & Regulations. There is no indication additional analysis regarding this transaction is necessary at this time. As part of the OBMP Implementation Plan, continued measurement of water levels and the installation of extensometers are planned. Based on no real change in the available data, we cannot conclude that the proposed water transaction will cause material physical injury to a party or to the Basin.

---	---

Have any other transfers been approved by Watermaster between these parties covering the same fiscal year? Yes No

PURPOSE OF TRANSFER:

- Pump when other sources of supply are curtailed
- Pump to meet current or future demand over and above production right
- Pump as necessary to stabilize future assessment amounts
- Other, explain _____

WATER IS TO BE TRANSFERRED FROM:

- Annual Production Right (Appropriative Pool) or Operating Safe Yield (Non-Agricultural Pool)
- Storage
- Annual Production Right / Operating Safe Yield first, then any additional from Storage
- Other, explain _____

WATER IS TO BE TRANSFERRED TO:

- Annual Production Right / Operating Safe Yield (common)
- Storage (rare)
- Other, explain _____

IS THE 85/15 RULE EXPECTED TO APPLY? (If yes, all answers below must be "yes.") Yes No
 Is the Buyer an 85/15 Party? Yes No
 Is the purpose of the transfer to meet a current demand over and above production right? Yes No
 Is the water being placed into the Buyer's Annual Account? Yes No

IF WATER IS TO BE TRANSFERRED FROM STORAGE:	
Varies	2014 - 2015
Projected Rate of Recapture	Projected Duration of Recapture
METHOD OF RECAPTURE (e.g. pumping, exchange, etc.):	
Pumping	
PLACE OF USE OF WATER TO BE RECAPTURED:	
Chino Basin Management Zone 3	
LOCATION OF RECAPTURE FACILITIES (IF DIFFERENT FROM REGULAR PRODUCTION FACILITIES):	
N/A	

WATER QUALITY AND WATER LEVELS

Are the Parties aware of any water quality issues that exist in the area? Yes No

If yes, please explain:

Of the wells routinely pumped, current perchlorate levels range from non detect to 10.0 ppb and current nitrate levels range from 8.9 to 39.0 ppm (as of March 2015)

What are the existing water levels in the areas that are likely to be affected?

Static Water Levels ranging from 316 bgs to 657 bgs (as of March 2015)

MATERIAL PHYSICAL INJURY

Are any of the recapture wells located within Management Zone 1? Yes No

Is the Applicant aware of any potential Material Physical Injury to a party to the Judgment or the Basin that may be caused by the action covered by the application? Yes No

If yes, what are the proposed mitigation measures, if any, that might reasonably be imposed to ensure that the action does not result in Material Physical Injury to a party to the Judgment or the Basin?

SAID TRANSFER SHALL BE CONDITIONED UPON:

- (1) Transferee shall exercise said right on behalf of Transferor under the terms of the Judgment, the Peace Agreement, the Peace II Agreement, and the Management Zone 1 Subsidence Management Plan for the period described above. The first water produced in any year shall be that produced pursuant to carry-over rights defined in the Judgment. After production of its carry-over rights, if any, the next (or first if no carry-over rights) water produced by Transferee from the Chino Basin shall be that produced hereunder.
- (2) Transferee shall put all waters utilized pursuant to said Transfer to reasonable beneficial use.
- (3) Transferee shall pay all Watermaster assessments on account of the water production hereby Transferred.
- (4) Any Transferee not already a party must Intervene and become a party to the Judgment.

NOTICE OF APPLICATION(S) RECEIVED

Date of Application: **April 24, 2015**

Date of this notice: **May 8, 2015**

Please take notice that the following Application has been received by Watermaster:

- Notice of Sale or Transfer – The permanent transfer of 282.981 acre-feet of Safe Yield from Aqua Capital Management by the City of Ontario (Non-Ag), effective as of the beginning of fiscal year 2015/16.

This *Application* will first be considered by each of the respective pool committees on the following dates:

Appropriative Pool: May 14, 2015

Non-Agricultural Pool: May 14, 2015

Agricultural Pool: May 14, 2015

This *Application* will be scheduled for consideration by the Advisory Committee *no earlier than thirty days from the date of this notice and a minimum of twenty-one calendar days* after the last pool committee reviews it.

After consideration by the Advisory Committee, the *Application* will be considered by the Board.

Unless the *Application* is amended, parties to the Judgment may file *Contests* to the *Application* with Watermaster *within seven calendar days* of when the last pool committee considers it. Any *Contest* must be in writing and state the basis of the *Contest*.

CHINO BASIN WATERMASTER

NOTICE OF TRANSFER OF WATER

Notification Dated: May 8, 2015

A party to the Judgment has submitted a proposed transfer of water for Watermaster approval. Unless contrary evidence is presented to Watermaster that overcomes the rebuttable presumption provided in Section 5.3(b)(iii) of the Peace Agreement, Watermaster must find that there is "no material physical injury" and approve the transfer. Watermaster staff is not aware of any evidence to suggest that this transfer would cause material physical injury and hereby provides this notice to advise interested persons that this transfer will come before the Watermaster Board on or after 30 days from the date of this notice. The attached staff report will be included in the meeting package at the time the transfer begins the Watermaster process (comes before Watermaster).

PETER KAVOUNAS, P.E.
General Manager

DATE: May 8, 2015
TO: Watermaster Interested Parties
SUBJECT: Summary and Analysis of Application for Water Transaction

Summary –

There does not appear to be a potential material physical injury to a party or to the basin from the proposed transaction as presented.

Issue –

- Notice of Sale or Transfer – The permanent transfer of 282.981 acre-feet of Safe Yield from Aqua Capital Management by the City of Ontario (Non-Ag), effective as of the beginning of fiscal year 2015/16.

Recommendation –

1. Continue monitoring as planned in the Optimum Basin Management Program.
2. Use all new or revised information when analyzing the hydrologic balance and report to Watermaster if a potential for material physical injury is discovered, and
3. Approve the transaction as presented.

Fiscal Impact –

- None
- May reduce assessments under the 85/15 rule
- Reduce desalter replenishment costs

Background

The Court approved the Peace Agreement, the Implementation Plan and the goals and objectives identified in the OBMP Phase I Report on July 13, 2000, and ordered Watermaster to proceed in a manner consistent with the Peace Agreement. Under the Peace Agreement, Watermaster approval is required for applications to store, recapture, recharge or transfer water, as well as for applications for credits or reimbursements and storage and recovery programs.

Where there is no material physical injury, Watermaster must approve the transaction. Where the request for Watermaster approval is submitted by a party to the Judgment, there is a rebuttable presumption that most of the transactions do not result in Material Physical Injury to a party to the Judgment or the Basin (Storage and Recovery Programs do not have this presumption).

The following application for water transaction is attached with the notice of application.

- Notice of Sale or Transfer – The permanent transfer of 282.981 acre-feet of Safe Yield from Aqua Capital Management by the City of Ontario (Non-Ag), effective as of the beginning of fiscal year 2015/16.

Notice of the water transaction identified above was mailed on May 8, 2015 along with the materials submitted by the requestors.

DISCUSSION

Under Exhibit G, paragraph 6, of the Judgment: "Rights herein decreed are appurtenant to that land and are only assignable with the land for overlying use thereon; provided however, . . . (b) the members of the Pool shall have the right to Transfer or lease their quantified production rights within the Pool or to Watermaster in conformance with the procedures described in the Peace Agreement between the Parties therein, dated June 29, 2000 for the term of the Peace Agreement." The Peace Agreement and Peace II Agreement thus modified the strict appurtenancy requirement to allow Transfers of the water rights under certain conditions.

Aqua Capital Management Intervened into the Judgment as an Overlying Non-Agricultural Party in November 2008. It currently has 332.981 acre-feet of Safe Yield in the Overlying Non-Agricultural Pool. The City of Ontario Intervened into the Judgment as an Overlying Non-Agricultural Party in September 2008. It currently has 2,627.807 acre-feet of Safe Yield in the Overlying Non-Agricultural Pool.

Aqua Capital Management and Ontario City Non-Ag have submitted Consolidated Forms 3, 4 & 5 (Application for Sale or Transfer of Right to Produce Water from Storage, Application or Amendment to Application to Recapture Water in Storage, and Application to Transfer Annual Production Right or Safe Yield). The Application indicates that the amount of Safe Yield to be permanently transferred from Aqua Capital Management by Ontario City Non-Ag is 282.981 acre-feet. The Parties have indicated that the transfer is to be effective for fiscal year 2015/2016. After the transfer, Aqua Capital Management's remaining adjudicated Safe Yield right will be 50.000 acre-feet, Ontario City Non-Ag's adjudicated Safe Yield right will be 2,910.788 acre-feet. The transfer does not involve any change of use or additional groundwater extractions not provided for under the Judgment. As a result, the transfer will not result in any "material physical injury" to any party.

Water transactions occur each year and are included as production by the respective entity (if produced) in any relevant analyses conducted by Wildermuth Environmental pursuant to the Peace Agreement and the Rules & Regulations. There is no indication additional analysis regarding this transaction is necessary at this time. As part of the OBMP Implementation Plan, continued measurement of water levels and the installation of extensometers are planned. Based on no real change in the available data, we cannot conclude that the proposed water transaction will cause material physical injury to a party or to the Basin.

Re. Permanent Transfer of Safe Yield

Dear Mr. Kavounas,

This is to notify the Watermaster that Aqua Capital Management LP ("Transferor") is hereby requesting the permanent transfer to the City of Ontario ("Transferee") 282.981 AF of its remaining groundwater production rights, adjudicated to Transferor or its predecessor-in-interest in the Judgment rendered in the Case of "CHINO BASIN MUNICIPAL WATER DISTRICT vs CITY OF CHINO, et al." RCV 51010 (formerly Case No. SCV 164327).

The executed original Watermaster forms and all supporting documentation shall be provided under separate cover. Please put the proposed purchase on the agenda for the next Watermaster meetings.

Sincerely,

A handwritten signature in black ink, appearing to read "D. Penrice", written over a white background.

RE: PERMANENT TRANSFER OF SAFE YIELD

Dear Mr. Kavounas,

Pursuant to an executed water purchase agreement with Aqua Capital Management LP of the Non-Agricultural Pool (Transferor) and the City of Ontario of the Non-Agricultural Pool (Transferee), enclosed are the following documents for the permanent transfer of 282.981 AF of safe yield:

- Letter from Aqua Capital Management LP requesting the permanent transfer of safe yield to the City of Ontario of the Non-Agricultural Pool;
- Consolidated Water Transfer Forms 3,4, and 5; and
- Water Transfer Information form.

Consistent with the Judgment, Peace Agreements and Rules and Regulations, the City intends to use this water on City property and for future desalter replenishment obligations. Please schedule the proposed application for consideration at the May 2015 Pool and Advisory Watermaster meetings.

Sincerely,

Scott Burton
Utilities General Manager

CHINO BASIN WATERMASTER

II. BUSINESS ITEMS

- A. CITY OF ONTARIO AGREEMENT FOR THE CONDITIONAL CONTRIBUTION OF SAFE YIELD TO OFFSET FUTURE DESALTER REPLENISHMENT**

CHINO BASIN WATERMASTER

9641 San Bernardino Road, Rancho Cucamonga, Ca 91730
Tel: 909.484.3888 Fax: 909.484.3890 www.cbwm.org

PETER KAVOUNAS, P.E.
General Manager

STAFF REPORT

DATE: June 18, 2015
TO: Advisory Committee Members
SUBJECT: City of Ontario Agreement for the Conditional Contribution of Safe Yield to Offset Future Desalter Replenishment

SUMMARY

Issue: The City of Ontario holds both appropriative and overlying water rights and is a member of both the Appropriative and Overlying (Non-Agricultural) Pools. It has indicated that a prospective purchase of water within the Overlying (Non-Agricultural) Pool is dependent upon learning whether it may dedicate a portion of water acquired to off-set a future Desalter replenishment obligation. It anticipates a future obligation to offset or replenish Desalter pumping and seeks confirmation, through an Agreement for the Conditional Contribution of Safe Yield to Offset Future Desalter Replenishment, that it may satisfy its obligation through dedication of Safe Yield arising under its overlying water rights.

Recommendation: Review and recommend Board action as to the proposed Agreement for the Conditional Contribution of Safe Yield to Offset Future Desalter Replenishment with the City of Ontario.

Financial Impact: None

Future Consideration

Advisory Committee: June 18, 2015; Review and recommend Board action

Watermaster Board: June 25, 2015; Consideration of action [Advisory Committee approval required]

ACTIONS:

May 14, 2015 – Appropriative Pool – refer the matter to an Ad Hoc committee for further discussion; bring back in June Pool meeting.

May 14, 2015 – Non-Agricultural Pool – recommend Advisory Committee approval of the proposed Agreement, and direct its representatives to support at the Advisory Committee and Watermaster Board meetings subject to any changes they deem appropriate.

May 14, 2015 – Agricultural Pool – request that Mr. Pierson and Mr. Hall be invited to serve as its representative to the Appropriative Pool Ad Hoc committee.

June 11, 2015 – Appropriative Pool – motion to recommend approval of the proposed agreement failed. Moved, by majority vote, to refer the matter to the Ad Hoc Committee for further discussion and to bring back in July Pool meeting (No votes: Chino, Ontario; JCSD).

June 11, 2015 – Agricultural Pool – no action taken

June 18, 2015 – Advisory Committee –

June 25, 2015 – Watermaster Board –

BACKGROUND

The City of Ontario ("City") is a party to the Judgment and the owner of appropriative and overlying rights, and is a member of the Appropriative and Overlying (Non-Agricultural) Pools. The City has a prospective replenishment obligation attributable to the Desalters as a member of the Appropriative Pool. The City has indicated that it may wish to offset its Desalter Replenishment obligation through contribution of Safe Yield under its overlying water rights. The City has prepared an Agreement for the Conditional Contribution of Safe Yield to Offset Future Desalter Replenishment ("Agreement") to confirm its ability to offset its Desalter Replenishment obligation in this manner.

DISCUSSION

The City

The City is an original party to the 1978 Judgment, pursuant to which it was made a member of the Appropriative Pool, with a 20.742% share of the Operating Safe Yield. The City intervened into the Judgment as an Overlying (Non-Agricultural) Party in September 2008. As a result of its original purchase and subsequent transfers, as of May 1, 2015, it has 2,627.807 acre-feet of Safe Yield in the Overlying (Non-Agricultural) Pool ("Non-Ag Pool"), and has requested approval of the permanent transfer of an additional 282.981 acre-feet of Safe Yield in the Non-Ag Pool to be effective in Production Year 2015/2016.

Desalter Replenishment

- A. The Development of the Desalter Replenishment Obligation
 1. The Peace Agreement

The obligation for Desalter Replenishment initially arises out of paragraph 7.5 of the Peace Agreement, which provides for replenishment for the Desalters from specified sources in a designated order of priority. Specifically, paragraph 7.5 provides for replenishment first from a Watermaster Desalter Replenishment account composed of 25,000 AF of water abandoned to the Basin by Kaiser¹ and other water previously dedicated for the same purpose, then New Yield of the Basin, Safe Yield of the Basin, and finally "Additional Replenishment Water purchased by Watermaster², the costs of which shall be levied as an Assessment by Watermaster." (Peace Agreement, ¶ 7.5.)

2. First Amendment to Peace Agreement

In 2004, based on changes implemented through the Regional Water Quality Control Board's Basin Plan Amendment for the Chino Basin and the resultant lack of development of previously anticipated "Salt Credits", some Parties to the Peace Agreement contended that they should be relieved of their obligation to provide a share of storm flow recharge New Yield for Desalter Replenishment (First Amendment to Peace Agreement, Recital B.) As a result, the Stormwater component of New Yield was dedicated to the members of the Appropriative Pool according to their percentages of Safe Yield, and was excepted from Desalter Replenishment under Peace Agreement § 7.5(b). (First Amendment to Peace Agreement, ¶ 2.)

¹ This water was abandoned by Kaiser for this purpose pursuant to what Peace Agreement Section 7.2(a)(ii) refers to as "an agreement with the Watermaster, all Pools of Producers from the Chino Basin, Kaiser Ventures, Inc., formerly known as Kaiser Resources, Inc. (Kaiser) and the California Regional Water Quality Control Board, Santa Ana Region (RWQCB), regarding provision of certain water with which to satisfy the Replenishment obligation for operating the Desalter."

² Peace Agreement Section 5.3(e), describing the newly created mechanism through which members of the Overlying (Non-Agricultural) Pool could transfer water held in storage or pursuant to their annual production rights, provides that "the parties to the Judgment with rights within the Non-Agricultural Pool shall have the additional right to Transfer their rights to Watermaster for the purposes of Replenishment for a Desalter..."

3. Peace II Agreement

The Peace II Agreement, which contemplated expansion of the Desalters, further expressed the hierarchy through which water could be dedicated to offset Desalter Production, designating that the Section 6.2 controls the process. (Peace II, § 6.1.) Section 6.2 of the Peace II Agreement ("Peace II Desalter Production Offsets") provides that the Replenishment obligation attributable to Desalter production in any year will be determined by Watermaster by first applying a credit against the total quantity of Desalter Production from:

- (i) the Kaiser account (Peace Agreement Section 7.5(a).);
- (ii) dedication of water from the Overlying (Non-Agricultural) Pool Storage Account;
- (iii) New Yield (other than Stormwater (Peace Agreement Section 7.5(b)));
- (iv) any declared losses from storage in excess of actual losses enforced as a "Leave Behind";
- (v) Safe Yield that may be contributed by the parties (Peace Agreement Section 7.5(c));
- (vi) Any Production of groundwater attributable to the controlled overdraft authorized pursuant to amended Exhibit I to the Judgment.

To the extent available credits applied pursuant to the hierarchy above are insufficient to fully offset the quantity of groundwater production attributable to the Desalters, Peace II Section 6.2(b) directs Watermaster to "use water or revenue obtained by levying...assessments among the members of the Overlying (Non-Agricultural) Pool and the Appropriative Pool to meet any remaining replenishment obligation." (Peace II, § 6.2(b).)

Section 6.2(b) provides Watermaster shall first levy the Special OBMP Assessment against the Overlying (Non-Agricultural) Pool described in Exhibit "G" to the Judgment³, with water obtained through the assessment being dedicated by Watermaster to further off-set replenishment of the Desalters. (Peace II Agreement, § 6.2(b)(i).)

If, after application of the credits and water obtained pursuant to the Overlying (Non-Agricultural) Pool Special OBMP Assessment described above, a replenishment obligation remains, Watermaster is to levy a Replenishment Assessment against the Appropriative Pool, to be assessed pro-rata based on each Producer's combined total share of Operating Safe Yield and the previous year's actual production⁴, excluding Desalter Production.

4. Resolution 2010-04

In October 2010, after approval by the Pools and Advisory Committee, the Watermaster Board adopted Resolution 2010-04 in order to confirm the factual and legal assumptions of the Parties as they initiated the final required phase of the Desalter project. The resolution contains commitments by Watermaster and described commitments made by members of the Chino Desalter Authority (CDA) that facilitate the initiation of the final phase of the project.

³ Section 5(c) of the Overlying (Non-Agricultural) Pool Pooling Plan provides, "Special Project OBMP Assessment. Each year, every member of this Pool will dedicate ten (10) percent of their annual share of Operating Safe Yield to Watermaster or in lieu thereof Watermaster will levy a Special Project OBMP Assessment in an amount equal to ten percent of the Pool member's respective share of Safe Yield times the then-prevailing MWD Replenishment Rate."

⁴ Exhibit "D" to Resolution 2010-04 stated that the intended allocation of the residual Replenishment obligation among the members of the Appropriative Pool would be on the basis of 50% Base Annual Production Right and 50% actual Production. It further stated that the formula is used elsewhere in the Peace II Agreement and it is commonly understood by the Parties to the Judgment and Watermaster to apply in this manner. Watermaster staff understands this allocation mechanism to be on the basis of 50% Operating Safe Yield and 50% assessable production, which is the same as that used for the allocation of stored water in the settlement agreements regarding the Overlying (Non-Agricultural) Pool Purchase and Sale Agreements and that provided for allocation of water available through Physical Solution Transfers pursuant to Paragraph 9(b) of Restated Judgment, Exhibit "G".

Because the cost of Desalter Replenishment was anticipated to be significant⁵, as part of their agreement to move forward with the final portion of the Desalter project, the CDA members required certainty as to the manner in which Watermaster would implement Section 6.2 of the Peace II Agreement. The Parties' understanding of that implementation mechanism was included as Exhibit "D" to Resolution 2010-04, titled "Desalter Replenishment Post-Peace II Measures." (See Resolution 2010-04, Whereas Statement 72.) Exhibit "D" describes, by way of example, the manner in which a replenishment obligation might remain after the application of the credits described in the Peace II Section 6.2 hierarchy, described above.

Exhibit "D" further provides that it was the Parties' understanding that any individual member of the Appropriative Pool reserved its discretion to meet its Desalter Replenishment Obligation in any manner that it might choose that is otherwise consistent with the Judgment. By way of example, Exhibit "D" states that a party might "pursue water transfers, remove water from a stored water account or assign a share of Operating Safe Yield⁶" to offset its individual Replenishment Assessment. In this manner, Desalter Replenishment is treated no differently than replenishment for pumping in excess of a party's annual production right: "Nothing contained with[in] Peace II and its treatment of Replenishment for the Desalters limited the pre-existing rights of the parties with respect to Replenishment."

The understanding of the Parties regarding their Desalter Replenishment obligations, as documented in Exhibit "D", was approved by the Court as part of its October 28, 2011 Order after Hearing on Motion for Approval of Watermaster Resolution 2010-04, which ordered,

17. Agreements among the Parties, whatever they may be, for Replenishment, operations, conditions and corresponding consideration without limitations, are unaffected by this determination. However, for the avoidance of doubt, Watermaster Resolution 2010-04, Exhibit "D" accurately summarizes and restates these obligations.

(October 28, 2011 Order after Hearing on Motion for Approval of Watermaster Resolution 2010-04.)

B. Appropriative Pool Parties may meet their Desalter Replenishment Obligations through Either Monetary or Water Contributions

As described above, the obligation for Desalter Replenishment, for existing Desalters is apportioned among the Parties to the Judgment in accordance with the hierarchy set forth in Peace II Section 6.2. Assuming that in a particular year that Desalter Production exceeded water made available through the application of the hierarchy, the remaining obligation would be assumed by the members of the Appropriative Pool in accordance with the melded Annual Production Right and Production formula.

As described above, in the creation of the Peace II Section 6.2 requirements, it was the Parties' understanding, endorsed by the Court in its approval of Resolution 2010-04, that the Members of the Appropriative Pool may meet their Desalter Replenishment Obligations in any manner they choose, including through contribution of water – through the acquisition of water by way of allowed water transfers, through the removal of water from a stored water account or through the assignment of a portion of an annual production right – or may contribute financially toward the necessary cost of offsetting their individual Replenishment Assessments.

⁵ The applicable replenishment obligation arises in regard to the Production of the existing Desalters, as the Production that would occur as a result of the expansion of the Desalters was completely offset through the apportionment of a portion of the 400,000 acre-feet of Re-Operation water, approved by the Court pursuant to Condition Subsequent No. 7.

⁶ Watermaster has previously discussed mechanisms through which these contributions might be made – similar to preemptive replenishment, but there is no standard mechanism for the same. To date, no party has utilized this provision to dedicate Safe Yield for the purpose of offsetting Desalter obligations.

The City's Proposed Agreement

The Agreement states that the City has acquired and may, in the future, acquire Overlying (Non-Agricultural) Pool water rights in Safe Yield, and hold this water in storage "with the intention of subsequently contributing this Safe Yield to Watermaster." (Agreement, ¶ 1.) The Agreement provides that if a Replenishment Obligation arises that is attributable to Desalter Production, as provided in Section 6.2 of the Peace II Agreement, the City may contribute Safe Yield attributable to its overlying rights in the Non-Agricultural Pool to Watermaster for the purpose of offsetting its individual Replenishment Obligation as a member of the Appropriative Pool. (Agreement, ¶ 2.) Upon such a contribution, Watermaster would make a corresponding adjustment to the City's assessment and thereby reduce the City's Replenishment obligation in an amount equal to the number of acre-feet contributed by the City in that year. (Agreement, ¶ 2.)

The City seeks the Agreement to confirm its reading of the Peace and Peace II Agreements that it might utilize Safe Yield from its Non-Ag overlying rights to satisfy its Desalter production offset obligations. Confirmation is sought as this mechanism – dedication of Safe Yield arising from an overlying right to satisfy a specific Appropriator's offset obligation – is not explicitly enumerated in the Peace or Peace II Agreements. Although this mechanism is not explicitly enumerated in the Peace or Peace II Agreements, staff's interpretation is that the City's reading is permissible.

A question has arisen as to whether the allowance of such a dedication would be contrary to other provisions of the Watermaster guidance documents, particularly in regard to other provisions of the Non-Ag Pool's Pooling Plan (Exhibit "G" to the Restated Judgment). Section 9 of Exhibit "G" describes the manner in which water may be transferred from the Safe Yield rights of a member of the Overlying (Non-Agricultural) Pool, providing that, during the term of the Peace Agreement, members of the Non-Ag Pool may transfer their quantified Production rights and carry-over water held in storage accounts to other members of the Non-Ag Pool, and to Watermaster and thence to members of the Appropriative Pool in accordance with the clearinghouse process outlined therein, which provides all members of the Appropriative Pool the opportunity to purchase a pro rata share of water made available for transfer. (Restated Judgment, Exhibit "G", 9.)

Consistent with Section 5.3(e) of the Peace Agreement ("...parties to the Judgment with rights within the Non-Agricultural Pool shall have the additional right to Transfer their rights to Watermaster for the purposes of Replenishment of a Desalter") Section 9 of Exhibit "G" additionally provides that such water may be directly transferred to Watermaster for replenishment purposes. Although this section does not expressly indicate that such a transfer may be earmarked to offset the obligation of a particular member of the Appropriative Pool, the language within Peace and Peace II Agreements is susceptible to a common sense interpretation that such dedication is permissible, and the mechanism is not expressly or impliedly limited under the Judgment, Peace I or Peace II, or Watermaster Rules and Regulations.

The Physical Solution Transfers authorized by the Peace Agreement and its progeny have always been construed as collective rights. To date, no party has articulated a good reason for requiring a gross dedication of Safe Yield for the benefit of all members of the Appropriative Pool where only one (or less than all) have provided the consideration for acquiring the underlying rights. Watermaster is seeking review and recommendation as to Watermaster's potential action to confirm that the City may satisfy its Replenishment obligation by dedicating Safe Yield arising under its overlying water rights, and enter into the draft Agreement, subject to obtaining Court approval.

During its May 14, 2015 meeting the Appropriative Pool appointed an Ad Hoc committee to review this, as well as the matter related to the proposed use of Ontario Non-Ag water on City right-of-way maintained by commercial/industrial customers. On the same day the Agricultural Pool, requested that Mr. Pierson and Mr. Hall be invited to participate in the Ad Hoc committee deliberations. The Non Ag Pool recommended approval of the proposed Agreement, however appointed its Chair, Vice Chair and any other interested member of the Pool to participate in the Ad Hoc committee on the second matter. The Ad Hoc committee, chaired by Mr. Darron Poulsen (Pomona), met on Thursday May 21, 2015 and discussed both items.

The Ad Hoc Committee was not able to reach a unanimous recommendation regarding the proposed agreement and the Appropriative Pool deliberated the item during its June 11, 2015 meeting. The Pool rejected a motion (roll call vote) to recommend Advisory Committee approval of the agreement proposed by Ontario. The Appropriative Pool then voted by majority vote (City of Chino, City of Ontario, and Jurupa Community Services District voted against) to refer the matter back to the Ad Hoc Committee to develop a clear understanding among parties of allowable uses on Non Agricultural Pool water. The Ad Hoc Committee was requested to bring back a recommendation during the July Pool meeting. The Agricultural Pool took no action.

The City of Ontario requested the proposed agreement be brought to the Watermaster Board for consideration in June, even if there has been no recommendation by the Ad Hoc Committee at that time. Ontario is amenable to waiting for the Ad Hoc Committee's deliberation on the matter of Non Agricultural water assignment for irrigation on City Right Of Way by commercial/industrial customers.

ATTACHMENTS

1. Agreement for the Conditional Contribution of Safe Yield to Offset Future Desalter Replenishment
2. Exhibit "D" to Watermaster Resolution 2010-04

**AGREEMENT FOR THE CONDITIONAL CONTRIBUTION
OF SAFE YIELD TO OFFSET FUTURE DESALTER REPLENISHMENT**

WHEREAS, Watermaster is charged with responsibility to administer the Judgment and the Optimum Basin Management Program ("OBMP");

WHEREAS, a substantial Replenishment Obligation for the Chino Basin Desalters is projected to arise starting as soon as next fiscal year;

WHEREAS, the City of Ontario ("City") is a party to the Judgment and the owner of appropriative and overlying rights and is a member of the Appropriative and Overlying (Non-Agricultural) Pools;

WHEREAS, the Judgment allocates the Basin's Safe Yield among the Appropriative, Overlying (Agricultural) and Overlying (Non-Agricultural) Pools;

WHEREAS, the City has acquired, and intends to acquire rights to a portion of the Safe Yield allocated among the members of the Overlying (Non-Agricultural) Pool;

WHEREAS, Section 9 of the Overlying (Non-Agricultural) Pooling Plan, Exhibit G to the Judgment, provides that members of the Pool may transfer their quantified Production rights "to Watermaster in conformance with the procedures described in the Peace Agreement between the Parties therein, dated June 29, 2000." Said Peace Agreement at Section 5.3 (e) provides that "parties to the Judgment with rights within the Non-Agricultural Pool shall have the additional right to Transfer their rights to Watermaster for the purposes of Replenishment for a Desalter...";

WHEREAS, Section 7.5(c) of the Peace Agreement provides that "Safe Yield" may be utilized for replenishment of Desalter production;

WHEREAS, pursuant to Peace Agreement II Section 6.2(a), which cites Section 7.5(c) of the Peace Agreement, Watermaster will determine the Replenishment Obligation attributable to the Desalters after taking into account Safe Yield "contributed by the parties";

WHEREAS, Exhibit D to Watermaster Resolution 2010-04, states that a party might pursue water transfers, remove water from a stored water account or assign a share of Operating Safe Yield to offset its individual Replenishment Assessment attributable to the Desalters.

WHEREAS, the City has a prospective Replenishment Obligation attributable to the Desalters as an individual member of the Appropriative Pool, which it may desire to offset through contribution of Safe Yield;

WHEREAS, Watermaster has previously acquired Safe Yield from other Parties to offset subsequent Desalter Replenishment obligations;

WHEREAS, the City intends to conditionally contribute Safe Yield acquired from the Overlying (Non-Agricultural) Pool to Watermaster in accordance with the provisions of

the Peace and Peace II Agreements;

NOW THEREFORE, the parties agree as follows:

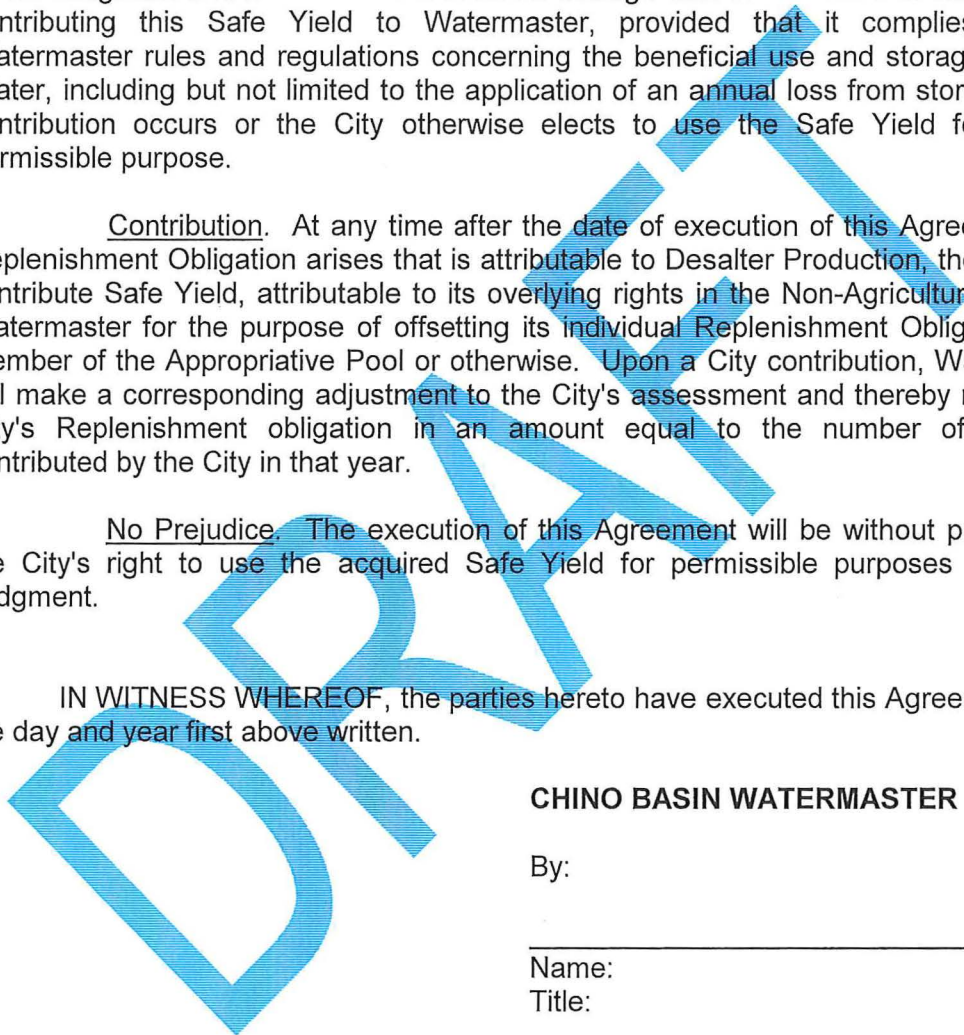

AGREEMENT

1. City Acquisition of Safe Yield. The City has acquired and may, in the future, validly acquire Overlying (Non-Agricultural) Pool water rights in Safe Yield from Parties to the Judgment and hold this water in Local Storage with the intention of subsequently contributing this Safe Yield to Watermaster, provided that it complies with all Watermaster rules and regulations concerning the beneficial use and storage of Basin Water, including but not limited to the application of an annual loss from storage until a contribution occurs or the City otherwise elects to use the Safe Yield for another permissible purpose.

2. Contribution. At any time after the date of execution of this Agreement, if a Replenishment Obligation arises that is attributable to Desalter Production, the City may contribute Safe Yield, attributable to its overlying rights in the Non-Agricultural Pool, to Watermaster for the purpose of offsetting its individual Replenishment Obligation as a member of the Appropriative Pool or otherwise. Upon a City contribution, Watermaster will make a corresponding adjustment to the City's assessment and thereby reduce the City's Replenishment obligation in an amount equal to the number of acre-feet contributed by the City in that year.

3. No Prejudice. The execution of this Agreement will be without prejudice to the City's right to use the acquired Safe Yield for permissible purposes under the Judgment.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement as of the day and year first above written.

DESALTER REPLENISHMENT POST-PEACE II MEASURES

Summary

Desalter Replenishment is controlled by Peace II Section 6.2, attached hereto. As a result of the methodology referenced below, Western Municipal Water District (WMWD) will not incur any replenishment obligation for the 9 mgd expansion. This follows from the fact that WMWD is not a member of the Appropriative Pool and it was not required to become one as a precondition to the approval of the Peace II Measures, although it may elect in its discretion to do so.

WMWD has no share of Operating Safe Yield. Because the formula for apportioning the cost of Replenishment set forth in Section 6.2 attributable to the Desalters expressly excluded Production from the Desalters from the calculation of responsibility, even WMWD's intervention into the Appropriative Pool would not trigger a Replenishment obligation for WMWD. Specifically, without a share of Operating Safe Yield or any eligible groundwater production, there would be no basis to assess WMWD for a Replenishment Assessment.

It is also true that to the extent WMWD shared a portion of its rights to the 9 mgd expansion with Jurupa Community Services District and the City of Ontario as contemplated by Article VI, there would be no impact on the net Replenishment obligation of any other Party to the Judgment because all of the projected groundwater production planned for the proposed 9 mgd expansion was to be offset by the apportionment of 175,000 acre-feet for this purpose; both in the Court proceeding and in the filing in compliance with Condition Subsequent Number 7 (attached hereto as Exhibit "B").¹ (See below.) Replenishment attributable to the Chino I and Chino II Desalters is also addressed by formula in Peace Agreement II Section 6.2(b)(ii).

Replenishment Example

The obligation for Desalter Replenishment, for existing Desalters (as the Expansion was fully offset) was apportioned among the Parties to the Judgment in accordance with the hierarchy set forth in Peace Agreement II Section 6.2. Thus, assuming in Year X, there was 35,000 acre-feet of Desalter Production, the stated hierarchy of sources would be applied to satisfy the cumulative demand.

(1) Kaiser: (Peace Agreement II Section 6.2(a)(1))

¹ Subject to an adjustment in the schedule to reflect actual operations.

- (2) No Ag Dedication (Peace Agreement II Section 6.2(a)(ii))
- (3) New Yield other than Storm Water (Peace Agreement II Section 6.2(a)(iii))
- (4) Losses from Storage and Recovery Agreements enforced as a Leave Behind (Peace Agreement II Section 6.2(a)(iv)).
- (5) Contributed safe yield (Peace Agreement II Section 6.2(a)(v))
- (6) Controlled Overdraft as authorized (175 / 225). (Judgment Exhibit I.

Assuming for purposes of this example that the sum of (1)-(5) referenced above in Year X was 10,000 acre-feet, there would be a total Replenishment Requirement of 25,000 acre-feet. That quantity apportioned to the Expansion would be apportioned 10,000 acre-feet to offset that production (assuming the schedule is adhered to) and the balance would be assumed by the Appropriative Pool in accordance with the formula set forth in Section 6.2(b)(ii). In summary, that formula divides the residual Replenishment obligation among the members of the Appropriative Pool on the basis of 50% Base Annual Production Right and 50% actual Production. The actual language of Section 6.2(b)(ii) reads slightly different, but it is not inconsistent. This formula is used elsewhere in the Peace II Agreement and it is commonly understood by the Parties to the Judgment and Watermaster to apply in the manner described in this paragraph and this Exhibit.

The formula expressly, albeit provisionally, excludes Desalter Production from the calculation. This means that the 25,000 acre-feet of production in this example attributed to the Desalters would *not* form a basis to assess any member of CDA a larger assessment simply because they received desalted water. However, if there is a material reduction in the cost of desalted water, this provision was subject to a re-opener. (See below)

This structure preserves the intention of the parties, the Court and Watermaster to remove the Replenishment obligation from the cost consideration of the Expansion Project. The Replenishment obligation attributed to the Chino I and Chino II Desalters was a pre-existing and known obligation prior to Peace II. The use of water made available by the Peace II Measures substantially reduced the projected Replenishment obligation by 225,000 acre-feet.

It is true that there is a provision in Peace Agreement Section 6.2(b)(ii) that reflects that the exclusion of the Desalter production from the calculation might be revisited if the costs of water from the Desalters were to be materially reduced. However, as of October 28, 2010, Watermaster has no present information and thus no good cause that would suggest that the cost of product water from the Desalters is going to be substantially less than the negotiated price cap. Consequently it would appear that there is no present basis to reconsider this element although Watermaster and the Court would be authorized to revisit this provision if good cause were subsequently presented.

The treatment of Replenishment in any Renewal Term (Post-Peace Agreement 2030) is the subject of negotiation. (Peace Agreement II, Section 6.2(c)). This means that the inter-se allocation of the 400,000 acre-feet is fully addressed during the term of the Peace Agreement. The Parties to the Judgment are free to extend the Peace Agreement for the Renewal Term or to renegotiate any provision as a condition of extension.

Any individual member of the Appropriative Pool reserves discretion to meet their Replenishment Obligation in any manner that they may choose that is otherwise consistent with the Judgment. For example, a party may pursue water transfers, remove water from a stored water account or assign a share of Operating Safe Yield to offset their individual Replenishment Assessment. Nothing contained with Peace II and its treatment of Replenishment for the Desalters limited the pre-existing rights of the parties with respect to Replenishment.

Allocation of 400,000 Acre-Feet

As far as the inter-se apportionment of the allocation, Section 7 of the Peace II Agreement contemplated a fair process to arrive at an apportionment. An initial schedule was transmitted to the Court in response to the Court Order. The schedule was the subject of testimony and further reporting and ultimately a requirement for a schedule to be filed in connection with Condition Subsequent Number 7.

Watermaster filed its apportionment in response to Condition Subsequent Number 7, allocating 175,000 acre-feet to the expansion and 225,000 to the existing Desalters.

Peace Agreement II Section 7.2(e)(ii) authorizes Watermaster to propose revisions to the proposed schedule where good cause exists – supported by a technical explanation. A potential cause to revise the schedule might include the Expansion Project's failure to extract the allocated quantities as a result of delays in construction and operation. It is possible that there may be other public policy reasons that support other potential causes that would support a revision of the schedule; but no such reason has been presented to Watermaster.

In general, modest corrections are fairly likely to be acceptable. Material deviations may suggest a failure in one or more purposes of the OBMP Implementation Plan, and Watermaster is unable to predict how it may respond to the failure of the Expansion Project to proceed as planned.

Legal Effect of WMWD Intervention In the Appropriative Pool

As noted above, there is no requirement in the Peace II Measures that WMWD intervene into the Appropriative Pool. There is a requirement that

WMWD make the Appropriative Pool whole for historic contributions under Peace Agreement II Section 5.5(e). The requirements set forth in Section 5.5(e) of the Peace II Agreement have been satisfied by WMWD's assumption of project risk, out-of-pocket costs presently in excess of \$5 million (\$15 million for the Expansion Parties) and the further assumption of capital and operations and maintenance costs in excess of expectations (the cost-cap as for WMWD's portion of expenses. However, this finding is made only with regard to WMWD's obligation under Section 5.5 to complete final binding agreement(s) regarding Future Desalters. This finding is not intended to have any bearing or impact on the sufficiency of WMWD's assumption of risk and costs for any other purpose, including the availability of a reduced uniform loss percentage under Peace II Agreement Section 7.4. This finding also does not affect WMWD's rights or obligations to intervene into the Appropriative Pool on the terms and conditions that may be fairly agreed among the Appropriative Pool and WMWD.

Transferability of 400,000 Acre-Feet

There is no allocation of any portion of the 400,000 acre-feet to any individual party. The water is made available for the express purpose of offsetting Desalter production in furtherance of obtaining Hydraulic Control through Re-Operation. The water is apportioned as provided in Watermaster's Response to Condition Subsequent Number 7 to the December 21, 2007 Order of the Court.

EXHIBIT D-1

PEACE II AGREEMENT:
PARTY SUPPORT FOR WATERMASTER'S OBMP
IMPLEMENTATION PLAN, -
SETTLEMENT AND RELEASE OF CLAIMS
REGARDING FUTURE DESALTERS

6.2 Peace II Desalter Production Offsets. To facilitate Hydraulic Control through Basin Re-Operation, in accordance with the 2007 Supplement to the OBMP Implementation Plan and the amended Exhibits G and I to the Judgment, additional sources of water will be made available for purposes of Desalter Production and thereby some or all of a Replenishment obligation. With these available sources, the Replenishment obligation attributable to Desalter production in any year will be determined by Watermaster as follows:

- (a) Watermaster will calculate the total Desalter Production for the preceding year and then apply a credit against the total quantity from:
 - (i) the Kaiser account (Peace Agreement Section 7.5(a).);
 - (ii) dedication of water from the Overlying (Non-Agricultural) Pool Storage Account;
 - (iii) New Yield (other than Stormwater (Peace Agreement Section 7.5(b)));
 - (iv) any declared losses from storage in excess of actual losses enforced as a "Leave Behind";
 - (v) Safe Yield that may be contributed by the parties (Peace Agreement Section 7.5(c));
 - (vi) any Production of groundwater attributable to the controlled overdraft authorized pursuant to amended Exhibit I to the Judgment.
- (b) To the extent available credits are insufficient to fully offset the quantity of groundwater production attributable to the Desalters, Watermaster will use water or revenue obtained by levying the following assessments among the members of the Overlying (Non-Agricultural) Pool and the Appropriative Pool to meet any remaining replenishment obligation as follows.

- (i) A Special OBMP Assessment against the Overlying (Non-Agricultural) Pool as more specifically authorized and described in amendment to Exhibit "G" paragraph 8(c) to the Judgment will be dedicated by Watermaster to further off-set replenishment of the Desalters. However, to the extent there is no remaining replenishment obligation attributable to the Desalters in any year after applying the off-sets set forth in 6.2(a), the OBMP Special Assessment levied by Watermaster will be distributed as provided in Section 9.2 below. The Special OBMP Assessment will be assessed pro-rata on each member's share of Safe Yield, followed by
 - (ii) A Replenishment Assessment against the Appropriative Pool, pro-rata based on each Producer's combined total share of Operating Safe Yield and the previous year's actual production. Desalter Production is excluded from this calculation. However, if there is a material reduction in the net cost of Desalter product water to the purchasers of product water, Watermaster may re-evaluate whether to continue the exclusion of Desalter Production but only after giving due regard to the contractual commitment of the parties.
 - (iii) The quantification of any Party's share of Operating Safe Yield does not include the result of any land use conversions.
- (c) The rights and obligations of the parties, whatever they may be, regarding Replenishment Assessments attributable to all Desalters and Future Desalters in any renewal term of the Peace Agreement are expressly reserved and not altered by this Agreement.

STAFF REPORT

DATE: June 18, 2015
TO: Advisory Committee Members
SUBJECT: Chino Basin Safe Yield Redetermination and Reset (Information Only)

SUMMARY

Issue: The Chino Basin Watermaster Board has asked the Pools to offer their advice and assistance regarding the Safe Yield Reset summary of Non-Binding Key Principles derived from the facilitated process (Key Principles).

Recommendation: This is an informational item.

Financial Impact: No impact to Watermaster.

Future Consideration

Advisory Committee: June 18, 2015 Information Only

Watermaster Board: June 25, 2015 Provide direction to Counsel and Staff [Within WM Duties and Powers]

ACTIONS:

June 11, 2015 – Appropriative Pool –recommended by majority vote that WM move forward with the amended language on the Key Principles which incorporates Agricultural and Non-Agricultural Pool comments. The City of Chino and San Antonio Water Company voted against the motion.

June 11, 2015 – Non-Agricultural Pool – Unanimously voted to support the Safe Yield Key Principles document, and direct the Pool representatives to support at the Advisory Committee and Board meetings subject to changes which they deem appropriate with the following caveats: [1] Paragraph 4 – Storage Management Plan: The Pool recommends that issues related to this item be scoped by December 31, 2015 including a cost estimate and that the Storage Management Plan process is completed no later than June 30, 2016; and [2] The Pool would like the FANDA expenses be reallocated to participants only; any costs allocated to the NAP should be credited.

June 11, 2015 – Agricultural Pool – unanimously approved the amended Safe Yield Reset Key Principles document derived from the facilitated process.

Date – Advisory Committee –

Date – Watermaster Board –

BACKGROUND

A group of parties that signed the Facilitation and Non-Disclosure Agreement (FANDA) developed a set of Key Principles as a balanced approach to all matters related to the Chino Basin Safe Yield Redetermination and Reset. With the group's permission the facilitator, Scott Slater, presented the Key Principles to the Watermaster Board during the May 28, 2015 meeting.

The FANDA Group includes most of the Appropriative Pool parties (with the exception of San Antonio Water Company) and the three municipal water districts: Inland Empire Utilities Agency, Three Valleys Municipal Water District, and Western Municipal Water District. The group does not include members of the Non-Agricultural Pool, the Agricultural Pool, and the Chino Basin Water Conservation District.

On May 28, 2015, the Board heard the presentation by Mr. Slater, and also received comments from the City of Chino which, although a member of the FANDA group, was not in support of the Key Principles. After deliberation the Board moved to: direct staff and counsel to prepare a status report to the Court for consideration by the Board at its regular meeting on June 25, 2015; direct staff and counsel to commence coordinating drafting of a binding agreement based on FANDA Key Principles unless either the Agricultural or Non-Agricultural Pool express concerns with the Key Principles by close of business on June 12, 2015. If necessary, the Board will convene a special meeting on June 16, 2015 to evaluate concerns and take appropriate action.

DISCUSSION

During the June 11, 2015 Pool Committee meetings each of the Pools considered the May 28, 2015 Key Principles, as amended by various proposals (Attachment 1). All three Pools recommended approval of the Key Principles.

The Appropriative Pool motion was approved by majority vote in Confidential Session, with the City of Chino and the San Antonio Water Company voting against.

The Non-Agricultural Pool voted unanimously to approve beginning drafting a binding agreement based on the Key Principles, and recommended that issues related to the Storage Management Plan be scoped by December 31, 2015 including a cost estimate, and that the Storage Management Plan process is completed no later than June 30, 2016. Watermaster staff believes this recommendation can be addressed during the drafting of the binding agreement. Additionally the Non-Agricultural Pool would like the expenses associated with the facilitated process to be reallocated to participants of the process. This concern is administrative in nature and does not impede the drafting of the agreement. Watermaster staff will address this issue through the annual budget reconciliation process after the close of the fiscal year, at which time a funds transfer will be presented.

The Agricultural Pool Committee voted unanimously to approve the Key Principles.

In light of the actions taken by the three Pool Committees, Watermaster staff does not believe a Special Board meeting on June 16, 2015 is warranted and intends to begin coordinating the drafting of a binding agreement as directed by the Board. Further, also following the Board's May 28, 2015 direction, staff is preparing a status report to the Court for consideration by the Board during its June 25, 2015 meeting.

ATTACHMENTS

1. June 11, 2015 Pool Approved Safe Yield Key Principles

SAFE YIELD RESET SUMMARY OF NON-BINDING KEY PRINCIPLES DERIVED FROM FACILITATED PROCESS

These Non-Binding Key Principles are the product of good faith bargaining among the initialing parties reflecting a substantial consensus moving forward to re-set Safe Yield contemplated by the Judgment, the Peace Agreement(s) and the OBMP. Although support is not unanimous, the parties are initialing these *Non-Binding* Key Principles, each signifying an intention to continue to negotiate in good faith to reduce these principles into a binding instrument(s), whatever form it may take, for execution no later than September 1, 2015 and to coordinate further briefings of the Court in support of their good faith intentions. The Safe Yield is not to be reset unless and until the binding agreements are finalized among the parties. No person or party waives any right to object to the documentation of these key principles in binding instruments or binds any individual or institution by its initialing of this document.

Each of the initialing parties acknowledges their individual duty and collective stewardship obligation to manage the precious water resources of this State and more specifically the waters of the Chino Basin in accordance with the Constitutional requirements set forth in Article X, Section 2. This process exemplifies their individual and collective best efforts towards the optimum management of groundwater in the Basin to ensure the maximum reasonable and beneficial use thereof.

The initialing parties invite all other parties to the Judgment to participate in good faith to document final binding agreements to re-set Safe Yield and to implement the use of Chino Basin to promote sound resources conservation and stewardship practices as contemplated by the Judgment, the Peace Agreements and the OBMP.

The facilitated process shall remain privileged and confidential and its content not subject to disclosure pursuant to California Evidence Code Section 1152.

Safe Yield Reset

1. Safe Yield Reset. 135,000 AFY.
2. Effective Date. Upon Court approval of the Safe Yield Reset, July 1, 2010, the implementation of the reset will occur on July 1, 2014, but with no retroactive accounting. For the avoidance of doubt, this means Watermaster will not change prior accounting of its prior allocation of Safe Yield and Operating Safe Yield among the parties for years prior to July 1 2014.
3. Reset again in 2020 for the period 2021-2030.
4. Safe Yield evaluations shall be consistent with the April 10, 2015 Tech Memo prepared by Wildermuth Environmental (See Exhibit "A"):
 - (a) Use normalized long-term hydrology: 1921 to present date.

- (b) Long-term hydrology will be expanded to include data from each year from now until 2030.
 - (c) Long-term hydrology accounts for short-term climatic variations, wet and dry.
 - (d) Watermaster will ensure that all production by all parties to the Judgment is reported and accounted for.
 - (e) Collect data concerning cultural conditions annually, with cultural conditions including, but not limited to, land use, water use practices, production, and facilities.
 - (f) Evaluate the potential need for the exercise of prudent management discretion to impose measures as may be required to avoid or mitigate undesirable results including, but not limited to, subsidence, water quality degradation, and unreasonable pump lifts.
 - (g) If evaluation of data appears to suggest a material change from existing and projected conditions or threatened undesirable results, then a more significant evaluation and a model run will be undertaken.
 - (h) A budget will be developed for the annual data collection, data evaluation and model run efforts with an agreed methodology for the allocation of expenses among the parties.
 - (i) A model run will be completed in connection with the 2020 Reset and again in 2025 in a manner consistent with Exhibit “A” the April 10, 2015 Wildermuth Environmental Technical Memorandum.
5. An interim correction and a Safe Yield Reset will occur when Watermaster has conducted a higher level of evaluation, as referenced in paragraph 4 above and with the advice and counsel of the Pools and Advisory Committee in the exercise of prudent management discretion, a conclusion is reached that Safe Yield must be changed by an amount greater (plus or minus) than 2.5%.
6. Peer review of Watermaster collection and application of data may be undertaken by all Pools annually.

Safe Storage Management

1. Safe Storage Management. 130,000 AF. The parties will support the prudent management objective of protecting against Material Physical Injury and Undesirable Results. Further explanation to be provided in a technical memorandum.
2. Safe Storage Reserve
 - (a) Safe Storage Reserve means a quantity of water held in storage that is sufficient to ensure protection against a precipitous drop in water levels and undesirable results while a more comprehensive plan can be developed by the parties.
 - (b) Appropriate Pool stored water in non-supplemental stored water accounts will be the only water subject to this provision.
 - (c) The Appropriate Pool parties will be responsible for ensuring such quantities are present in the Reserve, shared among them in accordance with their

relative percentage of their quantity of non-supplemental held in groundwater in storage on July 1, 2015, if and when the quantity of Appropriative Pool stored water in non-supplemental stored water accounts decreases to a gross quantity of 150,000 AF.

- (d) 100,000 AF of the Safe Storage Reserve water will be available for use in the event of an emergency, provided that any stored water withdrawn would be replenished within 36 months of the withdrawal and the withdrawal will not cause Material Physical Injury.
 - (e) Absent a Storage Management Plan, up to a maximum of 30,000 AF of the Safe Storage Reserve water will be available after 2024 for the exclusive purpose of the dedication to Desalter Replenishment in furtherance of the OBMP and the maintenance of Hydraulic Control. The withdrawal of this water must not cause Material Physical Injury.
 - (f) Parties remain subject to the terms of the Peace Agreement.
4. The Appropriative Pool, in coordination with other interested Pools and Parties, will exercise best efforts to develop and recommend, and Watermaster will obtain Court approval, of a Storage Management Plan that may be substituted in whole or in part for the above referenced Safe Storage Management commitments. The Appropriative Pool, in coordination with other interested Pools and Parties, will exercise best efforts to develop a Storage Management Plan for presentation to Watermaster and the Court for approval within twenty-four (24) months of the Court approved Safe Yield Reset. Both the Ag Pool and the Appropriative Pool must approve any Storage Management Plan before it can be presented to the Watermaster, provided that if, after exercising good faith and best efforts to reach a mutually acceptable agreement within 1 year from the initiation of negotiations, then either Pool may submit its proposal to Watermaster, and then to the Court, for review and approval within 24 months.
5. Consistent with a Tech Memo to be provided, storage losses will be reduced from 2% to 600 AFY (across all water in storage) upon completion of hydraulic control. Storage losses for storage accounts held by persons other than parties to the Judgment will be consistent with the Peace Agreement(s).
6. Storage of water will be managed consistent with the Peace Agreement(s).

Storm Water

1. Historic Storm Water Programs. (2001-2014). Projects approved and being implemented during 2001-2014 that capture Storm Water that is the result of approved Storm Water Programs (e.g., CBFIP and its extensions) will be distributed as Safe Yield and there will be no deduction against Safe Yield or requirement that the quantity of Storm Water Recharge be the subject of a “backfill” from unused Agricultural Pool water.

2. **Interim Programs.** For the term of the Peace Agreement, Storm Water that is obtained from the funding and implementation of new projects [baseline projects will be listed] will be *temporarily* considered New Yield until there is a Safe Yield Reset. There will be no “backfill” of this water.
3. **Safe Yield Reset.** Upon any Safe Yield Reset, any quantity of Storm Water New Yield will become Safe Yield but without creating a requirement for “backfill” as an apportionment of Safe Yield. This means that the Storm Water will be considered a part of the Safe Yield and therefore its allocation as prescribed will not create a backfill obligation.
4. Any member of the Appropriative Pool that elects, in its complete discretion, not to participate in Storm Water capture improvement Program that has been approved by the Appropriative Pool, may “opt out” of the participation by providing reasonable notice to the members of the Appropriative Pool and offering the other members of the Appropriative Pool the right to acquire that portion of the water by assuming the respective position of the party opting out by assignment of all rights and responsibilities
 - (a) In the event that one or more members of the Appropriative Pool elect to “opt out” of an approved Storm Water Program, they will permanently waive and relinquish, without limitation of qualification, the right to all the benefits accruing under that specific Storm Water Program.
 - (b) The Pool member opting out will assume no further financial obligation attributable to the Storm Water Program that is subject to the Pool’s approval.
 - (c) In exchange for assuming the financial obligation associated therewith, Fontana Water Company shall have the right exclusive all right, title and interest in the water supply made available by the approved Storm Water Program for any member of the Appropriative Pool that “opts out” of the approved Storm Water Program up to a cumulative maximum quantity of 2,000 AFY. After Fontana Water has obtained a cumulative maximum of 2,000 AFY under this provision, and if other members of the Appropriative Pool request to participate pro-rata in the assignment of the respective rights subject to an “opt out”, then the available water will be distributed among the members of the Appropriative Pool that express an intention to participate, pro rata, including Fontana Water Company. This right of assignment will survive the expiration of the Peace Agreement for the life of the “Storm Water Program” as it may be approved pursuant to the same terms and conditions generally applicable to all participants under Paragraph (a) above.

- (d) This opt-out and opt-in opportunity applies to those project included in the RMPU Amendment approved by the Court in 2013, and any projects subsequently approved by the AP.

Santa Ana River Underflow

1. **2001-2014 SARUNY.** As a compromise between competing claims and contractual interpretations, induced recharge from the Santa Ana River that is attributable to the Desalters for the period of 2001-2014 will be deemed to be a portion of the Safe Yield and unavailable to be produced by the Desalters without incurring a replenishment assessment.
2. **2015-2030 SARUNY.** Will be quantified as the equivalent of fifty percent of the cumulative annual Desalter Production. Induced recharge from the Santa Ana River that is attributable to the Desalters for the period of 2015-2030 will be taken as a deduction against Safe Yield for this period and applied to off-set the groundwater production of the Desalters.
 - (a) After backfilling any decline in Safe Yield, water that is not produced by the Agricultural Pool will be used to off-set claims for surplus Agricultural Pool water under the Early Transfer provision of the Peace Agreement and to satisfy Land Use Conversions.
 - (b) Shortages will be shared pro rata among the competing Early Transfer and Land Use Conversion claims.
3. **2031-2060 SARUNY.** SARUNY and Desalter replenishment will be subject to the negotiation of a new and separate agreement among the Parties, unless otherwise agreed SARUNY will not be backfilled.

Accounting Post 2030

1. After the initial term of the Peace Agreement (2030) Peace II provisions relating to the distribution of surplus (unpumped) water by the Agricultural Pool requiring that claims for the Early Transfer of 32,800 AFY and for Land Use Conversions be treated equally are expressly repealed, including changes to the Rules and Regulations arising out of the Peace II Agreement and those ordered by the Court pursuant to its October 8, 2010 Order. The parties confirm that in any Peace Agreement extension term, the changes to Judgment Section 10(b)(3)(i) effectuated by paragraph 4.4(c) of the Peace Agreement, allocating 2.0 acre-feet of unallocated Safe Yield water for each converted acre, shall remain in effect.

Desalters and Re-Operation

- 1. Amend schedule for access to Re-Operation water to ensure that any water that would be unused before 2030 (presently estimated to be 27,500 acre-feet) is available to be pumped before 2030 and allow for a gradual reduction in the availability of Re-Operation water. For the initial 5 year period following the approval of the revised schedule the expected Desalter Replenishment obligation would be 2,000 AFY and then gradually increasing by 2,000-3,000 AFY every two years until the maximum Desalter Replenishment obligation is reached its maximum.**
- 2. Reservation of Rights. The parties reserve their respective rights and remedies arising from the Judgment and the Peace Agreements, whatever they may be, to pursue, promote, design, plan, finance and implement Desalter Replenishment in furtherance of the OBMP and to allocate costs attributable thereto. Notwithstanding this reservation, the parties expressly waive their right to seek a re-evaluation of Desalter Replenishment arising from Paragraph 6.2(b) of the Peace II Agreement.**

Supplemental Water Recharge

- 1. Watermaster will engage in best efforts as required by the Peace Agreements to pursue the recharge of Supplemental Water to create hydrologic balance within the Basin and within each management zone.**

MWD Update – Discussion

- **Integrated Resources Plan:**

MWD is in the process of updating its 2010 Integrated Resources Plan (IRP) and has been conducting technical workshops to discuss both imported water and local supply forecasts. Local resource discussions are scheduled for June 24 and July 8. IEUA has been participating in these discussions, and is coordinating with Chino Basin Watermaster (CBWM) as needed. Schedule for completion is set for August.

IEUA is also developing an IRP and recently conducted a workshop that presented the revised baseline water demand forecasts, forecast recommendations and supply assumptions. To support the resiliency modeling effort, IEUA has contracted with Wildermuth Environmental, Inc. (WEI) through CBWM to provide estimated uncertainty in groundwater supply caused by changes in climate, increased conservation and water use efficiency, and shifts in housing development style and design. Next IEUA IRP meeting is scheduled for June 24th.

HIGHLIGHTS

Colorado River Basin

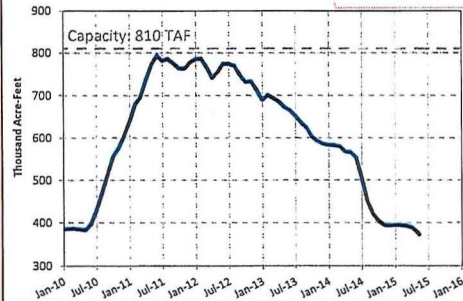

- Likelihood of shortage for 2016 : 33%.
- Runoff forecast below normal at 59%.
- Widespread showers and thunderstorms with heavy rain in the valleys and heavy wet snow possible in the mountains.

Northern California

- Runoff forecast below normal at 49%.
- Rain and snow showers forecasted for late this week. 2 inches of snow possible between 5,000 and 6,000 feet, up to a foot at the highest elevations.

Diamond Valley Lake Storage

193 TAF less in storage than this time last year

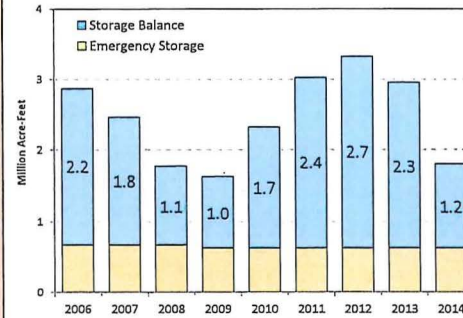

Southern Sierra Snowpack

5% of Normal on April 1

MWD Storage Reserve Levels

Lake Shasta Reservoir Storage

222 TAF more in storage than this time last year

IEUA WATER FORUM

MAY 2015

State Regulations Update

- On May 18, 2015, the Office of Administrative Law approved the State Water Resources Control Board's Emergency Conservation Regulation ordered by the Governor on April 1, 2015.
- The DWR Independent Technical Panel is in the process of reviewing the statewide Model Water Efficient Landscape Ordinance (MWELO) for potential updates.
- AB 2104: HOAs are prohibited from penalizing homeowners who opt to replace their lawns with low water using plants
- SB 992: Prohibits HOAs from fining homeowners who reduce or discontinue lawn watering during a statewide drought emergency

Rebate Programs Snapshot

- A rebate for drip irrigation is expected to be implemented for the southern California region through MWD beginning July 1, 2015. Rebate will be available for residential and commercial customers.
- A Residential High Pressure Regulation Pilot Program is coming in FY 2015/16. This program will identify homes in high pressure zones, and evaluate the pressure and install pressure regulation devices where applicable.
- Effective May 12, 2015, all MWD Water Use Efficiency rebates were placed on hold until May 26, 2015.
- Effective July 1, 2015, IEUA supplemental rebate funding is available again to enhance indoor and outdoor high efficiency water conservation devices.

Local Initiatives for Drought Response

- On May 14, 2015, the first SAWPA grant (rates) workshop was held and changed 70% of attendees' perception of water budget rates. Chino Hills expressed interest to move to next steps. Next workshop for agencies is on May 27th at Western MWD.
- IEUA is developing a contract with vendor Omni Earth to provide individualized water budgets for member agency residential customers. This program will be used as a rapid drought response tool for member agencies to respond to the emergency regulations.
- SAWPA is receiving proposals for regional data grant to be used for allocation-based rates and individual agency water efficiency calculator to help meet drought targets.
- Regional messaging: A Drought Task Force comprised of all member agencies has been organized to create regional messaging that is expected to be developed by the end of June 2015.

Integrated Resources Plan

- The IEUA Integrated Resources Plan (IRP) is intended to identify and recommend solutions to meet water needs through the year 2040. The guiding planning principle of this IRP is to plan for a deeply uncertain future and develop a robust strategy that can adapt to a wide range of possible futures and respond to changing conditions. The IRP will develop an overall strategy for meeting projected water resource demands within the IEUA service area in a cost-effective manner.
- IRP planning efforts and coordination with member agencies will resume May 26th, with meetings focused on receiving input on the demands, supply and regional portfolio selection. A calendar of meetings (held every two weeks) is included at the end of the newsletter.

Regional Water Use

MWD Dashboard

- Water Supply Allocation Plan (WSAP):** On April 14th, the MWD Board approved a WSAP Level 3 regional shortage. WSAP will be effective July 1, 2015. At Level 3, IEUA will be able to secure 61,269 AF at the Tier 1 rate from MWD for Fiscal year 2015/16. Member Agency FY2015/16 WSAP allocations for Tier 1 supply are as follows:
 - CVWD: 26,569 AF**
 - WFA: 27,406 AF**
 - FWC: 7,293 AF**
- Imported Water Delivery Snapshot:** 2014/15 Fiscal Year sales, as of the end of April, are approximately 3% lower as compared to last FY. Total FY sales to date are 51,762 AF.

Calendar of Upcoming Meetings & Events

Tuesday, May 26 12:00 pm—1:30 pm IEUA	Water Manager Meeting	UWMP, WSAP and Overview of Schedule for IRP and RW
Wednesday, May 27 11:00 am—3:00 pm WMWD in Riverside	SAWPA Budget-Based Rate Workshop	Policy level workshop highlighting water rate structure development tools that help maintain revenue stability
Tuesday, June 9 9:00 am—10:30 am Location: TBD	IRP Technical Committee Meeting #1	IEUA demand forecast, supply options, process for next steps
Wednesday, June 24 12:00 pm—1:30 pm IEUA	Water Manager Meeting	Supply Sources Priority Workshop

Date: June 17, 2015

To: The Honorable Board of Directors

Through: Public, Legislative Affairs, and Water Resources Committee (06/10/15)

From: P. Joseph Grindstaff
General Manager

Submitted by: Kathy Besser
Manager of External Affairs

Subject: Public Outreach and Communication

RECOMMENDATION

This is an informational item for the Board of Directors to review.

BACKGROUND

June 2015

- June 17, IEUA 65th Anniversary of election that created the Agency; cake and coffee will be served in HQA lobby and at all IEUA facilities.
- June 17, IEUA Summer Blood Drive, Location RP-1 and HQB Event Room, 10 a.m.-2 p.m.

July 2015

- July, Smart Irrigation Month
- July 15, IEUA Annual Employee Appreciation Picnic, Butterfield Park, 17671 Mystic Canyon Drive, Chino Hills, 11:30 a.m.-3:00 p.m.

August 2015

- August 21, 9th Annual San Bernardino County Water Conference, Cal State San Bernardino (5500 University Pkwy, San Bernardino), 8:00 a.m.-12:00 p.m.

Outreach/Education - Civic Publications Newspaper Campaign

- IEUA staff is working with Civic Publications to develop a summer 2015 water-saving campaign. This campaign will focus on water saving in a drought and will include display ads, an email blast and print media. The email blast will be sent out in mid-June and feature a picture demonstrating how Diamond Valley Lake has been affected by drought. All digital media will link to the IEUA micro-site with water-saving tips and rebate information.

- Staff ran ads in the *Daily Bulletin* for Water Awareness Month and Compost Awareness Week.

Media and Outreach

- A water softener ad ran in the Champion Newspaper's Chino Connection Magazine on May 2nd. A compost giveaway ad ran in the *Chino Champion* the first weekend in May. The compost giveaway was a huge success with the IERCF giving away all 10 pallets of compost to the public before the end of the giveaway.
- IEUA staff is working with Civic Publications, *La Opinion*, and *Chino Champion* to develop campaigns for FY 2015/16.
- IEUA staff implemented an additional 12-week drought campaign in movie theaters featuring the 15-second ad that was created in fall 2014. The ad ran through the end of May on all screens at Ontario Palace (Ontario), Victoria Gardens (Rancho Cucamonga) and Harkins (Chino Hills). The ad was played in all theaters as well as the Lobby Entertainment Network (LEN).
- IEUA staff held a Drought Task Force meeting with member agencies on May 20th to develop a regional drought alert logo and tagline and will be developing an outreach plan for consistent drought messaging across the region. Drought Task Force meetings will be held every other month.

Education and Outreach Updates

- Water Discovery Program: 1,827 Girl Scout troop members, elementary and high school students have taken part in the park field trip from September 24, 2014 through May 28, 2015.
- IEUA staff received applications for the 2015/16 Garden in Every School[®] Program. Staff has reviewed the applications, conducted site evaluations, and awarded \$4,500 grants to Citrus Elementary (Fontana), Cortez Elementary (Chino), Eagle Canyon Elementary (Chino Hills), Truman Middle School (Fontana), and \$1,000 mini grants to Golden Elementary (Etiwanda) and Etiwanda Colony (Etiwanda) for their existing gardens.
- The 2015 MWD Solar Cup competition was a successful event for IEUA sponsored schools: Los Osos High School (Rancho Cucamonga), Chino High School (Chino) and Chino Hills High School (Chino Hills). Out of 41 teams that competed, Los Osos HS received third place overall; first place for technical awards and second places for the public service announcement and endurance. Chino HS placed 13th overall; fourth place in endurance and sixth in sprint for the Inland Empire region. Chino Hills HS placed second in the rookie division and received eighth place overall. The teams showed dedication and initiative and earned great recognition.

PRIOR BOARD ACTION

None.

IMPACT ON BUDGET

The above-mentioned activities are budgeted in the FY 2014/15 Administrative Service Fund, Public Information Services budget.

Legislative Report

TO: Joe Grindstaff
General Manager, Inland Empire Utility Agency

FR: David M. Weiman
Agricultural Resources
LEGISLATIVE REPRESENTATIVE, IEUA

SU: Legislative Report, May 2015

Snapshot. IEUA awarded \$5 Million Title XVI grant. The Interior Department/Bureau of Reclamation finally awarded \$50 million for 50 drought projects in 11 states. The long-awaited drought bill – still being negotiated behind closed doors – remains undisclosed and under wraps. Annual funding bills are moving, but likely won't be enacted until November or later. Late is fast becoming the annual norm. CA's Water Rights system to be reviewed. Orange County Grand Jury calls for more recycled water.

Water and Drought

- ***California's Water Rights Systems Being Questioned – Demands For Full Review Growing.*** Drought conditions are compelling questions to be asked about water rights. Newspaper accounts are reporting abuse, over-subscription and worse and now, calling for top-to-bottom reviews. The SWRCB has initiated preliminary reviews (which could well be expanded). This has the potential to become highly contentious.

- ***Interior Secretary Jewell and BuRec Announce \$50 Million in Drought Grants – IEUA To Receive \$5 Million.*** Last December, the annual funding bill included a \$50 million special drought response. IEUA applied for a grant. Your congressional delegation supported the request. The grant announcement, originally expected in April

was finally announced at an event in late May with the Secretary and LA DWP's Nancy Sutley. Some 50 projects received funding. IEUA was near the top of the list.

- ***Orange County Grand Jury Calls for More Recycled Water.*** In a May 1 Report, the Orange County Grand Jury called for the County and its waste water districts to develop more recycled water in response to the sustained drought conditions and the Governor's call for a 25% reduction in water use. According to published reports, *"The amount of water available for extraction from the groundwater basin depends on annual rainfall and shrinks during droughts. In order to replenish the basin, the county will have to recycle more wastewater or buy more imported water, according to the grand jury findings. They also found that in almost all cases treating wastewater for irrigation ("purple pipe" water) or potable use is less expensive and more dependable than purchasing imported water, given that imported water sources are shrinking, while excess wastewater is simply being pumped into the ocean."*

- ***Ever Elusive Drought Bill – Still Unseen, Still Unintroduced, and Still Being Drafted Behind Closed Doors.*** Last November, a drought bill, negotiated between San Joaquin Valley House Members and Senators Feinstein and Boxer blew up. Secrecy was a factor. The leaking of the draft generated a huge backlash across/up and down the State. At the time, parties claimed that they were "very" close, intimating that another day, two – a week, and the bill would be finalized, introduced and then considered. It didn't happen. Senator Boxer (depending on whose version one believes) either withdrew from the close-door effort OR was kicked out of it. The bill was promised right after the new Congress convened in January. It didn't happen again. Between January and the end of May, reps have been given one date after another for introduction – only for those arbitrary deadlines to be missed – again and again. A few week ago, it was expected that the bill was to be introduced prior to the Memorial Day break and Senate Energy Committee hearings would be held on June 2. No bill was introduced and the June 2 hearing will now consider address broad impacts of the "westwide" drought. Reportedly, a version of a draft bill was submitted to Governor Brown and his staff for their review.

On May 17, here's an excerpt from the Bee (McClatchy) papers on the drought bill, *"Five months into a new Congress, and deep into a lasting drought, California water legislation still stymies and splits the state's lawmakers. Draft copies are tightly held, as if stamped Top Secret. Myriad details are in flux. The legislative timing, though a June 2 Senate hearing could yet happen, remains unsettled. Democrats are divided; some are distinctly unhappy. It all sounds so familiar, and yet there's still no telling how this movie ends. "Right now, I don't know," a gloomy sounding California Democratic Sen. Dianne Feinstein said Thursday, when asked about the prospects for a bill. "It's very difficult to put something together. Obviously change is controversial, so to propose something and then not to be able to do it makes no sense." Feinstein and her staff power the Senate's drought legislation effort, which so far has labored beneath what several California water experts independently called a "cone of silence."*

Senator Boxer is frustrated. House Members, up and down the State, from Rep. Garamendi at the top of the State to Rep. Grace Napolitano, the ranking Dem on one of the Water subcommittees have not been consulted or included. All have been publicly vocal with their frustration. Various water users or interests asked to be included in these water bill talks – but none were.

- ***Lake Mead – Dropping to Critical Levels (Allocations to be Triggered?) – May Rains Bring Limited Relief.*** Media coverage has been focusing on Lake Mead. All year, it's been dropping and is approaching a level so low it may trigger a mandatory allocation later this year or sometime early in 2016.. Late May rains (no snow pack) have provided modest relief.
- ***Drought Conditions – California.*** As May ended, all 58 California Counties are today continuing to experience drought conditions. According to the NOAA/USDA's Drought Monitor, 100% of California is in drought. The Monitor's weekly report for May 28 indicated that more than 90% of the entire State was in severe, extreme or exceptional drought status and more than 90% of the coastal regions (including Southern California) of the State and the entire Sacramento and San Joaquin Valleys were in the highest category of drought.
- ***Drought Conditions – Rest of the West.*** The drought map for the West changed – abruptly – in the past 30 days. The massive killer storms in Texas and Oklahoma have altered the drought map – significantly. Coastal states (CA, OR, and WA) remain in severe drought. Same with Arizona, Nevada and Utah. Western NM and CO remain in drought, but the eastern part of both states are drought-free (now). The storms in Texas and Oklahoma have been so severe that drought conditions were all but erased in a ten-day/two-week period (which explains the massive flooding problems).
- ***El Nino – Maybe.*** Scattered reports are now (again) suggesting that an El Nino year may be in the offing. Unclear. Too soon to know. Maybe.

EPA-Corps of Engineers Issue New Clean Water Act Rule.

- As May came to a close, EPA Administrator, Gina McCarthy, and Assistant Secretary of the Army for Civil Works, Jo-Ellen Darcy, announced final new Clean Water Act regs.
- The regs were both hailed and denounced (either both before anyone could have possibly read or reviewed them). Today, everything is politicized and this is no different.
- IEUA and others asked EPA and the Corps, after reviewing the draft, to exempt recycled water facilities and projects. As requested, these projects were exempted.

International and Security Issues Continue to Dominate and Influence the Congressional Agenda

- ***Major Foreign Policy and International Conflict Issues Continue to Dominate***

National Agenda. As repeatedly reported over the past several months, more than a dozen international issues “*continue to dominate – and, at times, overwhelm – the national and congressional agenda. They compete for time, attention and dollars.*” Events in or involving Iraq and Iran are particularly sensitive. Financially, Greece is teetering on cliff and may pull out of the European Union (the financial ripple effects have the potential to be global).

- **Privacy v. Security – All but Paralyzing the House and Senate.** The highly controversial Patriot Act had a sunset clause (May 31, 2015). After extensive debate and deliberations, the House was able to pass, overwhelmingly, a bi-partisan bill, but the Senate is in a near stand-still over it. This will carry into June.

2016 – Presidential Politics.

- **2016 President Election – Yes, Very Underway and Part of the Daily Political Equation.** Each week brings new announcements and new entrants into the Presidential sweepstakes. On the Democratic side of the aisle, former Maryland Governor, Martin O’Malley is in the race. So is Senator Bernie Sanders, (I-VT). Meanwhile, on the R side, candidates are announcing at the rate of one/week. By the time all are in, there could be as many as 19 viable candidates, including four sitting senators and at least four former Governors. The first R debates are slated to occur as soon as August. Former Rhode Island Governor/Senator, Lincoln Chafee is expected to announce his candidacy for the D nomination in June as well (Chafee’s father, John Chafee. was Secretary of the Navy, and served in the US Senate serving as R Chair, EPW).

Municipal Bonds

- **Municipal Bonds for America Coalition Submitted Comprehensive Comments to Senate Finance Committee Urging Tax-Exempt Municipal Bonds Be Protected, Preserved and Retained – IEUA Signed Letter.** The Senate Finance Committee, under the direction of Chairman Hatch (R-UT) established five bi-partisan “working groups” – one of which was Community Development and Infrastructure, headed by Senator Heller (R-NV) and Senator Michael Bennet (D-CO). MBFA prepared and submitted comprehensive comments on April 15 urging the Committee, when considering tax reform, not alter or amend bond provisions. MWD, ACWA and others from the water community all signed the letter. The Working Groups were supposed to report to Chairman Hatch by now, but he just extended their review process (likely to or through the August recess). It’s not clear that the Heller-Bennet report to the Chair will be made public (many are asking).
- The Coalition is planning a July “fly-in” and lobby effort.

Quick Takes. CADIZ Sued. A class-action suit was filed last month accusing CADIZ of “*lying to investors...*” and “*...knowingly disseminated false information...*” **San Diego Union Tribune published, “A DROUGHT LIKE NO OTHER, California’s Drought Brings State Into Unprecedented Territory.”** This is a lengthy and detailed story which, in addition to chronicling the

current drought, delves into the history of droughts in the Golden State.

[<http://www.utsandiego.com/news/2015/may/02/drought-severity-consequences/>]. **Huffman Drought Bill Pending Introduction.** Rep Huffman, Ranking D on the House Water and Power Subcommittee, is expected to introduce his own drought bill in June. **Contra Costa Times Editorial Slams Governor's Revised Water Plan.** According to the Times, "Gov. Jerry Brown has abandoned any pretense that his massive Delta twin-tunnel project could benefit the environment, leaving it simply as one of the biggest water grabs in state history. Having failed to convince federal agencies that his plan would improve the Delta's health, Brown dropped the \$8 billion, 50-year environmental component of the tunnel project. Salvaging the ecology of the largest estuary west of the Mississippi is officially off the table. Making matters worse, what's now touted as a \$17 billion project could move forward without the approval of the Legislature or California voters by simply increasing property taxes and water rates by fiat. It's just wrong." **Orange County House Member, Rep. Loretta Sanchez to Run for Boxer's Senate Seat.** Long-time (10-Term) Orange County Rep. Loretta Sanchez announced that she will seek the Democratic nomination for the US Senate seat being vacated by three-term California Senator, Barbara Boxer. Sanchez presently serves on Armed Services and Homeland Security Committees. **Governor Inslee (D-WA) Declares Drought Emergency in Washington State.** During the month, a drought emergency was declared in another Pacific Coast state, a result of a similarly sustained drought north of California. According to local press in Washington, "'This drought is unlike any we've ever experienced,'" said Washington Department of Ecology Director Maia Bellon. "Rain amounts have been normal but snow has been scarce. And we're watching what little snow we have quickly disappear." Snowpack in the mountains has dropped to just 16 percent of normal levels statewide." **Congresswoman Grace Napolitano (D-CA), the Ranking D on the T&I Water Subcommittee Pens Op-Ed with Former BuRec Commissioner Dan Beard – Tout 1 MAF Plan Through Water Recycling/Title XVI.** Napolitano, joined by Commissioner Beard and former Resources/T&I Committee staffer, David Wegner, set forth a vision for how to devise solutions to the current drought. **House Republicans Announced, After Efforts with Feinstein Stalled, That They Would Proceed With a Stand-Alone Drought Bill in the House.** House California Republicans have announced that they will introduce a drought bill, based on but not necessarily limited to the draft bill written with Senator Feinstein. Bill introduction is expected in early June. **Trial in Penalty Phase of Litigation Between San Diego and MWD Nearing Conclusion.** Decision is expected in June.

■ **Looking Into June.**

CALIFORNIA STRATEGIES, LLC

Date: May 29, 2015
To: Inland Empire Utilities Agency
From: John Withers, Jim Brulte
Re: May Activity Report

Listed below is the California Strategies, LLC monthly activity report. Please feel free to call us if you have any questions or would like to receive any more information on any of the items mentioned below.

- Met with IEUA Executive Management Team to review priority issues and to discuss activities for May that they wanted accomplished. (May 11).
- Followed up with IEUA on issues of interest from the ACWA Conference in Sacramento from the previous week.
- Participated in discussions with staffs of San Bernardino and IEUA to discuss coordination of County and District legislative and public policy issue agendas that Executive Staff wanted.
- Monitored LAFCO staff on the status and key issues related to the MSR process currently underway for water conservation districts countywide. Discussed MSR Lafco hearing and follow up items.
- Support and advise on IEUA/SBVMWD transfer transaction on an as needed basis.
- Provided an update on the recent filing of a Sphere of Influence amendment filing by the CVWRD.
- Continue to monitor statewide water issues including the BDCP, water bond, and drought relief act activities.
- Outreach to Board Directors as needed on issues of interest
- Monitor Santa Ana Regional Board agenda and issues of interest to IEUA.

MEMORANDUM

To: Joe Grindstaff and Kathy Besser, IEUA

From: Letitia White, Jean Denton, and Drew Tatum

Date: May 29, 2015

Re: May Monthly Legislative Update

Appropriations Update

Congress had another productive month moving the annual appropriations bills at the subcommittee level, full committee level, and on the floor. A breakdown is included below:

- House
 - Commerce Justice Science – passed at the subcommittee and full committee levels
 - Defense – passed at the subcommittee level
 - Energy and Water – passed the House
 - Legislative Branch – passed the House
 - Military Construction / VA – passed the House
 - Transportation / HUD – passed the subcommittee and full committee levels
- Senate
 - Energy and Water – passed the subcommittee and full committee levels
 - Military Construction / VA – passed the subcommittee and full committee levels

Western Drought in the Spotlight

Senator Dianne Feinstein (D-CA) has still yet to release her California drought bill this year after promising to introduce it after the two-week Easter recess. When questioned, Feinstein indicated that they were still ironing out details, and the bill wouldn't have an effect until the end of the year, leaving more time for introduction, debate, and votes. We have heard that the latest delay has come due to the inability to reach an agreement with the Governor's office over relaxed environmental measures. In the interim, she promised to fight to double the money she placed in the Energy and Water section of the Omnibus Appropriations bill passed at the end of the last Congress for western drought relief. The committee report included \$50 million for drought efforts again this year, but Feinstein's efforts to double it to \$100 million this year fell short when her colleagues voted down her amendments at the full committee level. There is still a chance that the Energy and Water Appropriations bill could be amended on the floor of the Senate, but it would require an offset not to trigger a budget point of order. It is unclear when the bill will come to the floor, as Republicans don't have the votes to clear bills without support from Democrats, who oppose the caps set by the Budget Control Act of 2011.

Innovative Federal Strategies LLC

The Senate's version of the Energy and Water bill contains the following:

- \$50 million for a "Drought Emergency Assistance Program". In FY2015, those funds were allocated by the Bureau of Reclamation in part for additional Title XVI and WaterSMART grants.
- Language instructing the Army Corps of Engineers that "emphasis should be placed on evaluating current or anticipated conditions that could require deviation from normal release schedules as part of drought contingency planning."
- Language that the Appropriations Committee was pleased to see that the Bureau of Reclamation had increased funding for WaterSMART grants that increase efficiencies in current water uses. The Committee also appreciates Reclamation including a line in the budget request under WaterSMART to provide Drought Response and Comprehensive Drought Plans.
- A request from the Committee that the Bureau of Reclamation request level or increased funding in FY2017 to continue to combat the sustained drought in the western United States.

When Congress returns in June, the Senate Energy and Natural Resources Committee will hold a hearing to hear testimony on the status of drought conditions throughout the western United States and actions states and other organizations are taking to address them. The Committee is headed up by Senator Lisa Murkowski (R-AK) who is good friends with Senator Feinstein. Murkowski recently visited California to see the conditions first-hand, and this hearing is probably a result of that trip. The focus of the hearing will be the entire western United States, but there is expected to be a witness from California to testify how the conditions are effecting agriculture and non-agriculture use in the state. In the House, Majority Leader Kevin McCarthy (R-CA) has promised to lead the effort again on a drought bill for California. He, along with California Representatives David Valadao, Jeff Denham, and Devin Nunez have drafted a bill that could be introduced as early as June. The House passed a bill last year, but it died in the Senate after Senator Feinstein withdrew her support in the closing days of the 113th Congress. The House efforts underway are expected to be similar to the legislation passed last year.

EPA Finalizes Water Rule as House Fights to Overturn It

The Environmental Protection Agency and Army Corps of Engineers has finalized a rule that gives them additional jurisdiction over water quality regulations under the Clean Water Act. Last year the agency and Army Corps of Engineers released their proposed rule to redefine the "water of the United States", and the proposed rule received over 1 million comments during the open comment period. The EPA and Corps of Engineers said in an announcement this week that they had used the comments to refine the rule, making the definition even clearer and exempting most ditches, non-tributary streams, and groundwater recharge basins.

The rule's formation came as a response to conflicting Supreme Court rulings on what waters were covered under the Clean Water Act. EPA Administrator Gina McCarthy said that this rule helps clarify what waters are subject to Federal oversight and streamline the permitting process. "This rule will make it easier to identify protected waters and will make those protections consistent with the law as well as the latest peer-reviewed science," McCarthy told reporters in advance of the announcement in Washington, DC. Jo-Ellen Darcy, the Army assistant secretary for civil works, said the regulation is a reminder that the Clean Water Act makes it illegal to

Innovative Federal Strategies LLC

pollute or destroy waters without a permit. "If you're not destroying or you're not polluting, you don't need a permit no matter what the water's status is," she said. She said traditional navigable waters such as rivers, lakes, interstate waters and territorial seas remain covered by the Clean Water Act under the final regulation. Tributaries are included because they can carry pollution downstream, Darcy said. Gullies, rills and ephemeral streams are not covered, she said. Ditches, a major point of contention in the draft rule, would only be covered if they function in the way a tributary does.

Republicans have long opposed the rule as a federal power grab. Earlier this month, the House passed a bill that would require the EPA and Army Corps of Engineers to withdraw the rule and start over by seeking more stakeholder input. As we have previously reported, the House has also included a measure to block the rule from being implemented in the Energy and Water Appropriations bill. In the Senate, the Chairman of the Environment and Public Works Committee Jim Inhofe (R-OK) has promised a hearing and markup of legislation to address what he believes is an effort by the two agencies to use the Clean Water Act as a conservation tool for habitat. The Agencies introduced the rule, which will be implemented 60 days after being published in the Federal Record, during the Congressional recess. We are sure to see more opposition emerge from Republicans and some western Democrats when Congress returns next week.

Transportation Fix Punted Again

With no prospects for a long-term bill, the House and Senate passed a two month extension of the Transportation Authorization before leaving town for the Memorial Day recess. As we have previously reported, the idea of a two month extension to line up the expiration of the authorization with the expected lull in the Highway Trust Fund had been floated this spring. Lawmakers want the pressure to pass a long-term bill to remain, which is why a short-term bill was passed. Additionally, the bill had no additional costs, which didn't require that lawmakers consider offsets or revenue increases to pay for an extension.

The Senate Environment and Public Works Committee might be first to the table with a bill set to be released before a scheduled June 24th hearing on a six-year transportation bill. Department of Transportation Secretary Anthony Foxx believes the trick for the committee will come in the form of deciding what funding levels to authorize. Authorizing too high without the funds to pay for the bill could derail its consideration, but low authorization levels could have an adverse effect on funding conversations moving forward. The latest action indicates a growing concern by the authorizers that the tax writing committees need to move forward on proposals to pay for the measures. That's why Senators Jim Inhofe (R-OK) and Barbara Boxer (D-CA) are moving forward on a bipartisan draft of a multi-year bill hoping to press the Senate Finance Committee to move a tax reform bill that could pay for the measure.

The same tension exists in the House where legislation has not been introduced to authorize the nation's road and transit projects beyond the July 31st deadline. House Transportation and Infrastructure Chairman Bill Shuster (R-PA) said that his committee will release a multi-year bill when the House Ways and Means Committee identified funding for the project. The administration continues to insist that Congress should write the bill to President Obama's budget request, or the "GROW America" levels. Their proposal would provide for \$478 billion

Innovative Federal Strategies LLC

over a six year period. So far, the administration's proposal hasn't gained traction in either the House or Senate over disagreements on whether a one-time tax repatriation on corporate profits being held overseas should be used to pay for the bill.

Outlook for June

The House and Senate will be back in session for the first four weeks of the month before a week-long district/state work period for the July 4th holiday. The Senate is returning for a rare Sunday session on May 31st in an effort to address the expiring provisions of the Patriot Act that deal with the controversial bulk data collection program that is set to expire at the end of the day on May 31st. The House passed an extension in the form of a reform bill that would make telephone companies keep the data to allow the government to collect necessary records with proper legal authorization. Senator Rand Paul, a Republican presidential candidate, took to the floor to filibuster the package right before the recess. The House returns on Monday, June 1st. This month we expect to see debate on the Highway Trust Fund, although if history is a guide, we won't see a bill emerge until July—right before the authorization is set to expire. The House will also consider the FY16 Intelligence Authorization Act which authorizes additional programs within the intelligence community. The House will spend the later part of the month working on healthcare related bills, and they are expected to resume consideration of the Student Success Act (K-12 authorization) at the end of the month. Appropriators also plan to continue their work during the month of June. The House is ready to consider the Commerce, Justice, Science and Related Agencies bill on the floor, and the Senate is tentatively planning to consider the CJS bill and the Defense Appropriations bill at the subcommittee and full committee levels as early as the week of June 1st.

Innovative Federal Strategies LLC

Comprehensive Government Relations

Federal Legislation of Significance

Bill Number	Sponsor	Summary	Status
n/a	Sen. Dianne Feinstein	Potential introduction of drought legislation that could turn into a western drought bill that could loosen some environmental regulations to make additional water available.	Delayed. Apparently there are continued discussions with the Governor's office on a potential compromise. Feinstein is unlikely to introduce legislation if opposed by the Governor's office.
n/a	Rep. Kevin McCarthy	Potential introduction of drought legislation that could turn into a western drought bill that could loosen some environmental regulations to make additional water available.	Potential introduction in June. McCarthy was able to push through legislation last year, and this year's bill is expected to contain similar language. He has publically said that the language might be introduced with his fellow California Republicans in late June.
S.1140	Senator John Barrasso	Requires the Secretary of the Army and the Administrator of the Environmental Protection Agency to propose a regulation revising the definition of the term "waters of the United States".	The Chairman of the Senate EPW committee, Jim Inhofe, has said he will push forward with a hearing and markup of this bill in June. It will potentially receive timely consideration since the EPA and Army Corps of Engineers released the final rule, set to take effect 60 days after publication in the Federal Register.
H.R.1732	Rep. Bill Shuster	Requires the Secretary of the Army and the Administrator of the Environmental Protection Agency to withdraw their existing proposed rule regarding the waters of the United States and propose a new rule with additional stakeholder feedback.	This bill has passed the House. The Senate is currently considering their own version (mentioned above) but might pivot to this bill since the EPA and Army Corps have finalized the rule. Republicans will probably unanimously support the bill, but it will take support from western Democrats to overcome

Innovative Federal Strategies LLC

			procedural hurdles.
n/a	Rep. Paul Ryan or Senator Orrin Hath	Tax Reform Legislation specific to municipal bond preferential tax status.	There is currently no broad tax reform package up for consideration, but we suspect talk will continue as Congress looks at a long- term highway and transit funding bill.

From: Michael Boccadoro
President

RE: May Legislative Report

Overview:

May was dominated by budget and fiscal discussions and negotiations. The Governor released his May Revise, which includes updated revenues after April tax receipts, and budget sub-committees met multiple times to discuss budget items and budget trailer bills. Budget trailer bills are policy changes incorporated into the budget and this year, include a significant number of water-related budget measures. They range from giving the State Water Resources Control Board greater authority to levy more stringent penalties on violators, requiring new multi-unit structures to have sub-meters, requiring larger agencies consolidate with smaller, struggling agencies in certain circumstances and other significant items.

On the energy side, the state's major utilities have proposed their own plan to meet the Governor's Executive Order to reduce greenhouse gas levels to 40 percent below 1990 levels by 2030. The utilities, both investor and municipally owned, do not want the Renewable Portfolio Standard (RPS) to be extended, but rather, want the ability to create their own "Clean Energy" portfolio composed of energy efficiency, demand response, energy storage and other measures rather than just adding more solar onto the grid, as they believe extending the RPS would yield.

On May 28 both the Assembly and Senate Appropriations committees met to consider their respective Suspense Files. Suspense Files are all the bills that will have significant fiscal implications and are considered in one marathon hearing of hundreds of bills in both houses. The Senate Suspense file contained funding requests totaling over \$13 billion. The Senate considered 283 and the Assembly considered 427 bills. Both houses will now focus on passing bills off their respective floors as the house of origin deadline is on June 5.

With the May 28 swearing in of Democratic Senator Steve Glazer, all 40 seats in the Senate are occupied. Senator Glazer fills the vacancy left by Senator Desaulnier moving to Congress. The new Senator has an environmental and education background and spent time as a key political advisor to Governor Brown.

Inland Empire Utilities Agency Status Report – May 2015

Budget

The Governor released the May Revise in mid May. The May Revise is the adjusted budget after April tax receipts are received. The Governor added \$7 billion in additional spending and included over \$2.1 billion in drought relief funds. The funds are proposed as follows:

Governor’s May Revision Drought Package

Department	Purpose	\$ in millions	Fund Source
Water Conservation			
DWR	Urban water conservation	\$56	Proposition 1
DWR	Agricultural water conservation	42	Proposition 1
CDFA	Agricultural energy and water reduction projects	40	Cap-and-trade
CEC	Water efficient appliance rebates	30	Cap-and-trade
CEC	Water and energy technology program	30	Cap-and-trade
DWR	Water energy grant programs	20	Cap-and-trade
DGS	Water conservation in state buildings	15	GF/SF
CDCR	Energy efficiency projects at prisons	8	Cap-and-trade
DWR	Save Our Water campaign	4	GF
		Subtotal, Water Conservation (\$245)	
Other Proposition 1 Infrastructure and Planning			
SWRCB	Groundwater cleanup projects	\$784	Proposition 1
SWRCB	Water recycling	475	Proposition 1
SWRCB	Drinking water for disadvantaged communities	180	Proposition 1
SWRCB	Wastewater treatment	160	Proposition 1
SWRCB	Stormwater projects	100	Proposition 1
DWR	Groundwater sustainability grants	60	Proposition 1
DWR	Desalination grants	50	Proposition 1
		Subtotal, Other Proposition 1 (\$1,809)	
Emergency Drought Response			
CalFire	Enhance fire protection	\$62	GF/SF
OES	Drinking water delivery	22	GF
DWR	Removal of emergency rock barriers	22	GF
CSD	General assistance to migrant farm workers	8	GF
HCD	Move households without potable water	6	GF
SWRCB	Implement executive order	1	GF
		Subtotal, Emergency Drought Response (\$121)	
Total \$2,175			

DWR = Department of Water Resources; CDFA = California Department of Food and Agriculture; CEC = California Energy Commission;

DGS = Department of General Services; GF = General Fund; SF = special fund; CDCR = California Department of Corrections and Rehabilitation; SWRCB = State Water Resources Control Board; CalFire = California Department of Forestry and Fire Protection; OES = Office of Emergency Services; CSD = Community Services and Development; and HCD = Housing and Community Development.

In addition to the May Revise, there are an unusually high number of budget trailer bills under consideration this year in the water and resources issue area. Budget trailer bills are separate from the main budget bill and increasingly contain significant policy changes.

The trailer bills include:

Drought- Expanded Local Enforcement Authority:

- Allows local water agencies to enforce water conservation ordinances.
- Authorized up to \$10,000 for first violation (and no more penalties for 30 days)—SWRCB is only \$500/day. Intent is to get those really bad actors (example: people stealing water in Santa Barbara, not for people who water their lawns on the wrong day)
- Wholesalers can enforce violations against their retail agencies

Drought Monitoring and Reporting

- Diversions in excess of 10 AF/YR must have a measuring device for reporting. Provision in place beyond “Drought Emergency Period”
- Only applies to Water Code Section 1846—not to illegal diversions or violators of cease and desist orders

Drought Water System Consolidation

- Authorizes the SWRCB to require consolidation under certain limited circumstances.
 - This item has brought significant concern about the agency who would be the one absorbing the smaller agency being liable for past violations. MWD, ACWA and others have been working with the administration to resolve these issues to ensure that the agency absorbing another agency will have appropriate liability protections.

Drought Submetering

- This is the language in SB 750 (Wolk) from last year that died and expected to be amended into her current SB 7 (Wolk).
- Requires submeters in NEW multi-unit structures.
- Concerns about billing, meter reading and installation of submeters from water agencies.
- Other concerns about when a “remodel” would trigger having to add submeters in already constructed buildings.

Groundwater Well Permits- CEQA Exemption for Local Ordinances for Groundwater Protection.

- Legislative findings that would clarify that local governments may regulate groundwater pursuant to their police power (ie. health and safety).
- Exempts “groundwater protection ordinances” from CEQA—goal is to prevent CEQA lawsuit delays.

Drought Stormwater Plans

- Allows the SWRCB's guidelines for stormwater resource plans subject to the same expedited process and rulemaking as Prop 1 guidelines to avoid delays of Administrative Procedures Act rulemaking process.

CEQA Exemption for Drought Mitigation

- The Public Resources Code exempts projects responding to a drought disaster for which a state of emergency has been called because "drought" is not included in the litigated definition of "state of emergency."
- This would exempt certain drought relief projects that are approved during a declared state of emergency. There is no written list, but some of the projects discussed in committee include CEQA exemptions for recycled water pipeline in existing rights of way.

CEQA Exemption for Building Code Provisions Regarding Plumbing for Recycled Water

- AB 2282 (Gatto, 2014) required the Building Standards Commission and Housing Community Development to study dual plumbing for recycled water.
- This provision would exempt the study from having to go through CEQA.

These measures will likely be consolidated into one single budget trailer bill.

Utility Clean Energy Proposal

California's five major utilities, Southern California Edison, Pacific Gas & Electric, Sempra Utilities, Sacramento Municipal Utility District and Los Angeles Department of Water & Power have joined together to offer an alternative to the proposal to increase the state's Renewable Portfolio Standard (RPS) to 50 percent renewable power by 2030.

Their proposal requires the California Air Resources Board (CARB) to set specific greenhouse gas (GHG) reduction targets for the electric utility sector and individual utilities, and then allow each utility to implement a set of measures- in addition to procuring more renewable power- such as energy efficiency investments, transportation electrification initiatives and distributed generation programs to help achieve the new carbon-reduction targets.

The utilities cite the difficulty of integrating that much more renewable power into the grid as reason to support a clean energy standard rather than increasing the RPS.

Environmentalists, renewable power generators and others have expressed that the state should continue with the RPS program put in place.

Glazer Sworn in in the Senate

The final member of the Senate was sworn in on May 28. Senator Steve Glazer won a hotly contested Democrat versus Democrat race against Assemblymember Susan Bonilla by ten points to fill the seat vacated when Senator Desaulnier moved to Congress. With Senator Glazer officially sworn in by Governor Brown, the final count in the Senate is 26 Democrats and 14 Republicans.

Senator Glazer previously served as a city council member and three-time mayor of Orinda. A lifelong environmental advocate, Senator Glazer led efforts that raised hundreds of millions of dollars to permanently protect open space in California and 25 other states.

Senator Glazer served as a senior advisor to Governor Brown and top campaign consultant and was appointed as an California State University Trustee. He has yet to be named to any committees.

Legislative Update

The Legislature worked in their respective appropriations committees to pass bills to the floor before the May 29 deadline. They will now work to pass bills out of their house of origin before the June 5 deadline.

IEUA 2015 State Legislation Tracking Matrix-- POSITIONS

Bill	Author	Subject	Status	Description	IEUA Position	Notes
AB 143	STONE (R)	Diamond Valley Reservoir: recreational use.		Current law, with certain exceptions, prohibits recreational use, in which there is bodily contact with water, in a reservoir in which water is stored for domestic use and establishes water standards for those exempted reservoirs. This bill would exempt from this prohibition recreational activity in which there is bodily contact with water by any participant in the Diamond Valley Reservoir if certain standards are met. This bill contains other related provisions.	Oppose	Bill was made a two-year bill.
SB 75	Budget Committee	Emergency Drought Appropriations	Held in Assembly	Emergency Drought Expenditures	Support	The Emergency Drought bills were passed in separate vehicles, ABs 91 & 92, contained the same language as SB 75
