BACKGROUND

A Budget vs. Actual Report for the period July 1, 2017 through February 28, 2018 is provided to keep all members apprised of the total revenues and expenses for the current fiscal year. The expense section is categorized into four distinct sections. Those sections are: General and Administrative Expenses; Optimum Basin Management Program Expenses; Project Expenses; and Other Income/Expenses. The Budget vs. Actual report has been created from Intuit QuickBooks Enterprise Solutions 18.0, the Watermaster accounting system. The Budget vs. Actual report provided, balances to the supporting documentation in the Watermaster accounting system, as well as the supporting bank statements.

DISCUSSION

CURRENT MONTH – FEBRUARY 2018

Year-To-Date (YTD) for the eight months ending February 28, 2018, all but five categories were at or below the projected budget. The categories over budget were (1) Administration Salary/Benefits expenses (6010's) which were over budget by \$54,561 or 8.0% as a result of increased staff time and activities in the administrative functions. Please note that the overage is only in the administrative section, not with the entire consolidated staffing budget; (2) Watermaster Legal Services expenses (6070's) over budget by \$117,995 or 93.8% as a result of miscellaneous legal matters as detailed in the BHFS section; (3) Agricultural Pool Legal Services (8467's) over budget by \$45,028 or 32.9% as a result of increased legal services performed during the months of July 2017 through February 2018; (4) Production Monitoring expenses (7101's) over budget by \$1,387 or 3.8% as a result of increased staff time and activities in this area and (5) PE 8&9-Storage Management/Conjunctive Use expenses (7600's) over budget by \$174,513 or 81.5% as a result of a two-year Engineering project which was originally budgeted and approved for \$182,207 for FY 2017/18 during the budgeting process. Due to specific deadlines, Watermaster has requested the timeline be pushed forward and it's now understood that the total two-year expenses of \$502,408 could be spent within the FY 2017/18 period.

For the majority of the expense categories within the Watermaster budget for FY 2017/18, the individual line-item budgets are divided into 12-monthly amounts and allocated accordingly. As the fiscal year progresses, these categories listed above might level out over time and be within the budget levels.

Overall, the Watermaster (YTD) Actual Expenses were \$8,136,707 or 60.8% below the (YTD) Budgeted Expenses of \$13,382,669.

Budget Amendment Form A-18-03-01 in the amount of \$392,216 is being presented for approval during the April 2018 Pools, Advisory and Board meetings regarding two specific budget amounts. The first budget amount of \$320,201 is proposed to increase the PE 8&9 Storage Management/Conjunctive Use budget (account 7602) from \$182,207 to \$502,408 as a result of a two-year Engineering project which was originally budgeted and approved for \$182,207 for FY 2017/18 during the budgeting process. Due to specific deadlines, Watermaster has requested the timeline be pushed forward and it's now understood that the total two-year expenses of \$502,408 could be spent within the FY 2017/18 period. The budget shortfall of \$320,201 ($\$502,408 - \$182,207 = \$320,201$) was presented and discussed as part of the FY 2017/18 Mid-Year Review at the March 15, 2018 Advisory meeting and March 22, 2018 Board meeting. There were no Pool meetings held in March 2018.

The second budget amount of \$72,015 is for the SCADA Installation, Monitoring and Reimbursement Letter Agreement between Watermaster, Monte Vista Water District, and Wildermuth Environmental, Inc., effective September 28, 2017 Pursuant to the recommendation of the Groundwater Level Monitoring Committee, the Chino Basin Watermaster, through its contract with consultant Wildermuth Environmental Inc., wishes to develop a more extensive supervisory control and data acquisition (SCADA) groundwater level monitoring system in the Monte Vista Water District (MVWD) service area. In order to do so, MVWD will permit the installation of SCADA equipment to several of its wells and integration of the equipment into its existing SCADA system. This project was not included or funded through the FY 2017/18 budget which was approved on May 25, 2017. The SCADA Installation, Monitoring and Reimbursement Letter

Agreement, signed by Chino Basin Watermaster, Monte Vista Water District, and Wildermuth Environmental, Inc., is effective September 28, 2017 through June 30, 2020. General Ledger account (7107.63) will be created in FY 2017/18 to capture the expenses associated with this activity.

The additional funding of \$392,216 would come from the OBMP Reserve Fund which currently has an available balance of \$945,874. For more information on Budget Amendment Form A-18-03-01, please see Business Item II.A.

CURRENT MONTH – FEBRUARY 2018

As of February 28, 2018, the total (YTD) Watermaster salary expenses were \$73,281 or 6.1% below the (YTD) budgeted amount of \$1,191,690. The overall staffing budget was developed with a staffing level of ten Full-Time Equivalents (FTE's), and staffing is currently at nine Full-Time Equivalents (FTE's). The position of Water Resources Associate remains vacant and could be recruited in the future as the work demands increase.

Watermaster utilizes an in-house database time and attendance system to track and record staff's actual hours worked and records those hours to a specific project or activity. This time and attendance database of captured staff hours and activities is the basis for the bi-weekly payrolls which are processed using an external payroll processing service. Watermaster staff can record time to a large number of activities but the five most used categories are as follows (1) General Administrative activities; (2) Paid Leaves of vacation, sick or holiday; (3) Pools, Advisory or Board Meeting attendance; (4) OBMP activities; and (5) OBMP Implementation Program Elements 1 through 9 activities.

When the FY 2017/18 budget was developed, basic assumptions were used in allocating how staff's time would be spent and on which of the projects or activities. The staffing dollars were then allocated into those specific areas and budgeted on a 1/12 monthly budget. When actual staffing activities vary from the budgeted assumptions, a positive or negative variance can be created. Currently, the allocations are tracking within budget.

The table summarizes the Year-To-Date (YTD) Actual Watermaster salary costs compared to the Year-To-Date (YTD) Budget as of February 28, 2018. Please be advised that the "\$ Over Budget" and the "% of Budget" columns are a comparison of the (YTD) Actual to the (YTD) Budget, not the 12-month Annual Budget. BROWNSTEIN HYATT FARBER SCHRECK EXPENSES

CURRENT MONTH – FEBRUARY 2018

As of February 28, 2018, the total (YTD) Watermaster Legal Services expenses (consolidating the three categories of Watermaster Administrative Legal Services, Pool/Advisory/Board Meeting legal expenses, and OBMP legal expenses) were \$67,162 or 10.3% below the (YTD) budgeted amount of \$649,842.

The Watermaster Legal Services budget was developed jointly by the Watermaster staff and Brownstein Hyatt Farber Schreck staff with specific assumptions regarding the tasks and legal activities that would occur during FY 2017/18. The total legal services budget was developed by multiplying the number of hours that would be required to complete the specific tasks by the hourly rate. The “Approved” budget was adopted for the original amount of \$964,783.

ENGINEERING SERVICES - OBMP IMPLEMENTATION PROJECTS COSTS
WILDERMUTH ENVIRONMENTAL, INC.

CURRENT MONTH – FEBRUARY 2018

As of February 28, 2018, the total (YTD) Engineering Services expenses were \$1,062,308 or 38.5% below the (YTD) budget amount of \$2,756,017. The OBMP Implementation Projects (consolidated accounts 7100's – 7700's) were all under budget as of February 28, 2018, with the exception of Groundwater Level Monitoring-Engineering Services expenses (7104.3), PE6&7-Cooperative Efforts/Salt Management expenses (7502), and PE 8&9-Storage Management/Conjunctive Use expenses (7602).

The Groundwater Level Monitoring-Engineering expenses (7104.3) were over budget by \$9,687 or 7.1% as a result of continued measurement activities from about 150 wells along with their related subtasks. This category is projected to level out over the next few months.

PE 6&7-Cooperative Efforts/Salt Management account (7502) was over budget by \$20,054 or 36.3% as a result of continuing efforts by the engineering staff to attend water-quality meetings, provide technical support on the Chino Airport, South Archibald, and other plumes, and prepare the draft Maximum Benefit Annual Report for 2017 which is due to the Regional Board on April 15, 2018. This category is projected to be over budget by approximately \$31,141 according to the 2nd quarter ECAC report issued as of December 31, 2017.

PE 8&9-Storage Management/Conjunctive Use account (7602) was over budget by \$198,147 or 108.7% as a result of a two-year Engineering project which was originally budgeted and approved for \$182,207 for FY 2017/18 during the budgeting process. Due to specific deadlines, Watermaster has requested the timeline be pushed forward and it's now understood that the total two-year expenses of \$607,756 (depending upon the scope of work) could be spent within the FY 2017/18 period. A Budget Amendment Form A-18-03-01 is being submitted for approval in April 2018 which would provide additional funding of \$320,201 for this activity.

Wildermuth Environmental, Inc. provides Watermaster an Estimated Cost at Completion (ECAC) report each quarter. The purpose of this ECAC report is to update Watermaster on whether or not the Engineering Services budget will be above or below budget at the end of the fiscal year. If the Engineering Services budget is expected to be above budget at fiscal year-end, a Budget Amendment or Budget Transfer Form would need to be approved to ensure funding.

The third ECAC report is scheduled to be issued in mid-May 2018 for the period July 1, 2017 through March 31, 2018.

Watermaster does not plan to present any Budget Transfers at this time.

The table listed below summarized the Year-To-Date (YTD) Actual Wildermuth Environmental, Inc., (WEI) and other Engineering costs compared to the Year-To-Date (YTD) Budget as of February 28, 2018. Please be advised that the "\$ Over Budget" and the "% of Budget" columns are a comparison of the (YTD) Actual to the (YTD) Budget, not the 12-month Annual Budget. The 12-month Annual Budget column is presented only to provide the data in a full and complete format. The following details are provided:

PREVIOUSLY REPORTED ACTIONS (Descending Order)

December 2017:

The second ECAC report for the current fiscal year has been provided for the period ending December 31, 2017 and shows a projected over budget at fiscal year-end June 30, 2018 of \$407,335. The majority of the projected budget overage is in the Storage Management/Conjunctive Use expenses (7602). This activity was originally developed and designed as a two year-project and budgeted accordingly during the FY 2017/18 budgeting process. Due to specific deadlines, Watermaster has requested the timeline be pushed forward and the total budget for this fiscal year is projected at \$344,081 (or more depending upon the scope of work). If the activities are being completed earlier than projected, a Budget Amendment during FY 2017/18 would need to be presented for approval to continue the funding.

Watermaster does not plan to present any Budget Transfers or Budget Amendments at this time.

The Fiscal Year 2017/18 Progress and Estimated Cost at Completion for the Period July 1, 2017 through December 31, 2017 report from Wildermuth Environmental, Inc. is provided. Please access this link:

<http://www.cbwm.org/FTP/ECAC%20Reports/2017-18%202nd%20Quarter%20Narrative%20Review%20July%201,%202017%20to%20December%2031,%202017.PDF>

The third ECAC report is scheduled to be issued in mid-May 2018 for the period July 1, 2017 through March 31, 2018.

November 2017:

The first ECAC report for the current fiscal year has been provided for the period ending September 30, 2017 and shows a projected over budget at fiscal year-end June 30, 2018 of \$117,029. The majority of the projected budget overage in the amount of \$161,874 is in the Storage Management/Conjunctive Use expenses (7602). This activity was originally developed and designed as a two year-project and budgeted accordingly during the FY 2017/18 budgeting process. Due to specific deadlines, Watermaster has requested the timeline be pushed forward and the total budget for this fiscal year is projected at \$344,081. If the activities are being completed earlier than projected, a Budget Amendment during FY 2017/18 would need to be presented for approval to continue the funding.

The other category projected to be over budget by the amount of \$36,631 at June 30, 2018 is the expenses related to Update IEUA's Recycled Water Permits/Maximum Benefit Salinity Management Plan for the Chino Basin expenses (7510). This category could be funded through a Budget Amendment, as described above, or through a Budget Transfer. As an offset to the accounts projected to be over budget, there are also some activities that are projected to be under budget at fiscal year-end June 30, 2018.

Watermaster does not plan to present any Budget Transfers or Budget Amendments at this time.

The Fiscal Year 2017/18 Progress and Estimated Cost at Completion for the Period July 1, 2017 through September 30, 2017 report from Wildermuth Environmental, Inc. is provided. Please access this link:

http://www.cbwm.org/FTP/ECAC%20Reports/2017-18%201st%20Quarter%20Narrative%20Review_July%2017,%202017%20to%20September%2030,%202017.PDF

The second ECAC report is scheduled to be issued in mid-February 2018 for the period July 1, 2017 through December 31, 2017.

July 2017:

The breakdown of the total Task Order amount of \$3,683,730 includes direct labor costs for Wildermuth Environmental, Inc. (55.9%) along with other direct charges such as equipment rental, laboratory fees, travel costs, reproduction costs, and outside professional services (44.1%).

The approved "Original" Engineering Services budget of \$3,683,730 was increased by "Carry Over" funding in the amount of \$193,107 to the "Amended" amount of \$3,876,837 for FY 2017/18 as provided in the Engineering Services Task Order. All of the "Carry Over" funding is for projects or activities that have bridged previous fiscal years and are expected to be completed in the FY 2017/18 timeframe or future years. The Carry-Over amount of \$193,107 from FY 2016/17 to the FY 2017/18 budget are provided in detail as follows:

- 7107.2 Ground-Level – Engineering Services of \$20,702. This budget was for work to identify and install a new horizontal extensometer in the Managed Area. This work was not performed in FY 2016/17 because the GLMC did not recommend the installation of a horizontal extensometer as of yet, and may not recommend the installation in FY 2017/18. The budget is recommended to be carried over because the GLMC may recommend the use of this budget in FY 2017/18 to install additional benchmark monuments across the historical fissure zone for monitoring of ground motion via traditional leveling surveys and electronic distance measurements.
- 7107.6 Ground-Level – Contract Services of \$24,196. This budget was for Outside Professional services to assist with identifying and installing a new horizontal extensometer in the Managed Area. This work was not performed in FY 2016/17 because the GLMC did not recommend the installation of

a horizontal extensometer as of yet, and may not recommend the installation in FY 2017/18. The budget is recommended to be carried over because the GLMC may recommend the use of this budget in FY 2017/18 to install additional benchmark monuments across the historical fissure zone for monitoring of ground motion via traditional leveling surveys and electronic distance measurements.

3. 7108.31 HCMP – Engineering Services for \$6,000. This carryover budget is for finalizing the 2016 Annual Report of the PBHSC, including responding to comments from the state and federal Fish and Wildlife departments.
4. 7402.1 OBMP Engineering Services Northwest MZ-1 for \$142,209. This carryover budget is for work not performed in FY 2016/17 including: (i) finalizing the Categorical Exemption for the Pomona Extensometer to comply with CEQA; (ii) support for preparation of the bid package for selection of the drilling contractor; (iii) support for the bid and contractor selection; (iv) updating the SCADA systems for MVWD and City of Pomona to collect high-resolution production and water-level data; and (v) finalizing the reports on the hydrogeology of the Northwest MZ-1 Area and the modeling of subsidence management alternatives. All of this work will be completed in FY 2017/18.

PRADO BASIN HABITAT SUSTAINABILITY PROGRAM

Ongoing Costs

Program costs that are ongoing (Ongoing Costs) will be cost-shared between Watermaster and IEUA, split on a 50/50 basis, subject to the following limitation: in each fiscal year, neither Watermaster nor IEUA shall be obligated to reimburse the other for Ongoing Costs that exceed the amount that the reimbursing party has budgeted for Ongoing Costs in that fiscal year, except as agreed upon by both parties in writing or as amended during the fiscal year. The first year expenses (FY 2016/17) to be cost shared is approximately \$300,000, with projected future years (FY 2017/18 and forward) estimated at approximately \$150,000. For the purposes of the agreement, Ongoing Costs are defined as the costs associated with the following Program activities:

1. A Riparian Habitat Monitoring Program, including, but not limited to, the following sub-tasks:
 - a. Design and implement a site-specific vegetation monitoring program with the United States Bureau of Reclamation (USBR) and Orange County Water District, pursuant to which USBR will perform site-specific vegetation surveys.
 - b. Manage and perform custom flight to collect a high resolution air photo of the Prado Basin Region.
 - c. Collect, check, and upload historical air photos and vegetation survey data in the Prado Basin region.
 - d. Collect, check, and upload historical Landsat data in the Prado Basin region.
2. A Climate Monitoring Program, including, but not limited to, the following sub-task:
 - a. Collect, check, and upload climatic data on an annual basis
3. Preparation of the AMP Annual Report (Annual Report), including, but not limited to, the following sub-tasks:
 - a. Water level monitoring, vegetation survey, photo monitoring, landsat data, climate data and analysis of the components.
 - b. Analyze data and prepare an administrative draft of the Annual Report for Watermaster/IEUA.
 - c. Incorporate the Watermaster and IEUA comments and prepare a draft Annual Report for review by the PBHSC.
 - d. Meet with PBHSC to review draft Annual Report.
 - e. Incorporate PBHSC comments and finalize the Annual Report.
4. Annual license fees for monitoring wells.
5. Project management and administration activities associated with the Program undertaken by a Party's consultant, including, but not limited to, the following sub-tasks:

- a. Ad-Hoc Meetings
- b. Preparation of scope and budget for the Program
- c. Project administration and financial reporting

6. Other costs required to fulfill the requirements of Peace II Subsequent EIR mitigation measure 4.4-3.

Watermaster shall be responsible for the costs associated with the Groundwater Level Monitoring Program, Groundwater Quality Monitoring Program, and Surface Water Monitoring Program.

Watermaster and IEUA shall each have responsibility for its own administrative costs, excluding the tasks and expenses included under Set-Up Costs and Ongoing Costs.

Watermaster and IEUA will meet to review the cost-sharing structure under this agreement and negotiate necessary adjustments in good faith on at least an annual basis.

The Peace II SEIR does not explicitly state a duration for the monitoring and mitigation program. It is logical to assume that the program will last until the drawdown impacts, if any, on the riparian habitat from Peace II activities are fully manifested and not predicated to worsen, and that mitigation measures, if any are required, are fully implemented. This is not a perpetual agreement. Upon termination of the monitoring and any necessary mitigation obligations, the parties may elect to terminate the cost share agreement.

July 2017:

Start-up Costs

The Prado Basin Habitat Sustainability Program came about as a result of the Peace II Agreement SEIR mitigation measure 4.4-3 and was adopted by IEUA's Board in October, 2010. The purpose of the mitigation measure was to ensure that the Prado Basin riparian habitat was not impacted by Hydraulic Control. The basic program tasks were to convene a committee that would develop this adaptive management plan, to install necessary monitoring wells, to complete vegetation and aerial surveys, and to implement photo station monitoring. In terms of the financial aspects of this program, there was a cost sharing agreement, which was approved by the Watermaster Board in September, 2012 for a total budget of \$440,000. The cost sharing agreement between IEUA and Watermaster was increased from \$220,000 to \$300,000 effective August 22, 2013 with the approval of the Watermaster Board. The increase from \$220,000 to \$300,000 was to reflect a change in the consultant preparing the Adaptive Management Plan. On August 25, 2016, the cost sharing agreement between IEUA and Watermaster was increased from \$300,000 to \$385,000 (\$770,000 x 50% = \$385,000) with the approval of the Watermaster Board. A number of issues associated with the drilling of the monitoring wells (unavailable locations requiring negotiation of new easements, nesting season limitations, etc.), increased the cost of the construction of the 16 wells. The majority of the additional costs were due to extended construction management, additional easement fees, and environmental reporting for the pre- and during construction time period. The associated increase in cost was \$170,000, changing the total amount from \$600,000 to \$770,000.

The agreement was a 50/50 cost sharing agreement between Watermaster and IEUA with a not to exceed amount of \$385,000 for each party. Included in that cost was hiring a consultant to develop the adaptive management plan, WEI performing the project management tasks related to the monitoring well installation, hiring a contractor to construct and install up to seventeen monitoring wells at nine separate sites, and United States Bureau of Reclamation performing vegetation monitoring every three years. Grants had been applied for to offset the cost of this program; however, the Grants were not approved.

"CARRY OVER" FUNDING

BACKGROUND OF "CARRY OVER" FUNDING

Once the FY 2016/17 period as of June 30, 2017 was closed, the amount of unfinished capital projects and related engineering costs was calculated and the "Carry Over" funding amount was added to the current FY 2017/18 budget. The Total "Carry Over" funding amount of \$4,119,779.24 was posted to the accounts as of July 1, 2017. The total amount of \$4,119,779.24 consisted of \$3,926,672.24 from Capital Improvement Projects and \$193,107 from Engineering Services.

CURRENT MONTH – FEBRUARY 2018

As of February 28, 2018, the total (YTD) amount remaining of the "Carried Over" funding is \$3,710,060.46 (\$4,119,779.24 - \$409,718.78 = \$3,710,060.46).

ENGINEERING SERVICES:

Unspent funds related to ongoing projects and associated activities from the Engineering Services budget from FY 2016/17 in several accounts totaling \$193,107 were "Carried Over" into the current FY 2017/18 budget. These funds were from the Ground Level - Engineering Services [A] in the amount of \$20,702 in account (7107.2); Ground Level - Contract Services [B] in the amount of \$24,196 in account (7107.6); Hydraulic Control-Engineering - PBHSP [C] in the amount of \$6,000 in account (7108.31); and PE4-Northwest MZ-1 Area Project [D] in the amount of \$142,209 in account (7402.10).

COMPLETED PROJECTS WITH FUNDING AVAILABLE:

Several projects were completed during FY 2016/17 or in prior years and have remaining funds available to be either (1) transferred to other project(s) that need additional funding, (2) keep amounts on reserve for future Capital Improvement Projects, or (3) refunded back to the Appropriative Pool when the Assessment package is invoiced. The funding amounts available are as follows: Jurupa Pumping Station [E] in the amount of \$37,981.33 (account 7209.1); Wineville Basin Proof of Concept [F] in the amount of \$35,397.53 (account 7209.2); East Declez Basin [H] in the amount of \$1,171.33 (account 7690.16); Hickory Basin Recharge Improvement Project [I] in the amount of \$3,877.00 (account 7690.3); and CB20 Turnout Noise Abatement Project [K] in the amount of \$859.80 (account 7690.5). The total amount available is \$79,286.99 ($\$37,981.33 + \$35,397.53 + \$1,171.33 + \$3,877.00 + \$859.80 = \$79,286.99$).

ONGOING RECHARGE IMPROVEMENT PROJECTS:

The RMPU Amendment-Task Order #1 [G] has a remaining budget from FY 2016/17 of \$1,205,263.30 in account (7690.15); the San Sevaine Recharge Improvement Project-Task Order #8 [J] has a remaining funded budget balance of \$2,318,351.95 in account (7690.4); the GWR SCADA Upgrades-Task Order #4 [L] has a remaining funded budget balance of \$173,290.86 in account (7690.61); the Upper Santa Ana River HCP-Task Order #7 [M] has a remaining funded balance of \$37,836.88 in account (7690.7); and the Lower Day Basin RMPU-Task Order #2 [N] has a remaining funded budget balance of \$112,642.26 in account (7690.8). The total funded budget for these combined projects is \$3,847,385.25.

As invoices are received from the vendors and booked against these items listed above, the "Carried Over" balance will be reduced throughout the current fiscal year. At June 30, 2018, any remaining balances of the FY 2017/18 and prior years funding (if any), along with any new FY 2017/18 expenses, will then be "Carried Over" into the FY 2018/19 budget.

ASSESSMENT INVOICING

CURRENT MONTH – FEBRUARY 2018

To date, all assessment invoice payments have been received. No Assessment activity for the month to report.

PREVIOUSLY REPORTED ACTIONS (Descending Order)

December 2017:

The Watermaster Board approved the FY 2017-2018 Assessment Package (Production Year 2016-2017) at the November 16, 2017 meeting. Watermaster staff created and emailed the Assessment invoices on Thursday, November 16, 2017. The Assessment invoices were due 30 days from invoice date, with all payments to be received by Watermaster on or before the close of business at 5:00pm on Monday, December 18, 2017. As in prior years, payments could be made by either check or wire transfer. As of December 18, 2017 at 5:00pm, all but two payments had been received. The two late payments were both received on December 21, 2017. On December 22, 2017 the late fees totaling \$47.34 (\$39.90 and \$7.44) were invoiced. Both late fee payments have been received as of January 26, 2018.

November 2017:

The Watermaster Board approved the FY 2017-2018 Assessment Package (Production Year 2016-2017) at the November 16, 2017 meeting. Watermaster staff created and emailed the Assessment invoices on Thursday, November 16, 2017. The Assessment invoices were due 30 days from invoice date, with all payments to be received by Watermaster on or before the close of business at 5:00pm on Monday, December 18, 2017. As in prior years, payments could be made by either check or wire transfer. As of December 18, 2017 at 5:00pm, all but two payments had been received. The two late payments were both received on December 21, 2017. On December 22, 2017 the late fees totaling \$47.34 (\$39.90 and \$7.44) were invoiced.

October 2017:

The Watermaster Board approved the FY 2017-2018 Assessment Package (Production Year 2016-2017) at the November 16, 2017 meeting. Watermaster staff created and emailed the Assessment invoices on Thursday, November 16, 2017. The Assessment invoices are due 30 days from invoice date, with all payments to be received by Watermaster on or before the close of business Monday, December 18, 2017. As in prior years, payments can be made by either check or wire transfer.

This year's Assessment invoicing included the standard Assessment amounts per the Assessment Package, along with any Special Assessments and the "Excess Cash Reserve" refund credits. The Appropriative Pool had a Special Assessment of \$75,000 as approved during the budgeting process. The \$75,000 was allocated to the Appropriative Pool members based upon a prorated formula of 50% Operating Safe Yield (OSY) and 50% physical production numbers from FY 2016/17.

The Non-Agricultural Pool had a Special Assessment of \$60,000 as approved during a Confidential Session on April 13, 2017. The \$60,000 was allocated to the Non-Agricultural Pool members based upon the actual production numbers from 2016/17.

For this fiscal year, there were no refunds due regarding the Excess Cash Reserve refunds to the Appropriative Pool members and the Non-Agricultural Pool members. The Excess Cash Reserve-Recharge Debt Payment refund of \$78,397 was refunded to the Appropriative Pool members based upon the pro rata share of FY 2016/17 Recharge Debt Assessments paid. The refunds were applied as credits on the Assessment invoices and allocated based upon last year's percentage of assessments paid.

Also please note that the Recharge Improvement Project budget of \$2,839,000 was not part of the assessment invoicing. Watermaster did not invoice for the recharge improvement project assessment of \$2,839,000 at this time, because it appears there is a good probability that State Revolving Fund loan monies would be made available before the money was spent by IEUA. In case there is need to pay IEUA for project expenses before loans are secured, a special assessment would be recommended.

September 2017:

The Assessment Year 2017-2018 Package (Production Year 2016-2017) is scheduled for presentation to the Appropriative Pool and Non-Agricultural Pool at the November 9, 2017 meetings; the Agricultural Pool on November 13, 2017; and approval by the Advisory Committee and adoption by the Watermaster Board at the November 16, 2017 meetings.

Once the Watermaster Board adopts the Assessment Package, Watermaster staff intends to create and email the Assessment invoices on Friday, November 17, 2017. The Assessment invoices are due 30 days from invoice date, with all payments to be received by Watermaster on or before the close of business Monday, December 18, 2017. As in prior years, payments can be made by either check or wire transfer

STAFF REPORT

DATE: April 19, 2018
TO: Advisory Committee Members
SUBJECT: Budget Amendment Form A-18-03-01

SUMMARY

Issue: As a result of (1) a two-year Engineering Services Storage Management project which, for a variety of reasons, is now underfunded by \$320,201 for FY 2017/18; and (2) the SCADA Installation, Monitoring and Reimbursement Letter Agreement between Watermaster, Monte Vista Water District, and Wildermuth Environmental, Inc., effective September 28, 2017 for \$72,015 which was not part of the FY 2017/18 budget. Watermaster FY 2017/18 "Amended" budget needs to be increased by an additional \$392,216.

Recommendation: Approve the Budget Amendment Form A-18-03-01 for FY 2017/18 in the amount of \$392,216 for the increased costs associated with the (1) Engineering Services Storage Management project; and (2) the SCADA Installation, Monitoring and Reimbursement Letter Agreement between Watermaster, Monte Vista Water District, and Wildermuth Environmental, Inc., effective September 28, 2017, as presented.

Financial Impact: This action will increase the overall "Amended" FY 2017/18 budget by \$392,216 but not increase the assessment calculation because the funding will be drawn from the OBMP Reserves. The Budget Amendment Form A-18-03-01 will increase the "Amended" FY 2017/18 Budget from \$11,838,698 to \$12,230,914 (excluding any Carry-Over funding).

Future Consideration

Advisory Committee – April 19, 2018: Approval
Watermaster Board – April 26, 2018: Adoption (Advisory Committee approval required)

ACTIONS:

Appropriative Pool – April 12, 2018: Unanimously approved
Non-Agricultural Pool – April 12, 2018: Unanimously approved recommendation as presented and directed the Pool representatives to support at the Advisory Committee and Watermaster Board meetings subject to changes which they deem appropriate
Agricultural Pool – April 12, 2018: Unanimously approved
Advisory Committee – April 19, 2018:
Watermaster Board – April 26, 2018:

BACKGROUND

Utilizing the Watermaster's accounting software (QuickBooks Enterprise Solutions 18.0), on a continuing basis the Watermaster staff reviews the budget vs. actual reports and ensures that adequate budget and funds are maintained. Watermaster also provides monthly financial reports to keep all members apprised of the actual and projected total expenses for the current fiscal year. Watermaster also provides a process for reallocating budget to other expense categories to provide continued funding, or amending the approved budget to ensure the categories are funded properly.

Budget Amendment Policy: If there are no budgeted funds available to transfer to the line item, the GM will submit a Budget Amendment request to the Pools, Advisory Committee, and then to the Board for formal approval. The Budget Amendment should indicate the anticipated source of funding for the approved increase.

All Budget Amendments are processed in and recorded in the accounting system.

DISCUSSION

Budget Amendment Form A-18-03-01 in the amount of \$392,216 is being presented for approval during the April 2018 Pools, Advisory, and Board meetings regarding two specific budget amounts.

The first budget amount of \$320,201 is proposed to increase the PE 8&9 Storage Management/Conjunctive Use budget (account 7602) from \$182,207 to \$502,408 as a result of a two-year Engineering project which was originally budgeted and approved for \$182,207 for FY 2017/18 during the budgeting process. The consultant costs increased due to unexpected difficulties in acquiring planning information from some parties and from the inclusion of additional baseline scenarios that were requested by the parties during workshops. Further, the engineering work was accelerated to ensure that certain information be made available to the Appropriative and Overlying Agricultural Pools to comply with the requirements of the tolling agreement among them, and to provide decision-support information to the various parties involved in the development of groundwater Storage and Recovery projects for the so-called Chino Basin Water Bank, IEUA's Proposition 1 Grant Proposal to develop a storage and recovery program in the Chino Basin, and the proposed Chino Basin storage element in the Santa Ana River Conservation and Conjunctive-Use Program (SARCCUP). The table below illustrates the change in the total effort cost and the changes in each fiscal year.

	FY 2017/18	FY 2018/19	Effort Total
Original Concept	\$182,207	\$161,004	\$343,211
Revised Concept	\$502,408	\$105,348	\$607,756
Change for FY	\$320,201	(\$55,656)	\$264,545

The potential budget shortfall in account 7602 was first documented within several sections of the B-5 financial report (as part of the Consent Calendar) for the accounting period of November 30, 2017, presented at the January 2018 meetings. Each B-5 financial report from January 2018 forward has documented the budget shortfall in account 7602.

During the March 15, 2018 Advisory Committee meeting and also the March 22, 2018 Board meeting, the Watermaster CFO reported on the FY 2017/18 Mid-Year Review for the period July 1, 2017 through and including January 31, 2018. Normally, the Mid-Year Review would have been provided to the Pools, Advisory Committee, and Board during the month of February. However, this year due to staffing reasons, the Mid-Year Review was provided at the March meetings. There were no Pool meetings held in March 2018. As discussed and presented at the Mid-Year Review, the budget shortfall in account 7602 would require a Budget Amendment.

The second budget amount of \$72,015 is for the SCADA Installation, Monitoring and Reimbursement Letter Agreement between Watermaster, Monte Vista Water District, and Wildermuth Environmental, Inc.,

effective September 28, 2017. Pursuant to the recommendation of the Ground-Level Monitoring Committee, the Chino Basin Watermaster, through its contract with consultant Wildermuth Environmental Inc., wishes to develop a more extensive supervisory control and data acquisition (SCADA) groundwater level monitoring system in the Monte Vista Water District (MVWD) service area. In order to do so, MVWD will permit the installation of SCADA equipment to several of its wells and integration of the equipment into its existing SCADA system. This project was not included or funded through the FY 2017/18 budget which was approved on May 25, 2017. The SCADA Installation, Monitoring and Reimbursement Letter Agreement, signed by Chino Basin Watermaster, Monte Vista Water District, and Wildermuth Environmental, Inc., is effective September 28, 2017 through June 30, 2020. The Agreement went through the Pool, Advisory, and Board approval process in the month of September 2017. General Ledger account (7107.63) will be created in FY 2017/18 to capture the expenses associated with this activity. If this project is not completed in FY 2017/18, any remaining funding from the \$72,015 will be carried forward into the FY 2018/19 budget.

The additional funding of \$392,216 for both items would come from the OBMP Reserve Fund which currently has an available balance of \$945,874.

The Chino Basin Watermaster "Original" FY 2017/18 budget of \$11,838,698 was approved by the Board on May 25, 2017. With the closing of the financial records for the fiscal year ended June 30, 2017, the "Carry Over" funding from FY 2016/17 and previous years has been calculated at \$4,119,779.24 which brings the "Amended" Budget for FY 2017/18 to \$15,958,477.24 ($\$11,838,698 + \$4,119,779.24 = \$15,958,477.24$). With the approval of Budget Amendment Form A-18-03-01, the "Amended" FY 2017/18 budget will become \$16,350,693.24 ($\$15,958,477.24 + \$392,216 = \$16,350,693.24$).

Describe reason for the budget amendment here: (1) The Engineering Services 2-year Storage Management/Conjunctive Use project (account 7602) was originally approved for FY 2017/18 for the amount of \$182,207. For a variety of reasons, the estimated expenses for FY 2017/18 have increased to \$502,408 resulting in a shortfall of \$320,201 (\$502,408 - \$182,207 = \$320,201). (2) The SCADA Installation, Monitoring and Reimbursement Letter between Watermaster, Monte Vista Water District, and Wildermuth Environmental, Inc., effective September 28, 2017 was not part of the FY 2017/18 budget when it was approved by the Board on May 25, 2017. Within the Ground Level Monitoring section (7107's), an account (7107.63) has been created to capture the MVWD SCADA Reimbursement costs of \$72,015, per the agreement effective September 28, 2017. A Budget Amendment Form is proposed to increase the total Watermaster budget from \$11,838,698 to \$12,230,914 (excluding any Carry-Over funding). The additional funding of \$392,216 will come from the existing FY 2017/18 OBMP Reserve Fund. Budget Amendment Form A-18-03-01 will not require a special assessment because the OBMP Reserve Fund has been previously funded by assessments in the amount of \$945,874 (OBMP FY 2017/18 budget of \$6,305,824 X 15% = \$945,874).

RE: SCADA Installation, Monitoring and Reimbursement Letter Agreement

Dear Mr. Kinsey and Mr. Wildermuth

Pursuant to the recommendation of the Groundwater Level Monitoring Committee, the Chino Basin Watermaster ("Watermaster"), through its contract with consultant Wildermuth Environmental, Inc. ("WEI"), wishes to develop a more extensive supervisory control and data acquisition ("SCADA") groundwater level monitoring system in the Monte Vista Water District ("MVWD") service area. In order to do so, MVWD will permit the installation of SCADA equipment to several of its wells and integration of the equipment into its existing SCADA system.

Watermaster, WEI and MVWD agree as follows:

1. **SCADA Equipment Installation.** MVWD shall retain SCADA Integrations to install the SCADA equipment on MVWD wells 4, 5, 19, 26, 27, 28, 30, 31, 32, 33 and 34 ("Wells"). SCADA Integrations' scope of work is more specifically defined in Exhibit A hereto.
2. **Reimbursement.** Watermaster shall reimburse MVWD for SCADA Integrations' costs incurred by MVWD in the performance of its obligations described in Section 1, above. MVWD shall transmit to Watermaster invoices with supporting documentation. Reimbursement shall be due and payable in full no later than 30 days from the date of receipt of the invoice. If Watermaster disputes any portion of an invoice, Watermaster shall furnish prompt notice of the basis for the dispute and shall pay the undisputed portion. The due date for payment of the disputed portion shall be extended 30 days to allow the Parties to resolve the disputed issue. Remittance for payment shall be made to the following:

Monte Vista Water District
 Attn: Accounts Receivable
 10575 Central Avenue
 Montclair, CA 91763
3. **SCADA Monitoring.** After the SCADA equipment has been installed and integrated, MVWD shall, on a quarterly basis, download time, pumping rates, and water levels for the Wells and provide it to Watermaster, WEI or another Watermaster designated agent. MVWD will also provide its available monthly groundwater level reads for the Wells. MVWD shall permit WEI to accompany MVWD field staff during the taking of the monthly manual groundwater level reads.
4. **SCADA Maintenance.** Should the SCADA equipment or software fall out of calibration, fail to work, or need upgrade, repair, or replacement, Watermaster shall, following consultation with MVWD, determine its course of action and pay for all third party costs and MVWD incurred costs related to that action.

5. **Term** This Agreement shall be effective from the date of its execution through June 30, 2020. MVWD, however, reserves the right, following consultation with Watermaster and WEI as to whether changes to the SCADA system might be made to eliminate negative impacts and to cancel, at any time and at its sole discretion, any SCADA installation that negatively impacts MVWD's operation of a particular well facility.
6. **Enforceability**. The terms of this Agreement shall be governed by and construed in accordance with the laws of the State of California.
7. **Indemnification**. Watermaster, WEI and their agents waive all claims against MVWD, its officers, agents, and employees, for loss or damage caused by, arising out of, or in any way connected with the exercise of this Agreement, and Watermaster, WEI and their agents agree to protect, save harmless, indemnify, and defend MVWD, its officers, agents and employees, from any and all loss, damage or liability, including, without limitation, all legal fees, expert witness or consultant fees and expenses related to the response to, settlement of, or defense of any claims or liability which may be suffered or incurred by MVWD, its officers, agents and employees that is caused by, arises out of, or is in any way connected with Watermaster, WEI and their agents exercise of the rights hereby granted, except those arising out of the sole negligence of MVWD.
8. **Insurance**. WEI shall furnish to MVWD Insurance Certificates on MVWD approved forms with endorsements as appropriate evidencing insurance as follows:

(a) Commercial General Liability: WEI shall maintain Commercial General Liability aggregate for bodily injury and property damage and Fire Legal Liability with those limits of not less than \$1,000,000 combined per occurrence. The policy shall include coverage for liabilities arising out of premises, operations, personal and advertising injury and liability assumed under an insured contract. This insurance shall apply separately to each insured against whom claim is made or suit is brought subject to the Provider's limit of liability. The policy must include MVWD its officers, agents and employees, as additional insured, not only insofar as the operations under this Agreement are concerned.

(b) Automobile Liability: WEI shall maintain motor vehicle liability with limits of not less than \$100,000 per accident for bodily injury and property damage. MVWD, its officers, agents and employees, are to be additional insured with respect to liability arising out of all vehicles, owned, leased and non-owned.

(c) Workers' Compensation/Employer's Liability. WEI shall cover or insure the existence of coverage under the applicable laws relating to Workers' Compensation insurance, all of their employees employed directly by them or through subconsultants at all times in carrying out its rights as contemplated under this Agreement, in accordance with the "Workers' Compensation and Insurance Act" of the California Labor Code and any amendatory Acts. WEI shall provide Employer's Liability insurance with limits of at least \$1,000,000 each accident, \$1,000,000 disease policy limit, and \$1,000,000 disease each employee.

(d) MVWD shall not be liable for the payment of any premiums or assessments on the insurance coverage required by the above provisions. The certificate of insurance shall provide that the insurer will not cancel the insured's coverage without thirty (30) days prior written notice to MVWD. WEI agrees that the insurance herein provided for shall be in effect at all times during the term of this Agreement.

(e) In the event that said insurance coverage expires or is terminated at any time during the term of this Agreement, WEI agrees to provide MVWD, at least thirty (30) days prior to said expiration or termination date, a new certificate of insurance evidencing insurance coverage as provided for herein.

(f) In the event WEI fails to keep in effect, at all times, insurance coverage as herein provided, MVWD may, in addition to any other remedies it may have, immediately terminate this Agreement upon failure of WEI to cure such breach within 15 days of the giving of such notice.

(g) WEI shall require any subconsultants performing work related to this Agreement to obtain and maintain in force policies of insurance with the same coverage and limits as required of WEI hereunder, prior to commencing work on MVWD property.

Sincerely,

CHINO BASIN WATERMASTER

Water Resources Updates

MWD:

- IEUA was informed by MWD that the Rialto pipeline will require an 8-day shutdown in April to address pipe leaks. The shutdown is scheduled for April 23rd thru the 30th. MWD will develop regional messaging materials to assist in reducing water demands.
- CalWater Fix: MWD had a workshop to discuss various levels of investment into Cal WaterFix. The current phased project approach will require MWD to contribute \$5.3 billion. If MWD wanted to secure additional WaterFix capacity, they would have to contribute \$10.8 billion. Potential MWD Board action is scheduled for April 10, 2018 on this item.
- DRY YEAR YIELD (DYY): The Chino Basin DYY commitment for storage under this program is 25,000 AF/Y. From July 2017 through March 2018 the DYY program has recharged a total of 39,927.3 AF. Monte Vista Water District has injected 1,763.2 AF and intends to inject a total of 2,500. Only the ASR portion of the DYY proposition is in effect at this time. Total of 46,975.2 AF has been stored in the Chino Basin DYY account.

	Rep. Bill Shuster (R-PA) /Sens. Jim Inhofe (R-WY) and Kamala Harris (D-CA)	Infrastructure Package	<p>Throughout the month, the House Transportation and Infrastructure Committee have held a series of hearings entitled, “Building a 21st Century Infrastructure for America,” which have focused on various aspects of infrastructure, from passenger rail service to reauthoring the Federal Aviation Authorization (FAA).</p> <p>On June 7, President Trump outlined that he intends to leverage \$200 billion in direct federal funding over ten years to help stimulate \$1 trillion in investment in infrastructure. This federal funding will consist of 1) grants and loans that seek to privatize the country’s air traffic control system, 2) grants to repair bridges, road, 3) enhanced loan program with the Transportation Infrastructure Finance and Innovation Act, and 4) incentive programs with grants to states and municipalities.</p> <p>One part of the president’s plan has already been put into legislation. House Transportation and Infrastructure Committee Chairman Bill Shuster and Aviation Subcommittee Chairman Frank LoBiondo (R-NJ) introduced the FAA’s reauthorization legislation, H.R. 4441, the 21st Century Aviation Innovation, Reform, and Reauthorization (AIRR) Act, which will transfer air traffic control operations from the FAA to a private, nonprofit, 13-member board. While Representative Shuster said that the bill does not “mirror” President Trump’s infrastructure outline, he said that he considered many aspects of the proposal. Shuster has also voiced his hope that the committee will markup the legislation on Tuesday, June 27 and move to the floor in mid-July.</p>

			<p>Currently, it is unclear who will champion the bill in the other chamber. Senate Commerce, Science and Transportation Committee Chairman John Thune (R-SD) announced that the Senate's FAA reauthorization legislation will not include privatizing the air traffic control system. That said, Representative Sam Graves (R-MO), who last year voted against the 2016 FAA reauthorization bill, helped develop the legislation with Chairman Shuster.</p>
H.R. 1663	Rep. Grace Napolitano (D-CA) / Rep. Rob Wittman (R-VA)	Water Resources Research Amendments Act	<p>This legislation would extend a Federal-State partnership aimed at addressing state and regional water problems, promoting distribution and application of research results, and providing training and practical experience for water-related scientists and engineers. H.R. 1663 would authorize \$9,000,000 annually over five years for grants to water resources research institutes and require two-to-one matching with non-federal funds. It would also promote exploration of new ideas, expand research to reduce energy consumption, and bolster reporting and accountability requirements.</p> <p>The bill has been introduced in the House Committee on Natural Resources and referred to the Subcommittee on Water, Power and Oceans on March 27, 2017.</p>

It would be the fourth continuing resolution passed since the fiscal year began on Oct. 1.</p> <p>The legislation also would extend most anomalies and program extensions from the previous continuing resolutions, such as the National Flood Insurance Program.</p>

		<p>The measure would allow emergency missile defense funding provided under the last CR to be used for intelligence activities that haven't been specifically authorized by Congress.</p> <p>It also includes other anomalies that would allow funding for summer food programs for kids, NASA space exploration, the Energy Department inspector general, and small-business loans, to be apportioned at the rate needed to maintain operations and meet scheduling and other requirements. Additionally, the Housing and Urban Development Department could adjust funding for public housing agencies to administer Section 8 Housing Choice Vouchers in areas where the president declared a disaster in 2017 or 2018.</p> <p>The measure would provide \$21.5 billion for fiscal 2018 for CHIP, increasing to \$25.9 billion by fiscal 2023. The fiscal 2023 amount would come from two semiannual allotments of \$2.85 billion and an additional \$20.2 billion for the first half of the year that would remain available until expended.</p> <p>This House voted 230-197 to pass the legislation on January 18, 2018. Comprehensive Government Relations

MEMORANDUM

To: Halla Razak and Kathy Besser

From: Letitia White, Jean Denton, Shavenor Winters

Date: March 23, 2018

Re: February Monthly Legislative Update

Fiscal Year 2018 Omnibus Appropriations

On Thursday, March 22 Congress passed the FY18 Consolidated Appropriations Act. After a threat to veto, with hours before government funding ran out, President Donald Trump signed the \$1.3 trillion spending package earlier this afternoon.

Like FY17 Congress shrugged off aggressive domestic funding cuts proposed in the President's Budget Request. The agreement maintains or increases funding for key programs that are used to fund infrastructure, economic development and public safety, among others.

The measure would increase spending on the military by \$80 billion and on domestic programs by \$63 billion over previous budget limits set out in the bipartisan budget agreement. In addition to the \$1.3 trillion in overall funding that was agreed to in February, the military would receive \$71 billion in war funds not subject to budget caps. The legislation includes more than \$21 billion for infrastructure projects across the country, including transportation, energy, water, and cyber.

The bill would provide for \$1.6 billion for border security, including money for fencing and levees at the U.S.-Mexico border but not the solid wall President Donald Trump has sought.

The omnibus would extend the authorization for the Federal Aviation Administration (FAA) through September and the flood insurance program through July 31.

Despite a push to punish so-called "sanctuary cities", that shield undocumented immigrants from deportation, the bill doesn't include riders that would restrict their federal funding.

The Bureau's drought assistance program would be extended through fiscal 2020 and its authorization would be increased to \$120 million, from \$90 million, for the duration of the program. The agreement provides \$34 million for WaterSMART grants and \$54.4 million for the Title XVI Water Reclamation and Reuse program. Also included is \$134 million for water storage projects authorized in the Water Infrastructure Improvements for the Nation (WIIN) Act.

- National Pre-disaster Mitigation Fund: Pre-disaster mitigation funding increased from \$149 million to \$249 million to build infrastructure that prevents loss of life and mitigates risks, reduces damage from future disasters, and lowers flood insurance premiums.
- HUD-VA Supportive Housing (HUD-VASH) Vouchers: Increase funding of \$40 million for new vouchers, while also protecting VA resources providing case management for homeless veterans.
- National Endowments for the Arts and Humanities: The bill includes \$153 million for each of the endowments, \$3 million above the fiscal year 2017 level for each endowment.

Secretary Chao says President Trump Infrastructure Plan to Stimulate Local Investment

Transportation Secretary Elaine Chao defended President Donald Trump's infrastructure plan that calls for updating U.S. public works primarily by spurring non-federal investment, as Democrats questioned the amount of funding and its approach.

Sec. Chao appeared at the first congressional hearing by the Senate Environment and Public Works Committee on the administration's proposal Thursday, March 1 touting the proposal to change how roads, bridges and other public works are funded, built and maintained by providing federal "seed money" and streamlining project review and permits.

President Trump's infrastructure proposal is a 53-page document meant as an outline for legislation. It calls for allocating at least \$200 billion in federal funds over a decade, mostly to spur states, localities and the private sector to spend \$1.5 trillion, and reducing the time for issuing permits for projects to two years.

Committee Democrats questioned the amount of federal funding -- especially with proposals in Trump's fiscal 2019 budget to cut transportation funding.

While administration officials have said they're open to changes, there's no consensus about how to pay for the plan. Top Republican senators have questioned whether there's time to enact a bill this year before lawmakers face mid-term elections in November that will determine control of Congress.

Lame-Duck Session

Representative Bill Shuster (R-PA), Chairman of the House Transportation and Infrastructure Committee, has said a lame-duck session after November elections may be required, even though President Trump wants Congress to act quickly.

Republicans, including Senator John Barrasso (R-WY), the Chairman of the Environment Panel, have mostly applauded President Trump's proposals to streamline environmental reviews and permits for projects and promoted the need to get a bipartisan agreement, but they have not talked much about the funding.

Gas Tax

Sen. Carper (D-DE) also said the administration plan did not identify a way to pay for the \$200 billion. President Trump has offered support for a 25-cent increase in the federal gas tax during a private meeting but he hasn't publicly endorsed it and key Republicans have rejected the idea.

Innovative Federal Strategies LLC

Senator Chris Van Hollen (D-MD), asked Sec. Chao whether the president means "what he says" about increasing the fuel levy.

President Trump's plan is based on the principle that state and local entities that own most infrastructure should make their own decisions about projects, and that the federal government should give them an incentive to raise their own funds while helping pay for work in rural areas that cannot.

In response to questions about states that have already approved road bonds or raised gas taxes, Sec. Chao said they wouldn't be penalized. The administration's plan includes a provision to credit states and localities for past action to raise revenue.

Tax Law Issues

A last-minute wording change in the new tax law may limit the number of infrastructure public-private partnerships, one of the vehicles President Trump has touted to finance his plan to revive roads, bridges, and airports.

The 2017 tax act limits the tax breaks for payments from government entities to private companies unless the monetary exchanges are tied to a "master development plan," a term that isn't defined in tax code Section 118.

The change could have the effect of limiting a host of undertakings—toll roads, real estate development, and environmental projects—that don't meet the new standard.

Payments pursuant to master development plans are excluded from gross income, meaning the Internal Revenue Service's determination about what is—or isn't—such a plan could affect the economics of projects already in progress.

The new law also requires the master development plan to have been approved prior to the law's enactment. Thus tax breaks for public-private partnerships won't be available for projects that have yet to be fully planned. So the new airport that's been in the works for some time could be safe, but the drainage system for a river that changes course in the future could be out of luck.

Democratic Infrastructure Proposal

On Wednesday, March 7, Senate Commerce, Science and Transportation Ranking Member Nelson (D-FL) joined his Senate Democratic colleagues in introducing a sweeping infrastructure investment and jobs plan designed to repair the nation's roads and bridges, update water infrastructure, expand access to broadband, upgrade airports and transit systems, and more. The \$1 trillion proposal lays out a funding mechanism for its investments.

Innovative Federal Strategies LLC

The Senate Democrats' proposal would invest billions to modernize airports and waterways, rebuild crumbling schools and VA hospitals, overhaul road and bridge repairs, equip rural communities with high-speed internet, revitalize main streets across the country, and more. Their proposal aims to invest \$1 trillion in this country's infrastructure and create more than 15 million jobs. It would do this by undoing the recent Republican passed tax changes.

Specifically, the plan would be paid for through the following five measures:

- Return The Top Individual Tax Rate Back To 39.6%
- Restoring The Individual Alternative Minimum Tax To 2017 Law
- Restoring The Estate And Gift Taxes
- Closing The Carried Interest Loophole
- Bring The Corporate Tax Rate To 25%

According to the American Society of Civil Engineers, the U.S. must spend \$1.6 trillion above current funding levels just to get its infrastructure to a state of good repair. The Senate Democrats said that this historic proposal would make a significant dent in that by investing just over \$1 trillion in our country's infrastructure.

The Senate Democrats' plan would invest in the following programs:

- \$140 Billion to Repair America's Roads & Bridges
- \$10 Billion to Expand the TIGER Program
- \$115 Billion to Modernize America's Water & Sewer Systems
- \$115 Billion to Repair & Improve Public Transportation
- \$50 Billion to Modernize and Improve the Safety of America's Rail Infrastructure
- \$40 Billion for a new Vital Infrastructure Program
- \$30 Billion to Revitalize Main Street & Promote Innovative Transportation
- \$62 Billion for Neighborhood Revitalization, Lead Remediation, & Affordable Housing
- \$50 Billion to Rebuild America's Schools
- \$30 Billion to Modernize America's Ports & Waterways
- \$40 Billion to Improve America's Airports & Airspace
- \$25 Billion to Build More Resilient Communities
- \$80 Billion to Bring Innovation to America's Energy Grid & Promote Clean Energy
- \$40 Billion to Provide Universal High-Speed Internet
- \$15 Billion for Construction on America's Public Lands
- \$10 Billion for Tribal Infrastructure
- \$10 Billion to Address the Construction Backlog at VA Healthcare Facilities
- \$20 Billion in Innovative Financing Tools
- \$140 Billion to Ensure the Solvency of the Highway Trust Fund for the next 10 years

Senate Commerce, Science and Transportation Committee Hearing

On Wednesday, March 14 the Trump administration sent an all-star team of five Cabinet secretaries to a Senate hearing to talk up its infrastructure proposals. But not even the combined talents of the secretaries of Transportation, Commerce, Labor, Agriculture and Energy seemed enough to move the ball on the \$1.5 trillion plan, and it remains unclear whether the measure will ever find its way to a vote in the House or Senate.

Senate Commerce, Science and Transportation Committee chairman John Thune, (R-SD) said he was hopeful that "both sides can come together on this and it can happen this year."

But several unanswered questions remain, chief among them where the \$200 billion in federal funding would come from and where states would find the remainder of the money.

The Trump plan commits \$200 billion in federal funding over 10 years to stimulate state and local spending and private investment. Half of the funding, \$100 billion, would be used as incentives to entice cities, counties and states to raise at least 80 percent of the infrastructure costs themselves.

That's a departure from the way many projects are funded now. Funding for federal-aid highways, including interstates, is usually allocated in an 80-20 federal-state split. So, President Trump's plan would flip that funding burden. Major mass transit projects are often funded on a 50-50 federal-local basis. Again, the Administration's plan puts a much greater burden on local taxpayers and users.

Estimates vary but the American Society of Civil Engineers has determined that there is a \$2 trillion investment gap when it comes to the country's infrastructure needs.

Committee Ranking Member Sen. Bill Nelson (D-FL) suggested that the recently-enacted tax cut be changed from a 21-percent corporate rate to 25 percent to pay for infrastructure, a non-starter as far as most Republicans are concerned.

Transportation Secretary Elaine Chao said that with some estimates as high as \$4 trillion to repair the nation's roads, bridges, ports and airports, "We cannot address a challenge of this magnitude with federal resources alone, or by borrowing." She said the administration was "agnostic" about where the state share of the funds would come from, but said the federal government only owns 10 percent of the nation's roads and bridges, implying it was up to state and local governments to figure out where to find the funds to finance their share of improvements.

Several states have already raised their gas taxes to fund road repairs, and others have instituted new tolls.

Innovative Federal Strategies LLC

Addressing criticism that the administration only released an outline of what it hopes to see in an infrastructure plan, Sec. Chao said the administration sent Congress a list of principles rather than specific legislation in "an open show of cooperation." She said the administration wants to work with Congress "and not be prescriptive" with specific legislative language.

One of the key principles for the administration, said Energy Secretary Rick Perry, was removing regulatory barriers to speed approval of construction projects. Sec. Perry called the current permitting process fractured and redundant, saying "it requires projects to navigate a huge maze of federal regulations." Sec. Perry emphasized President Trump's desire to see the process streamlined and "substantially cut back."

House Subcommittee on the Interior, Energy, and Environment Hearing

On Thursday, March 15 the House Oversight and Government Reform Subcommittee on the Interior, Energy, and Environment held a hearing to examine federal permitting processes, focusing on National Environmental Policy Act (NEPA) and the Clean Water Act. This is one of many hearings that have been held in response to the Administration's guiding principles for rebuilding our nation's infrastructure, which included streamlining and shortening the permitting process for infrastructure projects.

There was wide agreement from House Republicans around concerns regarding the length and process of the formal permitting process between the Army Corps of Engineers and the Environmental Protection Agency (EPA) while Democrats largely shared concerns over the lack of funding provided for state and local projects through the administration's proposal and the importance of protecting the environment while supporting growth.

House Subcommittee on Energy and Water Development Hearing

On Thursday, March 14, the House Appropriations Subcommittee on Energy and Water Development held a hearing on the FY19 budget request for the Bureau of Reclamation and the U.S. Army Corps of Engineers. Subcommittee Chairman Mike Simpson (R-ID) expressed his frustration with the Administration again requesting inadequate funding for water develop programs. The chairman went on to state it is safe to say Congress will again provide additional funding for these accounts. Bureau of Reclamation Commissioner Brenda Burman discussed the drought conditions in the west and Congressman Ken Calvert (R-CA) supported her assessment that new storage capacity needs to be a priority. A copy of the commissioner's testimony can be found [here](#).

President Trump Visits California

President Trump made his first presidential visit to California on Tuesday, March 13. Trump inspected eight wall prototypes constructed in the desert south of San Diego as he fights to overcome opposition from Democrats and skepticism from some Republican

lawmakers over the cost of a barrier that was a central promise of his presidential campaign.

“Congress must fund the border wall and prohibit grants to sanctuary cities,” Trump said, referring to cities and states that limit their cooperation with federal authorities on immigration in objection to the president’s policies.

When asked whether he would veto a spending bill that would preserve grants to sanctuary cities or not fund the wall, Trump said he’s “looking at it.”

“We’re looking at it very, very strong. Sanctuary cities are protecting a horrible group of people in many cases, criminals,” he said.

U.S. Customs and Border Protection solicited bids last year using existing border security funding to build eight wall prototypes and awarded contracts to six private companies for mock-ups that are each 30 feet long and as much as 30 feet high. The agency is testing how well each prototype withstands attempts at breaching, climbing, digging and other factors.

Department of the Interior’s WaterSMART Funding Opportunities

Bureau of Reclamation has released three funding opportunities for fiscal year 2018, Water and Energy Efficiency Grants, Small-Scale Water Efficiency Projects and Water Marketing Strategy Grants, all of which are part of the Department of the Interior’s WaterSMART program initiative.

States, Indian tribes, irrigation districts, water districts, and other organizations with water or power delivery authority located in the Western United States or United States Territories are eligible to apply for these funding opportunities.

Gun Control Legislation in the Spotlight

Lawmakers continue to discuss legislation to tighten controls on firearms after the Valentine’s Day mass shooting at a school in Parkland, Florida.

A bipartisan bill H.R. 4240, Public Safety and Second Amendment Rights Protection Act of 2017 that would give states resources to help them submit information to the background checks system gets 200 co-sponsors in the House, Rep. Mike Thompson (D-CA) said in a statement. The bill also would expand the system to cover all commercial firearm sales, including those at gun shows, on the Internet and in classified ads.

Separately, Sens. Jeff Flake (R-AZ), Catherine Cortez Masto (D-NV) and Martin Heinrich (D-NM) are sponsoring a measure to prohibit the sale of devices that allow semi-automatic weapons to function similarly to automatic weapons. President Donald Trump has said he can address bump stocks with executive action and has signed a memorandum directing the Justice Department to come up with rules prohibiting “all devices that turn legal weapons into machine guns.”

Innovative Federal Strategies LLC

Included in the fiscal year 18 omnibus is the “Fix NICS Act” that’s designed to strengthen the National Instant Criminal Background Check System (NICS). Licensed dealers are required to use NICS to determine whether an individual is eligible to purchase a firearm.

The bill would require federal agencies to provide semiannual certifications to the Justice Department that they are submitting relevant records to NICS. Each federal agency would have to establish an implementation plan to increase reporting and verify the accuracy of their records.

Political appointees at agencies that haven’t complied with record submission requirements wouldn’t be eligible to receive bonus pay until the agency certifies its compliance.

The Justice Department would have to coordinate with state and tribal governments to establish similar implementation plans to maximize information sharing and to verify the accuracy of records.

DOJ would publish information online regarding states and tribes that don’t achieve substantial compliance with the implementation plan until they do. It also would give preference for all Bureau of Justice Assistance discretionary grant applications from states or tribes that have complied with the plans.

Report language would clarify that the Centers for Disease Control can research gun violence. A provision known as the Dickey Amendment bans agencies from advocating for gun control, and had for years been treated as a de facto ban on research, as well.

School Safety Grants

The Justice Department’s Secure Our Schools program would be reauthorized at \$100 million annually from fiscal 2019 through 2028. It would be carried out through the Bureau of Justice Assistance (BJA) and the Office of Community Oriented Policing Services (COPS).

BJA grants would cover training for school personnel and students, developing anonymous reporting systems, and operating threat assessment teams. COPS would cover local law enforcement coordination and training, installing metal detectors, and acquiring technology for expedited notification to law enforcement during emergencies.
