

**Resolution Number 10-03
of the Chino Basin Watermaster
Regarding Ongoing Support for the Chino Basin Recharge Master Plan**

Whereas, in 2000, the Chino Basin Watermaster adopted a Recharge Master Plan which established the technical foundation for the development of the recharge facilities and practices in the Chino Basin.

Whereas, in 2001, Watermaster, in cooperation with the Inland Empire Utilities Agency ("IEUA"), initiated the Chino Basin Facilities Improvement Project ("CBFIP") which implemented facilities recommendations in the Recharge Master Plan.

Whereas, in 2006, Watermaster, in cooperation with IEUA, initiated Phase II of the CBFIP in order to implement additional facilities recommendations in the Recharge Master Plan.

Whereas, on December 21, 2007, the Court approved the Peace II Measures which set forth a modified approach to management of the Chino Basin known as Basin Re-Operation whose ultimate goal is the achievement of Hydraulic Control.

Whereas, as a condition of approval of Basin Re-Operation and Hydraulic Control, the Court required Watermaster to update the Recharge Master Plan to account for the new Basin management regime and to account for other changes that have occurred since the creation of the original Recharge Master Plan.

Whereas, during 2009 and 2010, Watermaster staff and technical consultants, in cooperation with IEUA and the Chino Basin Water Conservation District, have developed an updated Recharge Master Plan and have conducted numerous workshops with the Chino Basin stakeholders as the update was developed.

On the basis of the foregoing, the Chino Basin Watermaster finds and resolves that:

1. The updated Recharge Master Plan is based on sound technical analysis and adequately updates the 2000 Recharge Master Plan in light of Basin Re-Operation and Hydraulic Control and in light of changed economic and hydrologic conditions within the State of California.
2. Watermaster adopts the updated Recharge Master Plan as the guidance document for the further development of the recharge facilities for the Chino Basin.
3. Pursuant to the Peace II Agreement section 8.1, Watermaster and IEUA will update this plan not less than once every five years. In particular, the Plan will be updated following the completion of the parties' Urban Water Management Plans by June 30, 2011.

APPROVED by the Advisory Committee this 17th day of June 2010.

ADOPTED by the Watermaster Board on this 24th day of June 2010.

Chairman, Watermaster Board

APPROVED:

Chairman, Advisory Committee
